**Supplement Dated Aug. 6, 2021 to the
Prospectus Dated May 1, 2021**

Product Name	Prospectus Form #
RiverSource RAVA 5 Advantage SM Variable Annuity	S- 6720 CH (5/21)
RiverSource RAVA 5 Choice SM Variable Annuity	S- 6710 CH (5/21)

The information in this supplement updates and amends certain information contained in your current variable annuity product prospectus. Please retain this supplement with your latest printed prospectus for future reference. Except as modified in this supplement, all other terms and information in the prospectus remain in effect and unchanged.

The following disclosure is added to the “Charges – Optional Living Benefit Charges” section in the prospectus:

SecureSource Core Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base of \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource Core* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource Core* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource Core* — Single Life rider fee will not exceed a maximum of 2.25%. The *SecureSource Core* — Joint Life rider fee will not exceed a maximum of 2.25%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.25%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.
 - (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “*SecureSource Core* rider – Lifetime Payment Percentage”).
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource Core* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

THIS SUPPLEMENT SHOULD BE READ AND RETAINED FOR FUTURE REFERENCE.

The following information describes changes to certain investment options offered under certain variable annuity contracts and variable life insurance policies listed above. Please retain this supplement with your latest printed prospectus for future reference. Except as modified in this supplement, all other terms and information contained in the prospectus remain in effect and unchanged.

The Board of Directors of the BlackRock Variable Series Funds, Inc. on behalf of the BlackRock Global Allocation V.I. Fund (the “Fund”) (including Class I and Class III shares of the Fund), approved the appointment of BlackRock (Singapore) Limited (“BRS”) as a sub-adviser of the Fund, pursuant to a sub-advisory agreement between BRS and BlackRock Advisors, LLC with respect to the Fund.

BRS is added as a sub-adviser to the Fund effective May 27, 2021.

The following information will replace the current Funds’ description in the table in the “Appendix A: The Funds” or “The Variable Account and the Funds” sections of the prospectus:

Investing In	Investment Objective and Policies	Investment Adviser
BlackRock Global Allocation V.I. Fund	Seeks high total investment return.	BlackRock Advisors, LLC, adviser; BlackRock (Singapore) Limited, sub-adviser.

THIS SUPPLEMENT SHOULD BE READ AND RETAINED FOR FUTURE REFERENCE.

*Gumer C. Alvero
Director and
Executive Vice
President –
Annuities RiverSource
Life Insurance
Company*

From the Executive Vice President

Thank you for choosing a *RiverSource*[®] variable annuity to help you achieve a more confident retirement. Your variable annuity can be a powerful tool to help realize your retirement income goals and give you more confidence in retirement. Annuities can help you accumulate assets and provide you with a source of guaranteed lifetime income.

Consult with your financial advisor periodically to help ensure your contract continues to provide the benefits you need as your life changes.

At RiverSource Life Insurance Company, we also want to communicate with you in the most efficient and convenient way possible. That's why we're pleased to offer e-delivery for many of your financial documents, including this prospectus. If you haven't yet registered for e-delivery, please consider switching in order to take advantage of these benefits:

- Protect your financial documents from fraud, fire and other unexpected events
- Securely store, organize and access your documents
- Reduce the paper mail you receive from us

To register for e-delivery of this prospectus and other financial documents, go to ameriprise.com/e-delivery to get started.

Thank you for your business. We at RiverSource Life Insurance Company are proud of our financial strength and soundness and of our 125-year heritage honoring our commitments to clients. We look forward to continuing to serve you.

Sincerely,

Gumer C. Alvero
Director and Executive Vice President – Annuities
RiverSource Life Insurance Company

The guarantees offered by RiverSource annuities are backed by the strength and soundness of RiverSource Life Insurance Company and are subject to its claims-paying ability. These guarantees do not apply to the investments in the annuity, which will vary with market conditions.

Variable annuities are insurance products that are complex, long-term investment vehicles that are subject to market risk, including the potential loss of principal invested.

RiverSource Distributors, Inc. (Distributor), Member FINRA. Issued by RiverSource Life Insurance Company, Minneapolis, Minnesota. Affiliated with Ameriprise Financial Services, LLC.

The information in this supplement updates and amends certain information contained in your current variable annuity product prospectus. Please read it carefully and keep it with your variable annuity product prospectus for future reference. Except as modified in this supplement, all other terms and information contained in the prospectus remain in effect and unchanged.

I. Effective on May 24, 2021, no additional purchase payments are allowed for contracts with application sign dates before 3/30/2020 with the following SecureSource riders: SecureSource Stages 2, SecureSource 3, SecureSource 4, SecureSource 4 Plus, SecureSource Core and SecureSource Core Plus subject to certain exceptions listed below.

Certain exceptions apply for Qualified annuities and the following additional purchase payments will be allowed on or after May 24, 2021:

- Current tax year contributions for Tax Sheltered Annuities (TSA) under Section 403(b) of the Internal Revenue Code of 1986 (the Code) and Custodial and investment only plans under Section 401(a) of the Code, up to the annual limit set by the Internal Revenue Service (IRS).
- Prior and current tax year contributions up to the annual limit set up by the IRS for any Qualified Accounts except TSA and 401(a). This annual limit applies to Individual Retirement Accounts (IRAs), Roth IRAs, SIMPLE IRAs and Simplified Employee Pension IRA (SEP) plans.

II. For contracts issued in New York with the SecureSource Stages NY, SecureSource 3 NY, SecureSource 4 NY, SecureSource 4 Plus NY, SecureSource Core NY and SecureSource Core Plus NY optional riders, the following applies:

The riders prohibit additional purchase payments unless: (1) the payment is received at time of application or within 90 days thereafter, or (2) this is a qualified annuity where additional purchase payments are allowed in any contract year up to the maximum permissible annual contribution described by the Code, until total additional purchase payments are \$100,000.

For contracts with applications signed before 3/30/2020: These restrictions are being waived through 5/23/2021 and We will accept additional purchase payments up to the maximum purchase payments permitted. Effective 5/24/2021, no additional purchase payments will be allowed except for certain purchase payments for qualified annuities:

- Current tax year contributions for Tax Sheltered Annuities (TSA) under Section 403(b) of the Internal Revenue Code of 1986 (the Code) and Custodial and investment only plans under Section 401(a) of the Code, up to the annual limit set by the Internal Revenue Service (IRS).
- Prior and current tax year contributions up to the annual limit set up by the IRS for any Qualified Accounts except TSA and 401(a). This annual limit applies to Individual Retirement Accounts (IRAs), Roth IRAs, SIMPLE IRAs and Simplified Employee Pension IRA (SEP) plans.
- We are waiving only the \$100,000 total additional purchase payment restriction for qualified annuities.

For contract with applications signed on or after 3/30/2020: These restrictions are being waived until further notice and We will accept additional purchase payments up to the maximum purchase payments permitted.

III. For all contracts, if approved by us, the limitations do not apply to Tax Free Exchange, rollover and transfer requests received before May 24, 2021 (even if the payment is received after the 5/24/2021 effective date).

We reserve the right to change these current rules any time, subject to state restrictions.

THIS SUPPLEMENT SHOULD BE READ AND RETAINED FOR FUTURE REFERENCE.

Prospectus Dated May 1, 2021**

Product Name	Prospectus Form #
RiverSource RAVA 5 Advantage [®] Variable Annuity (Offered for contract applications signed on or after April 29, 2019)	S- 6720 CH (5/21)

RATE SHEET PROSPECTUS SUPPLEMENT

This Rate Sheet Prospectus Supplement (this “Supplement”) should be read and retained with your prospectus. This Supplement must be used in conjunction with the effective RiverSource RAVA 5 Advantage Variable Annuity (Offered for contract applications signed or after April 29, 2019) prospectus. If you need another copy of the prospectus, please call us at 1-800-862-7919. Historical rate sheet supplements are reflected in Appendix G to this prospectus. For additional information, you may consult your financial advisor or call us at 1-800-862-7919.

The Rate Sheet Prospectus Supplement has been filed with the Securities and Exchange Commission (the “SEC”) and is also available on the Edgar system at www.sec.gov (File No. 333 - 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

We are issuing this Supplement to provide the:

- Current rider fees for the *SecureSource Tempo*, *SecureSource Core 2*, *SecureSource 5* and *SecureSource 5 Plus* optional benefit riders;
- Lifetime Payment Percentages and Age Bands for the *SecureSource Tempo*, *SecureSource Core 2*, *SecureSource 5* and *SecureSource 5 Plus* optional benefit riders;
- Income Bonus Percentage for the *SecureSource Tempo*, *SecureSource 5* and *SecureSource 5 Plus* optional benefit riders;
- Annual Credit percentage and Credit Period for the *SecureSource Core 2*, *SecureSource 5* and *SecureSource 5 Plus* optional benefit riders;
- Credit Multiplier, Maximum Credit percentage, Maximum Credit Carryover percentage for the *SecureSource Tempo* optional benefit riders.

THE RIDER FEES, PERCENTAGES, AGE BANDS, CREDIT PERIOD AND TERMS LISTED BELOW APPLY TO APPLICATIONS SIGNED ON OR AFTER MAY 3, 2021.

In order to get these terms, your application must be signed and in good order while this Rate Sheet Prospectus Supplement is in effect. Because we reserve the right to change these terms upon notice as provided below, if your application is not signed and in good order while this Rate Sheet Prospectus Supplement is in effect then you will receive the terms that are in effect on the date that you have a signed application in good order. The rider fees, percentages, age bands, credit period and terms, listed below will not change after your application is signed, except as provided in the prospectus (See “Charges – Optional Living Benefit Charges”; “*SecureSource Tempo* Rider – Lifetime Payment Percentage/Returns-linked Credit”; “*SecureSource Core 2* Rider – Lifetime Payment Percentage/Annual Credits”; “*SecureSource 5* Rider – Lifetime Payment Percentage /Annual Credits”; “*SecureSource 5 Plus* Rider – Lifetime Payment Percentage/Annual Credits”; *SecureSource Core 2* Rider – Lifetime Payment Percentage/Annual Credits).

The rider fees, percentages, age bands, credit period and terms listed in this Rate Sheet Supplement are subject to change and can be superseded upon 7 calendar days prior notice as provided below. Please note that any superseding terms do not apply to applications that are already signed and received by us in good order. Changes to the rider fees, percentages, age bands, credit period or terms listed in this Rate Sheet Prospectus Supplement will be disclosed at least 7 calendar days in advance in a new Rate Sheet Prospectus Supplement filed on Edgar at www.sec.gov (File No. 333-230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

CURRENT RIDER FEES

Rider	Single Life Option	Joint Life Option
<i>SecureSource Tempo</i> SM	1.55%	1.65%

⁽¹⁾ Not available with certain benefit riders.

Please read the prospectuses carefully and keep them for future reference.

The contracts with *SecureSource* series riders may provide for credits on certain rider anniversaries. Credits increase the Current Annual Payment but may result in higher rider charges that may exceed the benefit from the credits.

The optional living benefit riders and certain death benefit riders described in this prospectus provide certain guarantees along with limitations that could reduce the monetary value derived from the riders. The optional living benefit riders and certain death benefit riders require you to invest your contract value in approved investment options that are designed to minimize risk to RiverSource Life but may limit your contract's growth potential or ability to make subaccount transfers. If you later decide you do not want to invest in those approved investment options, you must request a full surrender. This will result in the termination of your contract and you will no longer derive any benefit from the riders. Additionally, we may restrict additional purchase payments. You will begin paying the rider charge as of the rider effective date, even if you do not begin taking withdrawals for many years. It is possible that your contract performance, fees and charges, and withdrawal pattern may be such that your contract value will not be depleted in your lifetime and you will not receive any monetary value under the rider.

The Securities and Exchange Commission (SEC) has not approved or disapproved these securities or passed upon the accuracy or adequacy of this prospectus. Any representation to the contrary is a criminal offense.

An investment in this contract is not a deposit of a bank or financial institution and is not insured or guaranteed by the Federal Deposit Insurance Corporation (FDIC) or any other government agency. An investment in this contract involves investment risk including the possible loss of principal.

A discussion of risk factors associated with guarantee period account interests under the contract begins on page 13 of the prospectus.

A Statement of Additional Information (SAI), dated the same date as this prospectus, is incorporated by reference into this prospectus. It is filed with the SEC and is available without charge by contacting RiverSource Life at the telephone number and address listed above. The table of contents of the SAI is on the last page of this prospectus. The SEC maintains an Internet site. This prospectus, the SAI and other information about the product are available on the EDGAR Database on the SEC's Internet site at (<http://www.sec.gov>).

The principal underwriter of the Contract is RiverSource Distributors, Inc. The offering of the contract is intended to be continuous.

Prospective purchasers may obtain an application to purchase the contract through agents of authorized selling firms that RiverSource Life and RiverSource Distributors, Inc. have selling agreements with. Authorized selling firms and their agents are appointed by RiverSource Life and are licensed in one or more states as insurance agents/agencies. Only securities broker-dealers registered with the SEC may sell the contract. RiverSource Life has not authorized any person to give any information or to make any representations regarding the contract other than those contained in this prospectus. Do not rely on any such information or representations.

Variable annuities are complex products. The fees and charges, as well as the available features and benefits, of the variable annuity contracts described in this prospectus will be different from other variable annuities offered in the marketplace, including other variable annuities or other types of annuities offered by RiverSource Life. The interest credited, guarantees provided, and credits available, as well as the funds serving as underlying investments and their corresponding expenses, may differ among the variable annuities that are available to you. With the aid of an appropriate financial professional, we encourage you to compare and contrast the variable annuity contracts described in this prospectus with other variable annuities available in the marketplace, including other types of annuities we may offer. This will aid in determining whether purchasing a contract is consistent with your investment objectives, risk tolerance, time horizon, marital status, tax situation, and your unique financial situation and needs. If you select an annuity that includes surrender or other liquidation charges, you should also consider any future needs you may have to access your contract value. The optional benefits and features available with the contracts usually come with additional costs. Consider any additional costs carefully when electing these optional benefits and features.

Effects of COVID-19 Pandemic

The coronavirus disease 2019 ("COVID-19") public health crisis presents ongoing significant economic and societal disruption and has driven significant volatility in the equity and interest rate markets. Any periods of continued high market volatility, and your individual circumstances (e.g., your selected allocations and the timing of any purchase payments, transfers, or withdrawals), will affect values under your contract. As part of how we maintain our strong financial strength and claims-paying ability, we continue to reserve amounts for our contractual obligations in accordance with significant state solvency regulations. The extent to which the COVID-19 pandemic may impact financial markets, investment performance under your contract, and our financial strength and claims-paying ability will depend

on future developments, which are highly uncertain and cannot be estimated, including the scope and duration of the pandemic and actions taken by governmental authorities, market participants, and other third parties in response to the pandemic.

We have implemented comprehensive strategies to address the operating environment spurred by the pandemic. To promote the safety and security of our employees and to assure the continuity of our business operations, we have implemented a work from home protocol for virtually all of our employee population, restricted business travel, and provided resources for complying with the guidance from the World Health Organization, the U.S. Centers for Disease Control and government authorities. We have been satisfying elevated customer service volumes and our operations teams have continued to operate successfully and without disruptions in service. Our pandemic strategy is flexible and scalable and takes into consideration that a pandemic could be widespread and may occur in multiple waves, affecting different communities at different times with varying levels of severity. We cannot, however, predict the impact that natural or man-made disasters and catastrophes, including the COVID-19 pandemic, may have over near- or longer-term periods.

Key Terms

These terms can help you understand details about your contract.

Accumulation unit: A measure of the value of each subaccount prior to the application of amounts to an annuity payment plan.

Annuitant: The person or persons on whose life or life expectancy the annuity payouts are based.

Annuitization start date: The date when annuity payments begin according to the applicable annuity payment plan.

Annuity payouts: An amount paid at regular intervals under one of several plans.

Assumed investment return: The rate of return we assume your investments will earn when we calculate your initial annuity payout amount using the annuity table in your contract. The standard assumed investment return we use is 5% but you may request we substitute an assumed investment return of 3.5%.

Beneficiary: The person you designate to receive benefits in case of your death while the contract is in force.

Close of business: The time the New York Stock Exchange (NYSE) closes (4 p.m. Eastern time unless the NYSE closes earlier).

Code: The Internal Revenue Code of 1986, as amended.

Contingent annuitant: The person who becomes the annuitant when the current annuitant dies prior to the annuitization start date. In the case of joint ownership, one owner must also be the contingent annuitant.

Contract: A deferred annuity contract that permits you to accumulate money for retirement by making one or more purchase payments. It provides for lifetime or other forms of payouts beginning at a specified time in the future.

Contract value: The total value of your contract at any point in time. The contract value is the sum of the contract value in the Regular Fixed Account, contract value in the Special DCA Fixed Account, contract value in the Variable Account, and contract value in the GPAs.

Contract year: A period of 12 months, starting on the effective date of your contract and on each anniversary of the effective date.

Fixed account: Part of our general account which includes the regular fixed account and the Special DCA fixed account. Amounts you allocate to this account earn interest at rates that we declare periodically.

Funds: Investment options under your contract, also referred to as subaccounts in your contract. Unless your investment options have been restricted under a living benefit rider, the *SecureSource Legacy benefit* or the

Enhanced Legacy benefit rider, you may allocate your purchase payments into shares of any or all of the funds available under your contract.

Good order: We cannot process your transaction request relating to the contract until we have received the request in good order at our Service Center. “Good order” means the actual receipt of the requested transaction in writing, along with all information, forms and supporting legal documentation necessary to effect the transaction. To be in “good order”, your instructions must be sufficiently clear so that we do not need to exercise any discretion to follow such instructions. This information and documentation generally includes your completed request; the contract number; the transaction amount (in dollars); the names of and allocations to and/or from the subaccounts and the fixed account affected by the requested transaction; Social Security Number or Taxpayer Identification Number; and any other information, forms or supporting documentation that we may require. For certain transactions, at our option, we may require the signature of all contract owners for the request to be in good order. With respect to purchase requests, “good order” also generally includes receipt of sufficient payment by us to effect the purchase. We may, in our sole discretion, determine whether any particular transaction request is in good order, and we reserve the right to change or waive any good order requirements at any time.

Guarantee Period: The number of successive 12-month periods that a guaranteed interest rate is credited.

Guarantee Period Accounts (GPAs) : A nonunitized separate account to which you may allocate purchase payments or transfer contract value of at least \$1,000. These accounts have guaranteed interest rates for guarantee periods we declare when you allocate purchase payments or transfer contract value to a GPA. These guaranteed rates and periods of time may vary by state. Unless an exception applies, transfers or surrenders from a GPA done more than 30 days before the end of the guarantee period will receive a market value adjustment, which may result in a gain or loss of principal.

Market Value Adjustment (MVA): A positive or negative adjustment assessed if any portion of a Guarantee Period Account is surrendered or transferred more than 30 days before the end of its guarantee period.

Owner (you, your): The person or persons identified in the contract as owner(s) of the contract, who has or have the right to control the contract (to decide on investment allocations, transfers, payout options, etc.). Usually, but not always, the owner is also the annuitant. During the owner’s life, the owner is responsible for taxes, regardless of whether he or she receives the contract’s benefits. The owner or any joint owner may be a nonnatural person (e.g. irrevocable trust or corporation) or a revocable trust. If any owner is a nonnatural person or a revocable trust, the annuitant will be deemed to be

the owner for contract provisions that are based on the age or life of the owner. When the contract is owned by a revocable trust or irrevocable grantor trust, the annuitant(s) selected must be the grantor(s) of the trust to assure compliance with Section 72(s) of the Code. Any contract provisions that are based on the age of the owner will be based on the age of the oldest owner. Any ownership change, including continuation of the contract by your spouse under the spousal continuation provision of the contract, redefines “owner”, “you” and “your”.

Qualified annuity: A contract that you purchase to fund one of the following tax-deferred retirement plans that is subject to applicable federal law and any rules of the plan itself:

- Individual Retirement Annuities (IRAs) including inherited IRAs under Section 408(b) of the Code
- Roth IRAs including inherited Roth IRAs under Section 408A of the Code
- SIMPLE IRAs under Section 408(p) of the Code
- Simplified Employee Pension IRA (SEP) plans under Section 408(k) of the Code
- Custodial and investment only accounts maintained for qualified retirement plans under Section 401(a) of the Code
- Tax-Sheltered Annuities (TSAs) under section 403(b) of the Code

A qualified annuity will not provide any necessary or additional tax deferral if it is used to fund a retirement plan that is already tax-deferred.

All other contracts are considered **nonqualified annuities**.

Rider: You receive a rider to your contract when you purchase optional benefits. The rider adds the terms of the optional benefit to your contract.

Rider effective date: The date a rider becomes effective as stated in the rider.

RiverSource Life: In this prospectus, “we,” “us,” “our” and “RiverSource Life” refer to RiverSource Life Insurance Company.

Service Center: Our department that processes all transaction and service requests for the contracts. We consider all transaction and service requests received when they arrive in good order at the Service Center. Any

transaction or service requests sent or directed to any location other than our Service Center may end up delayed or not processed. Our Service Center address and telephone number are listed on the first page of the prospectus.

Surrender value: The amount you are entitled to receive if you make a full surrender from your contract. It is the contract value immediately prior to the surrender, minus any applicable charges, plus any positive or negative market value adjustment.

Valuation date: Any normal business day, Monday through Friday, on which the NYSE is open, up to the time it closes. At the NYSE close, the next valuation date begins. We calculate the accumulation unit value of each subaccount on each valuation date. If your contract anniversary is not a valuation date, your contract value for that contract anniversary will be based on close of business values on the next valuation date.

If we receive your purchase payment or any transaction request (such as a transfer or surrender request) in good order at our Service Center before the close of business, we will process your payment or transaction using the accumulation unit value we calculate on the valuation date we received your payment or transaction request. On the other hand, if we receive your purchase payment or transaction request in good order at our Service Center at or after the close of business, we will process your payment or transaction using the accumulation unit value we calculate on the next valuation date. If you make a transaction request by telephone (including by fax), you must have completed your transaction by the close of business in order for us to process it using the accumulation unit value we calculate on that valuation date. If you were not able to complete your transaction before the close of business for any reason, including telephone service interruptions or delays due to high call volume, we will process your transaction using the accumulation unit value we calculate on the next valuation date.

Variable account: Separate subaccounts to which you may allocate purchase payments; each invests in shares of one fund. The value of your investment in each subaccount changes with the performance of the particular fund.

The Contract in Brief

Purpose: The purpose of the contract is to allow you to accumulate money for retirement or a similar long-term goal. You do this by making one or more purchase payments. You may allocate your purchase payments to the GPAs, regular fixed account, subaccounts and/or Special DCA fixed account under the contract; however, you risk losing amounts you invest in the subaccounts of the variable account. These accounts, in turn, may earn returns that increase the value of the contract. If the contract value goes to zero due to underlying fund's performance or deduction of fees, the contract will no longer be in force and the contract (including any death benefit riders) will terminate. You may be able to purchase an optional benefit to reduce the investment risk you assume under your contract. Beginning at a specified time in the future called the annuitization start date, the contract provides lifetime or other forms of payouts of your contract value (less any applicable premium tax and/or other charges).

Buying a contract: When buying a contract, you must provide us a minimum initial purchase payment. The minimum initial purchase payment varies between \$1,000 and \$2,000 based on tax qualification. In no case may purchase payments exceed \$1,000,000 without our prior approval. We may also further limit, or restrict, purchase payments in certain contract years or based on age, and in conjunction with a living benefit rider, the *SecureSource Legacy benefit* or the *Enhanced Legacy benefit* rider elections. (see "Buying Your Contract.")

There are many factors to consider carefully before you buy a variable annuity and any optional benefit rider. Variable annuities — with or without optional benefit riders — are not right for everyone. **Make sure you have all the facts you need before you purchase a variable annuity or choose an optional benefit rider.** Some of the factors you may wish to consider include:

- "Tax Free" Exchanges: It may not be advantageous for you to purchase the contract in exchange for, or in addition to, an existing annuity or life insurance policy. Generally, you can exchange one annuity for another or for a qualified long-term care policy in a "tax-free" exchange under Section 1035 of the Code. You can also do a partial exchange from one annuity contract to another annuity contract, subject to Internal Revenue Service (IRS) rules. You also generally can exchange a life insurance policy for an annuity. However, before making an exchange, you should compare both contracts carefully because the features and benefits may be different. Fees and charges may be higher or lower on your old contract than on this contract. You may have to pay a surrender charge when you exchange out of your old contract and a new surrender charge period may begin when you exchange into the new contract. If the exchange does not qualify for Section 1035 treatment, you also may have to pay federal income tax on the distribution. State income taxes may also apply. You should not exchange your old contract for this contract, or buy
- this contract in addition to your old contract, unless you determine it is in your best interest. (See "Taxes — 1035 Exchanges.")
- Tax-deferred retirement plans: Most annuities have a tax-deferred feature. So do many retirement plans under the Code including 403(b) plans. As a result, when you use a qualified annuity to fund a retirement plan that is tax-deferred, your contract will not provide any necessary or additional tax deferral beyond what is provided in that retirement plan. Some employers may permit you to deposit your contributions into other investments such as mutual funds. If such investments are available to you, before enrolling under the contract, you should consider features other than tax deferral that may help you reach your retirement goals. In addition, the Code subjects retirement plans to required withdrawals triggered at age 72. These mandatory withdrawals are called required minimum distributions ("RMDs"). RMDs may reduce the value of certain death benefits and optional riders (see "Taxes — Qualified Annuities — Required Minimum Distributions"). You should consult your tax advisor before you purchase the contract as a qualified annuity for an explanation of the tax implications to you.
- Taxes: Generally, income earned on your contract value grows tax-deferred until you take surrender or begin to receive payouts. Upon surrender, income taxes generally apply, (under certain circumstances, IRS penalty taxes may also apply to surrenders) unless you direct such amounts to be transferred to another investment within the same retirement plan, have them directly rolled over to another eligible retirement plan such as an IRA, or qualify for Section 1035 treatment. The tax treatment of qualified and nonqualified annuities differs. Even if you direct payouts to someone else, generally you will be taxed on the income if you are the owner. (see "Taxes")
- Your age: If you are an older person, you may not necessarily have a need for tax deferral, retirement income or a death benefit. Older persons who are considering buying a contract including any optional benefits may find it helpful to consult with or include a family member, friend or other trusted advisor in the decision making process before buying a contract.
- How long you plan to keep your contract: variable annuities are not short-term liquid investments. The contract has surrender charges. (See "Charges - Surrender Charges") Does the contract meet your current and anticipated future needs for liquidity?
- If you can afford the contract: are your annual income and assets adequate to buy the contract and any optional benefits you may choose?
- The fees and expenses you will pay when buying, owning and surrendering money from the contract. (see "Charges")
- How and when you plan to take money from the contract: under current tax law, surrenders, including surrenders made under optional benefit riders, are

taxed differently than annuity payouts. If you withdraw more than the allowed withdrawal amount in a contract year (“excess withdrawal”) under the *SecureSource series* riders, the guaranteed amounts under the rider will be reduced and for any withdrawal during the credit period, you will not receive a credit on the next rider anniversary. In addition, certain surrenders may be subject to a federal income tax penalty. (see “Surrenders”)

- Your investment objectives, how much experience you have in managing investments and how much risk you are you willing to accept.
- Short-term trading: if you plan to manage your investment in the contract by frequent or short-term trading, the contract is not suitable for you and you should not buy it. (see “Making the Most of Your Contract — Transferring Among Accounts”)
- Dissolution of marriage: If you elect one of the *SecureSource series* riders with the Joint life benefit and at a later date there is a dissolution of marriage, the joint life rider benefits and fees will continue; however, there will be no coverage for any spouse and you cannot change to the Single life rider.

Free look period: You may return your contract to your financial advisor or to our Service Center within the time stated on the first page of your contract and receive a full refund of the contract value. The valuation date will be the date your request is received at our Service Center. (For California residents, the valuation date will be the earlier of the date your contract is returned to your financial advisor or to our corporate office). We will not deduct any contract charges or fees. However, you bear the investment risk from the time of purchase until you return the contract and any positive or negative market value adjustment will apply; the refund amount may be more or less than the payment you made. (Exception: If the law requires, we will refund all of your purchase payments, if greater than contract value.)

Accounts: Generally, you may allocate your purchase payments among the:

- subaccounts of the variable account, each of which invests in a fund with a particular investment objective. The value of each subaccount varies with the performance of the particular fund in which it invests. We cannot guarantee that the value at the annuitization start date will equal or exceed the total purchase payments you allocate to the subaccounts. (see “The Variable Account and the Funds”)
- GPAs which earn interest at rates declared when you make an allocation to that account. The required minimum investment in each GPA is \$1,000. These accounts may not be available in all states. (see “Guarantee Period Accounts (GPAs)”)
- regular fixed account, which earns interest at rates that we adjust periodically. There are restrictions on transfers from this account and may be restrictions on the amount you can allocate to this account. (see “The Fixed Account”)

- Special DCA fixed account, which earns interest at rates that we adjust periodically. There are restrictions on how long contract value can remain in this account. (see “The Fixed Account — The Special DCA Fixed Account”)

Transfers: Subject to certain restrictions, you currently may redistribute your contract value among the subaccounts without charge at any time until the annuitization start date, and once per contract year among the subaccounts after the annuitization start date. Transfers out of the GPAs done more than 30 days before the end of the guarantee period will be subject to an MVA, unless an exception applies. You may establish automated transfers among the accounts. Transfers into the Special DCA fixed account are not permitted. GPAs and the regular fixed account are subjects to special restrictions. (see “Making the Most of Your Contract — Transferring Among Accounts”)

Surrenders: You may surrender all or part of your contract value at any time before the annuitization start date. You also may establish automated partial surrenders. Surrenders may be subject to charges and income taxes (including an IRS penalty that may apply if you surrender prior to your reaching age 59 ½) and may have other tax consequences. If you have elected one of the *SecureSource series* riders, please consider carefully when you take surrenders. If you withdraw more than allowed withdrawal amount in a contract year (“excess withdrawal”) under the rider, the guaranteed amounts under the rider will be reduced and for any withdrawal during the Credit Period, you will not receive a credit on the next rider anniversary. Certain other restrictions may apply. (see “Surrenders”)

Benefits in case of death: If you die before the annuitization start date, we will pay the beneficiary an amount based on the applicable death benefit. (see “Benefits in Case of Death — Standard Death Benefit”)

Optional benefits: We offer optional death benefits and optional living benefits. Optional living benefits include guaranteed minimum withdrawal benefit riders and Accumulation Protector Benefit rider, a guaranteed minimum accumulation benefit. Guaranteed minimum withdrawal benefits permit you to withdraw a guaranteed amount from the contract over a period of time, which may include the lifetime of a single person (Single Life) or the lifetime of you and your spouse (Joint Life). Guaranteed minimum withdrawal benefits may be appropriate for you if you intend to make periodic withdrawals from your annuity contract and wish to ensure that market performance will not affect your ability to withdraw income over your lifetime. These optional withdrawal benefits may not be appropriate for you if you do not intend to limit withdrawals to the amount allowed under the rider. Before the contract value reaches zero, the guaranteed payments under the *SecureSource* rider are decreasing your contract value and you are withdrawing your money. Once the contract value reaches zero, the guaranteed payments are made by us. It is possible your contract value may not reach

zero while this contract is in force, resulting in no monetary value derived from the rider. In this prospectus we use the term “*SecureSource series*” to refer to all of the guaranteed minimum withdrawal benefit riders. When we refer to the *SecureSource Tempo* rider, the *SecureSource 5* rider, the *SecureSource 5 Plus* rider, the *SecureSource Core 2* rider, the *SecureSource Core* rider, the *SecureSource Core Plus* rider, the *SecureSource 4* rider or the *SecureSource 4 Plus* rider we are specifically referencing the individual rider in the series rather than all of the riders in the *SecureSource* series.

Accumulation Protector Benefit rider is intended to provide you with a guaranteed contract value at the end of a specified Waiting Period, currently 10 years, regardless of the volatility inherent in the investments in the subaccounts. Accumulation Protector Benefit rider may be appropriate for you if you want a guaranteed contract value at the end of Waiting Period. This optional living benefit may not be appropriate for you if you intend to surrender your contract value before the end of the 10-year Waiting Period or take withdrawals during the Waiting Period (which reduces the benefit). After the waiting period, it is possible your contract value may be more than your benefit amount, resulting in no monetary value derived from the rider.

Currently, *SecureSource Core Plus* and Accumulation Protector Benefit riders are not available for contract applications signed on or after 3/30/2020.

We offer the following optional death benefits: Return of Purchase Payments (ROPP) Death Benefit, Maximum Anniversary Value (MAV) Death Benefit, 5-year MAV Death Benefit, Benefit Protector Death Benefit, *Enhanced Legacy* benefit and *SecureSource Legacy* benefit. Benefit Protector Death Benefit is intended to provide an additional benefit to your beneficiary to help offset expenses after your death such as funeral expenses or federal and state taxes. *Enhanced Legacy* benefit is intended to provide additional death benefit guarantees that may increase the death benefit provided in the contract. *SecureSource Legacy* benefit (available only if purchased in combination with one of the *SecureSource series* riders) is intended to provide additional death benefit guarantees that may increase the death benefit provided in the contract.

Please see table below for a description of optional living and death benefits.

Optional Living Benefits	Description
Accumulation Protector Benefit rider ^{(1),(2)}	Intended to provide a guaranteed contract value at the end of a specified Waiting Period, currently 10 years, regardless of the volatility inherent in the investments in the subaccounts. Must be elected at contract issue. Not available with <i>SecureSource series</i> riders, <i>Enhanced Legacy</i> rider or <i>SecureSource Legacy</i> benefit rider.
<i>SecureSource Core 2</i> ^{(1),(3)} riders <i>SecureSource Core</i> ^{(1), (4)} riders <i>SecureSource Core Plus</i> ^{(1),(2)} riders	Intended to provide, after the Current Annual Payment is established, a specified withdrawal amount annually for life, even if the contract value is zero, subject to the terms and provisions of the rider. Must be elected at contract issue.

Optional benefits risks and limitations: If you select an optional living benefit, the *SecureSource Legacy* benefit or the *Enhanced Legacy* benefit, you should consider whether these riders are appropriate for you taking into account the following considerations:

- We restrict investment options available to you, which may limit transfers and allocations and may limit the timing, amount and allocation of purchase payments. If you later decide you do not want to invest in those approved investment options, you must request a full surrender. This will result in the termination of your contract and you will no longer derive any benefit from the riders. (see “Optional Benefits — Investment Allocation Restrictions for Certain Benefit Riders”).
- If you select a *SecureSource series* rider, surrenders in excess of the amount allowed under the rider will impact the rider benefit and could result in substantially reduced payments under the rider or termination of the contract.
- Restrictions on subsequent purchase payments, which may limit your ability to increase your contract value as you may have originally intended. For current purchase payment restrictions, please see “Buying Your Contract —Purchase Payments”.

For more information on considerations before buying optional benefits, please see “Optional Benefits – Important *SecureSource Series* Rider Considerations”.

Annuity payouts: You can apply your contract value, after reflecting any adjustments, to an annuity payout plan that begins on the annuitization start date. You may choose from a variety of plans that can help meet your retirement or other income needs. The payout schedule must meet IRS requirements. We can make payouts on a fixed or variable basis, or both. During the annuity payout period, your choices for subaccounts may be limited. (see “The Annuity Payout Period”)

Termination of the contract: The contract will be terminated under the following conditions:

1. After the death benefit is paid, the contract will terminate.
2. Reduction of the contract value to zero will terminate the contract unless benefits are payable under the terms of an optional living benefit rider.
3. Your written request for a full surrender will terminate the contract.

