[†]The principal amount is stated in U.S. dollars unless otherwise indicated.

[†]Rounds to less than 0.1% of net assets.

^aNon-income producing.

^bSecurity was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$24,639,204, representing 3.5% of net assets.

^cA portion or all of the security purchased on a delayed delivery basis.

^dSee Note 9 regarding investments in affiliated management investment companies.

^eVariable rate security. The rate shown represents the yield at period end.

^fPerpetual security with no stated maturity date.

^gA supranational organization is an entity formed by two or more central governments through international treaties.

^hPrincipal amount of security is adjusted for inflation.

ⁱThe coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

^jThe rate shown is the annualized seven-day effective yield at period end.

Franklin Allocation VIP Fund (continued)

At September 30, 2021, the Fund had the following futures contracts outstanding. See Note 3.

Futures Contracts

Description	Type	Number of Contracts	Notional Amount*	Expiration Date	Value/ Unrealized Appreciation (Depreciation)
Equity contracts					
S&P 500 E-Mini Index	Long	142	\$30,514,025	12/17/21	\$(963,821)
Interest rate contracts

See Abbreviations on page 167.

[#]Notional amount is the number of units specified in the contract, and can include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

[†]The principal amount is stated in U.S. dollars unless otherwise indicated.

^aA portion or all of the security is held in connection with written option contracts open at period end.

^bNon-income producing.

^cA portion or all of the security is on loan at September 30, 2021.

^dSecurity was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$1,074,728,602, representing 30.7% of net assets.

^ePerpetual security with no stated maturity date.

^fThe coupon rate shown represents the rate at period end.

^gA portion or all of the security purchased on a delayed delivery basis.

^hSecurity pays variable interest based on the distributions of the strategy index and proceeds earned from related equity derivatives. The coupon rate shown represents the combined rate at period end. Cash payment at maturity or upon early redemption is based on the performance of the strategy index.

ⁱSee Note 9 regarding investments in affiliated management investment companies.

^jThe rate shown is the annualized seven-day effective yield at period end.

^kInvestment is through participation in a joint account with other funds managed by the investment manager or an affiliate of the investment manager. At September 30, 2021, all repurchase agreements had been entered into on that date.

Franklin Mutual Global Discovery VIP Fund (continued)

^c See Note 7 regarding restricted securities.

^d Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$14,746,169, representing 2.9% of net assets.

^e The coupon rate shown represents the rate at period end.

^f Contingent distributions represent the right to receive additional distributions, if any, during the reorganization of the underlying company. Shares represent total underlying principal of debt securities.

^g The security was issued on a discount basis with no stated coupon rate.

At September 30, 2021, the Fund had the following futures contracts outstanding. See Note 3.

Futures Contracts

Description	Type	Number of Contracts	Notional Amount*	Expiration Date	Value/Unrealized Appreciation (Depreciation)
Foreign exchange contracts					
Foreign Exchange EUR/USD	Short	94	\$13,630,000	12/13/21	\$345,715

[‡]Non-income producing.

[§]Fair valued using significant unobservable inputs. See Note 10 regarding fair value measurements.

[¶]See Note 7 regarding restricted securities.

^{||}Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$24,779,651, representing 0.9% of net assets.

[∞]The coupon rate shown represents the rate at period end.

[∞]A portion or all of the security represents an unsettled loan commitment. The coupon rate is to-be determined (TBD) at the time of the settlement and will be based upon a reference index/floor plus a spread.

[∞]A portion or all of the security purchased on a delayed delivery basis.

[∞]Contingent distributions represent the right to receive additional distributions, if any, during the reorganization of the underlying company. Shares represent total underlying principal of debt securities.

[∞]The security was issued on a discount basis with no stated coupon rate.

At September 30, 2021, the Fund had the following futures contracts outstanding. See Note 3.

Futures Contracts

Description	Type	Number of Contracts	Notional Amount*	Expiration Date	Value/ Unrealized Appreciation (Depreciation)
Foreign exchange contracts					
Foreign Exchange EUR/USD	Short	39	\$5,655,000	12/13/21	\$147,736
Foreign Exchange GBP/USD	Short	176	14,822,500	12/13/21	345,011
Total Futures Contracts					\$492,747

[†]As of period end.

At September 30, 2021, the Fund had the following forward exchange contracts outstanding. See Note 3.

[#]Notional amount is the number of units specified in the contract, and can include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

[†]The principal amount is stated in U.S. dollars unless otherwise indicated.

