

Annuitization Request for Death Claims

- Use this form to annuitize a deferred annuity contract due to death.
- Annuity payments must begin within one year of the decedent's date of death. To begin payments, all documents must be received by RiverSource Life Insurance Company (RiverSource Life) in good order.
- You may want to contact a tax professional to assess your personal situation.
- For all requests read the "Annuitization Acknowledgements of Understanding", at the end of this form. The original is for the client to retain, do not submit to the corporate office.
- **All RiverSource® non-qualified annuities allow for assignability and, therefore, are not intended for medical assistance planning purposes.**
- For annuitization payments, RiverSource Life does not allow Tax Qualified to Tax Qualified transfers. If requested, the automatic default is to send a check to the beneficiary at the address of record.

**Account Profile Information** continued**Investment Time Frame Definition**

Investment Time Frame	The expected period of time you plan to invest to achieve your current financial goal(s).
-----------------------	---

Risk Tolerance Definitions

Conservative	You accept the lowest return potential, lowest return variability, and the lowest fluctuation in account value, in exchange for lower risk.
Conservative / Moderate	You accept a relatively low return potential, relatively low return variability, and relatively low fluctuation in account value, in exchange for a below average amount of risk.
Moderate	You accept an average amount of risk in exchange for average return potential, average return variability, and average fluctuation in account value.
Moderate / Aggressive	You accept an above average amount of risk in exchange for a relatively high return potential, relatively high return variability, and relatively high fluctuation in account value.
Aggressive	You accept the highest amount of risk in exchange for the highest return potential, the highest return variability, and the highest fluctuation in account value.

Investment Objective Definitions

Capital Preservation	The primary goal is preservation of capital over growth or income.
Income	The primary goal is income provided by the investment (e.g., dividends) rather than potential growth.
Tax Considerations	The primary goal is investments that mitigate federal, state and/or local taxes.
Protection	The primary goal is leaving a monetary benefit at death to loved ones or charity.
Education	The primary goal is providing/paying for education related expenses.
Estate Planning	The primary goal is transferring assets to loved ones and/or providing a legacy at one's death.
Speculation	To take a higher than average risk in hopes of making a higher than average return.
Growth	The primary goal is an increase in the capital or market value of the investment rather than income that may be received from the investment.
Growth with Income	The primary goal is to provide both growth and income, often by choosing investments which have earnings growth as well as dividends.

Liquidity Needs Definition

Liquidity Needs	Period of time from the present until you anticipate you may need access to some of the investment dollars.

HOLD AT INTEREST

Life Insurance Death Benefits Only

- Hold at Interest. This option provides for interest only payments to the beneficiary at 4% compounded annually. At the end of any payment interval, a withdrawal of proceeds may be made in a minimum amount of \$100.00, up to the full death benefit premium amount. A partial premium surrender results in a recalculation of the amount of future interest payments. A full surrender of the premium closes the contract.

Part 7 Tax Withholding

- **Federal Withholding:** You are liable for federal income tax on the taxable portion of your distribution. If total withholding is not adequate, you may be subject to estimated tax payments and/or penalties.
- **State Withholding:** Withholding rules vary by state. Clients may have the option to: (1) opt-out of withholding, (2) elect default state tax withholding, or (3) increase the rate of withholding. Depending on the state, state tax withholding could be mandatory, optional, unavailable, or the client may need to complete a state-specific form. For state tax withholding rules, go to riversource.com/statetax.
- **Connecticut residents only:** Complete the most current version of Form CT-W4P located on Connecticut's Official State Website (ct.gov) to determine the amount that is required to be withheld for state taxes. If this form is not received prior to your first payment, Connecticut requires that we withhold at the highest rate for state taxes from the taxable portion of each annuity payment.
- Please note that taxes withheld per your elections or in accordance with state rules will not be refunded.
- For all tax-qualified annuities: Withholding is taken from the total amount distributed.
- For non-qualified annuities: Withholding is taken from the taxable amount distributed.
- Different withholding rules apply in certain situations: If we do not have a valid Taxpayer Identification Number on the account, if the payment is delivered outside the United States or if you are a non-resident alien.
- Please consult your tax professional for additional information regarding federal and/or state withholding.

Federal Withholding

Federal income tax will be withheld from the taxable amount distributed based on the wage tables for a married individual with three exemptions unless you make a different withholding election below (certain exceptions apply).

Select One

- Do NOT have federal income tax withheld from my payments.
- Withhold \$ from each payment.
- Withhold % of each payment (fixed payouts only).
- Have federal tax withheld from my payments calculated using the number of exemptions and marital status entered below:

Number of exemptions Marital Status Married Single

If this calculation indicates no withholding, please withhold \$ or % per payment

State Withholding

- If you do not indicate an election, we will generally follow your choice for federal election unless your state does not allow.
- No state tax withholding will be taken for states where withholding is not available.
- The taxpayer's resident state on file is the state we use for state tax withholding.

- Do not withhold state tax Withhold % of each payment (fixed payouts only).
- Withhold default state tax Withhold \$ in addition to default state tax

If this default results in no withholding, please withhold \$ or % (fixed payouts only).