Optional Living Benefits	Description
<i>SecureSource Tempo</i> ^{(1),(3)} riders <i>SecureSource 5</i> ^{(1),(3)} riders <i>SecureSource 5 Plus</i> ^{(1),(3)} riders <i>SecureSource 4</i> ^{(1), (4)} riders <i>SecureSource 4 Plus</i> ^{(1), (4)} riders	Intended to provide, after the Current Annual Payment is established, a specified withdrawal amount annually for life, even if the contract value is zero, subject to the terms and provisions of the rider. Must be elected at contract issue.
Optional Death Benefits	Description
Benefit Protector Death Benefit rider	Intended to provide an additional benefit to owners age 75 and younger to help offset expenses after your death such as funeral expenses or federal and state taxes. Must be elected at contract issue. Not available with <i>Enhanced Legacy</i> rider or <i>SecureSource Legacy</i> benefit.
<i>Enhanced Legacy</i> rider ⁽¹⁾	Intended to provide additional death benefit guarantees to owners age 75 and younger that may increase the death benefit provided in the contract. Must be elected at contract issue. Not available with any living benefit rider or with MAV, 5-year MAV, Benefit Protector Death Benefit or <i>SecureSource Legacy</i> benefit.
<i>SecureSource Legacy</i> benefit ⁽¹⁾	Intended to provide additional death benefit guarantees that may increase the death benefit provided in the contract and available only if purchased in combination with one of the <i>SecureSource</i> series riders. Must be elected at contract issue. Available only when purchased with the one of <i>SecureSource</i> series riders.
Return of Purchase Payments (ROPP)	Intended to provide death benefit guarantee to owners age 80 and older that beneficiaries receive total purchase payments adjusted for partial surrenders. Must be elected at contract issue. Not available with any <i>SecureSource</i> series rider or <i>Enhanced Legacy</i> rider.
Maximum Anniversary Value (MAV)	Intended to provide additional death benefit to owners age 75 and younger by locking in the highest anniversary value through age 80 (adjusted for partial surrenders). Must be elected at contract issue. Not available with any <i>SecureSource</i> series rider or <i>Enhanced Legacy</i> rider.
5- Year Maximum Anniversary Value (5-Year MAV)	Intended to provide additional death benefit to owners age 75 and younger by locking in the highest anniversary value every 5 years through age 80 (adjusted for partial surrenders). Must be elected at contract issue.

(1) Available only with approved investment options.

(2) Accumulation Protector Benefit and *SecureSource Core Plus* riders are not available for contract applications signed on or after 3/30/2020.

(3) Available for contract applications signed on or after 5/3/2021.

(4) Available for contract applications signed prior to 5/3/2021.

Risk Factors

This section discusses risks associated with the Guarantee Period Account (“GPA”) interests offered under the contract (if available).

Interest Rate Risk

Each GPA pays an interest rate declared by us when you make an allocation to that account and is fixed for the guarantee period you choose. We will periodically change the declared interest rate for future allocations to these accounts at our discretion based, in part, on various factors related to future investment earnings. We cannot predict nor can we guarantee future rates.

Liquidity Risk

We guarantee the contract value allocated to the GPAs, including interest credited, if you do not make any transfers or surrenders from the GPAs prior to 30 days before the end of the guarantee period (30-day rule). At all other times, and unless an exception to the 30-day rule applies, we will apply a Market Value Adjustment (“MVA”) if you surrender or transfer contract value from a GPA or you elect an annuity payout plan while you have contract value invested in a GPA. We refer to these transactions as “early surrenders.” Because an early surrender may result in a loss of principal due to the MVA, the GPAs provide limited liquidity.

Market Value Adjustment Risk

We will apply an MVA to “early surrenders” from a GPA as described above and in “The Guarantee Period Accounts (GPAs)”. The MVA may be negative, positive or result in no change depending on how the guaranteed interest rate on your GPA compares to the new interest rate of a new GPA for the same number of years as the guarantee period remaining on your GPA. You bear the risk of loss of principal due to a negative MVA.

Investment Risk

We guarantee the contract value allocated to the GPAs, including interest credited, if you do not make any transfers or surrenders from the GPAs prior to 30 days before the end of the guarantee period (30-day rule); otherwise, unless an exception applies, an “early surrender” may result in the loss of principal due to a negative MVA.

Financial Strength

All guarantees under the GPAs are subject to the creditworthiness and continued claims-paying ability of RiverSource Life.

Expense Summary

The following tables describe the fees and expenses that you will pay when buying, owning and surrendering from the contract. The first tables describe the fees and expenses that you will pay at the time that you surrender the contract. State premium taxes also may be deducted.

Contract Owner Transaction Expenses

Surrender charges:

(Contingent deferred sales load as a percentage of purchase payments surrendered)

You select either a seven-year or ten-year surrender charge schedule at the time of application.

Seven-year schedule		Ten-year schedule	
Number of completed years from date of each purchase payment*	Surrender charge percentage applied to each purchase payment	Number of completed years from date of each purchase payment*	Surrender charge Percentage applied to each purchase payment
0	7%	0	8%
1	7	1	8
2	7	2	8
3	6	3	7
4	5	4	6
5	4	5	5
6	2	6	4
7+	0	7	3
		8	2
		9	1
		10+	0

* According to our current administrative practice, for the purpose of surrender charge calculation, we consider that the year is completed one day prior to the anniversary of the day each purchase payment was received.

Surrender charge for fixed annuity payouts, if available:

Number of Completed Years Since Annuitization	Surrender charge percentage
0	Not applicable**
1	5%
2	4
3	3
4	2
5	1
6 and thereafter	0

**We do not permit surrenders in the first year after annuitization.

Contract administrative charge at full surrender:

Maximum: \$50 Current: \$50*

The next tables describe the fees and expenses that you will pay periodically during the time that you own the contract, not including fund fees and expenses.

Contract Administrative Charge

Annual contract administrative charge	Maximum: \$50	Current: \$50*
Annual contract administrative charge if your contract value equals or exceeds \$50,000	Maximum: \$20	Current: \$0

* Prior to 5/4/2020, the contract administrative charge is \$30. Also, for contracts with applications signed before 5/4/2020, the contract administrative charge is \$30 through the first contract anniversary and \$50 thereafter.

Annual Variable Account Expenses

(As a percentage of average daily subaccount value)

You must choose a death benefit guarantee and the length of your contract's surrender charge schedule. The combination you choose determines the mortality and expense risk fees you pay. The table below shows the combinations available to you and their cost.

RAVA 5 Advantage with ten-year surrender charge schedule

	Mortality and expense risk fee
Standard Death Benefit	0.95%
ROPP Death Benefit	1.30
MAV Death Benefit	1.20
5-year MAV Death Benefit	1.05

RAVA 5 Advantage with seven-year surrender charge

Through the 10th contract anniversary	Mortality and expense risk fee
Standard Death Benefit	1.10%
ROPP Death Benefit	1.45
MAV Death Benefit	1.35
5-year MAV Death Benefit	1.20

After the 10th contract anniversary	Mortality and expense risk fee
Standard Death Benefit	0.95%
ROPP Death Benefit	1.30
MAV Death Benefit	1.20
5-year MAV Death Benefit	1.05

Other Annual Expenses

Optional Death Benefits

If eligible, you may select Benefit Protector Death Benefit, *Enhanced Legacy* benefit or *SecureSource Legacy* benefit. The fee applies only if you elect one of these optional benefits. Investment allocation restrictions apply if you select *Enhanced Legacy* benefit or *SecureSource Legacy* benefit. *SecureSource Legacy* benefit rider may be purchased only in combination with one of the *SecureSource* series riders.

Benefit Protector Death Benefit rider fee	0.25%
--	-------

(As a percentage of contract value charged annually on the contract anniversary.)

Enhanced LegacySM benefit rider fee	Maximum: 1.75% Current: 0.95%*
---	--

(Charged annually on the contract anniversary. Prior to age 86, the charge is calculated by multiplying the annual rider fee by the greater of the ROPP value, Accumulation Death Benefit (ADB) value (after any increase is added) or MAV or the contract value. On or following age 86, the charge is calculated by multiplying the annual rider fee by the greater of the ROPP value, ADB value (after any increase is added) or MAV.)

SecureSource LegacySM benefit rider fee (available for contract applications signed prior to 5/4/2020)	Maximum: 0.40% Current: 0.25%*
--	--

SecureSource LegacySM benefit rider fee (available for contract applications signed on or after 5/4/2020)	Maximum: 0.50% Current: 0.35%*
---	--

(Charged annually on the contract anniversary. The charge is calculated by multiplying the annual rider fee by the greater of the *SecureSource Legacy* Death Benefit amount or the contract value)

* The Current fee can increase up to the Maximum fee for existing and new contract owners. Currently the fee does not vary with the investment option selected (see "*Enhanced Legacy and SecureSource Legacy* Benefit Rider Charge").

Optional Living Benefits

If eligible, you may select one of the following optional living benefits. The fees apply only if you select one of these benefits. Investment allocation restrictions apply.

Available for contract applications signed on or after 5/3/2021	
SecureSource TempoSM – Single life rider fee*	Maximum: 2.50%
SecureSource TempoSM – Joint life rider fee*	Maximum: 2.50%
SecureSource Core 2SM – Single life rider fee*	Maximum: 2.50%
SecureSource Core 2SM – Joint life rider fee*	Maximum: 2.50%
SecureSource 5[®] – Single life rider fee*	Maximum: 2.50%
SecureSource 5[®] – Joint life rider fee*	Maximum: 2.50%
SecureSource 5 Plus[®] – Single life rider fee*	Maximum: 2.50%

SecureSource 5 Plus[®] – Joint life rider fee*	Maximum: 2.50%
Available for contract applications signed prior to 5/3/2021	
SecureSource CoreSM – Single life rider fee*	Maximum: 2.25%
SecureSource CoreSM – Joint life rider fee*	Maximum: 2.25%
SecureSource 4[®] – Single life rider fee*	Maximum: 2.25%
SecureSource 4[®] – Joint life rider fee*	Maximum: 2.25%
SecureSource 4 Plus[®] – Single life rider fee*	Maximum: 2.25%
SecureSource 4 Plus[®] – Joint life rider fee*	Maximum: 2.25%
Available for contract applications signed prior to 3/30/2020	
SecureSource Core PlusSM – Single life rider fee*	Maximum: 2.75%
SecureSource Core PlusSM – Joint life rider fee*	Maximum: 2.75%

(Charged annually on the contract anniversary as a percentage of contract value or the Benefit Base, whichever is greater.)

* The Current rider fee will be less than or equal to the stated Maximum. The Current rider fee is disclosed in a Rate Sheet Prospectus Supplement attached to this prospectus. Rate Sheet Prospectus Supplement is available on the Edgar system at www.sec.gov (File 333 - 230376).

Accumulation Protector Benefit[®] (APB[®]) rider fee (available for contract applications signed prior to 3/30/20)	Maximum: 2.00%	Current: 1.30%**
---	-----------------------	-------------------------

(Charged annually on the contract anniversary as a percentage of contract value or the Minimum Contract Accumulation Value, whichever is greater.)

** For contracts with applications signed prior to 10/28/2019, the initial annual rider fee is 1.15%. The rider fee can increase up to the Maximum fee.

The annual rider fees for elective step ups (including elective spousal continuation step up) requests:

Elective step up date:	Maximum annual rider fee	Annual rider fee
Prior to 12/30/2019	2.00%	1.15%
12/30/ 2019 – 07/20/2020	2.00%	1.30%
07/21/2020 and later	2.00%	2.00%

Annual Operating Expenses of the Funds

The next table provides the minimum and maximum total operating expenses charged by the underlying funds that you may pay periodically during the time that you own the contract. The minimum and maximum expenses listed below are based on expenses for the funds' fiscal year ended December 31, 2020, unless otherwise noted, without taking into account fee waivers and/or expense reimbursements that may apply. More detail concerning each underlying fund's fees and expenses is contained in each fund's prospectus.

Minimum and maximum total annual operating expenses for the funds ⁽¹⁾

(Including management, distribution (12b-1) and/or service fees and other expenses)

	Minimum(%)	Maximum(%)
Total expenses before fee waivers and/or expense reimbursements	0.39	2.60

⁽¹⁾ Total annual fund operating expenses are deducted from amounts that are allocated to the fund. They include management fees and other expenses and may include distribution (12b-1) fees. Other expenses may include service fees that may be used to compensate service providers, including us and our affiliates, for administrative and contract owner services provided on behalf of the fund. The amount of these payments will vary by fund and may be significant. See "The Variable Account and the Funds" for additional information, including potential conflicts of interest these payments may create. Distribution (12b-1) fees are used to finance any activity that is primarily intended to result in the sale of fund shares. Because 12b-1 fees are paid out of fund assets on an ongoing basis, you may pay more if you select subaccounts investing in funds that have adopted 12b-1 plans than if you select subaccounts investing in funds that have not adopted 12b-1 plans. For a more complete description of each fund's fees and expenses and important disclosure regarding payments the fund and/or its affiliates make, please review the fund's prospectus and SAI.

Examples

These examples are intended to help you compare the cost of investing in the contract with the cost of investing in other variable annuity contracts. These costs include your transaction expenses, contract administrative charges, variable account annual expenses and fund fees and expenses.

These examples assume that you invest \$10,000 in the contract for the time periods indicated. These examples also assume that your investment has a 5% return each year.

Maximum Expenses. These examples assume the most expensive combination of contract features and benefits and the maximum fees and expenses of the funds available with your rider, before fee waivers and/or expense reimbursements. Examples assume that you select optional *SecureSource Core Plus* and *SecureSource Legacy* rider. ⁽¹⁾
⁽²⁾ Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	If you surrender your contract at the end of the applicable time period:				If you do not surrender your contract or if you select an annuity payout plan at the end of the applicable time period:			
	1 year	3 years	5 years	10 years	1 year	3 years	5 years	10 years
RAVA 5 Advantage								
With a ten-year surrender charge schedule	\$1,290	\$2,382	\$3,432	\$6,245	\$570	\$1,751	\$2,980	\$6,245
RAVA 5 Advantage								
With a seven-year surrender charge schedule	1,216	2,336	3,413	6,358	586	1,795	3,051	6,358

Minimum Expenses. These examples assume the least expensive combination of contract features and benefits and the minimum fees and expenses of any of the funds before fee waivers and/or expense reimbursements. They assume that you have the Standard Death Benefit and do not select any optional benefits⁽¹⁾. Although your actual costs may be higher, based on these assumptions your costs would be:

	If you surrender your contract at the end of the applicable time period:				If you do not surrender your contract or if you select an annuity payout plan at the end of the applicable time period:			
	1 year	3 years	5 years	10 years	1 year	3 years	5 years	10 years
RAVA 5 Advantage								
With a ten-year surrender charge schedule	\$932	\$1,269	\$1,481	\$2,087	\$187	\$575	\$ 981	\$2,087
RAVA 5 Advantage								
With a seven-year surrender charge schedule	854	1,214	1,461	2,232	203	622	1,061	2,232

⁽¹⁾ In these examples, the contract administrative charge is \$50.

⁽²⁾ Because these examples are intended to illustrate the most expensive combination of contract features, the maximum annual fee for each optional rider is reflected rather than the fee that is currently being charged.

THE EXAMPLES ARE ILLUSTRATIVE ONLY. YOU SHOULD NOT CONSIDER THESE EXAMPLES AS A REPRESENTATION OF PAST OR FUTURE EXPENSES. ACTUAL EXPENSES WILL BE HIGHER OR LOWER THAN THOSE SHOWN DEPENDING UPON WHICH OPTIONAL BENEFIT YOU ELECT OTHER THAN INDICATED IN THE EXAMPLES OR IF YOU ALLOCATE CONTRACT VALUE TO ANY OTHER AVAILABLE SUBACCOUNTS.

Condensed Financial Information

You can find unaudited condensed financial information for the subaccounts representing the lowest and highest total annual variable account expense combination for each contract in Appendix H.

Financial Statements

You can find our audited financial statements and the audited financial statements of the divisions, which are comprised of subaccounts, in the SAI. The SAI does not include audited financial statements for divisions that are new and have no activity as of the financial statement date.

The Variable Account and the Funds

The variable account: The variable account was established under Minnesota law on Aug. 23, 1995, and the subaccounts are registered together as a single unit investment trust under the Investment Company Act of 1940 (the 1940 Act). This registration does not involve any supervision of our management or investment practices and policies by the SEC. All obligations arising under the contracts are general obligations of RiverSource Life.

The variable account meets the definition of a separate account under federal securities laws. We credit or charge income, capital gains and capital losses of each subaccount only to that subaccount. State insurance law prohibits us from charging a subaccount with liabilities of any other subaccount or of our general business. The variable account includes other subaccounts that are available under contracts that are not described in this prospectus.

The IRS has issued guidance on investor control but may issue additional guidance in the future. We reserve the right to modify the contract or any investments made under the terms of the contract so that the investor control rules do not apply to treat the contract owner as the owner of the subaccount assets rather than the owner of an annuity contract. If the contract is not treated as an annuity contract for tax purposes, the owner may be subject to current taxation on any current or accumulated income credited to the contract.

We intend to comply with all federal tax laws so that the contract qualifies as an annuity for federal tax purposes. We reserve the right to modify the contract as necessary in order to qualify the contract as an annuity for federal tax purposes.

The Funds: The contract currently offers subaccounts investing in shares of the funds. For a list of underlying funds with a summary of investment objectives, investment advisers and subadvisers, please see Appendix A.

Investment objectives: The investment managers and advisers cannot guarantee that the funds will meet their investment objectives.

Please read the funds' prospectuses carefully for facts you should know before investing. These prospectuses are available by contacting us at the address or telephone number listed on the first page of this prospectus.

- **Fund name and management:** A fund underlying your contract in which a subaccount invests may have a name, portfolio manager, objectives, strategies and characteristics that are the same or substantially similar to those of a publicly-traded retail mutual fund. Despite these similarities, an underlying fund is not the same as any publicly-traded retail mutual fund. Each underlying fund will have its own unique portfolio holdings, fees, operating expenses and operating results. The results of each underlying fund may differ significantly from any publicly-traded retail mutual fund.
- **Eligible purchasers:** All funds are available to serve as the underlying investments for variable annuities and variable life insurance policies. The funds are not available to the public (see "Fund name and management" above). Some funds also are available to serve as investment options for tax-deferred retirement plans. It is possible that in the future for tax, regulatory or other reasons, it may be disadvantageous for variable annuity accounts and variable life insurance accounts and/or tax-deferred retirement plans to invest in the available funds simultaneously. Although we and the funds' providers do not currently foresee any such disadvantages, the boards of directors or trustees of each fund will monitor events in order to identify any material conflicts between annuity owners, policy owners and tax-deferred retirement plans and to determine what action, if any, should be taken in response to a conflict. If a board were to conclude that it should establish separate fund providers for the variable annuity, variable life insurance and tax-deferred retirement plan accounts, you would not bear any expenses associated with establishing separate funds. Please refer to the funds' prospectuses for risk disclosure regarding simultaneous investments by variable annuity, variable life insurance and tax-deferred retirement plan accounts. Each fund intends to comply with the diversification requirements under Section 817(h) of the Code.
- **Asset allocation programs may impact fund performance:** Asset allocation programs in general may negatively impact the performance of an underlying fund. Even if you do not participate in an asset allocation program, a fund in which your subaccount invests may be impacted if it is included in an asset allocation program. Rebalancing or reallocation under the terms of the asset allocation program may cause a fund to lose money if it must sell large

amounts of securities to meet a redemption request. These losses can be greater if the fund holds securities that are not as liquid as others; for example, various types of bonds, shares of smaller companies and securities of foreign issuers. A fund may also experience higher expenses because it must sell or buy securities more frequently than it otherwise might in the absence of asset allocation program rebalancing or reallocations. Because asset allocation programs include periodic rebalancing and may also include reallocation, these effects may occur under the asset allocation program we offer or under asset allocation programs used in conjunction with the contracts and plans of other eligible purchasers of the funds.

- **Funds available under the contract:** We seek to provide a broad array of underlying funds taking into account the fees and charges imposed by each fund and the contract charges we impose. We select the underlying funds in which the subaccounts initially invest and when there is substitution (see “Substitution of Investments”). We also make all decisions regarding which funds to retain in a contract, which funds to add to a contract and which funds will no longer be offered in a contract. In making these decisions, we may consider various objective and subjective factors. Objective factors include, but are not limited to fund performance, fund expenses, classes of fund shares available, size of the fund and investment objectives and investing style of the fund. Subjective factors include, but are not limited to, investment sub-styles and process, management skill and history at other funds and portfolio concentration and sector weightings. We also consider the levels and types of revenue, including but not limited to expense payments and non-cash compensation a fund, its distributor, investment adviser, subadviser, transfer agent or their affiliates pay us and our affiliates. This revenue includes, but is not limited to compensation for administrative services provided with respect to the fund and support of marketing and distribution expenses incurred with respect to the fund.
- **Money Market fund yield:** In low interest rate environments, money market fund yields may decrease to a level where the deduction of fees and charges associated with your contract could result in negative net performance, resulting in a corresponding decrease in your contract value.
- **Risks and Conflicts of Interest with Certain Funds Advised by Columbia Management.** We are an affiliate of Ameriprise Financial, Inc., which is the parent company of Columbia Management Investment Advisers, LLC (Columbia Management). Columbia Management acts as investment adviser to several funds of funds, including Portfolio Navigator and Portfolio Stabilizer funds. As such, it retains full discretion over the investment activities and investment decisions of the funds. These funds invest in other registered mutual funds. In providing investment advisory services for the funds and the underlying funds in which those funds respectively invest, Columbia Management is, together with its affiliates, including us, subject to competing interests that may influence its decisions. These competing interests typically arise because Columbia Management Investment Advisers or one of its affiliates serves as the investment adviser to the underlying funds and may provide other services in connection with such underlying funds, and because the compensation we and our affiliates receive for providing these investment advisory and other services varies depending on the underlying fund.
- **Volatility and Volatility Management Risk with the Portfolio Stabilizer funds.** Portfolio Stabilizer funds are managed volatility funds that employ a strategy designed to reduce overall volatility and downside risk. These types of funds are available under the contracts and one or more of these funds may be offered in other variable annuity and variable life insurance products offered by us. These funds may also be used in conjunction with guaranteed living benefit and death benefit riders we offer with various annuity contracts, including the contract. Conflicts may arise because the manner in which these funds and their strategies are executed by Columbia Management are expected to benefit us by reducing our financial risk and expense in offering guaranteed living benefit and death benefit riders. Managed volatility funds employ a strategy to reduce overall volatility and downside risk. A successful strategy may result in smaller losses to your contract value when markets are declining and market volatility is high. In turn, a successful strategy may also result in less gain in your contract value during rising markets with higher volatility when compared to funds not employing a managed volatility strategy. Accordingly, although an investment in the Portfolio Stabilizer funds may mitigate declines in your contract value due to declining equity markets, the Funds’ investment strategies may also curb or decrease your contract value during periods of positive performance by the equity markets. There is no guarantee any of the funds’ strategies will be successful. When offered with a guaranteed living benefit, managed volatility funds may decrease the number and amount of any periodic benefit base increase opportunities. Costs associated with running a managed volatility strategy may also adversely impact the performance of managed volatility funds. While Columbia Management is the investment adviser to the Portfolio Navigator and Portfolio Stabilizer funds, it provides no investment advice to you as to whether an allocation to the funds is appropriate for you. You must decide whether an investment in these funds is right for you. Additional information on the funds, including risks and conflicts of interest, is included in their respective prospectuses. Columbia Management advised fund of funds and managed volatility funds and their investment objectives are in Appendix A.

- **Revenue we receive from the funds and potential conflicts of interest:**

Expenses We May Incur on Behalf of the Funds

When a subaccount invests in a fund, the fund holds a single account in the name of the variable account. As such, the variable account is actually the shareholder of the fund. We, through our variable account, aggregate the transactions of numerous contract owners and submit net purchase and redemption requests to the funds on a daily basis. In addition, we track individual contract owner transactions and provide confirmations, periodic statements, and other required mailings. These costs would normally be borne by the fund, but we incur them instead.

Besides incurring these administrative expenses on behalf of the funds, we also incur distributions expenses in selling our contracts. By extension, the distribution expenses we incur benefit the funds we make available due to contract owner elections to allocate purchase payments to the funds through the subaccounts. In addition, the funds generally incur lower distribution expenses when offered through our variable account in contrast to being sold on a retail basis.

A complete list of why we may receive this revenue, as well as sources of revenue, is described in detail below.

Payments the Funds May Make to Us

We or our affiliates may receive from each of the funds, or their affiliates, compensation including but not limited to expense payments. These payments are designed in part to compensate us for the expenses we may incur on behalf of the funds. In addition to these payments, the funds may compensate us for wholesaling activities or to participate in educational or marketing seminars sponsored by the funds.

We or our affiliates may receive revenue derived from the 12b-1 fees charged by the funds. These fees are deducted from the assets of the funds. This revenue and the amount by which it can vary may create conflicts of interest. The amount, type, and manner in which the revenue from these sources is computed vary by fund.

Conflicts of Interest These Payments May Create

When we determined the charges to impose under the contracts, we took into account anticipated payments from the funds. If we had not taken into account these anticipated payments, the charges under the contract would have been higher. Additionally, the amount of payment we receive from a fund or its affiliate may create an incentive for us to include that fund as an investment option and may influence our decision regarding which funds to include in the variable account as subaccount options for contract owners. Funds that offer lower payments or no payments may also have corresponding expense structures that are lower, resulting in decreased overall fees and expenses to shareholders.

We offer funds managed by our affiliates Columbia Management and Columbia Wanger Asset Management, LLC (Columbia Wanger). We have additional financial incentive to offer our affiliated funds because additional assets held by them generally results in added revenue to us and our parent company, Ameriprise Financial, Inc. Additionally, employees of Ameriprise Financial, Inc. and its affiliates, including our employees, may be separately incented to include the affiliated funds in the products, as employee compensation and business unit operating goals at all levels are tied to the success of the company. Currently, revenue received from our affiliated funds comprises the greatest amount and percentage of revenue we derive from payments made by the funds.

The Amount of Payments We Receive from the Funds

We or our affiliates receive revenue which ranges up to 0.65% of the average daily net assets invested in the funds through this and other contracts we and our affiliates issue.

Why revenues are paid to us: In accordance with applicable laws, regulations and the terms of the agreements under which such revenue is paid, we or our affiliates may receive revenue, including but not limited to expense payments and non-cash compensation, for various purposes:

- Compensating, training and educating financial advisors who sell the contracts.
- Granting access to our employees whose job it is to promote sales of the contracts by authorized selling firms and their financial advisors, and granting access to financial advisors of our affiliated selling firms.
- Activities or services we or our affiliates provide that assist in the promotion and distribution of the contracts including promoting the funds available under the contracts to contract owners, authorized selling firms and financial advisors.
- Providing sub-transfer agency and shareholder servicing to contract owners.
- Promoting, including and/or retaining the fund's investment portfolios as underlying investment options in the contracts.
- Advertising, printing and mailing sales literature, and printing and distributing prospectuses and reports.
- Furnishing personal services to contract owners, including education of contract owners regarding the funds, answering routine inquiries regarding a fund, maintaining accounts or providing such other services eligible for service fees as defined under the rules of the Financial Industry Regulatory Authority (FINRA).
- Subaccounting services, transaction processing, recordkeeping and administration.

- **Sources of revenue received from affiliated funds:** The affiliated funds are managed by Columbia Management or Columbia Wanger. The sources of revenue we receive from these affiliated funds, or from the funds' affiliates, may include, but are not necessarily limited to, the following:
 - Assets of the fund's adviser, sub-adviser, transfer agent, distributor or an affiliate of these. The revenue resulting from these sources may be based either on a percentage of average daily net assets of the fund or on the actual cost of certain services we provide with respect to the fund. We may receive this revenue either in the form of a cash payment or it may be allocated to us.
 - Compensation paid out of 12b-1 fees that are deducted from fund assets.
- **Sources of revenue received from unaffiliated funds:** The unaffiliated funds are not managed by an affiliate of ours. The sources of revenue we receive from these unaffiliated funds, or the funds' affiliates, may include, but are not necessarily limited to, the following:
 - Assets of the fund's adviser, sub-adviser, transfer agent, distributor or an affiliate of these. The revenue resulting from these sources may be based either on a percentage of average daily net assets of the fund or on the actual cost of certain services we provide with respect to the fund. We receive this revenue in the form of a cash payment.
 - Compensation paid out of 12b-1 fees that are deducted from fund assets.

The Guarantee Period Accounts (GPAs)

The GPAs may not be available for contracts in some states (currently not available in Connecticut, Illinois and Oregon).

Currently, unless you have elected one of the optional living benefit riders, the *SecureSource Legacy* benefit or the *Enhanced Legacy* benefit rider, you may allocate purchase payments to one or more of the GPAs with guarantee periods declared by us. These periods of time may vary by state. The required minimum investment in each GPA is \$1,000. These accounts are not offered after the annuitization start date.

Each GPA pays an interest rate that is declared when you make an allocation to that account. Interest is credited daily. That interest rate is then fixed for the guarantee period that you chose. We will periodically change the declared interest rate for any future allocations to these accounts, but we will not change the rate paid on money currently in a GPA. The GPA interests under the contracts are registered with the SEC (File No.333-230957). The SEC staff reviews the disclosures in this prospectus on the GPA interests.

The interest rates that we will declare as guaranteed rates in the future are determined by us at our discretion (future rates).

These rates generally will be based on various factors related to future investment earnings. **We cannot predict nor can we guarantee what future rates will be.**

We hold amounts you allocate to the GPAs in a "nonunitized" separate account. This separate account provides an additional measure of assurance that we will make full payment of amounts due under the GPAs. We own the assets of this separate account as well as any favorable investment performance of those assets. You do not participate in the performance of the assets held in this separate account. We guarantee all benefits relating to your value in the GPAs. This guarantee is based on the continued claims-paying ability of the company's general account. You should be aware that our general account is exposed to the risks normally associated with a portfolio of fixed-income securities, including interest rate, option, liquidity and credit risk. The financial statements contained in the SAI include a further discussion of the risks inherent within the investments of the general account.

We intend to construct and manage the investment portfolio relating to the separate account in such a way as to minimize the impact of fluctuations in interest rates. We achieve this by constructing a portfolio of assets with a price sensitivity to interest rate changes (i.e., price duration) that is similar to the price duration of the corresponding portfolio of liabilities.

We must invest this portfolio of assets in accordance with requirements established by applicable state laws regarding the nature and quality of investments that life insurance companies may make and the percentage of their assets that they may commit to any particular type of investment. Our investment strategy will incorporate the use of a variety of debt instruments having price durations tending to match the applicable guarantee periods. These instruments include, but are not necessarily limited to, the following:

- Securities issued by the U.S. government or its agencies or instrumentalities, which issues may or may not be guaranteed by the U.S. government;
- Debt securities that have an investment grade, at the time of purchase, within the four highest grades assigned by any of three nationally recognized rating agencies — Standard & Poor's, Moody's Investors Service or Fitch — or are rated in the two highest grades by the National Association of Insurance Commissioners;

- Debt instruments that are unrated, but which are deemed by RiverSource Life to have an investment quality within the four highest grades;
- Other debt instruments which are unrated or rated below investment grade, limited to 15% of assets at the time of purchase; and
- Real estate mortgages, limited to 30% of portfolio assets at the time of acquisition.

In addition, options and futures contracts on fixed income securities will be used from time to time to achieve and maintain appropriate investment and liquidity characteristics on the overall asset portfolio.

While this information generally describes our investment strategy, we are not obligated to follow any particular strategy except as may be required by federal law and Minnesota and other state insurance laws.

Market Value Adjustment (MVA)

We will not apply an MVA to contract value you transfer or surrender out of the GPAs during the 30-day period ending on the last day of the guarantee period. During this 30 day window you may choose to start a new guarantee period of the same length, transfer the contract value from the specified GPA to a GPA of another length, transfer the contract value from the specified GPA to any of the subaccounts or the regular fixed account, or surrender the value from the specified GPA (all subject to applicable surrender and transfer provisions). If we do not receive any instructions by the end of your guarantee period, we will automatically transfer the contract value from the specified GPA into the shortest GPA term offered in your state.

We guarantee the contract value allocated to the GPAs, including interest credited, if you do not make any transfers or surrenders from the GPAs prior to 30 days before the end of the guarantee period (30-day rule). At all other times, and unless one of the exceptions to the 30-day rule described below applies, we will apply an MVA if you surrender or transfer contract value from a GPA or you elect an annuity payout plan while you have contract value invested in a GPA. We will refer to these transactions as “early surrenders.” The application of an MVA may result in either a gain or loss of principal.

The 30-day rule does not apply and no MVA will apply to:

- amounts surrendered under contract provisions that waive surrender charges for Hospital or Nursing Home Confinement and Terminal Illness Diagnosis; and
- amounts deducted for fees and charges.

Amounts we pay as death claims will not be reduced by any MVA.

When you request an early surrender, we adjust the early surrender amount by an MVA formula. The early surrender amount reflects the relationship between the guaranteed interest rate you are earning in your current GPA and the interest rate we are crediting on new GPAs that end at the same time as your current GPA.

The MVA is sensitive to changes in current interest rates. The magnitude of any applicable MVA will depend on our current schedule of guaranteed interest rates at the time of the surrender, the time remaining in your guarantee period and your guaranteed interest rate. The MVA is negative, zero or positive depending on how the guaranteed interest rate on your GPA compares to the interest rate of a new GPA for the same number of years as the guarantee period remaining on your GPA. This is summarized in the following table:

If your GPA rate is:	The MVA is:
Less than the new GPA rate + 0.10%	Negative
Equal to the new GPA rate + 0.10%	Zero
Greater than the new GPA rate + 0.10%	Positive

If the MVA is negative, the early surrender amount will be decreased. If the MVA is positive, the early surrender amount will be increased. For the MVA formula and an example, see Appendix B.

The General Account

The general account includes all assets owned by RiverSource Life, other than those in the variable account and our other separate accounts. Subject to applicable state law, we have sole discretion to decide how assets of the general account will be invested. The assets held in our general account support the guarantees under your contract including any optional benefits offered under the contract. You should be aware that our general account is exposed to many of the same risks normally associated with a portfolio of fixed-income securities including interest rate, option, liquidity and credit risk. You should also be aware that we issue other types of annuities and financial instruments and products as well, and these obligations are satisfied from the assets in our general account. Our general account is not segregated or insulated from the claims of our creditors. The financial statements contained in the SAI include a further discussion of the risks inherent within the investments of the general account. The fixed account is supported by our general account that we make available under the contract.

The Fixed Account

Amounts allocated to the fixed account are part of our general account. The fixed account includes the regular fixed account and the Special DCA fixed account. We credit interest daily on amounts you allocate to the fixed account at rates we determine from time to time at our discretion. Interest rates credited in excess of the guaranteed rate generally will be based on various factors related to future investment earnings. The guaranteed minimum interest rate on amounts invested in the fixed account will not be lower than state law allows. We back the principal and interest guarantees relating to the fixed account. These guarantees are subject to the creditworthiness and continued claims-paying ability of RiverSource Life.

One year after receipt of each purchase payment or transfer, the rate for the payment or transfer amount, and its accumulated interest, may change. Interest will accrue at revised rates determined by us and at our discretion. These rates may be based on various factors including, but not limited to, the interest rate environment, returns earned on investments backing these annuities, the rates currently in effect for new and existing company annuities, product design, competition, and the company's revenues and expenses. However, the rate will never be less than the fixed account minimum interest rate shown under your contract. Your interest rate for each purchase payment or transfer will never change more frequently than annually.

Because of exemptive and exclusionary provisions, we have not registered interests in the fixed account as securities under the Securities Act of 1933 nor have any of these accounts been registered as investment companies under the Investment Company Act of 1940. Accordingly, neither the fixed account nor any interests in the fixed account are subject to the provisions of these Acts.

The fixed account has not been registered with the SEC. Disclosures regarding the fixed account, however, are subject to certain generally applicable provisions of the federal securities laws relating to the accuracy and completeness of statements made in a prospectus.

The Regular Fixed Account

Unless you have elected a living benefit rider, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider, you also may allocate purchase payments or transfer contract value to the regular fixed account. The value of the regular fixed account increases as we credit interest to the account. We credit and compound interest daily based on a 365-day year (366 in a leap year) so as to produce the annual effective rate which we declare. The interest rate we apply to each purchase payment or transfer to the regular fixed account is guaranteed for one year. Thereafter, we will change the rates from time to time at our discretion, but your interest rate for each purchase payment or transfer will never change more frequently than annually. There are restrictions on transfers from this account and may be restrictions on the amount you can allocate to this account. (See "Making the Most of Your Contract — Transfer policies".)