[‡]Rounds to less than 0.1% of net assets.

[§]Non-income producing.

^{||}Fair valued using significant unobservable inputs. See Note 10 regarding fair value measurements.

[¶]See Note 7 regarding restricted securities.

[Ⓜ]See Note 9 regarding investments in affiliated management investment companies.

[Ⓝ]Income may be received in additional securities and/or cash.

[Ⓞ]Perpetual security with no stated maturity date.

[Ⓟ]Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$218,145,564, representing 54.5% of net assets.

[Ⓠ]A portion or all of the security purchased on a delayed delivery basis.

[Ⓡ]The coupon rate shown represents the rate at period end.

[Ⓢ]A supranational organization is an entity formed by two or more central governments through international treaties.

[Ⓣ]The principal represents the notional amount. See Note 3 regarding value recovery instruments.

[Ⓤ]Principal amount of security is adjusted for inflation.

[Ⓡ]The coupon rate shown represents the rate inclusive of any caps or floors, if applicable, in effect at period end.

[Ⓢ]Adjustable rate security with an interest rate that is not based on a published reference index and spread. The rate is based on the structure of the agreement and current market conditions. The coupon rate shown represents the rate at period end.

[Ⓣ]Adjustable Rate Mortgage-Backed Security (ARM); the rate shown is the effective rate at period end. ARM rates are not based on a published reference rate and spread, but instead pass-through weighted average interest income inclusive of any caps or floors, if applicable, from the underlying mortgage loans in which the majority of mortgages pay interest based on the index shown at their designated reset dates plus a spread, less the applicable servicing and guaranty fee (MBS margin).

[Ⓤ]The rate shown is the annualized seven-day effective yield at period end.

^{*}The principal amount is stated in U.S. dollars unless otherwise indicated.

^aPrincipal amount of security is adjusted for inflation.

^bAdjustable Rate Mortgage-Backed Security (ARM); the rate shown is the effective rate at period end. ARM rates are not based on a published reference rate and spread, but instead pass-through weighted average interest income inclusive of any caps or floors, if applicable, from the underlying mortgage loans in which the majority of mortgages pay interest based on the index shown at their designated reset dates plus a spread, less the applicable servicing and guaranty fee (MBS margin).

^cA portion or all of the security purchased on a delayed delivery basis.

^dInvestment is through participation in a joint account with other funds managed by the investment manager or an affiliate of the investment manager. At September 30, 2021, all repurchase agreements had been entered into on that date.

Statement of Investments (unaudited), September 30, 2021

[#]Notional amount is the number of units specified in the contract, and can include currency units, bushels, shares, pounds, barrels or other units. Currency units are stated in U.S. dollars unless otherwise indicated.

[†]The principal amount is stated in U.S. dollars unless otherwise indicated.

[§]Redemption price at maturity is adjusted for inflation.

[§]The coupon rate shown represents the rate at period end.

[§]Security was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the aggregate value of these securities was \$84,923,423, representing 3.9% of net assets.

[§]A supranational organization is an entity formed by two or more central governments through international treaties.

[§]The security was issued on a discount basis with no stated coupon rate.

[†]See Note 9 regarding investments in affiliated management investment companies.

[§]The rate shown is the annualized seven-day effective yield at period end.

At September 30, 2021, the Fund had the following forward exchange contracts outstanding. See Note 3.

[§]Non-income producing.

^bA portion or all of the security is on loan at September 30, 2021.

^cSecurity was purchased pursuant to Rule 144A or Regulation S under the Securities Act of 1933. 144A securities may be sold in transactions exempt from registration only to qualified institutional buyers or in a public offering registered under the Securities Act of 1933. Regulation S securities cannot be sold in the United States without either an effective registration statement filed pursuant to the Securities Act of 1933, or pursuant to an exemption from registration. At September 30, 2021, the value of this security was \$466,859, representing 0.1% of net assets.

^dThe security was issued on a discount basis with no stated coupon rate.

Notes to Statements of Investments (unaudited)

1. Organization

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of eighteen separate funds (Funds) and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP). Shares of the Funds are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts.

Certain or all Funds invest primarily in other funds of the Trust (Underlying Funds) and/or exchange traded funds (ETFs).

The accounting policies of the Underlying Funds are outlined in their respective shareholder reports. A copy of the Underlying Funds' shareholder reports is available on the U.S. Securities and Exchange Commission (SEC) website at sec.gov. The Underlying Funds' shareholder reports are not covered by this report.