Part 8 Signatures (For Nonqualified and IRA annuities)

If an outgoing ACH payment arrangement was selected, I (we) release RiverSource Life and agree to hold it harmless from all liability for or in connection with payments paid through the Automated Clearing House or any similar system to credit payments to the bank shown above. This agreement also shall be binding to my (our) personal representatives, heirs, legatees and assignees.

For RAVA 5 annuities sold on or after April 29, 2013: If you choose a variable annuitization in the first ten years of your contract, your Mortality & Expense fee will not decrease on the tenth contract anniversary.

For fixed index annuities, any money withdrawn from a segment before its maturity date will not receive interest. This includes Required Minimum Distributions, death claims, and annuitizations.

My signature below certifies that I have received, read and understand the 'Annuitization Acknowledgements of Understanding', and that the acknowledgement statements contained therein are accurate. I affirm that the information provided in this request form is truthful and correct as applied to me and may be included in any required reports to tax or regulatory authorities.

I understand that in order to annuitize my qualified plan annuity contract I must first directly roll over the contract to an IRA.

I understand that any annuity payments issued after my death, but not due to me or my estate, will be subject to reimbursement from my estate.

In certain circumstances, we may contact you in an effort to validate the request before the transaction can be processed.

Annuitization Acknowledgements of Understanding

Give to client, do not submit to corporate office.

All Annuities

- The various settlement modes and other distributions available to me are governed by the terms of my contract.
- The election of a settlement is final upon receipt of the request form in the corporate office and the settlement mode cannot be changed or reversed after that date.
- Certain settlement mode elections for my annuity payments may impact my ability to obtain medical assistance in the future or impact your personal tax situation. I understand that I should consult my professional tax and legal advisor(s) to consider all relevant financial information before making any decisions regarding this distribution method.
- There will be no death benefit paid to any heir or my estate, either lump sum or periodic installment, under the Life Income Non-Refund payout mode.
- I understand that neither I, nor my beneficiary can surrender or withdraw **in full or in part any portion of the contracts guaranteed payments** once the contract is in payout, unless I have the commutability feature approved by my state. **If payments to my beneficiary are under \$20.00 per payment and the total of remaining guaranteed payments is \$1,000.00 or less, we will send your beneficiary a lump sum check.**
- Upon receipt of my request and acceptance by RiverSource Life, I will receive confirmation of the terms of my annuitization plan.

100% Fixed Annuities - Applies to All Annuities

- The Installment Refund option provides guaranteed payments for a specified period of time. When no annual increase is selected, the number of guaranteed payments is determined by dividing the investment amount by the first payment amount. For Installment Refunds with an annual increase, the number of guaranteed payments is determined to reflect the annual increase percentage selected.
- The Cash Refund option provides a death benefit equal to the amount applied to the settlement, less any payments already made. If the total payments (including any non-discounted commutation amounts) exceed the amount applied to the settlement, the death benefit will be zero.
- The client can opt out of commutation at issue or after issue. Once a client opts out of commutation it is irrevocable and applies to all subsequent owners/beneficiaries.
- Payment acceleration may be available for monthly, fixed annuity payment plans. A \$20 administrative fee will apply. Information will be provided with your confirmation letter.
- After a waiting period, Payment Acceleration provides the ability to receive a lump sum for a specific 6 months annuity payments in advance. It is available on monthly payouts and on guaranteed payments only. This option may be used 2 times through the guaranteed payout period.
- Partial or full commutation may be available. Information will be provided with your confirmation letter.
- After a waiting period, Partial Commutations will receive a percentage of the present value of the remaining guaranteed payments in a lump sum, less any applicable surrender charge. The remaining guaranteed payments will be reduced through the end of the guaranteed period. This option may be used 2 times through the guaranteed payout period.
- After a waiting period, Full Commutations will receive the present value of the remaining guaranteed payments in a lump sum, less any applicable surrender charge. If a life contingent settlement option is selected, payments will resume at the end of the guarantee period, if the annuitant is still living. This option may only be used once during the guaranteed payout period.

Combination Variable/Fixed Allocations - Applies to All Annuities

- The annuitization value and future payments will be valued seven days prior to the payment date.
- When allocated to a variable account, my annuity payment amounts will vary, and can go both up and down based on the investment experience of the variable account(s) to which my annuity is allocated. I understand the net investment experience for the account(s) must equal or exceed the A.I.R. (Assumed Interest Rate) that I have selected in order for my payment to not decrease.
- If my annuity has more than one variable account and I have allocated some portion to at least one account, I may reallocate values once per contract year among the other variable accounts, but I cannot change to or from the Fixed Account.
- Term certain annuity payout plans that contain a variable allocation, may be fully surrendered for a lump sum of the commuted value of any remaining guaranteed payments. A discount rate will be used to calculate the commuted value. A commute is not available if the account is being annuitized due to a Pre-Election of Death Benefit beneficiary designation.
- The Installment Refund option provides guaranteed payments for a specified period of time, determined by dividing the investment amount by the first payment amount. With a variable payout allocation, total payments with this mode may be more or less than the total amount invested.