The Special DCA Fixed Account

You may allocate purchase payments to the Special DCA fixed account. You may not transfer contract value to the Special DCA fixed account.

You may allocate your entire purchase payment to the Special DCA fixed account for a term of six or twelve months. We reserve the right to offer shorter or longer terms for the Special DCA fixed account.

In accordance with your investment instructions, we transfer amounts from the Special DCA fixed account to the subaccounts so that, at the end of the Special DCA fixed account term, the balance of the Special DCA fixed account is zero. The amount of each transfer equals the remaining Special DCA fixed account value on the date of the transfer divided by the number of remaining transfers in the program. You may not change the amount of transfers. The first Special DCA monthly transfer occurs one day after we receive your payment. You may not use the regular fixed account or any GPA as a destination for the Special DCA monthly transfer.

The value of the Special DCA fixed account increases when we credit interest to the Special DCA fixed account, and decreases when we make monthly transfers from the Special DCA fixed account. When you allocate a purchase payment to the Special DCA fixed account, the interest rates applicable to that purchase payment will be the rates in effect for the Special DCA fixed account term you choose on the date we receive your purchase payment. The applicable interest rate is guaranteed for the length of the term for the Special DCA fixed account term you choose. We credit and compound interest daily based on a 365-day year (366 in a leap year) so as to produce the annual effective rate which we declare. We credit interest only on the declining balance of the Special DCA fixed account; we do not credit interest on amounts that have been transferred from the Special DCA fixed account. As a result, the net effective interest rates we credit will be less than the declared annual effective rates. We will credit the Special DCA fixed account with interest at the same annual effective rate we apply to the regular fixed account on the date we receive your purchase payment, regardless of the length of the term you select. From time to time, we may credit interest to the Special DCA fixed account at promotional rates that are higher than those we credit to the regular fixed account. We reserve the right to declare different annual effective rates:

- for the Special DCA fixed account and the regular fixed account; and
- for the Special DCA fixed accounts with terms of differing length.

Alternatively, you may allocate your purchase payment to any combination of the following which equals one hundred percent of the amount you invest:

- the Special DCA fixed account for a six month term;
- the Special DCA fixed account for a twelve month term;
- the approved investment options for the *Enhanced Legacy* benefit rider, the *SecureSource Legacy* benefit rider, one of the *SecureSource* series riders and APB riders;
- unless you have elected one of the optional living benefit riders, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider, to the regular fixed account, the GPAs, if available, and/or the subaccounts, subject to investment minimums and other restrictions we may impose on investments in the regular fixed account and the GPAs.

Once you establish a Special DCA fixed account, you cannot allocate additional purchase payments to it. However, you may establish another Special DCA fixed account and allocate new purchase payments to it.

You may discontinue any Special DCA fixed account before the end of its term by giving us notice. If you do so, we will transfer the remaining balance of the Special DCA fixed account: 1) to the approved investment options, if a living benefit rider, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider is elected, 2) either in accordance with your investment instructions to us or to the regular fixed account, if available and if no living benefit rider, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider is elected. Transfers are subject to investment minimums and other restrictions we may impose on investments in the regular fixed account, including but not limited to, any limitations described in this prospectus on transfers (see "Transfer policies").

Dollar-cost averaging from the Special DCA fixed account does not guarantee that any subaccount will gain in value nor will it protect against a decline in value if market prices fall. For a discussion of how dollar-cost averaging works, see "Making the Most of your Contract — Automated Dollar-Cost Averaging."

Buying Your Contract

With the assistance of your financial advisor, you can complete an application and your financial advisor will send it along with your initial purchase payment to our Service Center.

The contract offers a choice of a seven-year or ten-year surrender charge schedule and mortality and expense risk fees that vary by surrender charge schedule. We are required by law to obtain personal information from you which we will use to verify your identity. If you do not provide this information we reserve the right to refuse to issue your contract or take other steps we deem reasonable. As the owner, you have all rights and may receive all benefits under the contract. You may buy a qualified or nonqualified annuity. Generally, you can own a nonqualified annuity in joint tenancy with rights of survivorship only in spousal situations. You cannot own a qualified annuity in joint tenancy. You can buy a contract if you are 90 or younger.

When you apply, you may select (if available in your state):

- GPAs, the regular fixed account, subaccounts and/or the Special DCA fixed account in which you want to invest;
- how you want to make purchase payments;
- a beneficiary;
- the length of the surrender charge period (seven or ten years);
- one of the following optional death benefit riders:
 - ROPP Death Benefit (available if you are age 80 or older);

- MAV Death Benefit; or
- 5-Year MAV Death Benefit.
- one of the following additional optional death benefit riders:
 - Benefit Protector Death Benefit; or
 - *Enhanced Legacy* Benefit; or
 - *SecureSource Legacy* Benefit.
- one of the following optional living benefit riders:
 - For contracts with applications signed on or after 5/3/2021:
 - *SecureSource Tempo*;
 - *SecureSource 5*;
 - *SecureSource 5 Plus*;
 - *SecureSource Core 2*;
 - For contracts with applications signed prior to 5/3/2021:
 - *SecureSource Core*;
 - *SecureSource 4*; or
 - *SecureSource 4 Plus*.
 - For contracts with applications signed prior to 3/30/2020:
 - *Accumulation Protector Benefit* rider;
 - *SecureSource Core Plus*.

We restrict investment options if you select a *SecureSource* series rider, APB rider, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider and you are required to allocate your purchase payments and contract value to the approved investment options, as described in the “Investment Allocation Restrictions for Certain Benefit Riders” section in this prospectus.

The contract provides for allocation of purchase payments to the subaccounts of the variable account, to the GPAs, to the regular fixed account and/or to the Special DCA fixed account subject to the \$1,000 required minimum investment for the GPAs. We currently allow you to allocate the total amount of purchase payment to the regular fixed account. We reserve the right to limit purchase payment allocations to the regular fixed account at any time on a non-discriminatory basis with notification, subject to state restrictions. You cannot allocate purchase payments to the fixed account for six months following a partial surrender from the fixed account, a lump sum transfer from the regular fixed account, or termination of automated transfers from the Special DCA fixed account prior to the end of the Special DCA fixed account term.

If your application is complete, we will process it and apply your purchase payment to your investment selections within two business days after we receive it at our Service Center. If we accept your application, we will send you a contract. If your application is not complete, you must give us the information to complete it within five business days. If we cannot accept your application within five business days, we will decline it and return your payment unless you specifically ask us to keep the payment and apply it once your application is complete.

We will credit additional eligible purchase payments you make to your accounts on the valuation date we receive them. If we receive an additional purchase payment at our Service Center before the close of business, we will credit any portion of that payment allocated to the subaccounts using the accumulation unit value we calculate on the valuation date we received the payment. If we receive an additional purchase payment at our Service Center at or after the close of business, we will credit any portion of that payment allocated to the subaccounts using the accumulation unit value we calculate on the next valuation date after we received the payment.

You may make regular payments to your contract under a scheduled payment plan. You must make an initial purchase payment of \$1,000 or \$2,000 depending on the tax qualification (see “Buying Your Contract — Purchase Payments”). Once the required initial purchase payment amount has been met, you can begin the scheduled payment plan by sending a completed form to the Service Center. Certain qualified plan applications allow the establishment of a scheduled payment plan without meeting the required initial purchase payment amount. Contact your financial advisor for details. There is no charge for the scheduled payment plan. You can stop your scheduled payment plan payments at any time.

Householding and delivery of certain documents

With your prior consent, RiverSource Life and its affiliates may use and combine information concerning accounts owned by members of the same household and provide a single paper or electronic copy of certain documents to that household. This householding of documents may include prospectuses, supplements, annual reports, semiannual

reports and proxies. Your authorization remains in effect unless we are notified otherwise. If you wish to continue receiving multiple copies of these documents, you can opt out of householding by calling us at 1.866.273.7429. Multiple mailings will resume within 30 days after we receive your opt out request.

Purchase Payments

Purchase payment amounts and purchase payment timing may vary by state and be limited under the terms of the contract. If we do not receive your initial purchase payment within 180 days from the application signed date, we will consider your contract void from the start. For contracts with a *SecureSource* series rider, if we do not receive your initial purchase payment within 90 days from the application signed date, we will consider your contract void from the start.

Minimum initial purchase payments*

Qualified annuities	\$1,000
Nonqualified annuities	\$2,000

Minimum additional purchase payments*

\$50

Maximum total purchase payments** (without our approval) based on the contract year and your age on the effective date of the payment:

For the first contract year and total:

through age 85	\$1,000,000
for ages 86 to 90	\$100,000
age 91 or older	\$0

For each contract year thereafter if maximum purchase payment not already received:

through age 85	\$100,000
for ages 86 to 90	\$50,000
age 91 or older	\$0

* If a group billing arrangement is set up through your employer, the minimum initial and minimum additional purchase payment is \$25.

** These limits apply in total to all RiverSource Life annuities you own unless a higher amount applies to your contract. We reserve the right to waive or increase the maximum limit. For qualified annuities, the Code's limits on annual contributions also apply. Additional purchase payments for inherited IRA contracts cannot be made unless the payment is IRA money inherited from the same decedent.

Additional purchase payment restrictions for contracts with the *SecureSource* series rider

The rider prohibits additional purchase payments if:

- (1) you decline any increase to the annual rider fee, or
- (2) for the *SecureSource Tempo*, *SecureSource 5*, *SecureSource 5 Plus*, *SecureSource 4* and *SecureSource 4 Plus*, the Current Annual Payment is established and your contract value on an anniversary is less than four times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or
- (3) for the *SecureSource Core 2*, *SecureSource Core* and *SecureSource Core Plus*, the Current Annual Payment is established and your contract value on an anniversary is less than four times the Current Annual Payment.

Additional purchase payment restrictions for contracts with the Accumulation Protector Benefit rider

Additional purchase payments for contracts with the Accumulation Protector Benefit rider are not allowed during the Waiting Period except for the first 180 days (1) immediately following the effective date and (2) following the last contract anniversary for each elective step up.

For contracts with *SecureSource* series, Accumulation Protector Benefit and *SecureSource Legacy* riders, subject to state restrictions, we reserve the right to change these purchase payment limitations, including making further restrictions, upon prior written notice.

How to Make Purchase Payments

1 By letter

Send your check along with your name and contract number to:

RiverSource Life Insurance Company
70100 Ameriprise Financial Center
Minneapolis, MN 55474

2 By scheduled payment plan

We can help you set up a bank authorization.

Limitations on Use of Contract

If mandated by applicable law, including but not limited to, federal anti-money laundering laws, we may be required to reject a purchase payment. We may also be required to block an owner's access to contract values and satisfy other statutory obligations. Under these circumstances, we may refuse to implement requests for transfers, surrenders or death benefits until instructions are received from the appropriate governmental authority or court of competent jurisdiction.

The Annuitization Start Date

Annuity payouts begin on the annuitization start date. This means that the contract will be annuitized (converted to a stream of monthly payments). If your contract is annuitized, the contract goes into payout and only the annuity payout provisions continue. You will no longer have access to your contract value. This means that the death benefit and any optional benefits you have elected will end. When we process your application, we will establish the annuitization start date to be the maximum age (or contract anniversary if applicable). You also can change the annuitization start date, provided you send us written instructions at least 30 days before annuity payouts begin.

The annuitization start date must be:

- no earlier than the 30th day after the contract's effective date; and no later than
- the owner's 95th birthday or the tenth contract anniversary, if later,
- or such other date as agreed to by us.

Six months prior to your annuitization start date, we will contact you with your options including the option to postpone your annuitization start date to a future date. You can also choose to delay the annuitization of your contract to a date beyond age 95, to the extent allowed by applicable state law and tax laws.

If you do not make an election, annuity payouts using the contract's default option of annuity payout Plan B — Life Income with 10 years certain will begin on the annuitization start date and your monthly annuity payments will continue for as long as the annuitant lives. If the annuitant does not survive 10 years, we will continue to make payments until 10 years of payments have been made (see "The Annuity Payout Period – Annuity Payout Plans").

Generally, if you own a qualified annuity (for example, an IRA) and tax laws require that you take distributions from your annuity prior to your annuitization start date, your contract will not be automatically annuitized (subject to state requirements). However, if you choose, you can elect to request annuitization or take partial surrenders to meet your required minimum distributions.

Please see "SecureSource Tempo/SecureSource Core 2/SecureSource 5/SecureSource 5 Plus/SecureSource Core/SecureSource Core Plus/SecureSource 4/SecureSource 4 Plus — Other Provisions" section regarding options under this rider at the annuitization start date.

Beneficiary

We will pay to your named beneficiary the death benefit if it becomes payable while the contract is in force and before the annuitization start date. If there is more than one beneficiary we will pay each beneficiary's designated share when we receive their completed claim. A beneficiary will bear the investment risk of the variable account until we receive the beneficiary's completed claim. If there is no named beneficiary, then the default provisions of your contract will apply. (See "Benefits in Case of Death" for more about beneficiaries.)

If you select one of the *SecureSource series* riders — Joint Life rider, please consider carefully whether or not you wish to change the beneficiary of your annuity contract. The rider will terminate if the surviving covered spouse cannot utilize the spousal continuation provision of the contract when the death benefit is payable.

Charges

Contract Administrative Charge

We charge this fee for establishing and maintaining your records. Currently, we deduct \$50* from your contract value on your contract anniversary or, if earlier, when the contract is fully surrendered. We prorate this charge among the GPAs, the fixed account and the subaccounts in the same proportion your interest in each account bears to your total contract value.

We will waive this charge when your contract value is \$50,000 or more on the current contract anniversary. We reserve the right to charge up to \$20 after the first contract anniversary for contracts with contract value of \$50,000 or more.

If you take a full surrender of your contract, we will deduct the charge at the time of surrender regardless of the contract value. This charge does not apply to amounts applied to an annuity payment plan or to the death benefit (other than when deducted from the Full Surrender Value component of the death benefit).

* Prior to 5/4/2020, the contract administrative charge is \$30. Also, for contracts with applications signed before 5/4/2020, the contract administrative charge is \$30 through the first contract anniversary and \$50 thereafter.

Mortality and Expense Risk Fee

We charge this fee daily to the subaccounts. The unit values of your subaccounts reflect this fee. These fees cover the mortality and expense risk that we assume. These fees do not apply to the GPAs or the fixed account. We cannot increase these fees.

The mortality and expense risk fee you pay is based on the death benefit guarantee in effect and the surrender charge schedule that applies to your contract and contract year of your contract.

RAVA 5 Advantage with ten-year surrender charge schedule	Mortality and expense risk fee
Standard Death Benefit	0.95%
ROPP Death Benefit ⁽¹⁾	1.30
MAV Death Benefit	1.20
5-year MAV Death Benefit	1.05

RAVA 5 Advantage with seven-year surrender charge	Mortality and expense risk fee
Through the 10th contract anniversary	
Standard Death Benefit	1.10%
ROPP Death Benefit ⁽¹⁾	1.45
MAV Death Benefit	1.35
5-year MAV Death Benefit	1.20

After the 10th contract anniversary	Mortality and expense risk fee
Standard Death Benefit	0.95%
ROPP Death Benefit ⁽¹⁾	1.30
MAV Death Benefit	1.20
5-year MAV Death Benefit	1.05

⁽¹⁾ Only available for purchase as an optional rider for ages 80 or older on the rider effective date.

Mortality risk arises because of our guarantee to pay a death benefit and our guarantee to make annuity payouts according to the terms of the contract, no matter how long a specific owner or annuitant lives and no matter how long our entire group of owners or annuitants live. If, as a group, owners or annuitants outlive the life expectancy we assumed in our actuarial tables, we must take money from our general assets to meet our obligations. If, as a group, owners or annuitants do not live as long as expected, we could profit from the mortality risk fee. We deduct the mortality risk fee from the subaccounts during the annuity payout period even if the annuity payout plan does not involve a life contingency.

Expense risk arises because we cannot increase the contract administrative charge (except for contracts with contract value of \$50,000 or more, where we reserve the right to charge a contract administrative change up to \$20 after the first contract anniversary) and this charge may not cover our expenses. We would have to make up any deficit from our general assets. We could profit from the expense risk fee if future expenses are less than expected.

The subaccounts pay us the mortality and expense risk fee they accrued as follows:

- first, to the extent possible, the subaccounts pay this fee from any dividends distributed from the funds in which they invest;
- then, if necessary, the funds redeem shares to cover any remaining fees payable.

We may use any profits we realize from the subaccounts' payment to us of the mortality and expense risk fee for any proper corporate purpose, including, among others, payment of distribution (selling) expenses. We do not expect that the surrender charge discussed in the following paragraphs, will cover sales and distribution expenses.

Surrender Charge

If you surrender all or part of your contract before the annuitization start date, we may deduct a surrender charge. A surrender charge applies if all or part of the surrender amount is from purchase payments we received within seven or ten years before surrender. You select the surrender charge period at the time of your application for the contract. The surrender charge percentages that apply to you are shown in your contract.

If you are buying a new contract as an inherited IRA, please consider carefully your surrender charge selection. Surrender charges for an inherited IRA are only waived for life time RMD amounts, not for a 5 year distribution.

You may surrender an amount during any contract year without a surrender charge. We call this amount the total free amount (FA). The FA varies depending on whether your contract includes the *SecureSource* series rider. Contract earnings are defined as contract value (the sum of the contract value in the Regular Fixed Account, contract value in the Special DCA Fixed Account, contract value in the Variable Account, and contract value in the GPAs), less purchase payments not previously surrendered, but not less than zero.

Contract without *SecureSource* series rider

The FA is the greater of:

- 10% of the contract value on the prior contract anniversary, less any prior surrenders taken in the current contract year; or
- current contract earnings.

During the first contract year, the FA is the greater of:

- 10% of all purchase payments applied prior to your surrender request, less any amounts surrendered prior to your surrender request that represent the FA; or
- current contract earnings.

Contract with *SecureSource* series rider

The FA is the greatest of:

- 10% of the contract value on the prior contract anniversary less any prior surrenders taken in the current contract year;
- current contract earnings; or
- the Remaining Annual Payment.

During the first contract year, the FA is the greatest of:

- 10% of all purchase payments applied prior to your surrender request, less any amounts surrendered prior to your surrender request that represent the FA;
- current contract earnings; or
- the Remaining Annual Payment.

Amounts surrendered in excess of the FA may be subject to a surrender charge as described below.

A surrender charge will apply if the amount you surrender includes any of your prior purchase payments that are still within their surrender charge schedule. To determine whether your surrender includes any of your prior purchase payments that are still within their surrender charge schedule, we surrender amounts from your contract in the following order:

1. First, we surrender the FA. Contract earnings are surrendered first, followed by purchase payments. We do not assess a surrender charge on the FA. We surrender payments that are considered part of the FA on a first-in, first-out (FIFO) basis.
2. Next, we surrender purchase payments received that are beyond the surrender charge period shown in your contract. We surrender these payments on a FIFO basis. We do not assess a surrender charge on these payments.
3. Finally, we surrender any additional purchase payments received that are still within the surrender charge period shown in your contract. We surrender these payments on a FIFO basis. We do assess a surrender charge on these payments.

The amount of purchase payments surrendered is calculated using a prorated formula based on the percentage of contract value being surrendered. As a result, the amount of purchase payments surrendered may be greater than the amount of contract value surrendered.

We determine your surrender charge by multiplying each of your payments surrendered which could be subject to a surrender charge by the applicable surrender charge percentage (see “Expense Summary”), and then adding the total surrender charges.

Partial surrenders:

For a partial surrender, we will determine the amount of contract value that needs to be surrendered, which after any surrender charge and any positive or negative market value adjustment, will equal the amount you request.

For an example, see Appendix C.

Fixed payouts: Surrender charge under annuity payout plans allowing surrenders of the present value of remaining guaranteed payouts:

If you elect an annuity payout plan on a fixed basis and the plan we make available provides a liquidity feature permitting you to surrender any portion of the underlying value of remaining guaranteed payouts, a surrender charge may apply.

A surrender charge will be assessed against the present value of any remaining guaranteed payouts surrendered. The discount rate we use in determining present values varies based on: (1) the contract value originally applied to the fixed annuitization; (2) the remaining years of guaranteed payouts; (3) the annual effective interest rate and the periodic payment amount for new immediate annuities of the same duration as the remaining years of guaranteed payouts; and (4) the interest spread (currently 1.50%). If we do not currently offer immediate annuities, we will use rates and values applicable to new annuitizations to determine the discount rate.

Once the discount rate is applied and we have determined the present value of the remaining guaranteed payouts you are surrendering, the present value determined will be multiplied by the surrender charge percentage in the table below and deducted from the present value to determine the net present value you will receive.

Number of Completed Years Since Annuitization	Surrender charge percentage
0	Not applicable*
1	5%
2	4
3	3
4	2
5	1
6 and thereafter	0

*We do not permit surrenders in the first year after annuitization.

We will provide a quoted present value (which includes the deduction of any surrender charge). You must then formally elect, in a form acceptable to us, to receive this value. The remaining guaranteed payouts following surrender will be reduced, possibly to zero.

Waiver of surrender charges

We do not assess surrender charges for:

- surrenders each year that represent the total free amount for that year;
- required minimum distributions from a qualified annuity to the extent that they exceed the free amount. The amount on which surrender charges are waived can be no greater than the RMD amount calculated under your specific contract currently in force. Surrender charges for an inherited IRA are only waived for life time RMD amounts, not for a 5 year distribution;
- amounts applied to an annuity payment plan (**Exception:** As described below, if we agree to allow you to elect annuity payments under a term certain installment plan and you choose later to surrender the value of your remaining annuity payments, we will assess a surrender charge.);
- surrenders made as a result of one of the “Contingent events” described below to the extent permitted by state law. Waiver of surrender charges for Contingent events will not apply to Tax Free Exchanges, rollovers and transfers to another annuity contract;
- amounts we refund to you during the free look period; and
- death benefits.

Contingent events

- Surrenders you make if you are confined to a hospital or nursing home and have been for the prior 60 days or confinement began within 30 days following a 60 day confinement period. Such confinement must begin after the contract issue date. Your contract will include this provision when you are under age 76 at contract issue. You must

provide us with a letter containing proof satisfactory to us of the confinement as of the date you request the surrender. We must receive your surrender request no later than 91 days after your release from the hospital or nursing home. The amount surrendered must be paid directly to you.

- Surrenders you make if you are diagnosed in the second or later contract years with a medical condition that with reasonable medical certainty will result in death within 12 months or less from the date of the diagnosis. You must provide us with a licensed physician's statement containing the terminal illness diagnosis, the expected date of death and the date the terminal illness was initially diagnosed. The amount surrendered must be paid directly to you.

Other information on charges: Ameriprise Financial, Inc. makes certain custodial services available to some profit sharing, money purchase and target benefit plans funded by our annuities. Fees for these services start at \$30 per calendar year per participant. Ameriprise Financial, Inc. will charge a termination fee for owners under age 59 ½ (fee waived in case of death or disability).

Possible group reductions: In some cases we may incur lower sales and administrative expenses due to the size of the group, the average contribution and the use of group enrollment procedures. In such cases, we may be able to reduce or eliminate certain charges such as the contract administrative and surrender charges. However, we expect this to occur infrequently.

Optional Living Benefit Charges

SecureSource Tempo Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (before any Returns-linked Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base. The maximum Benefit Base is \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource Tempo* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource Tempo* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource Tempo* — Single Life rider fee will not exceed a maximum of 2.50%. The *SecureSource Tempo* — Joint Life rider fee will not exceed a maximum of 2.50%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.50%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.

(A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:

(i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,

(ii) any ability to make additional purchase payments,

(iii) any future Returns-linked Credits, and the Returns-linked Credit Base, Credit Carryover, Maximum Credit and Maximum Carryover will be permanently set to zero, and

(iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see "*SecureSource Tempo* rider – Lifetime Payment Percentage").

(B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.

2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource Tempo* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource Core 2 Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base of \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource Core 2* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource Core 2* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource Core 2 — Single Life* rider fee will not exceed a maximum of 2.50%. The *SecureSource Core 2 — Joint Life* rider fee will not exceed a maximum of 2.50%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.50%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.

(A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:

(i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,

(ii) any ability to make additional purchase payments,

(iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and

(iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see "*SecureSource Core 2* rider – Lifetime Payment Percentage").

(B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.

2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource Core 2* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource 5 Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base. The maximum Benefit Base is \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the SecureSource 5 rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the SecureSource 5 rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The SecureSource 5 — Single Life rider fee will not exceed a maximum of 2.50%. The SecureSource 5 — Joint Life rider fee will not exceed a maximum of 2.50%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.50%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.
 - (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “SecureSource 5 rider – Lifetime Payment Percentage”).
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the SecureSource 5 rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource 5 Plus Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base. The maximum Benefit Base is \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the

payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource 5 Plus* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource 5 Plus* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource 5 Plus* — Single Life rider fee will not exceed a maximum of 2.50%. The *SecureSource 5 Plus* — Joint Life rider fee will not exceed a maximum of 2.50%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.50%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.
 - (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “*SecureSource 5 Plus* rider – Lifetime Payment Percentage”).
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource 5 Plus* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource Core Plus Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added or Base Doubler is applied) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base of \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource Core Plus* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource Core Plus* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource Core Plus* — Single Life rider fee will not exceed a maximum of 2.75%. The *SecureSource Core Plus* — Joint Life rider fee will not exceed a maximum of 2.75%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.75%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.
 - (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero,
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “*SecureSource Core Plus* rider – Lifetime Payment Percentage”), and
 - (v) any future Base Doubler adjustment and the Base Doubler will be permanently set to zero.
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource Core Plus* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource 4 Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base. The maximum Benefit Base is \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource 4* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource 4* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource 4* — Single Life rider fee will not exceed a maximum of 2.25%. The *SecureSource 4* — Joint Life rider fee will not exceed a maximum of 2.25%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.25%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.

- (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “*SecureSource 4* rider – Lifetime Payment Percentage”).
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource 4* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

SecureSource 4 Plus Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current annual rider fees applicable to the contract issued while this prospectus is in effect are shown in the Rate Sheet Prospectus Supplement.

The charge is calculated by multiplying the annual rider fee by the greater of the Benefit Base (after any applicable Annual Credit is added) or the anniversary contract value, unless the contract value is greater than the maximum Benefit Base. The maximum Benefit Base is \$20 million. In that case, the charge will be calculated by multiplying the annual rider fee by the maximum Benefit Base.

We deduct the charge from your contract value on your contract anniversary. Remember, since the charge is taken on a contract anniversary all purchase payments received during the preceding calendar year will increase your charge. This is especially important to consider when you make purchase payments near your contract anniversary because the payment amount increases your contract value and will result in an increased rider anniversary charge. We prorate this charge among variable accounts and subaccounts but not the fixed account in the same proportion as your interest in each bears to your total variable account value.

Once you elect the *SecureSource 4 Plus* rider, you may not cancel it (except as described below), and the charge will continue to be deducted until the contract or rider is terminated or until the contract value reduces to zero. If the contract or rider is terminated for any reason, we will deduct the charge, adjusted for the number of calendar days coverage was in place since we last deducted the charge.

Currently the *SecureSource 4 Plus* rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *SecureSource 4 Plus* — Single Life rider fee will not exceed a maximum of 2.25%. The *SecureSource 4 Plus* — Joint Life rider fee will not exceed a maximum of 2.25%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.25%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance except as described below. The new fee will be in effect on the date we declare in the written notice.
 - (A) You can decline this increase and therefore all future fee increases if we receive your written request prior to the date of the fee increase, in which case you permanently relinquish:
 - (i) all future annual step-ups, and for the Joint Life rider, spousal continuation step-ups,
 - (ii) any ability to make additional purchase payments,
 - (iii) any future Annual Credits, and the Credit Base will be permanently set to zero, and
 - (iv) any increase to the Lifetime Payment Percentage due to changing age bands on subsequent birthdays and rider anniversaries (see “*SecureSource 4 Plus* rider – Lifetime Payment Percentage”).
 - (B) You can terminate this rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase and if we receive your written request to terminate the rider prior to the date of the fee increase.

- The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. Currently the *SecureSource 4 Plus* rider fee does not vary with the investment option selected.

If the rider fee changes during a contract year, we will calculate an average annual rider fee, for that contract year only, that reflects the various different fees that were in effect for each investment option that contract year, adjusted for the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

The fee does not apply after the annuitization start date or if the rider is terminated.

Accumulation Protector Benefit Rider Charge

We deduct an annual charge for this optional feature only if you select it. The current initial annual rider fee is 1.30%*. The charge is calculated by multiplying the annual rider fee by the greater of your contract value or the Minimum Contract Accumulation Value (as defined in the “Optional Living Benefits — Accumulation Protector Benefit Rider” section) on your contract anniversary. We prorate this charge among all accounts and subaccounts in the same proportion as your interest in each bears to your total contract value. We will modify this prorated approach to comply with state regulations where necessary.

Currently the Accumulation Protector Benefit rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each approved investment option, but it will not exceed the maximum fee of 2.00%.

The following describes how your annual rider fee may change:

- We may change the annual rider fee for any approved investment options at our discretion and on a nondiscriminatory basis up to a maximum fee of 2.00%. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance. The new fee will be in effect on the date we declare in the written notice. You can terminate this rider if you are invested in any investment option that has an increase and if we receive your written request to terminate the rider prior to the date of the fee increase. However, in order to be eligible for termination you must be invested in that investment option on the eligibility date we specify in the written notice. Currently the Accumulation Protector Benefit rider fee does not vary with the investment option selected.
- We may also change the annual rider fee(s) if you exercise the elective step-up option or elective spousal continuation step up. You do not have the option to terminate the rider if the fee increases due to an elective step-up.

If multiple rider fees are in effect during a contract year, we will calculate an average annual rider fee, based on the number of days each fee was in effect and the percentage of contract value allocated to each investment option.

Once you elect the Accumulation Protector Benefit rider, you may not cancel it and the charge will continue to be deducted through the end of the Waiting Period.

If your contract or rider is terminated for any reason including payment of the death benefit, the rider charge will be deducted, adjusted for the number of days coverage was in place during the contract year.

The fee does not apply after the Benefit Date or after the annuitization start date.

* For contracts with applications signed prior to 10/28/2019, the initial annual rider fee is 1.15%.

The annual rider fee for elective step ups (including elective spousal continuation step up) requests:

Elective step up date:	Maximum annual rider fee	Annual rider fee
Prior to 12/30/2019	2.00%	1.15%
12/30/ 2019 – 07/20/2020	2.00%	1.30%
07/21/2020 and later	2.00%	2.00%

Optional Death Benefit Charges

Benefit Protector Rider Charge

We deduct a charge for this optional feature only if you select it. If selected, we deduct an annual fee of 0.25% of your contract value on your contract anniversary. We prorate this charge among all accounts and subaccounts in the same proportion your interest in each account bears to your total contract value. We will modify this prorated approach to comply with state regulations when necessary.

If the contract or rider is terminated for any reason except your election to terminate the rider during the 30 day window after certain anniversaries, we will deduct the charge from the contract value adjusted for the number of calendar days coverage was in place during the contract year.

We cannot increase this annual fee after the rider effective date.

Enhanced Legacy Benefit Rider Charge

We deduct an annual charge from your contract value on your contract anniversary for this optional feature only if you select it. The current annual rider fee is 0.95%. We prorate this charge among the variable subaccounts, but not the fixed account in the same proportion your interest in each account bears to your total variable account contract value on your contract anniversary.

Prior to age 86, the charge is calculated on your contract anniversary by multiplying the annual rider fee by the greater of the ROPP value, ADB value (after any increase is added), MAV or the contract value. On or following age 86, the charge is calculated on your contract anniversary by multiplying the annual rider fee by the greater of the ROPP value, ADB value or MAV.

Currently the *Enhanced Legacy* benefit rider fee does not vary with the investment option selected; however, we reserve the right to vary the rider fee for each investment option. The *Enhanced Legacy* benefit rider fee will not exceed a maximum of 1.75%.

The following describes how your annual rider fee may increase:

1. We may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance. The new fee will be in effect on the date we declare in the written notice. You can terminate this rider if we receive your written request prior to the date of the fee increase. Currently the *Enhanced Legacy* benefit rider fee does not vary with the investment option selected.
2. The annual rider fee associated with a specified investment option may change at our discretion. If you are invested in any investment option that has an increase in the associated annual rider fee, your annual rider fee will increase. If you change your investment allocation to an investment option not affected by a fee increase, this move will count against the number of transfers allowed. We do not currently limit the number of transfers allowed each contract year.

If your rider fee changes during the contract year, on the next contract anniversary we will calculate an average rider fee for the preceding contract year only that reflects the various different fees that were in effect for each investment option in that year, adjusted for the number of calendar days each fee was in effect and the percentage of contract value allocated to each investment option.

If your contract or rider is terminated for any reason, the rider charge will be deducted, adjusted for the number of days coverage was in place during the contract year, and further charges for this rider will terminate.

The fee does not apply after the annuitization start date.

SecureSource Legacy Benefit Rider Charge

We deduct an annual charge for this optional feature only if you select it. For contracts with applications signed on or after 5/4/2020, the current annual rider fee is 0.35%. For contracts with applications signed prior to 5/4/2020, the current annual rider fee is 0.25%.

We prorate this charge among the variable subaccounts, but not the fixed account in the same proportion your interest in each account bears to your total variable account contract value on your contract anniversary.

The charge is calculated on your contract anniversary by multiplying the annual rider fee by the greater of the *SecureSource Legacy* benefit amount or the contract value.

For contracts with applications signed on or after 5/4/2020, the *SecureSource Legacy* benefit rider fee will not exceed a maximum of 0.50%. For contracts with applications signed prior to 5/4/2020, the *SecureSource Legacy* benefit rider fee will not exceed a maximum of 0.40%.

Currently the *SecureSource Legacy* benefit rider fee does not vary with the investment option selected; however, we may increase the annual rider fee for all approved investment options at our discretion and on a nondiscriminatory basis. Your annual rider fee will increase if we declare an increase to the fee with written notice 30 days in advance. The new fee will be in effect on the date we declare in the written notice. You can terminate this rider if we receive your written request prior to the date of the fee increase.

If your rider fee changes during the contract year, on the next contract anniversary we will calculate an average rider fee for that contract year only, adjusted for the number of calendar days each fee was in effect.

If your contract or rider is terminated for any reason, the rider charge will be deducted, adjusted for the number of days coverage was in place during the contract year, and further charges for this rider will terminate.

The fee does not apply after the annuitization start date.

Fund Fees and Expenses

There are deductions from and expenses paid out of the assets of the funds that are described in the prospectuses for those funds.

Premium Taxes

Certain state and local governments impose premium taxes on us (up to 3.5%). These taxes depend upon your state of residence or the state in which the contract was issued. Currently, we deduct any applicable premium tax when annuity payouts begin, but we reserve the right to deduct this tax at other times such as when you make purchase payments or when you make a full surrender from your contract.

Valuing Your Investment

We value your accounts as follows:

GPA

We value the amounts you allocate to the GPA directly in dollars. The GPA value equals:

- the sum of your purchase payments and transfer amounts allocated to the GPA;
- plus interest credited;
- minus the sum of amounts surrendered (including any applicable surrender charges) and amounts transferred out;
- minus any prorated portion of the contract administrative charge; and
- minus the prorated portion of the charge for the Benefit Protector Death Benefit, if selected.

The Fixed Account

We value the amounts you allocate to the fixed account directly in dollars. The value of the fixed account equals:

- the sum of your purchase payments allocated to the regular fixed account and the Special DCA fixed account, and transfer amounts to the regular fixed account (including any positive or negative MVA on amounts transferred from the GPAs);
- plus interest credited;
- minus the sum of amounts surrendered (including any applicable surrender charges) and amounts transferred out;
- minus any prorated portion of the contract administrative charge; and
- minus any prorated portion of the charge for any of the following optional benefits you have selected:
 - Benefit Protector Death Benefit;
 - *Enhanced Legacy* benefit rider;
 - *SecureSource Legacy* benefit rider;
 - *SecureSource* series rider; or
 - Accumulation Protector Benefit rider.