2. Financial Instrument Valuation

The Funds' investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Funds calculate the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Funds' administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Funds may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities, exchange traded funds and derivative financial instruments listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter (OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Debt securities generally trade in the OTC market rather than on a securities exchange. The Funds' pricing services use multiple valuation techniques to determine fair value. In instances where sufficient market activity exists, the pricing services may utilize a market-based approach through which quotes from market makers are used to determine fair value. In instances where sufficient market activity may not exist or is limited, the pricing services also utilize proprietary valuation models which may consider market characteristics such as benchmark yield curves, credit spreads, estimated default rates, anticipated market interest rate volatility, coupon rates, anticipated timing of principal repayments, underlying collateral, and other unique security features in order to estimate the relevant cash flows, which are then discounted to calculate the fair value. Securities denominated in a foreign currency are converted into their U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the date that the values of the foreign debt securities are determined.

Investments in open-end mutual funds are valued at the closing NAV. Investments in repurchase agreements are valued at cost, which approximates fair value.

Certain derivative financial instruments are centrally cleared or trade in the OTC market. The Funds' pricing services use various techniques including industry standard option pricing models and proprietary discounted cash flow models to determine the fair value of those instruments. The Funds' net benefit or obligation under the derivative contract, as measured by the fair value of the contract, is included in net assets.

2. Financial Instrument Valuation (continued)

The Funds have procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Funds primarily employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Funds' business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Funds' portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Funds' portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At September 30, 2021, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 inputs within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Funds' NAV is not calculated, which could result in differences between the value of the Funds' portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Funds for financial reporting purposes.

3. Derivative Financial Instruments

Certain or all Funds invested in derivative financial instruments in order to manage risk or gain exposure to various other investments or markets. Derivatives are financial contracts based on an underlying or notional amount, require no initial investment or an initial net investment that is smaller than would normally be required to have a similar response to changes in market factors, and require or permit net settlement. Derivatives contain various risks including the potential inability of the counterparty to fulfill their obligations under the terms of the contract, the potential for an illiquid secondary market, and/or the potential for market movements.

Derivative counterparty credit risk is managed through a formal evaluation of the creditworthiness of all potential counterparties. Certain or all Funds attempt to reduce their exposure to counterparty credit risk on OTC derivatives, whenever possible, by entering into International Swaps and Derivatives Association (ISDA) master agreements with certain counterparties. These agreements contain various provisions, including but not limited to collateral requirements, events of default, or early termination. Termination events applicable to the counterparty include certain deteriorations in the credit quality of the counterparty. Termination events applicable to the Funds include failure of the Funds to maintain certain net asset levels and/or limit the decline in net assets over various periods of time. In the event of default or early termination, the ISDA master agreement gives the non-defaulting party the right to net and close-out all transactions traded, whether or not arising under the ISDA agreement, to one net amount payable by one counterparty to the other. Early termination by the counterparty may result in an immediate payment by the Funds of any net liability owed to that counterparty under the ISDA agreement.

Collateral requirements differ by type of derivative. Collateral or initial margin requirements are set by the broker or exchange clearing house for exchange traded and centrally cleared derivatives. Initial margin deposited is held at the exchange and can be in the form of cash and/or securities. For OTC derivatives traded under an ISDA master agreement, posting of

3. Derivative Financial Instruments (continued)

collateral is required by either the Fund or the applicable counterparty if the total net exposure of all OTC derivatives with the applicable counterparty exceeds the minimum transfer amount, which typically ranges from \$100,000 to \$250,000, and can vary depending on the counterparty and the type of agreement. Generally, collateral is determined at the close of Fund business each day and any additional collateral required due to changes in derivative values may be delivered by the Fund or the counterparty the next business day, or within a few business days. Collateral pledged and/or received by the Fund for OTC derivatives, if any, is held in segregated accounts with the Fund's custodian/counterparty broker and can be in the form of cash and/or securities. Unrestricted cash may be invested according to the Funds' investment objectives. To the extent that the amounts due to the Fund from its counterparties are not subject to collateralization or are not fully collateralized, the Fund bears the risk of loss from counterparty non-performance.

At September 30, 2021, Funds received U.S. Treasury Bills, Bonds and Notes as collateral for derivatives, as follows:

Franklin Mutual Global Discovery VIP Fund- \$852,375

Franklin Mutual Shares VIP Fund- \$2,800,657

Certain or all Funds entered into exchange traded futures contracts primarily to manage and/or gain exposure to interest rate/equity price risk. A futures contract is an agreement between the Fund and a counterparty to buy or sell an asset at a specified price on a future date. Required initial margins are pledged by the Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable.

Certain or all Funds entered into OTC forward exchange contracts primarily to manage and/or gain exposure to certain foreign currencies. A forward exchange contract is an agreement between the Fund and a counterparty to buy or sell a foreign currency at a specific exchange rate on a future date.

Certain or all Funds entered into credit default swap contracts primarily to manage and/or gain exposure to credit risk. A credit default swap is an agreement between the Fund and a counterparty whereby the buyer of the contract receives credit protection and the seller of the contract guarantees the credit worthiness of a referenced debt obligation. These agreements may be privately negotiated in the over-the-counter market (OTC credit default swaps) or may be executed in a multilateral trade facility platform, such as a registered exchange (centrally cleared credit default swaps). The underlying referenced debt obligation may be a single issuer of corporate or sovereign debt, a credit index, a basket of issuers or indices, or a tranche of a credit index or basket of issuers or indices. In the event of a default of the underlying referenced debt obligation, the buyer is entitled to receive the notional amount of the credit default swap contract from the seller in exchange for the referenced debt obligation, a net settlement amount equal to the notional amount of the credit default swap less the recovery value of the referenced debt obligation, or other agreed upon amount. For centrally cleared credit default swaps, required initial margins are pledged by the Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable. Over the term of the contract, the buyer pays the seller a periodic stream of payments, provided that no event of default has occurred. Such periodic payments are accrued daily as an unrealized appreciation or depreciation until the payments are made, at which time they are realized. Upfront payments and receipts represent compensating factors between stated terms of the credit default swap agreement and prevailing market conditions (credit spreads and other relevant factors). These upfront payments and receipts are amortized over the term of the contract as a realized gain or loss.

Certain or all Funds entered into OTC cross currency swap contracts primarily to manage and/or gain exposure to interest rate risk and certain foreign currencies. A cross currency swap is an agreement between the Fund and a counterparty to exchange cash flows (determined using either a fixed or floating rate) based on the notional amounts of two different currencies. The notional amounts are typically determined based on the spot exchange rates at the opening of the contract. Cross currency swaps may require the exchange of notional amounts at the opening and/or closing of the contract. Over the term of the contract, contractually required payments to be paid and to be received are accrued daily and recorded as unrealized depreciation and appreciation until the payments are made, at which time they are realized. Upfront payments and receipts

3. Derivative Financial Instruments (continued)

represent compensating factors between stated terms of the cross currency swap contract and prevailing market conditions (interest rate spreads and other relevant factors). These upfront payments and receipts are amortized over the term of the contract as a realized gain or loss.

Certain or all Funds entered into inflation index swap contracts primarily to manage and/or gain exposure to inflation risk. An inflation index swap is an agreement between the Fund and a counterparty to exchange cash flows whereby one party makes payments based on the percentage change in an index that serves as a measure of inflation and the other party makes a regular payment based on a compounded fixed rate, applied to a notional amount. These agreements may be privately negotiated in the over-the-counter market (OTC inflation index swap) or may be executed on a registered exchange (centrally cleared inflation index swap). For centrally cleared inflation index swaps, required initial margins are pledged by the Fund, and the daily change in fair value is accounted for as a variation margin payable or receivable. Over the term of the contract, contractually required payments to be paid and to be received are accrued daily and recorded as unrealized depreciation and appreciation until the payments are made, at which time they are realized. Typically, an inflation index swap has payment obligations netted and exchanged upon maturity.

Certain or all Funds entered into OTC total return swap contracts primarily to manage and/or gain exposure to equity price risk of an underlying instrument such as a stock, bond, index or basket of securities or indices. A total return swap is an agreement between the Fund and a counterparty to exchange a return linked to an underlying instrument for a floating or fixed rate payment, both based upon a notional amount. Over the term of the contract, contractually required payments to be paid or received are accrued daily and recorded as unrealized appreciation or depreciation until the payments are made, at which time they are recognized as realized gain or loss.