Subaccounts

We convert amounts you allocated to the subaccounts into accumulation units. Each time you make a purchase payment or transfer amounts into one of the subaccounts, we credit a certain number of accumulation units to your contract for that subaccount. Conversely, we subtract a certain number of accumulation units from your contract each time you take a partial surrender, transfer amounts out of a subaccount, or we assess a contract administrative charge, a surrender charge or fee for any optional riders with annual charges (if applicable).

The accumulation units are the true measure of investment value in each subaccount during the accumulation period. They are related to, but not the same as, the net asset value of the fund in which the subaccount invests. The dollar value of each accumulation unit can rise or fall daily depending on the variable account expenses, performance of the fund and on certain fund expenses. Here is how we calculate accumulation unit values:

Number of units: to calculate the number of accumulation units for a particular subaccount we divide your investment by the current accumulation unit value.

Accumulation unit value: the current accumulation unit value for each subaccount equals the last value times the subaccount's current net investment factor.

We determine the net investment factor by:

- adding the fund's current net asset value per share, plus the per share amount of any accrued income or capital gain dividends to obtain a current adjusted net asset value per share; then
- dividing that sum by the previous adjusted net asset value per share; and
- subtracting the percentage factor representing the mortality and expense risk fee from the result.

Because the net asset value of the fund may fluctuate, the accumulation unit value may increase or decrease. You bear all the investment risk in a subaccount.

Factors that affect subaccount accumulation units: accumulation units may change in two ways — in number and in value.

The number of accumulation units you own may fluctuate due to:

- additional purchase payments you allocate to the subaccounts;
- transfers into or out of the subaccounts (including any positive or negative MVA on amounts transferred from the GPAs);
- partial surrenders;
- surrender charges;

and a deduction of a prorated portion of:

- the contract administrative charge; and
- the charge for any of the following optional benefits you have selected:
 - Benefit Protector Death Benefit;
 - *Enhanced Legacy* benefit rider;
 - *SecureSource Legacy* benefit rider;
 - *SecureSource* series rider; or
 - Accumulation Protector Benefit rider.

Accumulation unit values will fluctuate due to:

- changes in fund net asset value;
- fund dividends distributed to the subaccounts;
- fund capital gains or losses;
- fund operating expenses; and/or
- mortality and expense risk fees.

Making the Most of Your Contract

Automated Dollar-Cost Averaging

Currently, you can use automated transfers to take advantage of dollar-cost averaging (investing a fixed amount at regular intervals).

For example, you might transfer a set amount monthly from a relatively conservative subaccount to a more aggressive one, or to several others, or from the regular fixed account to one or more subaccounts. You may not set up automated transfers to or from the GPAs or set up an automated transfer to the regular fixed account. You can also obtain the benefits of dollar-cost averaging by setting up regular automatic payments under a scheduled payment plan.

There is no charge for dollar-cost averaging.

This systematic approach can help you benefit from fluctuations in accumulation unit values caused by fluctuations in the market values of the funds. Since you invest the same amount each period, you automatically acquire more units when the market value falls and fewer units when it rises. The potential effect is to lower your average cost per unit.

How dollar-cost averaging works

By investing an equal number of dollars each month

you automatically buy more units when the per unit market price is low

and fewer units when the per unit market price is high.

Month	Amount invested	Accumulation unit value	Number of units purchased
Jan	\$100	\$20	5.00
Feb	100	18	5.56
Mar	100	17	5.88
Apr	100	15	6.67
May	100	16	6.25
June	100	18	5.56
July	100	17	5.88
Aug	100	19	5.26
Sept	100	21	4.76
Oct	100	20	5.00

You paid an average price of \$17.91 per unit over the 10 months, while the average market price actually was \$18.10.

Dollar-cost averaging does not guarantee that any subaccount will gain in value nor will it protect against a decline in value if market prices fall. Because dollar-cost averaging involves continuous investing, your success will depend upon your willingness to continue to invest regularly through periods of low price levels. Dollar-cost averaging can be an effective way to help meet your long-term goals. For specific features contact your financial advisor.

Asset Rebalancing

You can ask us in writing to automatically rebalance the subaccount portion of your contract value either quarterly, semiannually, or annually. The period you select will start to run on the date we record your request. On the first valuation date of each of these periods, we automatically will rebalance your contract value so that the value in each subaccount matches your current subaccount percentage allocations. These percentage allocations must be in whole numbers. There is no charge for asset rebalancing. The contract value must be at least \$2,000.

You can change your percentage allocations or your rebalancing period at any time by contacting us in writing. We will restart the rebalancing period you selected as of the date we record your change. You also can ask us in writing to stop rebalancing your contract value. You must allow 30 days for us to change any instructions that currently are in place. For more information on asset rebalancing, contact your financial advisor.

Contracts issued with the *SecureSource Tempo* rider have different rebalancing rules. (See “Investment Allocation Restrictions for Certain Benefit Riders – Investment Allocation Restrictions for the *SecureSource Tempo* Rider – Rebalancing for Investment Path 2”)

The *Income Guide*SM Program

Income Guide is an optional service we currently offer without charge. It does not change or otherwise modify any of the other benefits, features, charges, or terms and conditions associated with your annuity contract. The purpose of the program is to provide reporting and monitoring of withdrawals you take from your annuity. The reporting and monitoring is designed to provide you information that may assist you in considering whether to adapt your withdrawals over time.

For the purpose of *Income Guide* program, the term “systematic withdrawals” is the same as “automated systematic surrenders”.

The assumptions we used in the program are not customized or individualized to your circumstances. Program participants and their unique individual circumstances will vary from the program assumptions, creating differing results. The simulations we used in connection with the program do not include any contract or underlying fund charge assumptions other than a mortality and expense risk charge of 1.0%. Your contract value may be depleted prior to the end of the program. If you follow the program and make downward adjustments to your withdrawals to remain in the “On Track” status, the amount of your withdrawal can significantly decline over time.

Income Guide is a withdrawal monitoring service. The program establishes what we call a “Prudent Income Amount” which is based on your contract value, age, and the other program assumptions described below. We calculate the Prudent Income Amount daily using the following factors:

- (1) the age of the participant, (the age of the younger participant under the Joint Option);
- (2) the contract value;
- (3) Prudent Income Percentages.

The current Prudent Income Amount is determined by multiplying the current contract value by the current Prudent Income Percentage. The Prudent Income Amount is a hypothetical withdrawal amount with a minimum 90% probability that if taken and no withdrawal adjustments are made, withdrawals at that amount would not deplete the contract value prior to age 95 (age 100 for joint), or 8 years if longer. Please refer to the *Prudent Income Amount* section below for details on the assumptions we used to create the Prudent Income Percentages and the operation of the Prudent Income Amount.

Income Guide compares the annual total of the monthly systematic withdrawals you have elected to the current Prudent Income Amount we have calculated to determine your current status in the program. The current status provides you information on the current sustainability of your rate of withdrawal by comparing it to the Prudent Income Amount.

The program allows you to elect to have withdrawal income monitored based on one person (the “Single Option”) or two persons (the “Joint Option”). We refer to each person covered under *Income Guide* as a participant. *Income Guide* is most effective when you use it in consultation with your financial advisor.

Income Guide is not a guaranteed income option and it is not backed by our general account. If you need income guaranteed for life or another specified period of time, you should not rely on using *Income Guide*. For guaranteed income options, consider a guaranteed lifetime withdrawal benefit such as our *SecureSource* series rider, annuitization options, or other annuity contracts that provide guaranteed lifetime income riders or benefits.

Any withdrawals you make from your contract may result in surrender charges, taxes and tax penalties. In addition, withdrawals may result in a proportional reduction to the standard death benefit and any optional death benefit you have elected.

As part of the *Income Guide* program, we provide you with information regarding your withdrawal amount, but we do not determine whether to make adjustments to your withdrawal amount or investment allocation. You need to decide what changes or adjustments may be right for you, or whether to seek the assistance of a financial advisor in making any decisions, based on the information provided and your given needs and circumstances.

Program Availability

Income Guide is only available if the servicing broker-dealer on your contract is Ameriprise Financial Services, LLC (“AFS”) which is our affiliate and we only currently offer variable annuity contracts through AFS. We may modify or end the availability of *Income Guide* at any time in our sole discretion. We will notify you 30 days in advance of any changes to *Income Guide* or if we end the program. Advance notice will not be given for any changes we decide to make to the Prudent Income Percentages.

Income Guide is not available if your contract has a *SecureSource series* or Accumulation Protector Benefit riders.

In addition, in order to enroll in *Income Guide*, the following eligibility requirements must be met.

- (1) One of the *Income Guide* participants must be an owner or annuitant under the contract.
- (2) Your contract cannot be a beneficially owned IRA.
- (3) You cannot be withdrawing substantially equal periodic payments as defined in the Internal Revenue Code. These payments are calculated in part using your life expectancy and place limits on the ability to increase withdrawals beyond a certain amount without incurring tax consequences.
- (4) If you have a systematic withdrawal program established, you may not elect to set your withdrawal amount net of surrender charges or market value adjustment and the frequency of withdrawal must be set at monthly. You cannot have more than one systematic withdrawal program established at the same time.
- (5) Your contract cannot have any active or deemed loans on it.
- (6) Your contract must have an Ameriprise advisor registered with AFS assigned as the agent of record on your contract.
- (7) All participants covered by the program must be at least age 50 and no older than age 85.

These eligibility requirements apply to any post-enrollment changes you may elect to make, such as changing or adding participants.

Advance notice will not be given for the events listed below that automatically terminate *Income Guide*.

- (1) You modify your systematic withdrawal program to a frequency other than monthly or you have more than one systematic withdrawal program in effect.
- (2) You take a loan on the contract.
- (3) On any contract anniversary where the participant (for joint, youngest participant) attained the maximum age of 95 in the preceding contract year.
- (4) The death benefit under the contract becomes payable.

- (5) You elect a systematic withdrawal program to take substantially equal periodic payments as defined in the Internal Revenue Code. These payments are calculated in part using your life expectancy and place limits on the ability to increase withdrawals beyond a certain amount without incurring tax consequences.
- (6) AFS is no longer the servicing broker-dealer on your contract.
- (7) Your contract terminates for any reason, including full surrender, the contract value reaches zero, or when you annuitize your entire contract (this does not apply to partial annuitizations which are permitted while you participate in *Income Guide*).

In the event of a change in ownership, systematic withdrawals are suspended, but you would continue to be enrolled in the *Income Guide*.

Enrolling in the Income Guide Program

You may elect to enroll in the *Income Guide* program at any time as long as we continue to offer it and you meet the eligibility requirements of participation. At the time of your enrollment, you will be required to complete an *Income Guide* Enrollment Form or verbally acknowledge your understanding of the program if we permit enrollment via telephone. In connection with enrollment, you will be asked whether you want the Single Option or Joint Option. You also will be required to provide the birthdate and sex of each participant covered under *Income Guide*. We use the age provided at enrollment to calculate the Prudent Income Amount.

If you are funding your contract through multiple sources that would involve making more than one initial purchase payment, you should consider waiting to enroll in *Income Guide* until your contract is fully funded. A large purchase payment not taken into account will result in a lower initial Prudent Income Amount being calculated. If your systematic withdrawal amount is based on all intended payments, then the amount you are withdrawing will be higher than the Prudent Income Amount that is calculated before we receive all intended purchase payments which may affect your *Income Guide* status.

After enrolling, we will permit you to modify the selected option (Single Option or Joint Option) or to change the participants. Any changes are subject to the conditions stated in the Program Availability section above.

Withdrawal Monitoring and Reporting

Income Guide is designed to assist you and your financial advisor in managing the withdrawal of money out of your annuity contract to provide income. To aid in managing your withdrawals, we currently provide periodic reports to you and your financial advisor. This includes a detailed annual report we provide on each contract anniversary and a brief summary on the consolidated statements you receive either monthly or quarterly from AFS. These reports include an *Income Guide* status based on the Prudent Income Amount calculated on the date we produce the report. The reporting and the status are designed to provide you information regarding the current sustainability of your current withdrawal amount by comparing it to the current Prudent Income Amount. We provide no other reporting, so you should review your consolidated statement and annual report to see if your status under the program has changed. You also can review your current daily status by logging into your account on amperiprise.com. We reserve the right to modify the reporting we provide under the program at any time and in our sole discretion.

The table below summarizes the definitions of each status under the program.

<i>Income Guide</i> Status Definitions			
Attention Needed	Caution	On Track	More Available
Prudent Income Amount is more than 20% below your current annual withdrawal amount	Prudent Income Amount is from 10.1% to 20% below your current annual withdrawal amount	Prudent Income Amount is from 10% below up to 24.9% above your current annual withdrawal amount	Prudent Income Amount is more than 25% or more above your current annual withdrawal amount

We use descriptive terminology to describe each status. When you are in the On Track status we may refer to your withdrawal rate as “currently sustainable.” When you are in the Caution status, we refer to your withdrawal rate as “near a point where it may not be sustainable.” When you are in the Attention Needed status, we refer to your withdrawal rate as “may not be sustainable.” Finally, if your current withdrawal amount places you in the “More Available” status, we refer to you as having “more options available” because the Prudent Income Amount is at least 25% higher than your current withdrawal amount. These statuses, including the accompanying explanations, are merely descriptive and do not represent a specific level of actual sustainability or probability of your contract value not being depleted. Please note if you are in the “More Available” status and you utilize contract value for other purposes it may create adverse consequences in the future, including increasing the possibility and extent of future status changes and the possibility of running out of money prior to the end of the program.

The following *Income Guide* statuses are used in our periodic reporting.

<i>Income Guide Status</i>	What the Status Means
Attention Needed	Based on your contract value, it is projected that your withdrawal amount may not be sustainable.
Caution	Based on your contract value, it is projected that your withdrawal amount is near a point where it may not be sustainable.
On Track	Based on your contract value, it is projected that your withdrawal amount is currently sustainable. Please note that the minimum 90% probability assumed in the program only applies to the Prudent Income Amount and not to the “On Track” status which includes a range above and below the current Prudent Income Amount.
More Available	Based on your contract value and withdrawal amount, it is projected there are more options available.

These statuses are not designed to be, nor should they be construed as, investment advice. They are based on a comparison of your current annual withdrawal amount versus the current Prudent Income Amount. They also can aid you in tracking how close your current rate of withdrawal is to the Prudent Income Amount. In the end, your unique financial situation and the advice of your financial advisor should be utilized in assessing your *Income Guide* status and your utilization of the program as a whole. **Please note, the longer you are in the Attention Needed status without adjusting withdrawals the greater the likelihood that you will deplete your contract value.**

If you enroll in *Income Guide* without electing a systematic withdrawal, then no status will be reported, but you will be provided the Prudent Income Amount.

If you completely suspend your withdrawals, we will also no longer report a status. This, however, does not mean that subsequently restarting withdrawals will result in a sustainable rate of withdrawal. When you restart your withdrawals, a current Prudent Income Amount will be compared to your current withdrawal amount to determine a current status. Also, remember that a change in ownership will automatically suspend systematic withdrawals.

***Income Guide* does not take into account your unique financial situation, including how you allocate your contract value to available investment options and the allocation of your contract value to equities or bonds. Your investment returns, including the deduction of any fund fees and expenses, will differ from program assumptions. In addition, the fees and charges we assumed in calculating values under the program will differ from the actual fees and charges on your contract. This is due in part to the fact that we did not assume certain charges, including the contract administrative charge and optional benefit charges.**

The methods, assumptions and simulations we used to develop the Prudent Income Percentages may not be appropriate or correct for a given contract owner. Individual results can vary widely and will impact the frequency of status changes and how often you may want to make adjustments to your withdrawals. You must decide whether to modify withdrawals or take any other action with respect to your contract based on the status we report, and whether to consult with your financial advisor.

The Prudent Income Amount

We use your current age, contract value, and Prudent Income Percentage to calculate your current Prudent Income Amount. We may modify these factors used to calculate your Prudent Income Amount at any time and in our sole discretion. We, RiverSource Life Insurance Company, solely determined what assumptions to use in deriving the Prudent Income Amount

Since the Prudent Income Amount is calculated daily and fluctuates based on age and current contract value, the program does not guarantee or result in a steady stream of income or provide any type of guaranteed cash value or guaranteed benefit.

The Prudent Income Percentages are derived from a series of random simulations based on the following assumptions:

- an investment allocation of 50% in equities and 50% in bonds;
- average annual returns, after the deduction of all fund fees and expenses, of 9.0% on the equity allocation and 4.0% on the bond allocation that grades upward to 6.0% over a ten year period;
- average portfolio volatility of 9.0%;
- a 1.0% average annual mortality and expense risk fee being assessed; and
- taking level withdrawals each month.

The average annual return assumptions of 9.0% for the equity allocation and the 4.0% - 6.0% for the bond allocation are net return assumptions. This means these return assumptions would be after the deduction of all underlying fund fees and expenses. Contract charges other than the 1.0% mortality and expense risk fee, if they apply to you, were not included in the assumptions. This includes the contract administrative charge, surrender charges, and charges associated with optional benefits available under the contract. The “Charges” section of the prospectus provides additional details on the amount and applicability of these charges.

Since these assumptions are not customized to you, your circumstances will differ and the minimum 90% probability of withdrawals lasting for the duration of the program without the need to make any adjustments to the amount of withdrawals may be higher or lower than the probability used in developing the Prudent Income Percentages.

Your results under the program will vary. In general, if you have lower returns, higher volatility, higher fees, or you make additional withdrawals, then the probability of your withdrawal amount being sustainable will be lower than assumed under the program. In contrast, if you have higher returns, lower volatility, lower fees, or make additional purchase payments, then the probability of your withdrawal amount being sustainable will generally be higher than assumed under the program. In addition, if you experience long-term periods where your contract value is continually declining due to deviations from the assumptions mentioned above, you will need to repeatedly decrease the amount of your withdrawal to stay in the “On Track” status. Also, while unlikely, your contract value may be depleted before age 95 even if you follow the program.

It is important to remember that only the age of the participant and the contract value are specific to your contract. All of the factors used in determining the Prudent Income Percentages are general and not individualized or otherwise customized to you, your contract allocation, or any other circumstances specific to you.

The following factors related to your contract experience will impact your *Income Guide* status and the probability of withdrawals (without adjusting under the program) lasting for the duration of the program:

- (1) the fees, average annual total returns and volatility of the underlying funds you have elected;
- (2) the specific fees of your contract;
- (3) additional purchase payments to the contract;
- (4) withdrawals in addition to the monthly systematic withdrawal;
- (5) partial annuitizations; or
- (6) your actual life expectancy or retirement horizon.

The assumptions were utilized to run a series of random simulations. These simulations were used to establish the Prudent Income Percentages which are based on a level amount of income (without adjusting under the program) that provides a minimum 90% or greater probability of contract value lasting to age 95 (age 100 for joint), or for 8 years, whichever is longer. As with any simulation, your actual experience will be different and our methodology could have an error.

The Prudent Income Percentages change over time based on age. The table below shows the current Prudent Income Percentages utilized. In the case of the Joint Option, the youngest participant’s age is used to determine the Prudent Income Percentages.

Prudent Income Percentages

Participant Age	Single Option	Joint Option	Participant Age	Single Option	Joint Option	Participant Age	Single Option	Joint Option
50	3.0%	2.5%	66	4.6%	4.1%	81	6.3%	5.8%
51	3.1%	2.6%	67	4.7%	4.2%	82	6.6%	6.1%
52	3.2%	2.7%	68	4.8%	4.3%	83	6.9%	6.4%
53	3.3%	2.8%	69	4.9%	4.4%	84	7.2%	6.7%
54	3.4%	2.9%	70	5.0%	4.5%	85	7.5%	7.0%
55	3.5%	3.0%	71	5.1%	4.6%	86	8.0%	7.5%
56	3.6%	3.1%	72	5.2%	4.7%	87	8.5%	8.0%
57	3.7%	3.2%	73	5.3%	4.8%	88	9.0%	8.5%
58	3.8%	3.3%	74	5.4%	4.9%	89	9.5%	9.0%
59	3.9%	3.4%	75	5.5%	5.0%	90	10.0%	9.5%
60	4.0%	3.5%	76	5.6%	5.1%	91	10.5%	10.0%
61	4.1%	3.6%	77	5.7%	5.2%	92	11.0%	10.5%
62	4.2%	3.7%	78	5.8%	5.3%	93	11.5%	11.0%
63	4.3%	3.8%	79	5.9%	5.4%	94	12.0%	11.5%

Participant Age	Single Option	Joint Option	Participant Age	Single Option	Joint Option	Participant Age	Single Option	Joint Option
64	4.4%	3.9%	80	6.0%	5.5%	95	12.5%	12.0%
65	4.5%	4.0%						

The Prudent Income Percentage is multiplied by the contract value to determine the current Prudent Income Amount. The Prudent Income Amount will change over time due to changes in the contract value and the age of the participants covered under the program.

Although the Prudent Income Percentage increases with age, the Prudent Income Amount may not increase over time because a decreasing contract value can more than offset any increase in the Prudent Income Percentage. An increase in the Prudent Income Percentage does not protect against inflation.

Refer to “Example of a Prudent Income Amount Calculation” below to see how the Prudent Income Percentage is used to create a Prudent Income Amount.

By increasing with age, the Prudent Income Percentages result in less contract value being required to be in the “On Track” status. As a result, the Prudent Income Amount is not designed to preserve the level of your contract value. Following the monitoring program, however, including making adjustments to your rate of withdrawal over the life of the program, will increase the likelihood that your contract value will not be exhausted prior to the end of the program.

The assumptions used in determining values under *Income Guide* including investment and performance, are not tied in any way to your allocation of contract value and its performance. Your actual contract results can vary significantly from the performance we assumed in calculating the Prudent Income Amount.

The Prudent Income Amount is not a guarantee of present or future income and is not intended, nor should it be construed as, any form of investment advice.

If your contract is funding an employer sponsored plan such as a retirement plan established under Section 403(b) or 401(a) of the Code, your ability to begin a systematic withdrawal or to change one may be subject to plan sponsor approval. To determine whether there are any plan based restrictions on *Income Guide*, contact your plan sponsor.

Example of a Prudent Income Amount Calculation

Below is an example of how *Income Guide* calculates the Prudent Income Amount and assigns the status of the sustainability of your withdrawals.

At the time of enrollment, assume the following:

- (1) you have elected the Single Option;
- (2) you are age 65;
- (3) your monthly systematic withdrawal amount is \$350.00 (\$4,200.00 annually); and
- (4) your contract value is \$100,000.00.

Using these assumptions when you enroll, to calculate the Prudent Income Amount, the contract value is multiplied by the Prudent Income Percentage, which is 4.5%.

$$\$100,000.00 \times 4.5\% = \$4,500.00$$

In this case, the Prudent Income Amount is about 7.1% above your annual withdrawal amount. This results in being assigned a status of “On Track.”

Let’s assume six months after enrollment, you are still age 65 and your contract value is now \$95,000. When you multiply the current contract value by the Prudent Income Percentage you get the following Prudent Income Amount.

$$\$95,000.00 \times 4.5\% = \$4,275.00$$

In this case, the Prudent Income Amount is about 1.8% above your annual withdrawal amount. This results in being assigned a status of “On Track.”

Let’s assume one year after enrollment, you are now age 66 and your contract value is now \$82,000. When you multiply the current contract value by the Prudent Income Percentage you get the following Prudent Income Amount.

$$\$82,000.00 \times 4.6\% = \$3,772.00$$

In this case, the Prudent Income Amount is about 10.2% below your annual withdrawal amount. This results in being assigned a status of “Caution.”

Potential Benefits of the Income Guide Program

Income Guide can aid you in creating a non-guaranteed stream of income through systematic withdrawals from your contract. This can be beneficial if your need for income is flexible and does not require the guarantees associated with either a guaranteed minimum withdrawal benefit rider or exercising your option to annuitize. Withdrawals in connection with *Income Guide* may be subject to surrender charges, taxes and tax penalties. In contrast, payments under a guaranteed minimum withdrawal benefit rider or annuitization are not subject to surrender charges. In addition, if you use *Income Guide* and you have a non-qualified contract you are not receiving any potential benefits of the exclusion ratio associated with annuitization. The exclusion ratio allows you to spread the cost basis of your contract value over time, generally resulting in payments being partially income tax-free while the exclusion ratio is in effect. In contrast, *Income Guide* systematically withdraws contract value and for non-qualified contracts this results in taxable earnings being considered to be withdrawn first. A financial advisor can help you understand each of the income options available to you.

In cases where your *Income Guide* status becomes “More Available” there may be opportunities to increase your withdrawal rate, lock-in guaranteed income through partial annuitization, or use a portion of your contract value for other purposes. In consultation with your financial advisor, you can determine whether one or more of these options are right for you. Please keep in mind increases in the amount you withdraw may be subject to additional surrender charges, taxes and tax penalties. In addition, withdrawals will reduce your contract value and will proportionally reduce your standard death benefit and any optional death benefit you have elected. Increases in withdrawals can also have adverse future consequences, including increasing the possibility of future status changes and the possibility of running out of money prior to the end of the program.

Potential Risks of the Income Guide Program

Income Guide, including the Prudent Income Amount, is not a guarantee of income. If your annuity contract value is depleted your contract and any benefits associated with it, including *Income Guide*, will end without value.

In instances where your contract enters the “Attention Needed” status, even if you take steps to address the status such as lowering withdrawals from your contract, it is possible depending on continued performance of your contract that you could re-enter or remain in the status for an extended period of time. If you do not adjust your withdrawals when you are in the “Attention Needed” status, it could substantially increase the likelihood your contract value will be depleted, especially if you remain in this status for an extended period of time without making any adjustments.

Income Guide does not provide any additional waiver of any applicable surrender charge. This means in cases where your contract is subject to a surrender charge, any amounts withdrawn in excess of the free amount will be assessed a surrender charge, including any instance where you are withdrawing at a level equal to the Prudent Income Amount. For additional information on surrender charges, refer to the “Surrender Charge” subsection of the “Charges” section of this prospectus.

If your contract is issued on a qualified basis, you are subject to certain required minimum distribution rules for federal tax purposes. These rules may require you to take withdrawals out of your annuity that exceed the Prudent Income Amount. If this occurs, taking the required withdrawals may increase the likelihood that you will deplete your annuity contract over time.

If your relationship with your advisor ends, you will no longer receive assistance using the *Income Guide* service. If your contract continues to be serviced by AFS, but you have ended your relationship with the financial advisor with whom you set up *Income Guide*, *Income Guide* will continue, and you should request AFS assign you another advisor to assist you with maximizing the effectiveness of *Income Guide*. We cannot guarantee that AFS will assign you an advisor that will assist you with *Income Guide*.

If you rely on *Income Guide* for managing your income needs and the service terminates, either because we choose to no longer offer it or a circumstance arises where automatic termination occurs, you may be in a position where you cannot find a means to manage or monitor your income going forward. Remember, in any instance where AFS is no longer the servicing broker-dealer of record for your contract, *Income Guide* will automatically terminate.

Transferring Among Accounts

The transfer rights discussed in this section do not apply if you have selected one of the optional living benefit riders, the *Enhanced Legacy* benefit rider or *SecureSource Legacy* benefit rider, unless noted otherwise. For transfer rights involving investment options under optional living benefit riders, the *Enhanced Legacy* benefit rider or *SecureSource Legacy* benefit rider, please see “Investment Allocation Restrictions for Certain Benefit Riders” section.

You may transfer contract value from any one subaccount, GPAs, the regular fixed account and the Special DCA fixed account, to another subaccount before the annuitization start date. Certain restrictions apply to transfers involving the GPAs and the regular fixed account. You may not transfer contract value to the Special DCA fixed account. You may not transfer contract value from the Special DCA fixed account except as part of automated monthly transfers.

The date your request to transfer will be processed depends on when and how we receive it:

For transfer requests received in writing:

- If we receive your transfer request at our Service Center in good order before the close of the NYSE (4:00 pm Eastern time unless the NYSE closes earlier), we will process your transfer using the accumulation unit value we calculate on the valuation date we received your transfer request.
- If we receive your transfer request at our Service Center in good order at or after the close of the NYSE (4:00 pm Eastern time unless the NYSE closes earlier), we will process your transfer using the accumulation unit value we calculate on the next valuation date after we received your transfer request.

For transfer requests received by phone:

- If we receive your transfer request at our Service Center in good order before the close of the NYSE (4:00 pm Eastern time unless the NYSE closes earlier), we will process your transfer using the accumulation unit value we calculate on the valuation date we received your transfer request.
- If we receive your transfer request at our Service Center in good order at or after the close of the NYSE (4:00 pm Eastern time unless the NYSE closes earlier), we will process your transfer using the accumulation unit value we calculate on the next valuation date after we received your transfer request.

There is no charge for transfers. Before making a transfer, you should consider the risks involved in changing investments. Transfers out of the GPAs will be subject to an MVA if done more than 30 days before the end of the guarantee period, unless an exception applies.

We may suspend or modify transfer privileges at any time, subject to state regulatory requirements.

For information on transfers after annuity payouts begin, see “Transfer policies” below.

Transfer policies

- Before the annuitization start date, you may transfer contract values between the subaccounts, or from the subaccounts to the GPAs and the regular fixed account at any time. However, if you made a transfer from the regular fixed account to the subaccounts or the GPAs, took a partial surrender from the fixed account or terminated automated transfers from the Special DCA fixed account, you may not make a transfer from any subaccount or GPA to the regular fixed account for six months following that transfer, partial surrender or termination.
- You may transfer contract values from the regular fixed account to the subaccounts or the GPAs once a year on or within 30 days before or after the contract anniversary (except for automated transfers, which can be set up at any time for certain transfer periods subject to certain minimums). Transfers from the regular fixed account are not subject to an MVA. Currently, you may transfer the entire contract value to the regular fixed account. Subject to state restrictions, we reserve the right to limit transfers to the regular fixed account at any time on a non-discriminatory basis with notification. Transfers out of the regular fixed account, including automated transfers, are limited to 30% of regular fixed account value at the beginning of the contract year⁽¹⁾ or \$10,000, whichever is greater. Because of this limitation, it may take you several years to transfer all your contract value from the regular fixed account. You should carefully consider whether the regular fixed account meets your investment criteria before you invest. Subject to state restrictions, we reserve the right to change the percentage allowed to be transferred from the regular fixed account at any time on a non-discriminatory basis with notification.
- You may transfer contract values from a GPA any time after 60 days of transfer or payment allocation to the account. Transfers made more than 30 days before the end of the guarantee period will receive an MVA, which may result in a gain or loss of contract value, unless an exception applies (see “The Guarantee Period Accounts (GPAs) — Market Value Adjustment (MVA)”).
- You may not transfer contract values from the subaccounts, the GPAs or the regular fixed account into the Special DCA fixed account. However, you may transfer contract values as automated monthly transfers from the Special DCA fixed account to the subaccounts, or for the *SecureSource series* riders, APB rider, *Enhanced Legacy* benefit rider or *SecureSource Legacy* benefit rider, to the selected approved investment options. (See “Special DCA Fixed Account.”)
- After the annuitization start date, you may not make transfers to or from the GPAs or the fixed account, but you may make transfers once per contract year among the subaccounts. During the annuity payout period, we reserve the right to limit the number of subaccounts in which you may invest. On the annuitization start date, you must transfer all contract value out of your GPAs and Special DCA fixed account.

⁽¹⁾ All purchase payments received into the regular fixed account prior to your transfer request are considered your beginning of contract year value during the first contract year.

Market Timing

Market timing can reduce the value of your investment in the contract. If market timing causes the returns of an underlying fund to suffer, contract value you have allocated to a subaccount that invests in that underlying fund will be lower too. Market timing can cause you, any joint owner of the contract and your beneficiary(ies) under the contract a financial loss.

We seek to prevent market timing. Market timing is frequent or short-term trading activity. We do not accommodate short-term trading activities. Do not buy a contract if you wish to use short-term trading strategies to manage your investment. The market timing policies and procedures described below apply to transfers among the subaccounts within the contract. The underlying funds in which the subaccounts invest have their own market timing policies and procedures. The market timing policies of the underlying funds may be more restrictive than the market timing policies and procedures we apply to transfers among the subaccounts of the contract, and may include redemption fees. We reserve the right to modify our market timing policies and procedures at any time without prior notice to you.

Market timing may hurt the performance of an underlying fund in which a subaccount invests in several ways, including but not necessarily limited to:

- diluting the value of an investment in an underlying fund in which a subaccount invests;
- increasing the transaction costs and expenses of an underlying fund in which a subaccount invests; and
- preventing the investment adviser(s) of an underlying fund in which a subaccount invests from fully investing the assets of the fund in accordance with the fund's investment objectives.

Funds available as investment options under the contract that invest in securities that trade in overseas securities markets may be at greater risk of loss from market timing, as market timers may seek to take advantage of changes in the values of securities between the close of overseas markets and the close of U.S. markets. Also, the risks of market timing may be greater for underlying funds that invest in securities such as small cap stocks, high yield bonds, or municipal securities, that may be traded infrequently.

In order to help protect you and the underlying funds from the potentially harmful effects of market timing activity, we apply the following market timing policy to discourage frequent transfers of contract value among the subaccounts of the variable account:

We try to distinguish market timing from transfers that we believe are not harmful, such as periodic rebalancing for purposes of an asset allocation, dollar-cost averaging and asset rebalancing program that may be described in this prospectus. There is no set number of transfers that constitutes market timing. Even one transfer in related accounts may be market timing. We seek to restrict the transfer privileges of a contract owner who makes more than three subaccount transfers in any 90 day period. We also reserve the right to refuse any transfer request, if, in our sole judgment, the dollar amount of the transfer request would adversely affect unit values.

If we determine, in our sole judgment, that your transfer activity constitutes market timing, we may modify, restrict or suspend your transfer privileges to the extent permitted by applicable law, which may vary based on the state law that applies to your contract and the terms of your contract. These restrictions or modifications may include, but not be limited to:

- requiring transfer requests to be submitted only by first-class U.S. mail;
- not accepting hand-delivered transfer requests or requests made by overnight mail;
- not accepting telephone or electronic transfer requests;
- requiring a minimum time period between each transfer;
- not accepting transfer requests of an agent acting under power of attorney;
- limiting the dollar amount that you may transfer at any one time;
- suspending the transfer privilege; or
- modifying instructions under an automated transfer program to exclude a restricted fund if you do not provide new instructions.

Subject to applicable state law and the terms of each contract, we will apply the policy described above to all contract owners uniformly in all cases. We will notify you in writing after we impose any modification, restriction or suspension of your transfer rights.

Because we exercise discretion in applying the restrictions described above, we cannot guarantee that we will be able to identify and restrict all market timing activity. In addition, state law and the terms of some contracts may prevent us from stopping certain market timing activity. Market timing activity that we are unable to identify and/or restrict may impact the performance of the underlying funds and may result in lower contract values.

In addition to the market timing policy described above, which applies to transfers among the subaccounts within your contract, you should carefully review the market timing policies and procedures of the underlying funds. The market timing policies and procedures of the underlying funds may be materially different than those we impose on transfers among the subaccounts within your contract and may include mandatory redemption fees as well as other measures to discourage frequent transfers. As an intermediary for the underlying funds, we are required to assist them in applying their market timing policies and procedures to transactions involving the purchase and exchange of fund shares. This assistance may include but not be limited to providing the underlying fund upon request with your

Social Security Number, Taxpayer Identification Number or other United States government-issued identifier and the details of your contract transactions involving the underlying fund. An underlying fund, in its sole discretion, may instruct us at any time to prohibit you from making further transfers of contract value to or from the underlying fund, and we must follow this instruction. We reserve the right to administer and collect on behalf of an underlying fund any redemption fee imposed by an underlying fund. Market timing policies and procedures adopted by underlying funds may affect your investment in the contract in several ways, including but not limited to:

- Each fund may restrict or refuse trading activity that the fund determines, in its sole discretion, represents market timing.
- Even if we determine that your transfer activity does not constitute market timing under the market timing policies described above which we apply to transfers you make under the contract, it is possible that the underlying fund's market timing policies and procedures, including instructions we receive from a fund, may require us to reject your transfer request. For example, we will attempt to execute transfers permitted under any asset allocation, dollar-cost averaging and asset rebalancing programs that may be described in this prospectus, we cannot guarantee that an underlying fund's market timing policies and procedures will do so. Orders we place to purchase fund shares for the variable accounts are subject to acceptance by the fund. We reserve the right to reject without prior notice to you any transfer request if the fund does not accept our order.
- Each underlying fund is responsible for its own market timing policies, and we cannot guarantee that we will be able to implement specific market timing policies and procedures that a fund has adopted. As a result, a fund's returns might be adversely affected, and a fund might terminate our right to offer its shares through the variable account.
- Funds that are available as investment options under the contract may also be offered to other intermediaries who are eligible to purchase and hold shares of the fund, including without limitation, separate accounts of other insurance companies and certain retirement plans. Even if we are able to implement a fund's market timing policies, we cannot guarantee that other intermediaries purchasing that same fund's shares will do so, and the returns of that fund could be adversely affected as a result.