Certain or all Funds purchased or wrote exchange traded and OTC option contracts primarily to manage and/or gain exposure to equity price and foreign exchange rate risk. An option is a contract entitling the holder to purchase or sell a specific amount of shares or units of an asset or notional amount of a swap (swaption), at a specified price. When an option is purchased or written, an amount equal to the premium paid or received is recorded as an asset or liability, respectively. Upon exercise of an option, the acquisition cost or sales proceeds of the underlying investment is adjusted by any premium received or paid. Upon expiration of an option, any premium received or paid is recorded as a realized gain or loss. Upon closing an option other than through expiration or exercise, the difference between the premium received or paid and the cost to close the position is recorded as a realized gain or loss.

Certain or all Funds invest in value recovery instruments (VRI) primarily to gain exposure to economic growth. Periodic payments from VRI are dependent on established benchmarks for underlying variables. VRI has a notional amount, which is used to calculate amounts of payments to holders. Payments are recorded upon receipt as realized gains. The risks of investing in VRI include growth risk, liquidity, and the potential loss of investment.

The following Funds have invested in derivatives during the period.

Franklin Allocation VIP Fund – Futures and swaps

Franklin Income VIP Fund - Options

Franklin Mutual Global Discovery VIP Fund - Futures and forwards

Franklin Mutual Shares VIP Fund - Futures and forwards

Franklin Strategic Income VIP Fund - Futures, forwards, options, swaps and VRI.

Franklin VolSmart Allocation VIP Fund - Futures and swaps

3. Derivative Financial Instruments (continued)

Templeton Global Bond VIP Fund – Options and forwards

4. Mortgage Dollar Rolls

Franklin Strategic Income VIP Fund enters into mortgage dollar rolls, typically on a to-be-announced basis. Mortgage dollar rolls are agreements between the Fund and a financial institution where the Fund sells (or buys) mortgage-backed securities for delivery on a specified date and simultaneously contracts to repurchase (or sell) substantially similar (same type, coupon, and maturity) securities at a future date and at a predetermined price. Gains or losses are realized on the initial sale, and the difference between the repurchase price and the sale price is recorded as an unrealized gain or loss to the Fund upon entering into the mortgage dollar roll. In addition, the Fund may invest the cash proceeds that are received from the initial sale. During the period between the sale and repurchase, the Fund is not entitled to principal and interest paid on the mortgage backed securities. Transactions in mortgage dollar rolls are accounted for as purchases and sales and may result in an increase to the Fund's portfolio turnover rate. The risks of mortgage dollar roll transactions include the potential inability of the counterparty to fulfill its obligations.

5. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local, regional and global economic, political and social conditions, which may result in greater market volatility. Political and financial uncertainty in many foreign regions may increase market volatility and the economic risk of investing in foreign securities. In addition, certain foreign securities may not be as liquid as U.S. securities.

Certain or all Funds invest a large percentage of their total assets in Real Estate Investment Trust securities. Such concentration may subject the Funds to special risks associated with real estate securities. These securities may be more sensitive to economic or regulatory developments due to a variety of factors such as local, regional, national and global economic conditions, interest rates and tax considerations.

The United States and other nations have imposed and could impose additional sanctions on certain issuers in Russia due to regional conflicts. These sanctions could result in the devaluation of Russia's currency, a downgrade in Russian issuers' credit ratings, or a decline in the value and liquidity of Russian stocks or other securities. Such sanctions could also adversely affect Russia's economy. Certain or all Funds may be prohibited from investing in securities issued by companies subject to such sanctions. In addition, if the Fund holds the securities of an issuer that is subject to such sanctions, an immediate freeze of that issuer's securities could result, impairing the ability of the Fund to buy, sell, receive or deliver those securities. There is also the risk that countermeasures could be taken by Russia's government, which could involve the seizure of the Fund's assets. These risks could affect the value of the Funds' portfolio. While the Funds hold securities of certain issuers impacted by the sanctions, existing investments do not presently violate the applicable terms and conditions of the sanctions. The sanctions currently do not affect the Funds' ability to sell these securities. At September 30, 2021, Templeton Developing Markets VIP Fund had 8.1% of its net assets invested in Russia. The remaining Funds in the Trust did not have a significant investment in Russia.

Investments in issuers domiciled or with significant operations in developing or emerging market countries may be subject to higher risks than investments in developed countries. These risks include fluctuating currency values, underdeveloped legal or business systems, and changing local and regional economic, political and social conditions, which may result in greater market volatility. In addition, certain foreign securities may not be as liquid as U.S. securities. Currencies of developing or emerging market countries may be subject to significantly greater risks than currencies of developed countries, including the potential inability to repatriate those currencies into U.S. dollars.