For more information about the market timing policies and procedures of an underlying fund, the risks that market timing pose to that fund, and to determine whether an underlying fund has adopted a redemption fee, see that fund's prospectus.

How to Request a Transfer or Surrender

1 By letter

Send your name, contract number, Social Security Number or Taxpayer Identification Number* and signed request for a transfer or surrender to:

**RiverSource Life Insurance Company
70100 Ameriprise Financial Center
Minneapolis, MN 55474**

Minimum amount

Transfers or surrenders: \$250 or entire account balance**

Maximum amount

Transfers or surrenders: Contract value or entire account balance

* Failure to provide your Social Security Number or Taxpayer Identification Number may result in mandatory tax withholding on the taxable portion of the distribution.

** The contract value after a partial surrender must be at least \$500.

2 By automated transfers and automated partial surrenders

Your financial advisor can help you set up automated transfers among your subaccounts, GPAs or regular fixed account or automated partial surrenders from the GPAs, regular fixed account, Special DCA fixed account or the subaccounts.

You can start or stop this service by written request or other method acceptable to us. You must allow 30 days for us to change any instructions that are currently in place.

- Automated transfers from the regular fixed account are limited to 30% of the regular fixed account value at the beginning of the contract year or \$10,000, whichever is greater.
- Automated surrenders may be restricted by applicable law under some contracts.
- You may not make additional systematic payments if automated partial surrenders are in effect.

- If you have the *Enhanced Legacy* benefit rider, *SecureSource Legacy* benefit rider, a *SecureSource series* rider or APB rider, you are not allowed to set up automated transfers except in connection with a Special DCA fixed account (see "Special DCA Fixed Account" and "Investment Allocation Restrictions for Certain Benefit Riders").
- Automated partial surrenders may result in income taxes and penalties on all or part of the amount surrendered.
- The balance in any account from which you make an automated transfer or automated partial surrender must be sufficient to satisfy your instructions. If not, we will suspend your entire automated arrangement until the balance is adequate.
- If you have a *SecureSource* series rider, you may set up automated partial surrenders up to the benefit available for withdrawal under the rider.

Minimum amount

Transfers or surrenders: \$50

Maximum amount

Transfers or surrenders: None (except for automated transfers from the regular fixed account)

By telephone

Call:

1-800-862-7919

Minimum amount

Transfers or surrenders: \$250 or entire account balance

Maximum amount

Transfers: Contract value or entire account balance

Surrenders: \$100,000

We answer telephone requests promptly, but you may experience delays when the call volume is unusually high. If you are unable to get through, use the mail procedure as an alternative.

We will honor any telephone transfer or surrender requests that we believe are authentic and we will use reasonable procedures to confirm that they are. This includes asking identifying questions and recording calls. As long as we follow the procedures, we (and our affiliates) will not be liable for any loss resulting from fraudulent requests.

Telephone transfers or surrenders are automatically available. You may request that telephone transfers or surrenders not be authorized from your account by writing to us.

Surrenders

You may surrender all or part of your contract at any time before the annuitization start date by sending us a written request or calling us.

The date your surrender request will be processed depends on when and how we receive it:

For surrender requests received in writing:

- If we receive your surrender request at our Service Center in good order before the close of the NYSE (4:00pm Eastern time unless the NYSE closes earlier), we will process your surrender using the accumulation unit value we calculate on the valuation date we received your surrender request.
- If we receive your surrender request at our Service Center in good order at or after the close of the NYSE (4:00pm Eastern time unless the NYSE closes earlier), we will process your surrender using the accumulation unit value we calculate on the next valuation date after we received your surrender request.

For surrender requests received by phone:

- If we receive your surrender request at our Service Center in good order before the close of the NYSE (4:00pm Eastern time unless the NYSE closes earlier), we will process your surrender using the accumulation unit value we calculate on the valuation date we received your surrender request.
- If we receive your surrender request at our Service Center in good order at or after the close of the NYSE (4:00pm Eastern time unless the NYSE closes earlier), we will process your surrender using the accumulation unit value we calculate on the next valuation date after we received your surrender request.

We may ask you to return the contract. You may have to pay a contract administrative charge, surrender charges, or any applicable optional rider charges (see “Charges”) and federal income taxes and penalties. State and local income taxes may also apply. (see “Taxes”) You cannot make surrenders after the annuitization start date except under a term certain installment plan that provides monthly annuity payments for a period of years if such plans are allowed by us.

Any partial surrender you take under the contract will reduce your contract value. As a result, the value of your death benefit or any optional benefits you have elected also will be reduced. If you have elected a *SecureSource series* rider and your partial surrenders in any contract year exceed the permitted surrender amount under the terms of the rider, your benefits under the rider will be reduced (see “Optional Benefits — Optional Living Benefits”). Any partial surrender request that exceeds the amount allowed under the *SecureSource series* riders will impact the guarantees provided and will not be considered in good order until we receive a signed Benefit Impact Acknowledgement form showing the projected effect of the surrender on the rider benefits or a verbal acknowledgement that you understand and accept the impacts that have been explained to you.

In addition, surrenders you are required to take to satisfy the RMDs under the Code may reduce the value of certain death benefits and optional benefits (see “Taxes — Qualified Annuities — Required Minimum Distributions”).

Surrender Policies

If you have a balance in more than one account and you request a partial surrender, we will automatically surrender money from all your subaccounts, Special DCA fixed account, GPAs and/or the regular fixed account in the same proportion as your value in each account correlates to your total contract value, unless requested otherwise. If your contract includes an optional living benefit rider you do not have the option to request from which account to surrender. The minimum contract value after partial surrender is \$500 (for contracts with a *SecureSource series* rider, there is no minimum).

Receiving Payment

1 By regular or express mail

- payable to you;
- mailed to address of record.

NOTE: We will charge you a fee if you request express mail delivery.

2 By wire or other form of electronic payment

- request that payment be wired to your bank;
- pre-authorization required.

We may choose to permit you to have checks issued and delivered to an alternate payee or to an address other than your address of record. We may also choose to allow you to direct wires or other electronic payments to accounts owned by a third-party. We may have additional good order requirements that must be met prior to processing requests to make any payments to a party other than the owner or to an address other than the address of record. These requirements will be designed to ensure owner instructions are genuine and to prevent fraud.

Normally, we will send the payment within seven days after receiving your request in good order. However, we may postpone the payment if:

- the NYSE is closed, except for normal holiday and weekend closings;
- trading on the NYSE is restricted, according to SEC rules;
- an emergency, as defined by SEC rules, makes it impractical to sell securities or value the net assets of the accounts; or
- the SEC permits us to delay payment for the protection of security holders.

We may also postpone payment of the amount attributable to a purchase payment as part of the total surrender amount until cleared from the originating financial institution.

A SPECIAL NOTE ON CYBERSECURITY RISKS

Cybersecurity and Systems Integrity

Increasingly, businesses are dependent on the continuity, security, and effective operation of various technology systems. The nature of our business depends on the continued effective operation of our systems and those of our business partners.

This dependence makes us susceptible to operational and information security risks from cyber-attacks. These risks may include the following:

- the corruption or destruction of data;
- theft, misuse or dissemination of data to the public, including your information we hold; and
- denial of service attacks on our website or other forms of attacks on our systems and the software and hardware we use to run them.

These attacks and their consequences can negatively impact your contract, your privacy, your ability to conduct transactions on your contract, or your ability to receive timely service from us. There can be no assurance that we, the underlying funds in your contract, or our other business partners will avoid losses affecting your contract due to any successful cyber-attacks or information security breaches.

TSA — Special Provisions

Participants in Tax-Sheltered Annuities

If the contract is intended to be used in connection with an employer sponsored 403(b) plan, additional rules relating to this contract can be found in the annuity endorsement for tax sheltered 403(b) annuities. Unless we have made special arrangements with your employer, the contract is not intended for use in connection with an employer sponsored 403(b) plan that is subject to the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). In the event that the employer either by affirmative election or inadvertent action causes contributions under a plan that is subject to ERISA to be made to this contract, we will not be responsible for any obligations and requirements under ERISA and the regulations thereunder, unless we have prior written agreement with the employer. You should consult with your employer to determine whether your 403(b) plan is subject to ERISA.

In the event we have a written agreement with your employer to administer the plan pursuant to ERISA, special rules apply as set forth in the TSA endorsement.

The employer must comply with certain nondiscrimination requirements for certain types of contributions under a TSA contract to be excluded from taxable income. You should consult your employer to determine whether the nondiscrimination rules apply to you.

The Code imposes certain restrictions on your right to receive early distributions from a TSA:

- Distributions attributable to salary reduction contributions (plus earnings) made after Dec. 31, 1988, or to transfers or rollovers from other contracts, may be made from the TSA only if:
 - you are at least age 59½;
 - you are disabled as defined in the Code;
 - you severed employment with the employer who purchased the contract;
 - the distribution is because of your death;
 - the distribution is due to plan termination; or
 - you are a qualifying military reservist.
- If you encounter a financial hardship (as provided by the Code), you may be eligible to receive a distribution of all contract values attributable to salary reduction contributions made after Dec. 31, 1988, but not the earnings on them.
- Even though a distribution may be permitted under the above rules, it may be subject to IRS taxes and penalties (see “Taxes”).
- The above restrictions on distributions do not affect the availability of the amount credited to the contract as of Dec. 31, 1988. The restrictions also do not apply to transfers or exchanges of contract value within the contract, or to another registered variable annuity contract or investment vehicle available through the employer.
- If the contract has a loan provision, the right to receive a loan is described in detail in your contract. Loans will not be available if you have a *SecureSource* series rider, APB rider, *Enhanced Legacy* benefit rider, *SecureSource Legacy* benefit rider or Benefit Protector Death Benefit rider.

Changing the Annuitant

If you have a nonqualified annuity and are a natural person (excluding a revocable trust), you may change the annuitant or contingent annuitant if the request is made prior to the annuitization start date and while the existing annuitant or contingent annuitant is living. The change will become binding on us when we receive it. If you and the annuitant are not the same person and the annuitant dies before the annuitization start date, the owner becomes the annuitant unless a contingent annuitant has been previously selected. You may not change the annuitant if you have a qualified annuity or there is non-natural or revocable trust ownership. For inherited nonqualified annuities, joint annuitants, contingent

annuitants, and changing the annuitant are not allowed. Joint annuitants are not allowed for contracts with a *SecureSource* series Single Life rider. For contracts issued in California, if you have the *SecureSource Legacy* benefit rider and a *SecureSource* series rider, you may not change the annuitant while this rider is in force (**Joint Life:** unless a Covered Spouse becomes the owner and annuitant under the spousal continuation provision).

Changing Ownership

You may change ownership of your nonqualified annuity at any time by completing a change of ownership form we approve and sending it to our Service Center. We will honor any change of ownership request received in good order that we believe is authentic, and we will use reasonable procedures to confirm authenticity. If we follow these procedures, we will not take any responsibility for the validity of the change.

If you have a nonqualified annuity, you may incur income tax liability by transferring, assigning or pledging any part of it. (See “Taxes.”)

If you have a qualified annuity, you may not sell, assign, transfer, discount or pledge your contract as collateral for a loan, or as security for the performance of an obligation or for any other purpose except as required or permitted by the Code. However, if the owner is a trust or custodian, or an employer acting in a similar capacity, ownership of the contract may be transferred to the annuitant.

Please consider carefully whether or not you wish to change ownership of your annuity contract. If you elected any optional contract features or riders and any owner was not an owner before the change, all owners (including any prior owner who is still an owner after the ownership change) will be subject to all limitations and/or restrictions of those features or riders just as if they were purchasing a new contract. For ownership changes prior to 5/1/2020, our administrative process required only the new owner to meet the age limitations.

The death benefit may change due to a change of ownership.

- If you have the *Enhanced Legacy* benefit rider, joint ownership and joint annuitants are not allowed while this rider is in force. For contracts issued in all states except California, if any owner is age 75 or younger immediately following the ownership change, the rider will continue and the benefit amount may be reset. An assignment or change of ownership may also be made to a non-natural owner (e.g. an individual ownership changed to an irrevocable trust) or to a revocable trust, with either holding for the sole benefit of the prior owner. Assignments and ownership changes other than these will terminate the rider. For contracts issued in California, the benefits provided under the rider are only payable at the annuitant’s death. You may not change the annuitant while this rider is in force, unless you are the annuitant and your spouse becomes the owner and annuitant under the spousal continuation provision. An ownership change will not terminate the rider or reset the benefit amount.
- If you have the *SecureSource Legacy* benefit rider and a *SecureSource* series – Single Life rider, if there is an assignment or a change of ownership, the rider will terminate unless the new owner or assignee assumes total ownership of the contract and was an owner or the covered person before the change, or is a non-natural owner or revocable trust, either holding for the sole benefit of the prior owner, subject to state restrictions. For contracts issued in California, the benefits provided under the *SecureSource Legacy* rider are only payable at the annuitant’s death. An ownership change will not terminate the rider.
- If you have the *SecureSource Legacy* benefit rider and a *SecureSource* series – Joint Life rider, if there is an assignment or a change of ownership, the rider will terminate unless the new owner or assignee assumes total ownership of the contract and was an owner or a covered spouse before the change, or is a non-natural owner or a revocable trust, either holding for the sole benefit of the prior owner, subject to state restrictions. For contracts issued in California, the benefits provided under the *SecureSource Legacy* benefit rider are only payable at the annuitant’s death. You may not change the annuitant while this rider is in force unless a covered spouse becomes the owner and annuitant under the spousal continuation provision. An ownership change will not terminate the rider.
- If you have the Benefit Protector rider, if any owner is older than age 75 immediately following the ownership change, the rider will terminate upon change of ownership. If all owners are younger than age 76, the rider continues unless the owner chooses to terminate it during the 30-day window following the effective date of the ownership change. The Benefit Protector death benefit values may be reset (see “Optional Death Benefits — Benefit Protector Death Benefit Rider”).
- If you elected the ROPP Death Benefit and if any owner is older than age 79 immediately following the ownership change, the ROPP Death Benefit will continue. If all owners are age 79 or younger, the ROPP Death Benefit will terminate and the Standard Death Benefit will apply.
- If you elected the 5-Year MAV Death Benefit and if any owner is older than age 75 immediately following the ownership change, this rider will terminate and the Standard Death Benefit will apply. If all owners are age 75 or younger, the 5-Year MAV Death Benefit will continue.

- If you elected the MAV Death Benefit and if any owner is older than age 79 immediately following the ownership change, this rider will terminate and the Standard Death Benefit will apply. If all owners are age 79 or younger, the MAV Death Benefit will continue.
- The ROPP Death Benefit, MAV Death Benefit and 5-Year MAV Death Benefit values may be reset (see “Benefits in the Case of Death”).
- If the death benefit that applies to your contract changes due to an ownership change, the mortality and expense risk fee may change as well (see “Charges — Mortality and Expense Risk Fee”).

For a *SecureSource* series — Single Life rider, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the covered person before the change, or is a non-natural owner or revocable trust, either holding for the sole benefit of the prior owner. For contracts issued in California, an ownership change will not terminate the rider and will not change the covered person under the rider. Joint ownership and joint annuitants are not allowed for contracts with *SecureSource* series — Single Life rider.

For a *SecureSource* series — Joint Life rider, if the owner is a natural person, only the covered spouses can be owners. If there is a non-natural or revocable trust owner, one of the covered spouses must be the annuitant. The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a covered spouse before the change, or is a non-natural owner or a revocable trust, either holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited; however, the rider will not terminate and the covered spouses under the rider will not change.

For the Accumulation Protector Benefit rider, subject to state rules, the rider will terminate if there is a change of ownership unless the new owner assumes total ownership of the contract and was an owner before the change. (See “Optional Benefits.”)

Benefits in Case of Death — Standard Death Benefit

We will pay the death benefit to your beneficiary upon your death if you die before the annuitization start date with the contract value greater than zero. If a contract has more than one person as the owner, we will pay benefits upon the first to die of any owner.

If you are age 79 or younger on the date we issue the contract or the date of the most recent covered life change, the beneficiary receives the greater of:

- the contract value after any rider charges have been deducted;
- the Return of Purchase Payments (ROPP) value; or
- the Full Surrender Value.

If you are age 80 or older on the date we issue the contract or the date of the most recent covered life change, the beneficiary receives the greater of contract value after any rider charges have been deducted or the Full Surrender Value.

Here are some terms that are used to describe the Standard Death Benefit and optional death benefits:

ROPP Value: is the total purchase payments on the contract issue date. Additional purchase payments will be added to the ROPP value. Adjusted partial surrenders will be subtracted from the ROPP value.

$$\text{Adjusted partial surrenders} = \frac{a \times b}{c}$$

- a = the amount your contract value is reduced by the partial surrender.
- b = the applicable ROPP value, MAV value or 5-year MAV value on the date of (but prior to) the partial surrender.
- c = the contract value on the date of (but prior to) the partial surrender.

If you take a partial surrender, the applicable ROPP, MAV, or 5-year MAV value will be reduced proportionally based on the percentage of contract value that is withdrawn. This means that if the contract value is higher than the ROPP, MAV, or 5-year MAV value at the time of a partial surrender, then the ROPP, MAV, or 5-year MAV Value is reduced by an amount that is less than the dollar amount withdrawn. Conversely, if the contract value is lower than the ROPP, MAV, or 5-year MAV value at the time of a partial surrender, then the ROPP, MAV, or 5-year MAV value is reduced by an amount that is more than the dollar amount withdrawn.

Covered Life Change: is either continuation of the contract by a spouse under the spousal continuation provision, or an ownership change where any owner after the ownership change was not an owner prior to the change.

Full Surrender Value: is the contract value immediately prior to the surrender (immediately prior to payment of a death claim for death benefits) less:

- any surrender charge,
- pro rata rider charges,
- the contract charge, and

plus:

- any positive or negative market value adjustment.

For a spouse who continues the contract and is age 79 or younger, we set the ROPP value to the contract value on the date of the continuation after any rider charges have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid, but with no reduction for rider charges on riders that remain in force and without regard to the Full Surrender Value.

After a covered life change other than for the spouse who continues the contract, if the prior owner and all current owners are eligible for the ROPP Death Benefit, we reset the ROPP value on the valuation date we receive your written request for the ownership change to the contract value after any rider charges have been deducted, if the contract value is less. If the prior owner was not eligible for the ROPP Death Benefit, but the new owner is eligible, we reset the ROPP value to the contract value after any rider charges have been deducted on the valuation date we receive your request for the ownership change.

Example of standard death benefit calculation when you are age 79 or younger on the contract effective date:

- You purchase the contract with a payment of \$20,000
- During the second contract year the contract value falls to \$18,000, at which point you take a \$1,500 partial surrender, leaving a contract value of \$16,500.

We calculate the death benefit as follows:

The total purchase payments minus adjustments for partial surrenders:

Total purchase payments

minus adjusted partial surrenders, calculated as:

\$1,500 × \$20,000

=

\$18,000

for a standard death benefit of:

since this is greater than your contract value of \$16,500

\$20,000

-1,667

\$18,333

If You Die Before the Annuitization Start Date

When paying the beneficiary, we will process the death claim on the valuation date our death claim requirements are fulfilled. We will determine the contract's value using the accumulation unit value we calculate on that valuation date. We pay interest, if any, at a rate no less than required by law. We will mail payment to the beneficiary within seven days after our death claim requirements are fulfilled. Death claim requirements generally include due proof of death and will be detailed in the claim materials we send upon notification of death.

When paying multiple beneficiaries, we will process the death claim of each beneficiary on the valuation date when a beneficiary provides us with complete death claim requirements. We will determine a beneficiary's proceeds using the accumulation unit value we calculate on that valuation date. The remaining contract value remains invested as was specified at time of death. We pay interest, if any, at a rate no less than required by law. We will mail payment to a beneficiary within seven days after our death claim requirements are fulfilled.

Nonqualified annuities

Spousal continuation: If your spouse is sole primary beneficiary and you die before the annuitization start date, your spouse may keep the contract as owner with the contract value equal to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value). To do this your spouse must, on the date our death claim requirements are fulfilled, give us written instructions to continue the contract as owner.

There will be no surrender charges on the contract from that point forward unless additional purchase payments are made. If you elected any optional contract features or riders, your spouse will be subject to all limitations and/or restrictions of those features or riders just as if they were purchasing a new contract and the values may be reset (see "Optional Living Benefits", "Optional Death Benefits" and "Benefits in the Case of Death — Standard Death Benefit"). If the death benefit applicable to the contract changes due to spousal continuation, the mortality and expense risk fee may change as well (see "Charges — Mortality and Expense Risk Fee").

If your beneficiary is not your spouse, or your spouse does not elect spousal continuation, we will pay the beneficiary in a single sum unless you give us other written instructions. Generally, we must fully distribute the death benefit within five years of your death. However, the beneficiary may receive payouts under any annuity payout plan available under this contract if:

- the beneficiary elects in writing, and payouts begin, no later than one year after your death, or other date as permitted by the IRS; and
- the payout period does not extend beyond the beneficiary's life or life expectancy.

Qualified annuities

- **Spouse beneficiary:** If you have not elected an annuity payout plan, and if your spouse is the sole primary beneficiary, your spouse may either elect to treat the contract as his/her own (spousal continuation), so long as he or she is eligible to do so, or elect an annuity payout plan or another plan agreed to by us. If your spouse elects a payout option, the payouts must begin no later than the year in which you would have reached age 72. If you attained age 72 at the time of death, payouts must begin no later than Dec. 31 of the year following the year of your death. Your spouse may elect to assume ownership of the contract with the contract value equal to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value). To do this your spouse must, on the date our death claim requirements are fulfilled, give us written instructions to continue the contract as owner. There will be no surrender charges on the contract from that point forward unless additional purchase payments are made. If you elected any optional contract features or riders, your spouse will be subject to all limitations and/or restrictions of those features or riders just as if they were purchasing a new contract and the values may be reset (see "Optional Living Benefits", "Optional Death Benefits" and "Benefits in the Case of Death — Standard Death Benefit"). If the death benefit applicable to the contract changes due to spousal continuation, the mortality and expense risk fee may change as well (see "Charges — Mortality and Expense Risk Fee"). If your spouse is the sole beneficiary and elects to treat the contract as his/her own as an inherited IRA, the *SecureSource* series rider will terminate.

If you purchased this contract as an inherited IRA and your spouse is the sole beneficiary, he or she can elect to continue this contract as an inherited IRA. Your spouse must follow the schedule of minimum surrenders established based on your life expectancy.

If you purchased this contract as an inherited IRA and your spouse is not the sole beneficiary, he or she can elect an alternative payment plan for his or her share of the death benefit and all optional death benefits and living benefits will terminate. Your spouse beneficiary must submit the applicable investment options form. No additional purchase payments will be accepted. The death benefit payable on the death of the spouse beneficiary is the greater of the contract value after any rider charges have been deducted and the Full Surrender Value; the mortality and expense risk fee will be the same as is applicable to the Standard Death Benefit. Your spouse must follow the schedule of minimum surrenders established based on your life expectancy.

- **Non-spouse beneficiary:** If you have not elected an annuity payout plan, and if death occurs on or after Jan. 1, 2020, the beneficiary is required to withdraw his or her entire inherited interest within 10 years of the date of death of the owner unless they qualify as an "eligible designated beneficiary." Eligible designated beneficiaries may continue to take proceeds out over their life expectancy. Eligible designated beneficiaries include:
 - the surviving spouse;
 - a lawful child of the owner under the age of majority (remaining amount must be withdrawn within 10 years, once the child reaches the age of majority);
 - disabled within the meaning of Code section 72(m)(7);
 - chronically ill within the meaning of Code section 7702B(c)(2);
 - any other person who is not more than 10 years younger than the owner.

However, non-natural beneficiaries, such as estates and charities, are subject to a five-year rule to distribute the IRA. We will pay the beneficiary in a single sum unless the beneficiary elects to receive payouts under a payout plan available under this contract and:

- the beneficiary elects in writing, and payouts begin, no later than one year following the year of your death; and
 - the payout period does not extend beyond the beneficiary's life or life expectancy for an eligible designated beneficiary. (Payout plans are limited if the beneficiary is not an eligible designated beneficiary.)
- **Spouse and Non-spouse beneficiary:** If a beneficiary elects an alternative payment plan which is an inherited IRA, all optional death benefits and living benefits will terminate. The beneficiary must submit the applicable investment options form. No additional purchase payments will be accepted. The death benefit payable on the death of the beneficiary is the greater of the contract value and the Full Surrender Value; the mortality and expense risk fee will be the same as is applicable to the Standard Death Benefit.
 - **Annuity payout plan:** If you elect an annuity payout plan, the payouts to your beneficiary may continue depending on the annuity payout plan you elect, subject to adjustment to comply with the IRS rules and regulations.

If You Die After the Annuitization Start Date

If you die after the annuitization start date, the amount payable, if any, will depend on the annuity payment plan then in effect. Payments to beneficiaries are subject to adjustment to comply with the IRS rules and regulations.

Death of the owner: If the owner is the annuitant and dies after the annuitization start date, payments cease for lifetime only payment plans. Payments continue to the owner's beneficiaries for the remainder of any guarantee period or for the lifetime of a surviving joint annuitant, if any.

If the owner is not the annuitant and dies after the annuitization start date, payments continue to the beneficiaries according to the payment plan in effect.

Death of the annuitant or of a beneficiary receiving payments under an annuity payment plan: If the owner is not the annuitant and the annuitant dies after the annuitization start date, payments cease for lifetime payment plans. Payments continue to the owner for the remainder of any guarantee period or for the lifetime of a surviving joint annuitant, if any.

If a beneficiary elects an annuity payment plan as provided under the payment options provision above and dies after payments begin, payments continue to beneficiaries named by the deceased beneficiary as provided under the change of beneficiary provision for the remainder of any guarantee period. (See "Annuity Payout Plans")

In any event, amounts remaining payable must be paid at least as rapidly as payments were being made at the time of such death.

HOW WE HANDLE CONTRACTS UNDER UNCLAIMED PROPERTY LAWS

Every state has unclaimed property laws which generally declare annuity contracts to be abandoned after a period of inactivity of one to five years from either 1) the contract's maturity date (the latest day on which income payments may begin under the contract) or 2) the date the death benefit is due and payable. If a contract matures or we determine a death benefit is payable, we will use our best efforts to locate you or designated beneficiaries. If we are unable to locate you or a beneficiary, proceeds will be paid to the abandoned property division or unclaimed property office of the state in which the beneficiary or you last resided, as shown in our books and records, or to our state of domicile. Generally, this surrender of property to the state is commonly referred to as "escheatment". To avoid escheatment, and ensure an effective process for your beneficiaries, it is important that your personal address and beneficiary designations are up to date, including complete names, date of birth, current addresses and phone numbers, and taxpayer identification numbers for each beneficiary. Updates to your address or beneficiary designations should be sent to our Service Center.

Escheatment may also be required by law if a known beneficiary fails to demand or present an instrument or document to claim the death benefit in a timely manner, creating a presumption of abandonment. If your beneficiary steps forward (with the proper documentation) to claim escheated annuity proceeds, the state is obligated to pay any such proceeds it is holding.

For nonqualified annuities, non-spousal death benefits are generally required to be distributed and taxed within five years from the date of death of the owner/annuitant or the unclaimed death benefits will be presumed abandoned and subject to escheatment.

Optional Benefits

The assets held in our general account support the guarantees under your contract, including optional death benefits and optional living benefits. To the extent that we are required to pay you amounts in addition to your contract value under these benefits, such amounts will come from our general account assets. You should be aware that our general account is exposed to the risks normally associated with a portfolio of fixed-income securities, including interest rate, option, liquidity and credit risk. You should also be aware that we issue other types of insurance and financial products as well, and we also pay our obligations under these products from assets in our general account. Our general account is not segregated or insulated from the claims of our creditors. The financial statements contained in the SAI include a further discussion of the risks inherent within the investments of the general account.

Optional Death Benefits

In addition to the Standard Death Benefit, we also offer the following optional death benefits:

- ROPP Death Benefit;
- MAV Death Benefit;
- 5-Year MAV Death Benefit;
- Benefit Protector Death Benefit;
- *Enhanced Legacy* Benefit; and

- *SecureSource Legacy* Benefit.

The optional death benefits listed above must be elected at the time you purchase your contract. Once you elect a death benefit, you cannot change it; however, the death benefit that applies to your contract may change due to an ownership change (see “Changing Ownership”) or continuation of the contract by the spouse under the spousal continuation provision.

The death benefit determines the mortality and risk expense fee that is assessed against the subaccounts. We will base the benefit paid on the death benefit coverage in effect on the date of your death.

If you are age 80 or older at contract issue, you may select the ROPP death benefit described below at the time you purchase your contract. The ROPP Death Benefit may not be purchased with the *SecureSource* series rider. Be sure to discuss with your financial advisor whether or not this death benefit is appropriate for your situation.

Return of Purchase Payments (ROPP) Death Benefit

The ROPP Death Benefit will pay your beneficiaries no less than your purchase payments, adjusted for surrenders. If you die before the annuitization start date and while this contract is in force, the death benefit will be the greatest of:

1. the contract value after any rider charges have been deducted,
2. the ROPP Value, or
3. the Full Surrender Value.

For a spouse who continues the contract and is age 80 or older, we reset the ROPP value to the contract value on the date of the continuation after any rider charges have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value). If the spouse who continues the contract is age 79 or younger, the optional ROPP Death Benefit will terminate and the Standard Death Benefit will apply.

After a covered life change other than for the spouse who continues the contract, if any owner is age 80 or older we reset the ROPP value on the valuation date we receive your request for the ownership change to the contract value after any rider charges have been deducted, if the contract value is less.

If all owners are age 79 or younger, the optional ROPP Death Benefit will terminate and the Standard Death Benefit will apply.

If you are age 75 or younger at contract issue, you may select one of the following optional death benefits: MAV Death Benefit, 5-Year MAV Death Benefit, Benefit Protector Death Benefit or Enhanced Legacy benefit rider. If you select the MAV Death Benefit or 5-Year MAV Death Benefit, you may also select the Benefit Protector Death Benefit. The MAV Death Benefit may not be purchased with the *SecureSource* series rider. If you are between ages 76-79 at contract issue, you may only select the MAV Death Benefit. The death benefits do not provide any additional benefit before the first contract anniversary and may not be appropriate for certain older issue ages because the benefit values may be limited after age 80. Be sure to discuss with your financial advisor whether or not these death benefits are appropriate for your situation.

Maximum Anniversary Value (MAV) Death Benefit

The MAV Death Benefit provides that if you die while the contract is in force and before the annuitization start date, the death benefit will be the greatest of these values:

1. the contract value after any rider charges have been deducted;
2. the ROPP value;
3. the MAV; or
4. the Full Surrender Value.

The MAV equals the ROPP value prior to the first contract anniversary. Every contract anniversary prior to the earlier of your 81st birthday or your death, we compare the MAV to the current contract value and we reset the MAV to the higher amount. The MAV is increased by any additional purchase payments and reduced by adjusted partial surrenders as described above in the “Benefits in Case of Death — Standard Death Benefit” section.

For a spouse who is age 79 or younger and continues the contract, we reset the MAV to the contract value on the date of the continuation after any rider charges have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value). If your spouse is age 80 or older when the contract is continued, the MAV death benefit will terminate and the Standard Death Benefit will apply.

After a covered life change other than for a spouse who continues the contract, if all owners are age 79 or younger, we reset the MAV on the valuation date we receive your request for the ownership change to the lesser of these two values:

- (a) the contract value after any rider charges have been deducted, or

(b) the MAV on that date, but prior to the reset.

If any owner is age 80 or older at the time of the covered life change, the MAV death benefit will terminate and the Standard Death Benefit will apply.

5-Year Maximum Anniversary Value (5-Year MAV) Death Benefit

The 5-year MAV Death Benefit provides that if you die while the contract is in force and before the annuitization start date, the death benefit will be the greatest of these values:

1. the contract value after any rider charges have been deducted;
2. the ROPP value;
3. the 5-year MAV; or
4. the Full Surrender Value.

The 5-year MAV equals the ROPP value prior to the fifth contract anniversary. Every fifth contract anniversary prior to the earlier of your 81st birthday or your death, we compare the 5-year MAV to the current contract value and we reset the 5-Year MAV to the higher amount. The 5-year MAV is increased by any additional purchase payments and reduced by adjusted partial surrenders as described above in the “Benefits in Case of Death — Standard Death Benefit” section.

For a spouse who is age 75 or younger and continues the contract, we reset the 5-Year MAV to the contract value on the date of the continuation after any rider charges have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value). If your spouse is age 76 or older when the contract was continued, the 5-year MAV death benefit will terminate and the Standard Death Benefit will apply.

After a covered life change other than for a spouse who continues the contract, if all owners are age 75 or younger, we reset the 5-Year MAV on the valuation date we receive your request for the ownership change to the lesser of these two values:

- (a) the contract value after any rider charges have been deducted, or
- (b) the 5-Year MAV on that date, but prior to the reset.

If any owner is age 76 or older at the time of the covered life change, the 5-year MAV death benefit will terminate and the Standard Death Benefit will apply.

Benefit Protector Death Benefit

The Benefit Protector is intended to provide an additional benefit to your beneficiary if there are earnings in the annuity. This will help offset expenses after your death such as funeral expenses or federal and state taxes. This is an optional benefit that you may select for an additional annual charge (see “Charges”). It is only available if you have selected the MAV Death Benefit, 5-year MAV Death Benefit or Standard Death Benefit. The Benefit Protector provides reduced benefits if you are age 70 or older at the rider effective date. The Benefit Protector does not provide any additional benefit before the first rider anniversary.

If you are age 75 or younger at contract issue, you may choose to add the Benefit Protector to your contract.

Qualified annuities have minimum distribution rules that govern the timing and amount of distributions from the annuity contract (see “Taxes — Qualified Annuities — Required Minimum Distributions”). Since the benefit paid by the rider is determined by the amount of earnings at death, the amount of the benefit paid may be reduced as a result of taking any surrenders including RMDs. Be sure to discuss with your investment professional and tax advisor whether or not the Benefit Protector is appropriate for your situation.

The Benefit Protector provides that if you die after the first rider anniversary, but before the annuitization start date, and while this contract is in force, we will pay the beneficiary:

- the applicable death benefit, plus:
- 40% of your earnings at death if you were under age 70 on the rider effective date; or
- 15% of your earnings at death if you were age 70 or older on the rider effective date.

If there has been a covered life change, remaining purchase payments is set as the contract value on the date of the most recent covered life change. Thereafter, remaining purchase payments is increased by the amount of each additional purchase payment and adjusted for each partial surrender.

Earnings at death: Earnings at death is equal to the death benefit that is otherwise payable (without this rider), less remaining purchase payments. We set maximum earnings at death of 250% of purchase payments not previously withdrawn that are one or more years old. Earnings at death cannot be less than zero.

Terminating the Benefit Protector

- You may terminate the rider within 30 days after the first rider anniversary.
- You may terminate the rider within 30 days after any rider anniversary beginning with the seventh rider anniversary.
- The rider will terminate when you make a full surrender from the contract or on the annuitization start date.
- Your spouse may terminate the rider within 30 days following the effective date of the spousal continuation if your spouse is age 75 or younger.
- You may terminate the rider within 30 days following the effective date of an ownership change if you are age 75 or younger.
- The rider will terminate for a spousal continuation or ownership change if the spouse or any owner is age 76 or older at the time of the change.
- The rider will terminate after the death benefit is payable, unless the spouse continues the contract under spousal continuation provision.
- The rider will terminate when beneficiary elects an alternative payment plan which is an inherited IRA.

If your spouse is the sole beneficiary and you die before the annuitization start date, your spouse may keep the contract as owner. Your spouse will be subject to all the limitations and restrictions of the rider just as if they were purchasing a new contract and the age of the spouse at the time of the change will be used to determine the earnings at death percentage going forward. If your spouse does not qualify for the rider on the basis of age we will terminate the rider and the Standard Death Benefit will apply. If they do qualify for the rider on the basis of age we will set the contract value equal to the death benefit that would otherwise have been paid (without regard to the Full Surrender Value) and we will substitute this new contract value on the date of death for “remaining purchase payments” used in calculating earnings at death.

After a covered life change other than a spouse that continues the contract, all owners will be subject to all of the limitations and restrictions of the rider just as if they were purchasing a new contract; and the age of all owners at the time of the change will be used to determine the earnings at death percentage going forward. If any owner does not qualify for the rider on the basis of age, we will terminate the rider and the Standard Death Benefit will apply. If they do qualify for the rider on the basis of age, we will substitute the contract value on the date of the ownership change for remaining purchase payments used in calculating earnings at death.

For an example, please see Appendix D.

Enhanced Legacy Benefit

The *Enhanced Legacy* benefit is an optional benefit that you can add to your contract for an additional charge. The *Enhanced Legacy* benefit may not be purchased with any living benefit rider or with MAV, 5-year MAV, Benefit Protector Death Benefit or *SecureSource Legacy* benefit riders. Also, loans will not be available if you purchase this optional benefit. This benefit is intended to provide additional guarantees that may increase the death benefit provided in the contract.

If you are age 75 or younger at contract issue, you may choose to add this rider to your contract. The rider will terminate upon assignment or a change in ownership of the contract unless the new assignee or owner meets the qualifications specified in the Assignment and Change of Ownership section below (does not apply to contracts issued in California).

The *Enhanced Legacy* benefit provides that if you die while the contract is in force and before the annuitization start date, the death benefit will be the greatest of these values:

1. contract value after any rider charges have been deducted; or
2. the ROPP value; or
3. the Accumulation Death Benefit (ADB) value; or
4. the MAV.

The Accumulation Death Benefit (ADB) is a component of the death benefit that is based on purchase payments increased by 5% on each anniversary through age 80 (adjusted for partial surrenders).

For contracts issued in California, the following applies:

- The benefits provided under this rider are only payable at the annuitant’s death and terms “you” or “your” refer to annuitant.
- If the owner is a natural person, the owner and the annuitant must be the same at issue.

The key terms and provisions of the *Enhanced Legacy* benefit are:

Covered Life Change: is either the continuation of the contract by a spouse under the spouse’s option to continue contract provision or, in all states except California, an ownership change where an owner after the ownership change was not an owner prior to the change.

Adjustments for Partial Surrenders: Adjustments for partial surrenders are calculated for the ROPP value, ADB value and MAV separately for each partial surrender using the following formula:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount the contract value is reduced by the partial surrender

b = the applicable ROPP value, ADB value or MAV on the date of (but prior to) the partial surrender

c = the contract value on the date of (but prior to) the partial surrender.

ROPP Value, ADB Value and MAV: are the total purchase payments on the contract issue date. Additional purchase payments will be added to the ROPP value, ADB value and MAV. Adjustments for partial surrenders (as calculated above) will be subtracted from the ROPP value, ADB value and MAV. The ROPP value, ADB value and MAV cannot be withdrawn in a lump sum.

On each contract anniversary prior to your date of death the ADB value and MAV will be adjusted as follows:

1. On the first contract anniversary, we increase the ADB value by 5%, multiplied by the ADB value as of 60 days after the contract date.
2. On each contract anniversary after the first and prior to you reaching age 81, we increase the ADB value by 5%, multiplied by the prior contract anniversary's ADB value.
3. On each contract anniversary prior to you reaching age 86, the MAV will be increased to the contract value (after rider charges are deducted) if greater.

For a spouse who is age 75 or younger and continues the contract, the *Enhanced Legacy* benefit will continue and the ROPP value, ADB value and MAV are reset to the contract value on the date of continuation after any rider charges have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid. If your spouse is age 76 or older when the contract is continued, the *Enhanced Legacy benefit* will terminate and the Standard Death Benefit will apply.

After a covered life change other than for a spouse who continues the contract, if the owner is age 75 or younger, the *Enhanced Legacy* benefit will continue and the ROPP value, ADB value and MAV are reset on the valuation date we receive your written request for the covered life change to the lesser of the contract value on that date after any rider charges have been deducted, and the applicable ROPP value, ADB value and MAV on that date (but prior to the reset). If the owner is age 76 or older at the time of the covered life change, the *Enhanced Legacy* benefit will terminate and the Standard Death Benefit will apply.

You should consider whether the *Enhanced Legacy benefit* rider is appropriate for you because:

- **Investment Allocation Restriction:** This rider requires 100% allocation of purchase payments and your contract value to approved investment options, which are currently Portfolio Stabilizer funds. This means that you will not be able to allocate contract value to all of the subaccounts, GPAs or the regular fixed account, that are available under the contract to contract owners who do not elect the rider. (See "Investment Allocation Restrictions for Certain Optional Riders"). You may allocate purchase payments to the Special DCA fixed account, when available, and we will make monthly transfers into the investment option you have chosen. We reserve the right to limit the number of investment option changes per contract year. We also reserve the right to limit elective investment option changes if required to comply with the written instructions of a fund (see "Making the Most of Your Contract – Transferring Among Accounts – Market Timing"). We reserve the right to add, remove or substitute approved investment options at any time and in our sole discretion. Any substitution of funds may be subject to the SEC or state insurance departments approval. (See "Substitution of Investments").
- **Limitation on Purchase payments:** We reserve the right to limit the cumulative amount of purchase payments, subject to state restrictions. This may limit your ability to increase the contract value and death benefit. For current purchase payment restrictions, please see "Buying Your Contract — Purchase Payments".

Assignment and Change of Ownership

Joint ownership and joint annuitants are not allowed while this rider is in force. In all states, except California, this rider will continue and the benefit amount may be reset if there is an assignment or a change of ownership and the owner or assignee is age 75 or younger. An assignment or change of ownership may also be made to a non-natural owner (e.g. an individual ownership changed to an irrevocable trust) or to a revocable trust, with either holding for the sole benefit of the prior owner. Assignments and ownership changes other than these will terminate the rider.

For contracts issued in California, the benefits provided under this rider are only payable at the annuitant's death. You may not change the annuitant while this rider is in force, unless you are the annuitant and your spouse becomes the owner and annuitant under the spousal continuation provision.

Termination of the Rider

The rider can only be terminated under the following circumstances:

1. After the death benefit is payable, unless the spouse continues the contract as described in the spouse's option to continue contract provision, the rider will terminate.
2. For contracts issued in California, after the death benefit is payable, if you are not the annuitant, the rider will terminate.
3. Certain assignment and ownership changes as described in the Assignment and Change of Ownership provision will terminate the rider (does not apply to contracts issued in California).
4. On the annuitization start date the rider will terminate.
5. In relation to certain increases to the annual rider fee as described in the *Enhanced Legacy* Benefit Rider Charge provision, your written request will terminate the rider.
6. Reduction of the contract value to zero will terminate the rider.
7. Termination of the contract for any reason will terminate the rider.

Upon termination of this rider, any additional death benefit provided by the rider will not be payable upon your death. Upon termination, this rider may not be reinstated.

For an example, please see Appendix D.

SecureSource Legacy Benefit

The *SecureSource Legacy* benefit is an optional death benefit that you can elect only at time of application for an additional charge. The *SecureSource Legacy* rider is intended to provide additional death benefit guarantees that may increase the death benefit provided under the contract. This rider is available only when purchased in combination with the one of the *SecureSource Series* riders (Guaranteed Lifetime Withdrawal Benefit (GLWB) riders). Terms used in this rider have the same meaning as in the GLWB riders to which they are attached. If you elect *SecureSource Legacy*, you may not elect any other death benefit riders available under the contract.

The *SecureSource Legacy* provides that if you die (for contracts issued in California, if the annuitant dies) before the annuitization start date, and while this contract is in force, we will pay the beneficiary the greater of the *SecureSource Legacy* benefit amount provided by this rider or the death benefit under the terms of the contract.

For contracts issued in California, the following applies:

- The benefits provided under this rider are only payable at the annuitant's death.
- If the owner is a natural person, the owner and the annuitant must be the same at issue. The annuitant cannot be changed.
- If the owner and the annuitant are the same when a death benefit is payable, the death benefit is the greater of the *SecureSource Legacy* benefit amount or the death benefit payable under the terms of the base contract.
- If there is an ownership change resulting in a natural owner that is not the same as the annuitant, the death benefit under the terms of the base contract will be payable if the owner dies. The *SecureSource Legacy* benefit amount will not be included in the death benefit.
- If there is an ownership change resulting in a natural owner that is not the same as the annuitant, the *SecureSource Legacy* benefit amount will be payable if the annuitant dies. The death benefit under the terms of the base contract will not be payable.

SecureSource Legacy benefit amount is subject to the maximum amount of \$20 million.

Determination of the *SecureSource Legacy* benefit amount: The *SecureSource Legacy* benefit amount is determined at the following times:

1. At rider effective date

The *SecureSource Legacy* benefit amount is set equal to the initial purchase payment.

2. When an additional purchase payment is made

The *SecureSource Legacy* benefit amount will be increased by the amount of each additional purchase payment. See "Buying Your Contract — Purchase Payments" for purchase payment limitations.

3. When a withdrawal is taken

The *SecureSource Legacy* benefit amount can be adjusted, but it will not be less than zero.

- (A) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The *SecureSource Legacy* benefit amount will be reduced by the greater amount of the withdrawal or the “adjustment for withdrawal” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the *SecureSource Legacy* benefit amount on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal

(B) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the *SecureSource Legacy* benefit amount is reduced by the amount of the withdrawal.

(C) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the *SecureSource Legacy* benefit amount will be reduced by the greater of (1) the amount of the withdrawal or (2) the Remaining Annual Payment plus an amount calculated as follows:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the *SecureSource Legacy* benefit amount on the date of (but prior to) the withdrawal minus the Remaining Annual Payment

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment

4. **At each rider anniversary**

The *SecureSource Legacy* benefit amount will be increased to the contract value (after rider charges are deducted) if the contract value is greater.

Please note that withdrawals you take under the GLWB riders, reduce the *SecureSource Legacy* benefit amount under this rider. For detailed description of how *SecureSource Legacy* benefit amount is determined when a withdrawal is taken, see “Determination of the *SecureSource Legacy* benefit amount – when a withdrawal is taken” above. For detailed description of how withdrawals effect GLWB values, see “Determination of Adjustments of Benefits Values” in the GLWB riders’ description.

Rules for Surrenders (applicable to contracts with applications signed on or after 5/4/2020):

When the Contract Value is reduced to zero, this rider will continue if the *SecureSource Legacy* benefit amount is greater than zero and the attached GLWB rider does not terminate. The *SecureSource Legacy* benefit amount is reduced by the amount of each payment paid as defined under the attached GLWB rider, but it will not be less than zero. We will no longer accept additional purchase payments and no more charges will be collected for the rider. At the death of the Covered Person (for the Joint Life rider, both Covered Spouses) we will pay the beneficiary the *SecureSource Legacy* benefit amount provided by this rider in a lump sum payment.

Rules for Surrenders (applicable to contracts with applications signed prior to 5/4/2020):

For contracts with applications signed before 5/4/2020, when the Contract Value is reduced to zero, this rider will terminate.

If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s (for the Joint Life rider, Covered Spouse’s) birth date, the *SecureSource Legacy* benefit amount will be adjusted based on the corrected Current Annual Payment.

Spousal Option to Continue the Contract upon Owner’s Death (Spousal Continuation):

Single Life: If a spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse as defined under the attached GLWB rider and chooses to continue the contract under the spousal continuation provision, the following provisions apply:

- This rider continues as part of the contract.
- At the time of spousal continuation, the *SecureSource Legacy* benefit amount may be increased. On the valuation date spousal continuation is effective, the *SecureSource Legacy* benefit amount will be increased to the contract value (after any rider fees have been deducted and after any increase to the contract value due to the death benefit that would otherwise have been paid) if the contract value is greater. The death benefit that would otherwise have been paid will not include the *SecureSource Legacy* benefit amount.
- The *SecureSource Legacy* benefit amount is available for payment at the death of the surviving Covered Spouse.

Annuity Provisions (applicable to contracts with applications signed on or after 5/4/2020):

If you choose to receive the Current Annual Payment on the annuitization start date, the *SecureSource Legacy* benefit amount is reduced by the amount of each payment paid as defined under the attached GLWB rider, but it will not be less than zero. No more charges will be collected for the rider. At the death of the Covered Person (for the Joint Life rider, both Covered Spouses) we will pay the beneficiary the *SecureSource Legacy* benefit amount provided by this rider in a lump sum payment.

Annuity Provisions (applicable to contracts with applications signed prior to 5/4/2020):

For contracts with applications signed before 5/4/2020, on the annuitization start date, this rider will terminate.

You should consider whether the *SecureSource Legacy benefit* rider is appropriate for you because:

- **Investment Allocation Restriction:** This rider requires 100% allocation of purchase payments and your contract value to approved investment options. (See “Investment Allocation Restrictions for Certain Optional Riders”). This means that you will not be able to allocate contract value to all of the subaccounts, GPAs or the regular fixed account, that are available under the contract to contract owners who do not elect the rider. We reserve the right to limit elective investment option changes if required to comply with the written instructions of a fund (see “Making the Most of Your Contract – Transferring Among Accounts – Market Timing”). We reserve the right to add, remove or substitute approved investment options at any time and in our sole discretion. Any substitution of funds may be subject to the SEC or state insurance departments approval. (See “Substitution of Investments”).
- **Limitation on Transfers:** Because this rider requires 100% allocation to approved investment options, transfer privileges granted under the contract are suspended other than: (1) transfers among the available investment options as described in the investment options and limits provision, provided such transfers are not determined to disadvantage other contract owners (See “Making the Most of Your Contract – Transferring Among Accounts – Market Timing”) or (2) transfers as otherwise agreed to by us.

**Termination of the Rider
(for contract applications signed on or after 5/4/2020)**

The rider cannot be terminated either by you or us except as follows:

1. **Single Life:** After the death benefit is payable, the rider will terminate.
2. **Joint Life:** After the death benefit is payable, unless the Covered Spouse continues the contract as described in the spouse’s option to continue contract provision, the rider will terminate.
3. On the annuitization start date, if you choose a payout option available under the contract, the rider will terminate.
4. In relation to certain increases to the annual rider fee as described in the *SecureSource Legacy* Benefit Rider Charge provision, your written request will terminate the rider.
5. Reduction of the *SecureSource Legacy* benefit amount to zero will terminate the rider.
6. Termination of the *SecureSource* series rider for any reason will also terminate the *SecureSource Legacy* benefit rider.
7. Termination of the contract for any reason will terminate the rider.

**Termination of the Rider
(for contract applications signed prior to 5/4/2020)**

The rider cannot be terminated either by you or us except as follows:

1. **Single Life:** After the death benefit is payable, the rider will terminate.
2. **Joint Life:** After the death benefit is payable, unless the Covered Spouse continues the contract as described in the spouse’s option to continue contract provision, the rider will terminate.
3. On the annuitization start date the rider will terminate.
4. In relation to certain increases to the annual rider fee as described in the *SecureSource Legacy* Benefit Rider Charge provision, your written request will terminate the rider.
5. Reduction of the contract value to zero will terminate the rider.
6. Termination of the *SecureSource* series rider for any reason will also terminate the *SecureSource Legacy* benefit rider.
7. Termination of the contract for any reason will terminate the rider.

Upon termination of this rider, any additional death benefit provided by the rider will not be payable upon your death (for contracts issued in California, upon annuitant’s death). Upon termination, this rider may not be reinstated.

For an example, please see Appendix E.

Optional Living Benefits

SecureSource Series Rider Terms

The following key terms are associated with all of the *SecureSource* Series of riders:

KEY TERMS

Age Bands: are the age ranges shown in your contract data. For *SecureSource 4* and *SecureSource 4 Plus*, each Age Band has two components for your Lifetime Payment Percentages, a Minimum Lifetime Payment Percentage and a potential Income Bonus Percentage. The covered person (**Joint Life:** the younger Covered Spouse) must be at least the youngest age in the first Age Band for the Current Annual Payment to be established. After the Current Annual Payment is established, in addition to your age, other factors determine when you move to a higher Age Band. The Age Bands are shown in the Rate Sheet Prospectus Supplement.

Annual Credit: an amount that can be added to the Benefit Base on rider anniversaries during a Credit Period, subject to limitations. Investment performance and Excess Withdrawals may reduce or eliminate the benefit of any Annual Credits. Annual Credits increase the Current Annual Payment but may result in higher rider charges that may exceed the benefit from the Annual Credits. Annual Credit is not applicable to the *SecureSource Tempo* rider.

The Annual Credit percentage and duration are shown in a Rate Sheet Prospectus Supplement.

Annual Step-Up: an increase in the Benefit Base that is available on each rider anniversary if your contract value increases, subject to certain conditions. If the Benefit Base increases due to an Annual Step-Up, a Credit Period will restart and if your current age (**Joint Life:** the younger Covered Spouse age) is now in a higher Age Band, the minimum Lifetime Payment Percentage will increase.

Benefit Base: used to determine the Current Annual Payment and the annual rider charge. The Benefit Base is separate from your contract value and cannot be withdrawn in a lump sum or annuitized and is not payable as a death benefit.

Credit Base: used to determine the Annual Credit. The Credit Base cannot be withdrawn or annuitized and is not payable as a death benefit. Credit Base is not applicable to the *SecureSource Tempo* rider.

Credit Period: starts on the rider effective date. Subject to limitations, the Credit period will restart (1) on a rider anniversary whenever there is an increase of the Benefit Base due to an Annual Step-Up or (2) Joint Life only: on the following rider anniversary in the event of a step-up of the Benefit Base under the spousal continuation provision. The Credit Period is shown in the Rate Sheet Prospectus Supplement.

Current Annual Payment: the benefit available for withdrawal each contract year after the covered person (**Joint Life:** the younger Covered Spouse) has reached the youngest age in the first Age Band. For *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, the Current Annual Payment can vary each contract year and is equal to the minimum annual lifetime payment plus an Income Bonus, when eligible.

Excess Withdrawal: any withdrawal taken before the Current Annual Payment is established, or any withdrawal that is greater than the Remaining Annual Payment. Any excess withdrawal request will not be considered in good order until we receive a signed Benefit Impact Acknowledgement form showing the projected effect of the surrender on the rider benefits or a verbal acknowledgement that you understand and accept the impacts that have been explained to you.

Excess Withdrawal Processing: reduces benefits under the rider if an Excess Withdrawal is processed.

Income Bonus: for *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, a potential increase to the Current Annual Payment. It is calculated by multiplying the Benefit Base by the Income Bonus Percentage.

Income Bonus Percentage: for *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, the Income Bonus Percentage may be added to the Minimum Lifetime Payment Percentage as described in the "Lifetime Payment Percentage" provision below. The Income Bonus Percentage is not available under *SecureSource Core*, *SecureSource Core Plus* and *SecureSource Core 2* riders. The Income Bonus Percentage and Minimum Lifetime Payment Percentages are shown in the Rate Sheet Prospectus Supplement.

Lifetime Payment Percentage: used to calculate your Current Annual Payment. For *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, it is the Minimum Lifetime Payment Percentage plus the Income Bonus Percentage, when eligible. The percentage used can vary as described in the Lifetime Payment Percentage provision below. The Lifetime Payment Percentages and Minimum Lifetime Payment Percentages, as applicable to each rider, are shown in the Rate Sheet Prospectus Supplement.

Minimum Annual Lifetime Payment: for *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, the guaranteed lifetime benefit amount available for Withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage.

Remaining Annual Payment: after the Current Annual Payment is established, the Remaining Annual Payment is the amount that can be withdrawn during the remainder of the current contract year. Withdrawals reduce this amount each year.

Withdrawal: the amount by which your contract value is reduced as a result of any withdrawal request. It may differ from the amount of your request due to any surrender charge.

Withdrawal Adjustment Base: for *SecureSource 4*, *SecureSource 4 Plus*, *SecureSource 5*, *SecureSource 5 Plus* and *SecureSource Tempo*, one of the components used to determine whether or not the Income Bonus Percentage will be included with the Lifetime Payment Percentage. The Withdrawal Adjustment Base cannot be withdrawn or annuitized and is not payable as a death benefit.

The following key terms only apply to *SecureSource Core Plus*:

Base Doubler: is 200% of purchase payments received before the first contract anniversary plus 100% of any premiums received after that. It is used one-time to increase your Benefit Base if you do not take any withdrawals or decline a fee increase before the Base Doubler Date (unless the Benefit Base is already higher due to annual credits and annual step ups). The Base Doubler cannot be withdrawn in a lump sum or annuitized and is not payable as a death benefit.

Base Doubler Date (for contracts with applications signed before 5/1/2020): at issue, it is the later of: (1) the 12th rider anniversary; or (2) the rider anniversary on or following the Covered Person (**Joint Life:** the younger Covered Spouse) reaching the Base Doubler age shown in the Rate Sheet Prospectus Supplement.

Base Doubler Date (for contracts with applications signed on/after 5/1/2020): at issue, it is the later of: (1) the rider anniversary equal to the Base Doubler duration; or (2) the rider anniversary on or following the Covered Person (**Joint Life:** the younger Covered Spouse) reaching the Base Doubler age, both shown in the Rate Sheet Prospectus Supplement.

The following key terms only apply to *SecureSource Tempo*:

Contract Returns Used for Credit: Any positive returns in a contract year that are used to determine the Returns-linked Credit.

Credit Carryover: An amount that can be used on the Rider Anniversary to increase the Returns-linked Credit.

Maximum Carryover: The maximum amount for the Credit Carryover. The Maximum Carryover percentage (shown on the Rate Sheet Prospectus Supplement) is used to calculate the Maximum Carryover.

Maximum Credit: The maximum amount for the Returns-linked Credit. The Maximum Credit percentage (shown on the Rate Sheet Prospectus Supplement) is used to calculate the Maximum Credit.

Returns-linked Credit: is an amount that can be added to the Benefit Base on Rider Anniversaries during a Credit Period, subject to limitations. Excess Withdrawals may reduce or eliminate the benefit of any Returns-linked Credits. Returns-linked Credits increase the Current Annual Payment but may result in higher rider charges that may exceed the benefit from the Returns-linked Credits.

Returns-linked Credit Base: used to determine the Maximum Credit and the Maximum Carryover. The Returns-linked Credit Base cannot be withdrawn or annuitized and is not payable as a death benefit.

Optional Living Benefits

(Available for contract applications signed on or after 5/3/2021)

SecureSource Tempo rider

(Available for contract applications signed on or after 5/3/2021)

The *SecureSource Tempo* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers a Returns-linked Credit feature and a step-up feature to lock in contract anniversary gains to increase the Benefit Base and the lifetime payment.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource Tempo* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource Tempo* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. excess withdrawals); or
- you want to invest in funds other than the approved investment options. Certain approved investment options may only be available within an allocation plan, subject to requirements and limitations. For a list of currently approved investment options and allocation plans, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource Tempo* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision. The Current Annual Payment can vary based on the relationship of your contract value to the Withdrawal Adjustment Base. On the day of your first withdrawal each contract year, we determine if the Income Bonus is available for that contract year. (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the current contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if a Returns-linked Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

Each year, your Current Annual Payment may or may not include an Income Bonus. If the contract value is 20% or more below the Withdrawal Adjustment Base, the Income Bonus Percentage will not be available. (see Withdrawal Adjustment Base described below).

For important considerations on whether a *SecureSource Tempo* rider is appropriate for you, see “Important *SecureSource* Series Rider Considerations” section below.

AVAILABILITY

There are two *SecureSource Tempo* riders available under your contract:

- *SecureSource Tempo* - Single Life
- *SecureSource Tempo* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders

The *SecureSource Tempo* — Single Life rider covers one person. The *SecureSource Tempo* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSourceTempo* — Single Life rider or the *SecureSource Tempo* — Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource Tempo* — Single Life rider.

The *SecureSource Tempo* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or

- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource Tempo* riders are not available under an inherited qualified annuity.

The *SecureSource Tempo* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with a *SecureSource Tempo* rider, see “*SecureSource Series Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Minimum Lifetime Payment Percentages, Income Bonus Percentage, Credit Period, Maximum Credit percentage, Maximum Carryover percentage and Credit Multiplier applicable to your contract are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Income Bonus percentage”, “Returns-linked Credit”, “Credit Carryover”, below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Prospectus Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the contract owner. If any owner on the rider effective date is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the oldest annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the first withdrawal is taken in each contract year, we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for the remainder of that contract year.

The Current Annual Payment can vary each contract year and includes the minimum annual lifetime payment and may also include an Income Bonus. The minimum annual lifetime payment is the guaranteed lifetime benefit amount available for withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage. The Income Bonus is a potential increase to the Current Annual Payment and is calculated by multiplying the Benefit Base by the Income Bonus Percentage. If the Income Bonus Percentage is included in the Lifetime Payment Percentage, then the income bonus is included in the Current Annual Payment.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.

- The date the younger Covered Spouse's attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Minimum Lifetime Payment Percentage, the Income Bonus Percentage for each Age Band, and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-Ups" below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Income Bonus Percentage: The Income Bonus Percentage may provide additional income under the rider. Availability of the Income Bonus Percentage is determined at the time of your first withdrawal each contract year. The benefit determining percentage is a comparison of your contract value and the Withdrawal Adjustment Base. If the benefit determining percentage is less than 20%, then the Lifetime Payment Percentage will include the Income Bonus Percentage, as shown in the Rate Sheet Prospectus Supplement, when calculating the Current Annual Payment (unless the Lifetime Payment Percentage is set to a fixed percentage as described below).

The benefit determining percentage is calculated on each valuation date as follows, but it will not be less than zero:

$$1 - (a/b)$$

a = Contract value at the end of the prior valuation period

b = Withdrawal Adjustment Base at the end of the prior valuation period

After the Current Annual Payment is established, the first withdrawal taken in each contract year will set the Lifetime Payment Percentage to a fixed percentage for the remainder of the contract year except as noted below. Following each rider anniversary, the availability of the Income Bonus Percentage, and therefore the Lifetime Payment Percentage, can change on each valuation date until a withdrawal is taken in that contract year. For more information on how this rider operates, please see "Appendix E: Example – Optional Living Benefits – *SecureSource Tempo* Rider".

However, at the earliest of (1) or (2) below, the Lifetime Payment Percentage will be set and remain fixed as long as the benefit is payable:

(1) when your contract value on a rider anniversary is less than two times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or

(2) when the contract value reduces to zero.

For certain periods of time at our discretion and on a non-discriminatory basis, your Lifetime Payment Percentage may be set by us to include the Income Bonus Percentage if more favorable to you.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. At rider effective date

The Benefit Base, Returns-linked Credit Base and Withdrawal Adjustment Base are set equal to the initial purchase payment.

The Credit Carryover is zero.

The Maximum Credit equals the Returns-linked Credit Base multiplied by the Maximum Credit Percentage.

The Maximum Carryover equals the Returns-linked Credit Base multiplied by the Maximum Carryover Percentage.

2. When an additional purchase payment is made

The Benefit Base and Withdrawal Adjustment Base will be increased by the amount of each additional purchase payment.

The Credit Carryover does not change.

If the purchase payment is received within 180 days after the contract date:

- the Returns-linked Credit Base will be increased by the amount of the additional purchase payment; and
- the Maximum Credit is recalculated to the Returns-linked Credit Base multiplied by the Maximum Credit Percentage; and
- the Maximum Carryover is recalculated to the Returns-linked Credit Base multiplied by the Maximum Carryover Percentage.

Purchase payments after 180 days do not increase the Maximum Credit or Maximum Carryover until the contract year after the purchase payment was received.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. When a withdrawal is taken

A Returns-linked Credit will not be added to the Benefit Base on the following rider anniversary.

The Withdrawal Adjustment Base, Benefit Base and Credit Carryover can be adjusted, but they will not be less than zero.

- (A) The Withdrawal Adjustment Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal,” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Withdrawal Adjustment Base on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

- (B) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Carryover will be reduced by the same proportion that the contract value is reduced using the “adjustment for withdrawal” calculation described above but substituting the Benefit Base or Credit Carryover (as applicable) for the Withdrawal Adjustment Base.

- (C) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Carryover do not change.

- (D) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Carryover will be reduced by an amount as calculated below:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Carryover (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how your benefit values are calculated on Rider Anniversaries. The Benefit Base, Returns-linked Credit Base and Withdrawal Adjustment Base are subject to the maximum amount of \$20 million for each. If the Rider Anniversary falls on a Day that the New York Stock Exchange is closed, the anniversary Contract Value (for the Variable Account portion only) is based on the close of business values on the next Valuation Date.

1. Returns-linked Credit for the Benefit Base: If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Returns-linked Credits may be available. The Maximum Credit percentage, Maximum Credit Carryover percentage and Credit Multiplier are shown in the Rate Sheet Prospectus Supplement.

The Returns-linked Credit equals the lesser of the Maximum Credit (immediately prior to this rider anniversary) or the following:

(a × b) + c where:

- a** = Contract Year Returns used for Credit
- b** = Credit Multiplier
- c** = Credit Carryover

The Benefit Base will be increased by the Returns-linked Credit on the Rider Anniversary.

• **Contract Returns Used for Credit:**

- **On the first Rider Anniversary**

The Contract Returns Used for Credit equals the Contract Value on the first Rider Anniversary less the purchase payments received during the first contract year, but it will not be less than zero.

- **On Any Other Rider Anniversary During a Credit Period**

The Contract Returns Used for Credit equals the Contract Value on the Rider Anniversary less the Contract Value on the prior Rider Anniversary less any purchase payments received in that contract year, but it will not be less than zero.

- The Contract Value used to determine the Contract Returns Used for Credit is the value on the anniversary after all charges have been deducted. Your ability to earn Returns-linked Credits can be limited by declining or volatile equity market performance, withdrawals and charges.

- If the Covered Spouse continued the contract under the spousal continuation provision in the prior contract year, the Contract Returns Used For Credit is reduced by any increases to the Contract Value due to the death benefit that would otherwise have been paid.

After the end of the Credit Period there will be no additional Returns-linked Credits unless the Credit Period restarts due to an Annual Step-Up of the Benefit Base.

The Returns-linked Credit Base, Credit Carryover, Maximum Credit and Maximum Carryover will be set to zero on the last Rider Anniversary of a Credit Period.

The Returns-linked Credit Base, Credit Carryover, Maximum Credit and Maximum Carryover will be permanently set to zero on the later of: (A) the rider anniversary on or after the oldest owner's 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Prospectus Supplement.

2. Annual Step-Up for the Benefit Base: Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline an increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base (after any Returns-linked Credit is added). If an Annual Step-Up is executed, the following adjustments will be made:

- The Benefit Base will be increased to the contract value,
- The Credit period will restart,
- If the Covered Person's attained age (**Joint Life:** younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.

3. Credit Carryover: If you did not take any withdrawals during the prior contract year, the Credit Carryover is recalculated on the Rider Anniversary after any Returns-linked Credit and any Annual Step-Up has been applied to the Benefit Base. It equals the lesser of the Maximum Carryover (immediately prior to this rider anniversary) or the following:

(a × b) + c - d where:

- a** = Contract Returns Used for Credit
- b** = Credit Multiplier
- c** = Credit Carryover immediately prior to this rider anniversary
- d** = any Returns-linked Credit that was applied on this Rider Anniversary

If a withdrawal has been taken during the prior contract year, the Credit Carryover is not recalculated. It may take multiple contract years to realize any Credit Carryover during the Credit Period.

4. Returns-linked Credit Base, Maximum Credit and Maximum Carryover: The following values are reset on each Rider Anniversary after any Returns-linked Credit and any Annual Step-Up has been applied to the Benefit Base:

- The Returns-linked Credit Base is reset to the Contract Value (after rider charges are deducted) on the Rider Anniversary.
- The Maximum Credit is recalculated and equals the Returns-linked Credit Base multiplied by the Maximum Credit Percentage.
- The Maximum Carryover is recalculated and equals the greater of 1) Returns-linked Credit Base multiplied by the Maximum Carryover Percentage or 2) the Credit Carryover as determined under item 3 of the Rider Anniversary processing provision above.

5. The Withdrawal Adjustment Base: If You did not decline an increase to the annual rider fee, the Withdrawal Adjustment Base will be increased to the Contract Value, if greater.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource Tempo* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource Tempo* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see “Benefits in Case of Death – If you Die Before the Annuitization Start Date”).

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see “Rider Anniversary Processing — Annual Step-Up” heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Returns-linked Credit Base, Credit Carryover, Maximum Credit and Maximum Carryover will be permanently reset to zero, and there will be no additional Returns-linked Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and the Current Annual Payment will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person's birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: the rider will terminate if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner holding for the sole benefit of the prior owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see "The Annuitization Start Date"), you can choose one of the payout options available under the contract (see "Annuity Payout Plans") or an alternative fixed annuity payout option available under the *SecureSource Tempo* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource Tempo* rider is not available.

Under the rider's payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (Joint Life: both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information on annuity payout plans, please see "The Annuity Payout Period - Annuity Payout Plans."

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource Tempo* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate.
- **Single Life:** spousal continuation will terminate the rider.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource Tempo* riders charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource Core 2 Rider

(Available for contract applications signed on or after 5/3/2021)

The *SecureSource Core 2* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains to increase the Benefit Base.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal.

The *SecureSource Core 2* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource Core 2* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource Core 2* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

For important considerations on whether a *SecureSource Core 2* rider is appropriate for you, see the “Important *SecureSource Series Rider Considerations*” section below.

AVAILABILITY

There are two *SecureSource Core 2* riders available under your contract:

- *SecureSource Core 2* - Single Life
- *SecureSource Core 2* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders.

The *SecureSource Core 2* — Single Life rider covers one person. The *SecureSource Core 2* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource Core 2*— Single Life rider or the *SecureSource Core 2*— Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource Core 2* – Single Life rider.

The *SecureSource Core 2* rider is an optional benefit that you may select, for an additional annual charge if :

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource Core 2* riders are not available under an inherited qualified annuity.

The *SecureSource Core 2* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with a *SecureSource Core 2* rider, see “*SecureSource Series Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Lifetime Payment percentages, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage” and “Annual Credits” below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Prospectus Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the contract owner. If any owner is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If an owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the

Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment)” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Lifetime Payment Percentage for each Age Band and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person’s attained age (**Joint life:** younger Covered Spouse’s attained age).
- On the Covered Person’s subsequent birthdays (**Joint life:** younger Covered Spouse’s subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person’s new attained age (**Joint Life:** younger Covered Spouse’s attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see “Annual Step-Ups” below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse’s attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse’s attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse’s attained age.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. **At rider effective date**

The Credit Base and Benefit Base are set equal to the initial purchase payment.

2. **When an additional purchase payment is made**

The Benefit Base will be increased by the amount of each additional purchase payment.

If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. When a withdrawal is taken

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

(A) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Credit Base or Benefit Base (as applicable) on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

(B) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

(C) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated as follows:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Benefit Base and Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each, and how the Lifetime Payment Percentage can change on rider anniversaries.

• **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available. The Annual Credit percentages and Credit Period are shown in the Rate Sheet Prospectus Supplement.

(A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement, for the first rider anniversary.

• **Single Life:** The Benefit Base will be increased by the Annual Credit.

• **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments 180 days following the rider effective date.

(B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual credit percentage as shown in the Rate Sheet Prospectus Supplement.