5. Concentration of Risk (continued)

At September 30, 2021, Templeton Global Bond VIP Fund had 2.2% of its net assets denominated in Argentine Pesos, which has restricted currency repatriation since September 2019, and had restructured certain issues of its debt. Political and economic conditions in Argentina could continue to affect the value of the Fund's holdings.

6. Novel Coronavirus Pandemic

The global outbreak of the novel coronavirus disease, known as COVID-19, has caused adverse effects on many companies, sectors, nations, regions and the markets in general, and may continue for an unpredictable duration. The effects of this pandemic may materially impact the value and performance of the Funds, their ability to buy and sell fund investments at appropriate valuations and their ability to achieve their investment objectives.

7. Restricted Securities

At September 30, 2021, investments in restricted securities, excluding securities exempt from registration under the Securities Act of 1933, were as follows:

Shares	Issuer	Acquisition Date	Cost	Value
Franklin Mutual Global Discovery VIP Fund				
424,073	International Automotive Components Group BVBA . . .	4/13/06 - 12/26/08	\$281,629	\$16,953

Total Restricted Securities (Value is —% of Net Assets)			\$115,861	\$—

[†]Rounds to less than 0.1% of net assets.

[‡]The Fund also invests in unrestricted securities of the issuer, valued at \$466,600 as of September 30, 2021.

[§]The Fund also invests in unrestricted securities of the issuer, valued at \$491,064 as of September 30, 2021.

8. Investments in FT Underlying Funds

Certain or all Funds invest in FT Underlying Funds which are managed by Franklin Advisers, Inc. (Advisers), an affiliate of FT Services or an affiliate of Advisers. As defined in the 1940 Act, an investment is deemed to be a “Controlled Affiliate” of a fund when a fund owns, either directly or indirectly, 25% or more of the FT Underlying Fund’s outstanding shares or has the power to exercise control over management or policies of such FT Underlying Fund. The Funds do not invest in FT Underlying Funds for the purpose of exercising a controlling influence over the management or policies. Investments in FT Underlying Funds for the nine months ended September 30, 2021, were as follows:

	Value at Beginning of Period	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Period	Number of Shares Held at End of Period	Investment Income
Franklin VolSmart Allocation VIP Fund								
Non-Controlled Affiliates								
								Dividends
Franklin Income Fund, Class R6	\$15,594,859	\$4,138,736	\$(20,664,426)	\$1,750,536	\$(819,705)	\$— ^a		\$218,735

^aAs of September 30, 2021, no longer held by the fund.

9. Investments in Affiliated Management Investment Companies

Certain or all Funds invest in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Funds do not invest for purposes of exercising a controlling influence over the management or policies. During the period ended September 30, 2021, investments in affiliated management investment companies were as follows:

	Value at Beginning of Period	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Period	Number of Shares Held at End of Period	Investment Income

10. Fair Value Measurements

The Funds follow a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Funds' own market assumptions (unobservable inputs). These inputs are used in determining the value of the Funds' financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)

10. Fair Value Measurements (continued)

• Level 3 – significant unobservable inputs (including the Funds' own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of September 30, 2021, in valuing the Funds' assets and liabilities carried at fair value, is as follows:

^aPurchases include all purchases of securities and securities received in corporate actions.

^bSales include all sales of securities, maturities, paydowns and securities tendered in corporate actions.

^cTransferred into level 3 as a result of the unavailability of a quoted market price in an active market for identical securities or as a result of the unreliability of the foreign exchange rate and other significant observable valuation inputs. May include amounts related to a corporate action.

^dTransfers out of Level 3 were as a result of changes in the levels of observable liquidity and the improved reliability of a significant input.

^eIncludes securities determined to have no value.

Significant unobservable valuation inputs for material Level 3 assets and/or liabilities and impact to fair value as a result of changes in unobservable valuation inputs as of September 30, 2021, are as follows:

^aWeighted based on the relative fair value of the financial instruments.

^bRepresents the directional change in the fair value that would result from a significant and reasonable increase in the corresponding input. A significant and reasonable decrease in the input would have the opposite effect. Significant impacts, if any, to fair value and/or net assets have been indicated.

^cRepresents a significant impact to fair value but not net assets.

^dRepresents a significant impact to fair value and net assets.

^eIncludes fair value of immaterial assets and/or liabilities developed using various valuation techniques and unobservable inputs. May also include values derived using private transaction prices or non-public third party pricing information which is unobservable.

^fIncludes securities determined to have no value at September 30, 2021.