• **Single Life:** The Benefit Base will be increased by the Annual Credit.

• **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: (A) the rider anniversary on or after the owner’s 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Prospectus Supplement.

• **Annual Step-Ups:** Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base, Credit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (**Joint Life:** younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource Core 2* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource Core 2* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Start Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see "Rider Anniversary Processing — Annual Step-Up" heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and that amount will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see "Current Annual Payment Description" above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.

- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person's birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: The rider will terminate even if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

If the contract value is greater than zero when the death benefit becomes payable, the beneficiary may:

- elect to take the death benefit under the terms of the contract, or
- continue the contract under the spousal continuation option.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered Person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see "The Annuitization Start Date"), you can choose one of the payout options available under the contract (see "Annuity Payout Plans") or an alternative fixed annuity payout option available under the *SecureSource Core 2* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource Core 2* rider is not available.

Under the rider's payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (**Joint Life:** the death of both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information about annuity payout plans, please see "The Annuity Payout Period - Annuity Payout Plans."

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource Core 2* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate.
- **Single Life:** spousal continuation will terminate the rider.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource Core 2* riders charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource 5 Rider

(Available for contract applications signed on or after 5/3/2021)

The *SecureSource 5* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains to increase the Benefit Base.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource 5* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource 5* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource 5* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision. The Current Annual Payment can vary based on the relationship of your contract value to the Withdrawal Adjustment Base. On the day of your first withdrawal each contract year, we determine if the Income Bonus is available for that contract year (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the current contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

Each year, your Current Annual Payment may or may not include an Income Bonus. If the contract value is 20% or more below the Withdrawal Adjustment Base, the Income Bonus Percentage will not be available. (see Withdrawal Adjustment Base described below).

For important considerations on whether a *SecureSource 5* rider is appropriate for you, see “Important *SecureSource* Series Rider Considerations” section below.

AVAILABILITY

There are two *SecureSource 5* riders available under your contract:

- *SecureSource 5* - Single Life
- *SecureSource 5* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders

The *SecureSource 5* — Single Life rider covers one person. The *SecureSource 5* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource 5* — Single Life rider or the *SecureSource 5* — Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource 5* — Single Life rider.

The *SecureSource 5* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource 5* riders are not available under an inherited qualified annuity.

The *SecureSource 5* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with a *SecureSource 5* rider, see “*SecureSource* Series Rider Terms” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Minimum Lifetime Payment percentages, Income Bonus Percentage, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Income Bonus percentage” and “Annual Credits” below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Prospectus Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the contract owner. If any owner on the rider effective date is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the oldest annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the first withdrawal is taken in each contract year, we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for that contract year.

The Current Annual Payment can vary each contract year and includes the minimum annual lifetime payment and may also include an Income Bonus. The minimum annual lifetime payment is the guaranteed lifetime benefit amount available for withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage. The Income Bonus is a potential increase to the Current Annual Payment and is calculated by multiplying the Benefit Base by the Income Bonus Percentage. If the Income Bonus Percentage is included in the Lifetime Payment Percentage, then the income bonus is included in the Current Annual Payment.

If you withdraw less than the Current Annual Payment in contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Minimum Lifetime Payment Percentage, the Income Bonus Percentage for each Age Band, and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person’s attained age (**Joint life:** younger Covered Spouse’s attained age).
- On the Covered Person’s subsequent birthdays (**Joint life:** younger Covered Spouse’s subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person’s new attained age (**Joint Life:** younger Covered Spouse’s attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see “Annual Step-Ups” below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment

Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Income Bonus Percentage: The Income Bonus Percentage may provide additional income under the rider. Availability of the Income Bonus Percentage is determined at the time of your first withdrawal each contract year. The benefit determining percentage is a comparison of your contract value and the Withdrawal Adjustment Base. If the benefit determining percentage is less than 20%, then the Lifetime Payment Percentage will include the Income Bonus Percentage, as shown in the Rate Sheet Prospectus Supplement, when calculating the Current Annual Payment (unless the Lifetime Payment Percentage is set to a fixed percentage as described below).

The benefit determining percentage is calculated on each valuation date as follows, but it will not be less than zero:

$$1 - (a/b)$$

a = Contract value at the end of the prior valuation period

b = Withdrawal Adjustment Base at the end of the prior valuation period

After the Current Annual Payment is established, the first withdrawal taken in each contract year will set the Lifetime Payment Percentage to a fixed percentage for the remainder of the contract year except as noted below. Following each rider anniversary, the availability of the Income Bonus Percentage, and therefore the Lifetime Payment Percentage, can change on each valuation date until a withdrawal is taken in that contract year. For more information on how this rider operates, please see "Appendix E: Example – Optional Living Benefits – *SecureSource 5 Rider*".

However, at the earliest of (1) or (2) below, the Lifetime Payment Percentage will be set and remain fixed as long as the benefit is payable:

(1) when your contract value on a rider anniversary is less than two times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or

(2) when the contract value reduces to zero.

For certain periods of time at our discretion and on a non-discriminatory basis, your Lifetime Payment Percentage may be set by us to include the Income Bonus Percentage if more favorable to you.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. At rider effective date

The Withdrawal Adjustment Base, Credit Base and Benefit Base are set equal to the initial purchase payment.

2. When an additional purchase payment is made

The Benefit Base, Withdrawal Adjustment Base will be increased by the amount of each additional purchase payment. If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See "Buying Your Contract — Purchase Payments" for purchase payment limitations.

3. When a withdrawal is taken

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Withdrawal Adjustment Base, Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

(A) The Withdrawal Adjustment Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the "adjustment for withdrawal," calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Withdrawal Adjustment Base on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

(B) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced using the "adjustment for withdrawal" calculation described above but substituting the Credit Base or Benefit Base (as applicable) for the Withdrawal Adjustment Base.

(C) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

- (D) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated below:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Withdrawal Adjustment Base, Benefit Base and Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available. The Annual Credit percentages and duration are shown in the Rate Sheet Prospectus Supplement.

(A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement, for the first rider anniversary.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments since 180 days following the rider effective date.

(B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit period duration, as shown in the Rate Sheet Supplement.

Annual Step-Ups: Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value, if greater.
 - The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
 - If the Covered Person's attained age (**Joint Life:** younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.
- **The Withdrawal Adjustment Base on rider anniversaries:** If you did not decline an increase to the annual rider fee, the Withdrawal Adjustment Base will be increased to the contract value, if greater.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and

- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource 5* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource 5* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see “Benefits in Case of Death – If you Die Before the Annuitization Stat Date”).

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see “Rider Anniversary Processing — Annual Step-Up” heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base, if greater than zero, will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and the Current Annual Payment will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person's birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: the rider will terminate if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner holding for the sole benefit of the prior owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource 5* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource 5* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (Joint Life: both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information on annuity payout plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource 5* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate, even if the Covered Person is still living.
- **Single Life:** spousal continuation will terminate the rider, even if the Covered Person is still living.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource 5* riders charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource 5 Plus Rider

(Available for contract applications signed on or after 5/3/2021)

The *SecureSource 5 Plus* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP Death Benefit, MAV Death Benefit or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature and a step-up feature to lock in contract anniversary gains to increase the Benefit Base and the lifetime payment.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource 5 Plus* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource 5 Plus* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource 5 Plus* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision. The annual benefit amount can vary based on the relationship of your contract value to the withdrawal adjustment base. On the day of your first withdrawal each contract year, we determine if the Income Bonus is available for that contract year (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the current contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

Each year, your Current Annual Payment may or may not include an Income Bonus. If the contract value is 20% or more below the Withdrawal Adjustment Base, the Income Bonus Percentage will not be available. (see Withdrawal Adjustment Base described below).

For important considerations on whether a *SecureSource 5 Plus* rider is appropriate for you, see “Important *SecureSource* Series Rider Considerations” section.

AVAILABILITY

There are two *SecureSource 5 Plus* riders available under your contract:

- *SecureSource 5 Plus* - Single Life
- *SecureSource 5 Plus* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders

The *SecureSource 5 Plus* — Single Life rider covers one person. The *SecureSource 5 Plus* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource 5 Plus* — Single Life rider or the *SecureSource 5 Plus* — Joint Life rider, not both, and you may not switch riders later. You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource 5 Plus* — Single Life rider.

The *SecureSource 5 Plus* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource 5 Plus* riders are not available under an inherited qualified annuity.

The *SecureSource 5 Plus* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with the *SecureSource 5 Plus* rider, see “*SecureSource Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current charges and the current rates for the Lifetime Payment percentages, Income Bonus Percentage, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Income Bonus percentage” and “Annual Credits” below.) We may change these terms for new purchasers, upon 7 calendar prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Supplement for the next effective period, we will file a new Rate Sheet Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the oldest contract owner. If any owner is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the oldest annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses’ lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the first withdrawal is taken in each contract year we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for that contract year.

The Current Annual Payment can vary each contract year and includes the minimum annual lifetime payment and may also include an Income Bonus. The minimum annual lifetime payment is the guaranteed lifetime benefit amount available for withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage. The Income Bonus is a potential increase to the Current Annual Payment and is calculated by multiplying the Benefit Base by the Income Bonus Percentage. If the Income Bonus Percentage is included in the Lifetime Payment Percentage, then the income bonus is included in the Current Annual Payment.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person's attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse's attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Minimum Lifetime Payment Percentage, the Income Bonus Percentage for each Age Band, and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-ups" below).
- For the Joint life rider, upon death or change in marital status: In the event of death or dissolution of marriage: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Income Bonus Percentage: The Income Bonus Percentage may provide additional income under the rider. Availability of the Income Bonus Percentage is determined at the time of your first withdrawal each contract year. The benefit determining percentage is a comparison of your contract value and the Withdrawal Adjustment Base. If the benefit determining percentage is less than 20%, then the Lifetime Payment Percentage will include the Income Bonus Percentage, as shown in the Rate Sheet Prospectus Supplement when calculating the Current Annual Payment (unless the Lifetime Payment Percentage is set to a fixed percentage as described below).

The benefit determining percentage is calculated on each valuation date as follows, but it will not be less than zero:

$$1 - (a/b)$$

a = Contract value at the end of the prior valuation period

b = Withdrawal Adjustment Base at the end of the prior valuation period

After the Current Annual Payment is established, the first withdrawal taken in each contract year will set the Lifetime Payment Percentage to a fixed percentage for the remainder of the contract year except as noted below. Following each rider anniversary, the availability of the Income Bonus Percentage, and therefore the Lifetime Payment Percentage, can change on each valuation date until a withdrawal is taken in that contract year. For more information on how this rider operates, please see "Appendix E: Example – Optional Living Benefits – *SecureSource 5 Plus Rider*".

However, at the earliest of (1) or (2) below, the Lifetime Payment Percentage will be set and remain fixed as long as the benefit is payable:

(1) when your contract value on a rider anniversary is less than two times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or

(2) when the contract value reduces to zero.

For certain periods of time at our discretion and on a non-discriminatory basis, your Lifetime Payment Percentage may be set by us to include the Income Bonus Percentage if more favorable to you.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million for each:

1. At rider effective date

The Withdrawal Adjustment Base, Credit Base and Benefit Base are set equal to the initial purchase payment.

2. When an additional purchase payment is made

The Benefit Base and Withdrawal Adjustment Base will be increased by the amount of each additional purchase payment.

If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. When a withdrawal is taken

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Withdrawal Adjustment Base, Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

(A) The Withdrawal Adjustment Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal,” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Withdrawal Adjustment Base on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

(B) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced using the “adjustment for withdrawal” calculation described above but substituting the Credit Base or Benefit Base (as applicable) for the Withdrawal Adjustment Base.

(C) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

(D) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated below:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Withdrawal Adjustment Base, Benefit Base and, Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each, and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available.

(A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.

- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments since 180 days following the rider effective date.

(B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Supplement.

- **Annual Step-Ups:** Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base, Credit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value, if greater.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (Joint Life: younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.
- **The Withdrawal Adjustment Base on rider anniversaries:** If you did not decline an increase to the annual rider fee, the Withdrawal Adjustment Base will be increased to the contract value, if greater.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing.

See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource 5 Plus* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource 5 Plus* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Stat Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see "Rider Anniversary Processing — Annual Step-Up" heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in

that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base, if greater than zero, will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and the Current Annual Payment will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, together without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: The rider will terminate even if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

If the contract value is greater than zero when the death benefit becomes payable, the beneficiary may:

- elect to take the death benefit under the terms of the contract, or
- continue the contract under the spousal continuation option.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a

non-natural owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource 5 Plus* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource 5 Plus* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment each contract year until the death of the Covered Person (**Joint Life:** both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information on annuity payout plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource 5 Plus* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate, even if the Covered Person is still living.
- **Single Life:** spousal continuation will terminate the rider, even if the Covered Person is still living.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource 5 Plus* rider charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

Optional Living Benefits

(Available for contract applications signed prior to 5/3/2021)

SecureSource Core Rider

(Available for contract applications signed prior to 5/3/2021)

The *SecureSource Core* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit or certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide to you, a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains to increase the Benefit Base.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource Core* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource Core* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource Core* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

For important considerations on whether a *SecureSource Core* rider is appropriate for you, see the “Important *SecureSource* Series Rider Considerations” section below.

AVAILABILITY

There are two *SecureSource Core* riders available under your contract:

- *SecureSource Core* - Single Life
- *SecureSource Core* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders.

The *SecureSource Core* — Single Life rider covers one person. The *SecureSource Core* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource Core* — Single Life rider or the *SecureSource Core* — Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource Core* – Single Life rider.

The *SecureSource Core* rider is an optional benefit that you may select, for an additional annual charge if :

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource Core* riders are not available under an inherited qualified annuity.

The *SecureSource Core* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with a *SecureSource Core* rider, see “*SecureSource Series Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Lifetime Payment percentages, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage” and “Annual Credits” below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Prospectus Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the contract owner. If any owner is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If an owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment”) heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Lifetime Payment Percentage for each Age Band and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-Ups" below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. **At rider effective date**

The Credit Base and Benefit Base are set equal to the initial purchase payment.

2. **When an additional purchase payment is made**

The Benefit Base will be increased by the amount of each additional purchase payment.

If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See "Buying Your Contract — Purchase Payments" for purchase payment limitations.

3. **When a withdrawal is taken**

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

(A) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the "adjustment for withdrawal" calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Credit Base or Benefit Base (as applicable) on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

(B) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

(C) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated as follows:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Benefit Base and Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each, and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available. The Annual Credit percentages and Credit Period are shown in the Rate Sheet Prospectus Supplement.

(A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement, for the first rider anniversary.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments 180 days following the rider effective date.

(B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual credit percentage as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: (A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Prospectus Supplement.

- **Annual Step-Ups:** Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base, Credit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (**Joint Life:** younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource Core* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource Core* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Start Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see “Rider Anniversary Processing — Annual Step-Up” heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and that amount will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: The rider will terminate even if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

If the contract value is greater than zero when the death benefit becomes payable, the beneficiary may:

- elect to take the death benefit under the terms of the contract, or
- continue the contract under the spousal continuation option.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered Person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those

issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource Core* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource Core* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (**Joint Life:** the death of both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information about annuity payout plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource Core* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate.
- **Single Life:** spousal continuation will terminate the rider.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource Core* riders charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource Core Plus Rider

(Available for contract applications signed prior to 3/30/2020)

The *SecureSource Core Plus* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains to increase the Benefit Base. This rider also provides a guaranteed benefit base amount, provided no withdrawals are taken and the rider does not terminate before a specified date (see “Base Doubler” below).

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource Core Plus* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource Core Plus* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource Core Plus* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available, a Base Doubler is applied or an Annual Step-up increases the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

For important considerations on whether a *SecureSource Core Plus* rider is appropriate for you, see “Important *SecureSource* Series Rider Considerations” section.

AVAILABILITY

There are two *SecureSource Core Plus* riders available under your contract:

- *SecureSource Core Plus* - Single Life
- *SecureSource Core Plus* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” is equal to the term “surrender” in the contract or any riders. Withdrawals will adjust contract values and benefits in the same manner as surrenders.

The *SecureSource Core Plus* — Single Life rider covers one person. The *SecureSource Core Plus* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource Core Plus* — Single Life rider or the *SecureSource Core Plus* — Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource Core Plus* – Single Life rider.

The *SecureSource Core Plus* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource Core Plus* riders are not available under an inherited qualified annuity.

The *SecureSource Core Plus* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with the *SecureSource Core Plus* rider, see “*SecureSource Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Lifetime Payment percentages, Credit Period, Annual Credit percentages and Base Doubler age and duration, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Annual Credits” and “Base Doubler” below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “(Current Annual Payment)” heading below). The Covered Person is the owner on the rider effective date. If an owner is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the annuitant. The Covered person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the the first withdrawal is taken in each contract year we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for that contract year.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Lifetime Payment Percentage for each Age Band and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-ups" below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Joint Life: Base Doubler Date (for contracts with applications signed before 5/1/2020): If the Base Doubler is greater than zero, the Base Doubler Date may be reset in the event of: (1) dissolution of marriage; or (2) a Covered Spouse's death when the death benefit is not payable. On the date we receive written notification of these events, the Base Doubler Date will be set to the later of: (1) the rider anniversary on or following the remaining Covered Spouse reaching the Base Doubler age shown in the Rate Sheet Prospectus Supplement; (2) the 12th rider anniversary; or (3) the next rider anniversary.

Base Doubler Date (for contracts with applications signed on/after 5/1/2020): If the Base Doubler is greater than zero, the Base Doubler Date may be reset in the event of: (1) dissolution of marriage; or (2) a Covered Spouse's death when the death benefit is not payable. On the date we receive written notification of these events, the Base Doubler Date will be set to the later of: (1) the rider anniversary on or following the remaining Covered Spouse reaching the Base Doubler age; (2) the rider anniversary equal to the Base Doubler duration (both as shown in the Rate Sheet Prospectus Supplement); or (3) the next rider anniversary.

The Base Doubler Date may also be reset if there is a spousal continuation. See the Spouse's Option to continue contract provision.

For contracts with applications signed before 5/1/2020: In the event of remarriage of the Covered Spouses to each other before the Base Doubler Date, the Base Doubler Date will be reset to the later of the 12th rider anniversary; or the rider anniversary on or following the younger Covered Spouse reaching the Base Double age shown in the Rate Sheet Prospectus Supplement.

For contracts with applications signed on/after 5/1/2020: In the event of remarriage of the Covered Spouses to each other before the Base Doubler Date, the Base Doubler Date will be reset to the later of the rider anniversary equal to the Base Doubler duration, or the rider anniversary on or following the younger Covered Spouse reaching the Base Double age (both shown in the Rate Sheet Prospectus Supplement).

Determination of Adjustments of Benefit Values: Your values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. At rider effective date

The Credit Base and Benefit Base are set equal to the initial purchase payment.

The Base Doubler is set equal to the initial purchase payment multiplied by the applicable Base Doubler Percentage, as shown in the table below.

Purchase Payments	Base Doubler Percentage
Payments received before the first rider anniversary	200%
Payments received thereafter	100%

2. When an additional purchase payment is made

The Benefit Base will be increased by the amount of each additional purchase payment.

If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

If the Base Doubler is greater than zero, the Base Doubler will be increased by the amount of each additional purchase payment multiplied by the applicable Base Doubler Percentage as shown in the table above.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. When a withdrawal is taken

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

If a withdrawal is taken before the Base Doubler Date, the Base Doubler is permanently set to zero.

The Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

(A) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal”, calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

(B) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

(C) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount calculated as follows:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Benefit Base and Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each, and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available. The Annual Credit percentages and duration are shown in the Rate Sheet Prospectus Supplement.

(A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement, for the first rider anniversary.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments since 180 days following the rider effective date.

(B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual Credit percentage as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: (A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Prospectus Supplement.

Base Doubler: If you did not take any withdrawals since the rider effective date and you did not decline an increase to the annual rider fee, on the Base Doubler Date the Benefit Base (after any Annual Credit is added) will be increased to the Base Doubler if greater. The Base Doubler will be permanently set to zero on the Base Doubler Date (after any adjustment to the Benefit Base). It is important to remember that the 200% Base Doubler percentage only applies to purchase payments received in the first year. After the first year, 100% of purchase payments will be added to the Base Doubler rather than 200%.

- **Annual Step-Ups:** Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base, Credit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added or Base Doubler is applied) will be increased to the contract value.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (Joint Life: younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. Any withdrawals (including RMDs) before the Base Doubler date will permanently set the Base Doubler to zero.

See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource Core Plus* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource Core Plus* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Start Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see "Rider Anniversary Processing — Annual Step-Up" heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater.

The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

For contracts with applications signed before 5/1/2020: If the Base Doubler is greater than zero, the Base Doubler Date will be set to the later of: (1) the rider anniversary on or following the remaining Covered Spouse reaching the Base Doubler age shown in the Rate Sheet Prospectus Supplement; (2) the 12th rider anniversary; or (3) the next rider anniversary.

For contracts with applications signed on/after 5/1/2020: If the Base Doubler is greater than zero, the Base Doubler Date will be set to the later of: (1) the rider anniversary on or following the remaining Covered Spouse reaching the Base Doubler age; (2) the rider anniversary equal to the Credit Period Base Doubler duration, (both as shown in the Rate Sheet Prospectus Supplement); or (3) the next rider anniversary.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base and Base Doubler, will be permanently set to zero, and there will be no additional Annual Credits and no Base Doubler is applied. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and that amount will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: the rider will terminate even if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

If the contract value is greater than zero when the death benefit becomes payable, the beneficiary may:

- elect to take the death benefit under the terms of the contract, or
- continue the contract under the spousal continuation option.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or

assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource Core Plus* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource Core Plus* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (**Joint Life:** both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information about annuity payment plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource Core Plus* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate.
- **Single Life:** spousal continuation will terminate the rider.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource Core Plus* rider charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource 4 Rider

(Available for contract applications signed prior to 5/3/2021)

The *SecureSource 4* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP rider, MAV rider or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains to increase the Benefit Base.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource 4* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource 4* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource 4* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision. The Current Annual Payment can vary based on the relationship of your contract value to the Withdrawal Adjustment Base. On the day of your first withdrawal each contract year, we determine if the Income Bonus Percentage is available for that contract year (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the current contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

Each year, your Current Annual Payment may or may not include an Income Bonus. If the contract value is 20% or more below the Withdrawal Adjustment Base, the Income Bonus Percentage will not be available. (see Withdrawal Adjustment Base described below).

For important considerations on whether a *SecureSource 4* rider is appropriate for you, see and “Important *SecureSource* Series Rider Considerations” section below.

AVAILABILITY

There are two *SecureSource 4* riders available under your contract:

- *SecureSource 4* - Single Life
- *SecureSource 4* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders

The *SecureSource 4* — Single Life rider covers one person. The *SecureSource 4* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource 4* — Single Life rider or the *SecureSource 4* — Joint Life rider, not both, and you may not switch riders later.

You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource 4* — Single Life rider.

The *SecureSource 4* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource 4* riders are not available under an inherited qualified annuity.

The *SecureSource 4* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with a *SecureSource 4* rider, see “*SecureSource Series Rider Terms*” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Minimum Lifetime Payment percentages, Income Bonus Percentage, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Income Bonus percentage” and “Annual Credits” below). We may change these terms for new purchasers, upon 7 calendar days prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Supplement. All historical Rate Sheet Prospectus Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the contract owner. If any owner on the rider effective date is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the oldest annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the Covered Spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the first withdrawal is taken in each contract year we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for the remainder of that contract year.

The Current Annual Payment can vary each contract year and includes the minimum annual lifetime payment and may also include an Income Bonus. The minimum annual lifetime payment is the guaranteed lifetime benefit amount available for withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage. The Income Bonus is a potential increase to the Current Annual Payment and is calculated by multiplying the Benefit Base by the Income Bonus Percentage. If the Income Bonus Percentage is included in the Lifetime Payment Percentage, then the income bonus is included in the Current Annual Payment.

If you withdraw less than the Current Annual Payment in contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the

date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.

- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Minimum Lifetime Payment Percentage, the Income Bonus Percentage for each Age Band, and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-Ups" below).
- For the Joint life rider, upon death or change in marital status: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Income Bonus Percentage: The Income Bonus Percentage may provide additional income under the rider. Availability of the Income Bonus Percentage is determined at the time of your first withdrawal each contract year. The benefit determining percentage is a comparison of your contract value and the Withdrawal Adjustment Base. If the benefit determining percentage is less than 20%, then the Lifetime Payment Percentage will include the Income Bonus Percentage, as shown in the Rate Sheet Prospectus Supplement, when calculating the Current Annual Payment (unless the Lifetime Payment Percentage is set to a fixed percentage as described below).

The benefit determining percentage is calculated on each valuation date as follows, but it will not be less than zero:

1 – (a/b)

a = Contract value at the end of the prior valuation period

b = Withdrawal Adjustment Base at the end of the prior valuation period

After the Current Annual Payment is established, the first withdrawal taken in each contract year will set the Lifetime Payment Percentage to a fixed percentage for the remainder of the contract year except as noted below. Following each rider anniversary, the availability of the Income Bonus Percentage, and therefore the Lifetime Payment Percentage, can change on each valuation date until a withdrawal is taken in that contract year. For more information on how this rider operates, please see "Appendix E: Example – Optional Living Benefits – *SecureSource 4 Rider*".

However, at the earliest of (1) or (2) below, the Lifetime Payment Percentage will be set and remain fixed as long as the benefit is payable:

(1) when your contract value on a rider anniversary is less than two times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or

(2) when the contract value reduces to zero.

For certain periods of time at our discretion and on a non-discriminatory basis, your Lifetime Payment Percentage may be set by us to include the Income Bonus Percentage if more favorable to you.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million each:

1. **At rider effective date**

The Withdrawal Adjustment Base, Credit Base and Benefit Base are set equal to the initial purchase payment.

2. **When an additional purchase payment is made**

The Benefit Base, Withdrawal Adjustment Base will be increased by the amount of each additional purchase payment. If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. **When a withdrawal is taken**

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Withdrawal Adjustment Base, Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

- (A) The Withdrawal Adjustment Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal,” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Withdrawal Adjustment Base on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

- (B) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced using the “adjustment for withdrawal” calculation described above but substituting the Credit Base or Benefit Base (as applicable) for the Withdrawal Adjustment Base.

- (C) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

- (D) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated below:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Withdrawal Adjustment Base, Benefit Base and Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available. The Annual Credit percentages and duration are shown in the Rate Sheet Prospectus Supplement.

- (A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement, for the first rider anniversary.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments since 180 days following the rider effective date.

- (B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.

- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Withdrawal Adjustment Base will be set as follows:

- (A) if no withdrawals have been taken, the Withdrawal Adjustment Base will be set to the Benefit Base determined above, or
- (B) if any withdrawals have been taken, the Withdrawal Adjustment Base will be set to the amount as calculated below:

$$\frac{a \times b}{c} \text{ where:}$$

- a** = the Withdrawal Adjustment Base on the rider anniversary (but prior to rider anniversary processing)
- b** = the Benefit Base determined above
- c** = the Benefit Base on the rider anniversary (but prior to rider anniversary processing)

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Withdrawal Adjustment Base and Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit period duration, as shown in the Rate Sheet Supplement.

Annual Step-Ups: Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value, if greater.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (**Joint Life:** younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation.
- **The Withdrawal Adjustment Base on rider anniversaries:** If you did not decline an increase to the annual rider fee, the Withdrawal Adjustment Base (after any Annual Credit is added) will be increased to the contract value, if greater.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing. See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource 4* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource 4* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Start Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see "Rider Anniversary Processing — Annual Step-Up" heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in

that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base, if greater than zero, will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and the Current Annual Payment will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The Current Annual Payment is fixed for as long as payments are made.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: the rider will terminate if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner holding for the sole benefit of the prior owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource 4* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource 4* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment provided by this rider until the death of the Covered Person (Joint Life: both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information on annuity payout plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource 4* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate, even if the Covered Person is still living.
- **Single Life:** spousal continuation will terminate the rider, even if the Covered Person is still living.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource 4* riders charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

SecureSource 4 Plus Rider

(Available for contract applications signed prior to 5/3/2021)

The *SecureSource 4 Plus* rider is an optional benefit that you can elect at time of application for an additional charge. It may not be purchased with any other optional living benefit and certain death benefit riders (ROPP Death Benefit, MAV Death Benefit or *Enhanced Legacy* benefit rider). This benefit is intended to provide a specified withdrawal amount annually for life, even if your contract value is zero, subject to the terms and provisions described in this section. Additionally, this benefit offers an Annual Credit feature to help in low or poor performing markets and a step-up feature to lock in contract anniversary gains.

If the contract value is reduced to zero due to market performance, fees or charges, or a withdrawal that does not exceed the amount available under the rider, then you will receive lifetime payments made by us as described in the “Other provisions - Rules for Surrender.” However, the contract and rider will terminate if the contract value goes to zero due to an excess withdrawal. If you die before the contract value is depleted, you will not receive any monetary value from the rider.

The *SecureSource 4 Plus* rider may be **appropriate** for you if:

- you intend to make periodic withdrawals from your annuity contract; and
- you wish to ensure that market performance will not adversely affect your ability to withdraw income over your lifetime.

The *SecureSource 4 Plus* rider may be **not appropriate** for you if:

- you anticipate the need for withdrawals before the lifetime benefit is established or withdrawals that exceed the amount available under the rider (i.e. Excess Withdrawals); or
- you want to invest in funds other than the approved investment options. For a list of currently approved investment options, see “Investment Allocation Restrictions for Certain Benefit Riders”.

The *SecureSource 4 Plus* rider guarantees that, regardless of investment performance, you may take withdrawals up to the Current Annual Payment each contract year after the Current Annual Payment is established. Your age at the time of the first withdrawal will determine the Age Band for as long as benefits are payable except as described in the Lifetime Payment Percentage provision. The annual benefit amount can vary based on the relationship of your contract value to the withdrawal adjustment base. Each contract year, whether or not the Income Bonus Percentage is included in the Lifetime Payment Percentage is determined when the first withdrawal is taken and is fixed for the remainder of that contract year (see “Lifetime Payment Percentage” below).

As long as your total withdrawals during the current contract year do not exceed the Current Annual Payment, you will not be assessed a surrender charge. If you withdraw a larger amount, the excess amount will be assessed any applicable surrender charges and benefits will be reduced in accordance with Excess Withdrawal Processing. At any time, you may withdraw any amount up to your entire surrender value, subject to Excess Withdrawal Processing under the rider (see “Determination of Adjustments of Benefit Values”).

Any amount we pay in excess of your contract value is subject to our financial strength and claims-paying ability.

Subject to conditions and limitations, the Current Annual Payment can be increased if an Annual Credit is available or your contract value has increased above the Benefit Base on a rider anniversary.

Your benefits under the rider can be reduced if you:

- withdraw more than the allowed withdrawal amount in a contract year, or
- take withdrawals before the Current Annual Payment is established.

Each year, your Current Annual Payment may or may not include an Income Bonus. If the contract value is 20% or more below the Withdrawal Adjustment Base, the Income Bonus Percentage will not be available. (see Withdrawal Adjustment Base described below).

For important considerations on whether a *SecureSource 4 Plus* rider is appropriate for you, see “Important *SecureSource* Series Rider Considerations” section.

AVAILABILITY

There are two *SecureSource 4 Plus* riders available under your contract:

- *SecureSource 4 Plus* - Single Life
- *SecureSource 4 Plus* - Joint Life

The information in this section applies to both riders, unless otherwise noted.

For the purpose of this rider, the term “withdrawal” has the same meaning as the term “surrender” in the contract or any other riders

The *SecureSource 4 Plus* — Single Life rider covers one person. The *SecureSource 4 Plus* — Joint Life Rider covers two spouses jointly who are named at contract issue. You may elect only the *SecureSource 4 Plus* — Single Life rider or the *SecureSource 4 Plus* — Joint Life rider, not both, and you may not switch riders later. You must elect the rider when you purchase your contract. The rider effective date will be the contract issue date. Joint ownership and joint annuitants are not allowed for *SecureSource 4 Plus* — Single Life rider.

The *SecureSource 4 Plus* rider is an optional benefit that you may select, for an additional annual charge if:

- **Single Life:** you are 85 or younger on the date the contract is issued; or
- **Joint Life:** you and your spouse are 85 or younger on the date the contract is issued.

Issue ages from 81 through 85 require prior approval.

The *SecureSource 4 Plus* riders are not available under an inherited qualified annuity.

The *SecureSource 4 Plus* rider guarantees that, regardless of the investment performance of your contract, you will be able to withdraw up to a certain amount each year from the contract before the annuitization start date until:

- **Single Life:** death (see “At Death” heading below).
- **Joint Life:** the death of the last surviving Covered Spouse (see “*Joint Life only: Covered Spouses*” and “At Death” headings below).

For key terms associated with the SecureSource 4 Plus rider, see “SecureSource Rider Terms” section above.

RATE SHEET PROSPECTUS SUPPLEMENT

The current rider charges and the current rates for the Minimum Lifetime Payment percentages, Income Bonus Percentage, Credit Period and Annual Credit percentages, applicable to your contract issued to you are disclosed in the Rate Sheet Prospectus Supplement attached to this prospectus. These terms can only change as provided in this prospectus (see “Lifetime Payment Percentage”, “Income Bonus percentage” and “Annual Credits” below). We may change these terms for new purchasers, upon 7 calendar prior notice. At least 7 calendar days before we change the terms contained in a Rate Sheet Prospectus Supplement for the next effective period, we will file a new Rate Sheet Supplement. All historical Rate Sheet Supplements are reflected in Appendix G. All Rate Sheet Prospectus Supplements, including the Rate Sheet Prospectus Supplement applicable to you, have been filed with the Securities and Exchange Commission (the “SEC”) and are also available on the Edgar system at www.sec.gov (File No. 333 – 230376).

CURRENT ANNUAL PAYMENT DESCRIPTION

Single Life only: Covered Person: the person whose life is used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Person is the oldest contract owner. If any owner is a nonnatural person (e.g., an irrevocable trust or corporation) or a revocable trust, the Covered Person is the oldest annuitant. The Covered Person cannot be changed.

Joint Life only: Covered Spouses: the contract owner and their spouse named on the application for as long as the marriage remains in effect. If any contract owner is a nonnatural person or a revocable trust, the Covered Spouses are the annuitant and the spouse of the annuitant named on the application. After death or dissolution of marriage that leaves only one of the spouses as the owner (for non-natural owners, the annuitant), that remaining Covered Spouse will be used when referring to the younger Covered Spouse. The Covered Spouses’ lives are used to determine when the Current Annual Payment is established, and the duration of the Current Annual Payments (see “Current Annual Payment” heading below). The Covered Spouses are established on the rider effective date and cannot be changed. For more details, see “Assignment and Change of Ownership – Joint Life” section below.

Current Annual Payment: the benefit available for withdrawal each contract year after the Covered Person (**Joint life:** younger Covered Spouse) has reached the youngest age in the first Age Band. When the Current Annual Payment is established and at all times thereafter, the Current Annual Payment is equal to the Benefit Base multiplied by the Lifetime Payment Percentage. Anytime the Lifetime Payment Percentage or the Benefit Base changes as described below, the Current Annual Payment will be recalculated. When the the first withdrawal is taken in each contract year we will determine if the Income Bonus Percentage will be included in the Lifetime Payment Percentage for that contract year.

The Current Annual Payment can vary each contract year and includes the minimum annual lifetime payment and may also include an Income Bonus. The minimum annual lifetime payment is the guaranteed lifetime benefit amount available for withdrawal each contract year. It is calculated by multiplying the Benefit Base by the Minimum Lifetime Payment Percentage. The Income Bonus is a potential increase to the Current Annual Payment and is calculated by multiplying the Benefit Base by the Income Bonus Percentage. If the Income Bonus Percentage is included in the Lifetime Payment Percentage, then the income bonus is included in the Current Annual Payment.

If you withdraw less than the Current Annual Payment in a contract year, the unused portion does not carry over to future contract years.

Single Life: The Current Annual Payment is established on the later of the rider effective date if the Covered Person has reached the youngest age in the first Age Band, or the date the Covered Person’s attained age equals the youngest age in the first Age Band.

Joint Life: The Current Annual Payment is established on the earliest of the following dates:

- The rider effective date if the younger Covered Spouse has already reached the youngest age in the first Age Band.
- The date the younger Covered Spouse’s attained age equals the youngest age in the first Age Band.
- Upon the first death of a Covered Spouse, then either: (a) the date we receive a written notice when the death benefit is not payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, (b) the date spousal continuation is effective when the death benefit is payable and the surviving Covered Spouse has already reached the youngest age in the first Age Band, or (c) the date the surviving Covered Spouse reaches the youngest age in the first Age Band.
- Following dissolution of marriage of the Covered Spouses, then either (a) the date we receive a written notice if the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) has already reached the youngest age in the first Age Band, or (b) the date the remaining Covered Spouse who is the owner (or annuitant in the case of nonnatural or revocable trust ownership) reaches the youngest age in the first Age Band.

Remaining Annual Payment: the amount available for withdrawal for the remainder of the contract year. The Remaining Annual Payment is established at the same time as the Current Annual Payment. The Remaining Annual Payment equals the Current Annual Payment less all withdrawals in the current contract year, but it will not be less than zero.

Lifetime Payment Percentage: used to calculate the Current Annual Payment.

The Minimum Lifetime Payment Percentage, the Income Bonus Percentage for each Age Band, and Age Bands are shown in the Rate Sheet Prospectus Supplement.

The Age Band for the Lifetime Payment Percentage is determined at the following times:

- When the Current Annual Payment is established: The Age Band used to calculate the initial Current Annual Payment is the percentage for the Covered Person's attained age (**Joint life:** younger Covered Spouse's attained age).
- On the Covered Person's subsequent birthdays (**Joint life:** younger Covered Spouse's subsequent birthdays): If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, and if the Covered Person's new attained age (**Joint Life:** younger Covered Spouse's attained age) is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage.
- Upon Annual Step-Ups (see "Annual Step-ups" below).
- For the Joint life rider, upon death or change in marital status: In the event of death or dissolution of marriage: (A) If no withdrawal has been taken since the Current Annual Payment was established and no increase to the annual rider fee has been declined, the Lifetime Payment Percentage will be reset based on the Age Band for the remaining Covered Spouse's attained age. (B) If the Current Annual Payment is not established but the remaining Covered Spouse has reached the the youngest age in the first Age Band, the remaining Covered Spouse's attained age will be used to determine the Age Band for the Lifetime Payment Percentage. In the event of remarriage of the Covered Spouses to each other, the Lifetime Payment Percentage used is the percentage for the younger Covered Spouse's attained age.

Income Bonus Percentage: The Income Bonus Percentage may provide additional income under the rider. Availability of the Income Bonus Percentage is determined at the time of your first withdrawal each contract year. The benefit determining percentage is a comparison of your contract value and the Withdrawal Adjustment Base. If the benefit determining percentage is less than 20%, then the Lifetime Payment Percentage will include the Income Bonus Percentage, as shown in the Rate Sheet Prospectus Supplement when calculating the Current Annual Payment (unless the Lifetime Payment Percentage is set to a fixed percentage as described below).

The benefit determining percentage is calculated on each valuation date as follows, but it will not be less than zero:

$$1 - (a/b)$$

a = Contract value at the end of the prior valuation period

b = Withdrawal Adjustment Base at the end of the prior valuation period

After the Current Annual Payment is established, the first withdrawal taken in each contract year will set the Lifetime Payment Percentage to a fixed percentage for the remainder of the contract year except as noted below. Following each rider anniversary, the availability of the Income Bonus Percentage, and therefore the Lifetime Payment Percentage, can change on each valuation date until a withdrawal is taken in that contract year. For more information on how this rider operates, please see "Appendix E: Example – Optional Living Benefits – *SecureSource 4 Plus Rider*".

However, at the earliest of (1) or (2), the Lifetime Payment Percentage will be set and remain fixed as long as the benefit is payable:

(1) when your contract value on a rider anniversary is less than two times the Benefit Base multiplied by the Minimum Lifetime Payment Percentage for your current Age Band, or

(2) when the contract value reduces to zero.

For certain periods of time at our discretion and on a non-discriminatory basis, your Lifetime Payment Percentage may be set by us to include the Income Bonus Percentage if more favorable to you.

Determination of Adjustments of Benefit Values: values are determined at the following times and are subject to a maximum amount of \$20 million for each:

1. At rider effective date

The Withdrawal Adjustment Base, Credit Base and Benefit Base are set equal to the initial purchase payment.

2. When an additional purchase payment is made

The Benefit Base and Withdrawal Adjustment Base will be increased by the amount of each additional purchase payment.

If the Credit Base is greater than zero, the Credit Base will be increased by the amount of each additional purchase payment.

See “Buying Your Contract — Purchase Payments” for purchase payment limitations.

3. When a withdrawal is taken

If the Credit Base is greater than zero, Annual Credits will not be added to the Benefit Base on the following rider anniversary.

The Withdrawal Adjustment Base, Benefit Base and Credit Base can be adjusted, but they will not be less than zero.

- (A) The Withdrawal Adjustment Base will be reduced by the same proportion that the contract value is reduced. The proportional amount deducted is the “adjustment for withdrawal,” calculated as follows:

$$\frac{a \times b}{c} \text{ where:}$$

a = the amount of the withdrawal

b = the Withdrawal Adjustment Base on the date of (but prior to) the withdrawal

c = the contract value on the date of (but prior to) the withdrawal.

- (B) If the Current Annual Payment is not established, Excess Withdrawal Processing will occur as follows.

The Benefit Base and Credit Base will be reduced by the same proportion that the contract value is reduced using the “adjustment for withdrawal” calculation described above but substituting the Credit Base or Benefit Base (as applicable) for the Withdrawal Adjustment Base.

- (C) If the Current Annual Payment is established and the withdrawal is less than or equal to the Remaining Annual Payment, the Benefit Base and Credit Base do not change.

- (D) If the Current Annual Payment is established and the withdrawal is greater than the Remaining Annual Payment, Excess Withdrawal Processing will occur, and the Benefit Base and Credit Base will be reduced by an amount as calculated below:

$$\frac{d \times e}{f} \text{ where:}$$

d = the amount of the withdrawal minus the Remaining Annual Payment

e = the Benefit Base or Credit Base (as applicable) on the date of (but prior to) the withdrawal

f = the contract value on the date of (but prior to) the withdrawal minus the Remaining Annual Payment.

Rider Anniversary Processing: The following describes how the Withdrawal Adjustment Base, Benefit Base and, Credit Base are calculated on rider anniversaries, subject to the maximum amount of \$20 million for each, and how the Lifetime Payment Percentage can change on rider anniversaries.

- **Annual Credits:** If you did not take any withdrawals during the prior contract year and you did not decline any increase to the annual rider fee, Annual Credits may be available.

- (A) On the first rider anniversary

The Annual Credit equals the Credit Base 180 days following the rider effective date multiplied by the Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base 180 days following the rider effective date increased by the Annual Credit and any additional purchase payments since 180 days following the rider effective date.

- (B) On any other rider anniversary during a Credit Period

The Annual Credit equals the Credit Base as of the prior rider anniversary multiplied by the current Annual Credit percentage, as shown in the Rate Sheet Prospectus Supplement.

- **Single Life:** The Benefit Base will be increased by the Annual Credit.
- **Joint Life:** The Benefit Base will be set to the greater of the current Benefit Base, or the Benefit Base on the prior rider anniversary increased by the Annual Credit and any additional purchase payments since the prior rider anniversary.

The Withdrawal Adjustment Base will be set as follows:

- (A) if no withdrawals have been taken, the Withdrawal Adjustment Base will be set to the Benefit Base determined above, or

(B) if any withdrawals have been taken, the Withdrawal Adjustment Base will be set to the amount as calculated below:

$$\frac{a \times b}{c} \text{ where:}$$

- a** = the Withdrawal Adjustment Base on the rider anniversary (but prior to rider anniversary processing)
- b** = the Benefit Base determined above
- c** = the Benefit Base on the rider anniversary (but prior to rider anniversary processing)

The Credit Base will be set to zero on the last rider anniversary of a Credit Period after any adjustment to the Withdrawal Adjustment Base and Benefit Base, and there will be no additional Annual Credits unless the Credit Period restarts due to a step-up of the Benefit Base.

The Credit Base will be permanently set to zero on the later of: A) the rider anniversary on or after the owner's 95th birthday or (B) the rider anniversary equal to the Credit Period duration, as shown in the Rate Sheet Supplement.

- **Annual Step-Ups:** Beginning with the first rider anniversary, an Annual Step-Up may be available. If you decline any increase to the annual rider fee, future Annual Step-Ups will no longer be available.

The Annual Step-Up will take place on any rider anniversary where the contract value (after charges are deducted) is greater than the Benefit Base after any annual credit is added. If an annual step-up is executed, the Benefit Base, Credit Base and Lifetime Payment Percentage will be adjusted as follows:

- The Benefit Base (after any Annual Credit is added) will be increased to the contract value, if greater.
- The Credit Base will be increased to the contract value and the Credit Period will restart, if there is an increase to Benefit Base due to an Annual Step-Up.
- If the Covered Person's attained age (Joint Life: younger Covered Spouse's attained age) on the rider anniversary is in a higher Age Band, then the higher Age Band will be used to determine the appropriate Lifetime Payment Percentage, regardless of any prior withdrawals. The higher Age Band will be used even if there was no Annual Step-Up due to the maximum Benefit Base limitation
- **The Withdrawal Adjustment Base on rider anniversaries:** If you did not decline an increase to the annual rider fee, the Withdrawal Adjustment Base (after any Annual Credit is added) will be increased to the contract value, if greater.

OTHER PROVISIONS

Required Minimum Distributions (RMD): If you are taking RMDs from your contract and your RMD calculated separately for your contract is greater than the Current Annual Payment, the portion of your RMD that exceeds the Current Annual Payment will not be subject to Excess Withdrawal Processing provided that the following conditions are met:

- The Current Annual Payment is established;
- The RMD is for your contract alone;
- The RMD is based on your recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- The RMD amount is otherwise based on the requirements of section 401(a) (9), related Code provisions and regulations thereunder that were in effect on the contract date.

If the Current Annual Payment is not established, the RMD will be subject to Excess Withdrawal Processing. RMD rules follow the calendar year which most likely does not coincide with your contract year and therefore may limit when you can take your RMD and not be subject to Excess Withdrawal Processing.

See Appendix F for additional information.

Spousal Option to Continue the Contract upon Owner's Death (Spousal Continuation):

Single Life: If a surviving spouse elects to continue the contract and continues the contract as the new owner under the spousal continuation provision of the contract, the *SecureSource 4 Plus* — Single Life rider terminates.

Joint Life: If a surviving spouse is a Covered Spouse and elects the spousal continuation provision of the contract as the new owner, the *SecureSource 4 Plus* — Joint Life rider also continues. The surviving Covered Spouse can name a new beneficiary; however, a new Covered Spouse cannot be added to the rider (see "Benefits in Case of Death – If you Die Before the Annuitization Start Date").

If you did not decline an increase to the annual rider fee, at the time of spousal continuation, a step-up may be available. All Annual Step-Up rules (see "Rider Anniversary Processing — Annual Step-Up" heading above) also apply to the spousal continuation step-up except that the Remaining Annual Payment will be reduced for any prior withdrawals in that contract year. Also, the Credit Period will restart on the next contract anniversary. The Withdrawal Adjustment Base, if greater than zero, will be increased to the contract value if the contract value is greater. The spousal continuation step-up is processed on the valuation date spousal continuation is effective.

Rules for Surrender: There is no minimum contract value requirement following a partial surrender. Surrenders will be taken from all accounts and the variable subaccounts in the same proportion as your interest in each bears to the contract value.

If your contract value is reduced to zero, the Credit Base, if greater than zero, will be permanently reset to zero, and there will be no additional Annual Credits. Also, the following will occur:

- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of market performance, fees or charges, then the owner must wait until the Current Annual Payment would be established, and the Current Annual Payment will be paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses) (see “Current Annual Payment Description” above).
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of market performance, fees or charges, or as a result of a withdrawal that is less than or equal to the Remaining Annual Payment (including RMDs that are not subject to Excess Withdrawal Processing as described above), then the owner will receive the Current Annual Payment paid annually until the death of the Covered Person (**Joint Life:** both Covered Spouses).

In both cases above:

- These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually.
- We will no longer accept additional purchase payments.
- No more charges will be collected for the rider.
- The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year.
- If the Current Annual Payment is determined by incorrect information regarding the Covered Person’s birth date, payments will be adjusted. They will be based on what would have been provided using the correct birth date. Any underpayments made by us will be made up promptly without interest. We reserve the right to recover from you or your estate any amounts overpaid. If there are any future payments under this rider, overpayments made by us will be subtracted, together without interest, and/or as otherwise legally permissible.
- If the Current Annual Payment is not established and if the contract value is reduced to zero as a result of a withdrawal taken before the Current Annual Payment is established, the rider and the contract will terminate.
- If the Current Annual Payment is established and if the contract value is reduced to zero as a result of a withdrawal that is greater than the Remaining Annual Payment (including RMDs that are subject to Excess Withdrawal Processing as described above), the rider and the contract will terminate.

At Death:

Single Life: The rider will terminate even if the contract is continued under the spousal continuation option.

Joint Life: If the death benefit becomes payable at the death of a Covered Spouse, the surviving Covered Spouse must utilize the spousal continuation option to continue the lifetime benefit. If spousal continuation is not available, the rider terminates. The lifetime benefit ends at the death of the surviving Covered Spouse.

If the contract value is greater than zero when the death benefit becomes payable, the beneficiary may:

- elect to take the death benefit under the terms of the contract, or
- continue the contract under the spousal continuation option.

Assignment and Change of Ownership

Single Life: The rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or the Covered person before the change, or is a nonnatural owner (e.g., an individual ownership changed to an irrevocable trust) or a revocable trust, either holding for the sole benefit of the prior owner. Joint ownership and joint annuitants are not allowed while this rider is in force. Exception: ownership changes will not terminate the rider for contracts issued in California.

Joint Life: In order to maintain the joint life benefit, the surviving Covered Spouse must be able to continue the contract under the spousal continuation provision. Therefore, only ownership arrangements that permit such continuation are allowed at rider issue. If the owner is a natural person, only the Covered Spouses can be owners. If there is a non-natural or revocable trust owner, one of the Covered Spouses must be the annuitant. For all contracts except those issued in California, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner or a Covered Spouse before the change, or is a non-natural owner or a revocable trust, holding for the sole benefit of the prior owner. For contracts issued in California, transfer of the ownership of the annuity contract is not limited and the rider will not terminate; however, the Covered Spouses under the rider will not change even if there is an ownership change.

Annuity Provisions: If your annuitization start date is the maximum annuitization start date (see “The Annuitization Start Date”), you can choose one of the payout options available under the contract (see “Annuity Payout Plans”) or an alternative fixed annuity payout option available under the *SecureSource 4 Plus* rider. If you elect an annuitization start date that is earlier than the maximum annuitization start date, the alternative fixed annuity payout option under the *SecureSource 4 Plus* rider is not available.

Under the rider’s payout option, you will receive the Current Annual Payment each contract year until the death of the Covered Person (**Joint Life:** both Covered Spouses). If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that contract year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Plan B in the contract. For more information on annuity payout plans, please see “The Annuity Payout Period - Annuity Payout Plans.”

If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

The rider payout option may be greater or less than other payout options available under the contract. You should consider your payout options carefully and consult your financial advisor before making a determination.

RIDER TERMINATION

The *SecureSource 4 Plus* rider cannot be terminated either by you or us except as follows:

- **Single Life:** after the death benefit is payable, the rider will terminate, even if the Covered Person is still living.
- **Single Life:** spousal continuation will terminate the rider, even if the Covered Person is still living.
- **Single Life:** for contracts issued in California, after the death of the Covered Person, the rider will terminate.
- **Joint Life:** for contracts issued in California, after the death of the last Covered Spouse, the rider will terminate.
- **Joint Life:** After the death benefit is payable the rider will terminate if anyone other than a Covered Spouse continues the contract. However, if the Covered Spouse continues the contract as an inherited IRA or as a beneficiary of a participant in an employer sponsored retirement plan, the rider will terminate.
- When there are certain assignment and ownership changes as described in the “Assignment and Change of Ownership” section above, the rider will terminate.
- On the annuitization start date, the rider will terminate, if you choose a payout option available under the contract.
- You may terminate the rider if your annual rider fee after any increase is more than 0.25 percentage points higher than your fee before the increase. (See “Charges — *SecureSource 4 Plus* rider charge”).
- When the contract value is reduced to zero as a result of an Excess Withdrawal as described in the Rules for Surrender Section above, the rider will terminate.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

Important *SecureSource* Series Rider Considerations

You should consider whether a *SecureSource* series rider is appropriate for you taking into account the following considerations:

You will begin paying the rider charge as of the rider effective date, even if you do not begin taking withdrawals for many years. It is possible that your contract performance, fees and charges, and withdrawal pattern may be such that your contract value will not be depleted in your lifetime and you will not receive any monetary value under the rider.

- **Lifetime benefit Limitations:** The lifetime benefit is subject to certain limitations, including but not limited to:
 - **Single Life:** Once the contract value equals zero, payments are made for as long as the covered person is living (see “If Contract Value Reduces to Zero” heading above). However, if the contract value is greater than zero, the lifetime benefit terminates when the death benefit is payable.
 - **Joint Life:** Once the contract value equals zero, payments are made for as long as either covered spouse is living (see “If Contract Value Reduces to Zero” heading above). However, if the contract value is greater than zero, the lifetime benefit terminates at the death of the last surviving covered spouse (see “At Death” heading above).
- **Withdrawals:** Please consider carefully when you start taking withdrawals from this rider, because the timing of your first withdrawal is an important decision. Once you take your first withdrawal, your initial Minimum Lifetime Payment Percentage or Lifetime Payment Percentage will be determined. If a withdrawal is taken during the Credit Period, no credit will be available on the next contract anniversary. For *SecureSource Core Plus*, if the withdrawal is taken before the Base Doubler Date the Base Doubler is permanently set to zero. Also, if you withdraw more than the allowed

withdrawal amount in a contract year or take withdrawals before the Current Annual Payment is established (Excess Withdrawal), the guaranteed amounts under the rider will be reduced (See “Determination of Adjustments of Benefit Values” under each rider).

- **Investment Allocation Restriction:** You must invest in approved investment options which vary by rider. For *SecureSource Tempo*, the approved investment options are divided into groups and have specified minimum or maximum percentages of contract value that must be in each group and a maximum percentage that can be allocated to each fund. Although the funds’ investment strategies may help mitigate declines in your contract value due to declining equity markets, the funds’ investment strategies may also curb your contract value gains during periods of positive performance by the equity markets. Additionally, investment in the funds may decrease the number and amount of any benefit base increase opportunities. (See “The Variable Account and the Funds: Volatility and Volatility Management Risk with the Portfolio Stabilizer funds” section.) This requirement limits your choice of investment options. This means you will not be able to allocate contract value to all of the subaccounts, GPAs or the regular fixed account that are available under the contract to contract owners who do not elect the rider. (See “Investment Allocation Restrictions for Certain Benefit Riders” section below) You may allocate purchase payments to the Special DCA fixed account, when available, and we will make monthly transfers into the approved investment options. You should consult your financial advisor before you purchase the *SecureSource* series rider. We reserve the right to add, remove, combine or substitute approved investment options in our sole discretion. We reserve the right to close or restrict approved investment options in our sole discretion. We also reserve the right to add, remove or modify allocation plans and requirements in our sole discretion. Any change will apply to current allocations, future purchase payments, and transfers. Any substitution of funds may be subject to the SEC or state insurance departments approval (see “Substitution of Investments”).

- **Income Guide Program Restriction:** *Income Guide* program is not available to contracts with the *SecureSource* series rider.
- **Non-Cancelable:** Once elected, the *SecureSource* series rider may not be cancelled (except as provided under “Rider Termination” heading above) and the charge will continue to be deducted until the contract or rider is terminated or the contract value reduces to zero (described below).

Dissolution of marriage does not terminate the *SecureSource* series — Joint Life rider and will not reduce the fee we charge for this rider. The benefit under the *SecureSource* series — Joint Life rider continues for the covered spouse who is the owner of the contract (or annuitant in the case of nonnatural or revocable trust ownership). The other covered spouse will no longer be eligible for benefits under the rider. The rider will terminate at the death of the contract owner because the original covered spouse will be unable to elect the spousal continuation provision of the contract (see “Joint Life only: Covered Spouses” above).

- **Joint Life: Limitations on Contract Owners, Annuitants and Beneficiaries:** Since the joint life benefit will terminate unless the surviving covered spouse continues the contract under the spousal option to continue the contract upon the owner’s death provision, only ownership arrangements that permit such continuation are allowed at rider issue. In general, the covered spouses should be joint owners, or one covered spouse should be the owner and the other covered spouse should be named as the sole primary beneficiary.

You are responsible for establishing ownership arrangements that will allow for spousal continuation.

If you select the *SecureSource* series — Joint Life rider, please consider carefully whether or not you wish to change the beneficiary of your annuity contract. The rider will terminate if the surviving covered spouse cannot utilize the spousal continuation provision of the contract when the death benefit is payable. If the spousal continuation option is not available when the death benefit is payable, the rider will terminate. The surviving covered spouse will no longer be eligible for benefits under the rider.

- **Limitations on Purchase Payments:** We reserve the right to limit the cumulative amount of purchase payments (subject to state restrictions), which may limit your ability to make additional purchase payments to increase your contract value as you may have originally intended. For current purchase payment restrictions, please see “Buying Your Contract —Purchase Payments”.
- **Interaction with Total Free Amount (FA) contract provision:** The FA is the amount you are allowed to withdraw from the contract in each contract year without incurring a surrender charge (see “Charges — Surrender Charge”). The FA may be greater than the Remaining Annual Payment under this rider. Any amount you withdraw under the contract’s FA provision that exceeds the Remaining Annual Payment is subject to the Excess Withdrawal Processing as described above.

You should consult your tax advisor before you select this optional rider if you have any questions about the use of the rider in your tax situation because:

- **Tax Considerations for Nonqualified Annuities:** Under current federal income tax law, withdrawals under nonqualified annuities, including withdrawals taken from the contract under the terms of the rider, are treated less favorably than amounts received as annuity payments under the contract (see “Taxes — Nonqualified Annuities”). Withdrawals are

taxable income to the extent of earnings. Withdrawals of earnings before age 59½ may also incur a 10% IRS early withdrawal penalty. You should consult your tax advisor before you select this optional rider if you have any questions about the use of the rider in your tax situation.

- **Tax Considerations for Qualified Annuities:** Qualified annuities have minimum distribution rules that govern the timing and amount of distributions from the annuity contract (see “Taxes — Qualified Annuities — Required Minimum Distributions”). While the rider permits certain Excess Withdrawals to be taken for the purpose of satisfying RMD requirements for your contract alone without reducing future benefits guaranteed under the rider, there can be no guarantee that changes in the federal income tax law after the effective date of the rider will not require a larger RMD to be taken, in which case, future guaranteed withdrawals under the rider could be reduced. See Appendix F for additional information.
- **Treatment of non-spousal distributions:** Unless you are married your beneficiary will be required to take distributions as a non-spouse which may result in significantly decreasing the value of the rider.
Please note civil unions and domestic partnerships generally are not recognized as marriages for federal tax purposes. For additional information see “Taxes — Other — Spousal status” section of this prospectus.
- **Limitations on Tax-Sheltered Annuities (TSAs):** Your right to take withdrawals is restricted if your contract is a TSA (see “TSA — Special Provisions”). Therefore, a *SecureSource* series rider may be of limited value to you.

Accumulation Protector Benefit Rider

(Available for contract applications signed prior to 3/30/2020)

The Accumulation Protector Benefit rider is an optional benefit that you may select at contract issue for an additional charge. The Accumulation Protector Benefit rider specifies a Waiting Period that ends on the Benefit Date. The Waiting Period is 10 years. The Accumulation Protector Benefit rider provides a one-time adjustment to your contract value on the Benefit Date if your contract value is less than the Minimum Contract Accumulation Value (defined below) on that Benefit Date. On the Benefit Date, if the contract value is equal to or greater than the Minimum Contract Accumulation Value, as determined under the Accumulation Protector Benefit rider, the Accumulation Protector Benefit rider ends without value and no benefit is payable.

If the contract value falls to zero as the result of adverse market performance or the deduction of fees and/or charges at any time during the Waiting Period and before the Benefit Date, the contract and all riders, including the Accumulation Protector Benefit rider will terminate without value and no benefits will be paid. **Exception:** if you are still living on the Benefit Date, we will pay you an amount equal to the Minimum Contract Accumulation Value as determined under the Accumulation Protector Benefit rider on the valuation date your contract value reached zero.

The Accumulation Protector Benefit rider is only available to those age 80 or younger at contract issue. If elected, the rider effective date will be the contract issue date. The Accumulation Protector Benefit rider may not be terminated once you have elected it except as described in the “Terminating the Rider” section below. An additional charge for the Accumulation Protector Benefit rider will be assessed annually during the Waiting Period. The rider ends when the Waiting Period expires, no further benefit will be payable, and no further charges for the rider will be deducted. After the Waiting Period, you have the following options:

- Continue your contract;
- Take partial surrenders or make a full surrender; or
- Annuitize your contract.

The Accumulation Protector Benefit rider may not be purchased with the optional *SecureSource Legacy* benefit, *Enhanced Legacy* benefit rider or *SecureSource series* riders.

You should consider whether an Accumulation Protector Benefit rider is appropriate for you because:

- You must invest in approved investment options. Current approved investment options are Portfolio Stabilizer funds. This requirement limits your choice of investment options. This means you will not be able to allocate contract value to all of the subaccounts, GPAs or the regular fixed account that are available under the contract to contract owners who do not elect the rider. (See “Investment Allocation Restrictions for Certain Benefit Riders” section below) You may allocate purchase payments to the Special DCA fixed account, when available, and we will make monthly transfers into the approved investment options. You should consult your financial advisor before you purchase the Accumulation Protector Benefit rider. In addition, the *Income Guide* program will not be available to you (See “Making the Most of Your Contract — The *Income Guide* Program”). We reserve the right to add, remove or substitute approved investment options at any time and in our sole discretion in the future. Any substitution of funds may be subject to the SEC or state insurance departments approval (see “Substitution of Investments”);
- You may not make additional purchase payments to your contract during the Waiting Period after the first 180 days immediately following the effective date of the Accumulation Protector Benefit rider. Some exceptions apply. (see “Additional Purchase Payments with Elective Step-Up” below) In addition, we reserve the right to change these additional purchase payment limits, including making further restrictions, upon written notice;

- If you purchase this contract as a qualified annuity, for example, an IRA, you may need to take partial surrenders from your contract to satisfy the RMDs under the Code. Partial surrenders, including those used to satisfy RMDs, will reduce any potential benefit that the Accumulation Protector Benefit rider provides. You should consult your tax advisor if you have any questions about the use of this rider in your tax situation;
- If you think you may surrender all of your contract value before you have held your contract with this benefit rider attached for 10 years, or you are considering selecting an annuity payout option within 10 years of the effective date of your contract, you should consider whether this optional benefit is right for you. You must hold the contract a minimum of 10 years from the effective date of the Accumulation Protector Benefit rider, which is the length of the Waiting Period under the rider, in order to receive the benefit, if any, provided by the rider. In some cases, as described below, you may need to hold the contract longer than 10 years in order to qualify for any benefit the Accumulation Protector Benefit rider may provide;
- The 10 year Waiting Period under the Accumulation Protector Benefit rider will restart if you exercise the elective step-up option (described below) or your surviving spouse exercises the spousal continuation elective step-up (described below); and
- The 10 year Waiting Period under the Accumulation Protector Benefit rider may be restarted if you elect to change your investment option to one that causes the Accumulation Protector Benefit rider fee to increase (see “Waiting Period” below).

Be sure to discuss with your financial advisor whether an Accumulation Protector Benefit rider is appropriate for your situation.

Here are some general terms that are used to describe the operation of the Accumulation Protector Benefit:

Benefit Date: This is the first valuation date immediately following the expiration of the Waiting Period.

Minimum Contract Accumulation Value (MCAV): An amount calculated under the Accumulation Protector Benefit rider. The contract value will be increased to equal the MCAV on the Benefit Date if the contract value is less than the MCAV on the Benefit Date.

Your initial MCAV is equal to your initial purchase payment. It is increased by the amount of any subsequent purchase payments received. It is reduced by any adjustments for partial surrenders made during the Waiting Period.

Adjustments for Partial Surrenders: The adjustment made for each partial surrender from the contract is equal to the amount derived from multiplying (a) and (b) where:

- (a) is 1 minus the ratio of the contract value on the date of (but immediately after) the partial surrender to the contract value on the date of (but immediately prior to) the partial surrender; and
- (b) is the MCAV on the date of (but immediately prior to) the partial surrender.

Waiting Period: The Waiting Period for the rider is 10 years. We reserve the right to restart the Waiting Period on the latest contract anniversary if you change your investment option after we have exercised our rights to increase the rider fee. Waiting Period will restart upon elective step-ups and spousal continuation step-ups.

Automatic Step-Up

On each contract anniversary after the effective date of the rider, the MCAV will be set to the greater of:

1. 90% of the contract value on the contract anniversary (after charges are deducted); or
2. the MCAV immediately prior to the automatic step-up.

The automatic step-up does not create contract value, guarantee the performance of any investment option, or provide a benefit that can be surrendered or paid upon death. Rather, the automatic step-up is an interim calculation used to arrive at the final MCAV, which is used to determine whether a benefit will be paid under the rider on the Benefit Date.

The automatic step-up of the MCAV does not restart the Waiting Period or increase the fee (although the total charge for the rider may increase).

Elective Step-Up Option

Within thirty days following each contract anniversary after the rider effective date, but prior to the Benefit Date, you may notify us in writing that you wish to exercise the annual elective step-up option. You may exercise this elective step-up option only once per contract year during this 30 day period. If your contract value (after charges are deducted) on the valuation date we receive your written request to step-up is greater than the MCAV on that date, your MCAV will increase to 100% of that contract value.

We may increase the fee for your rider (see “Charges — Accumulation Protector Benefit Rider Charge”) and the revised fee would apply to your rider if you exercise the annual elective step-up. Elective step-ups will also result in a restart of the Waiting Period as of the most recent contract anniversary.

The elective step-up does not create contract value, guarantee the performance of any investment option or provide any benefit that can be surrendered or paid upon death. Rather the elective step-up is an interim calculation used to arrive at the final MCAV, which is used to determine whether a benefit will be paid under the rider on the Benefit Date.

The elective step-up option is not available for inherited IRAs or if the Benefit Date would be after the annuitization start date.

Additional Purchase Payments with Annual Elective Step-Ups

If your MCAV is increased as a result of Elective Step-up, you have 180 days from the latest contract anniversary to make additional purchase payments, if allowed under the base contract. The MCAV will include the amount of any additional purchase payments received during this period.

Spousal Continuation

If a spouse chooses to continue the contract under the spousal continuation provision, the rider will continue as part of the contract. Once, within the thirty days following the date of spousal continuation, the spouse may choose to exercise an elective step-up. The spousal continuation elective step-up is in addition to the annual elective step-up. If the contract value on the valuation date we receive the written request to exercise this option is greater than the MCAV on that date, we will increase the MCAV to that contract value. If the MCAV is increased as a result of the elective step-up and we have increased the fee for the Accumulation Protector Benefit rider, you will pay the fee that is in effect on the valuation date we receive their written request to step-up. In addition, the Waiting Period will restart as of the most recent contract anniversary.

Assignment and Change of Ownership

Subject to state limitations, the rider will terminate if there is an assignment or a change of ownership unless the new owner or assignee assumes total ownership of the contract and was an owner before the change, or is a nonnatural owner holding for the sole benefit of the prior owner (e.g., an individual ownership changed to a personal revocable trust).

Terminating the Rider

The rider will terminate under the following conditions:

- The rider will terminate on the Benefit Date after the rider charge has been deducted and after any adjustment to the contract value due to payment of the rider benefit.
- The rider will terminate for certain assignment and ownership changes as described in the “Assignment and Change of Ownership” provision above.
- After the death benefit is payable, unless the spouse continues the contract as described in the “Spousal Continuation” provision above, the rider will terminate.
- In relation to certain increases to the annual rider fee, your written request will terminate the rider. (See “Charges - Accumulation Protector Benefit rider charge”).
- The rider will terminate on the annuitization start date.
- Termination of the contract for any reason will terminate the rider.

For an example, see Appendix E.

Investment Allocation Restrictions for Certain Benefit Riders

If you elect certain benefit riders, you must comply with certain investment allocation restrictions. This means you will be limited in your choice of funds and may be limited in how much you can invest in those funds. The investment allocation restrictions are different for the *SecureSource Series* riders, the Accumulation Protector Benefit rider and the *Enhanced Legacy* benefit rider. **Please speak with your financial advisor if you have any questions about the investment allocation restrictions applicable to your rider.**

INVESTMENT ALLOCATION RESTRICTIONS FOR THE ACCUMULATION PROTECTOR BENEFIT RIDER, ENHANCED LEGACY BENEFIT RIDER, SECURESOURCE CORE 2, SECURESOURCE 5, SECURESOURCE 5 PLUS, SECURESOURCE CORE, SECURESOURCE CORE PLUS, SECURESOURCE 4 OR SECURESOURCE 4 PLUS BENEFIT RIDERS

For contracts issued with the Accumulation Protector Benefit rider or *Enhanced Legacy* benefit rider, you are required to invest your contract value in the Portfolio Stabilizer funds listed below:

1. Variable Portfolio – Managed Risk Fund (Class 2)
2. Variable Portfolio – Managed Risk U.S. Fund (Class 2)
3. Variable Portfolio – Managed Volatility Growth Fund (Class 2)
4. Variable Portfolio – Managed Volatility Moderate Growth Fund (Class 2)
5. Variable Portfolio – Managed Volatility Conservative Growth Fund (Class 2)

6. Variable Portfolio – Managed Volatility Conservative Fund (Class 2)
7. Variable Portfolio – U.S. Flexible Growth Fund (Class 2)
8. Variable Portfolio – U.S. Flexible Moderate Growth Fund (Class 2)
9. Variable Portfolio – U.S. Flexible Conservative Growth Fund (Class 2)

For contracts issued with the *SecureSource Core2*, *SecureSource 5*, *SecureSource 5Plus*, *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, *SecureSource 4 Plus* benefit riders, alone or in combination with the optional *SecureSource Legacy* benefit rider, you are required to invest your contract value in the Portfolio Stabilizer funds or certain Portfolio Navigator funds listed below:

The Portfolio Stabilizer funds currently available are:

1. Variable Portfolio – Managed Risk Fund (Class 2)
2. Variable Portfolio – Managed Risk U.S. Fund (Class 2)
3. Variable Portfolio – Managed Volatility Growth Fund (Class 2)
4. Variable Portfolio – Managed Volatility Moderate Growth Fund (Class 2)
5. Variable Portfolio – Managed Volatility Conservative Growth Fund (Class 2)
6. Variable Portfolio – Managed Volatility Conservative Fund (Class 2)
7. Variable Portfolio – U.S. Flexible Growth Fund (Class 2)
8. Variable Portfolio – U.S. Flexible Moderate Growth Fund (Class 2)
9. Variable Portfolio – U.S. Flexible Conservative Growth Fund (Class 2)

The Portfolio Navigator funds currently available are:

1. Variable Portfolio – Moderate Portfolio (Class 2)
2. Variable Portfolio – Moderately Conservative Portfolio (Class 2)
3. Variable Portfolio – Conservative Portfolio (Class 2)

The investment allocation restrictions for the above listed *SecureSource series* riders, Enhanced Legacy Benefit rider or Accumulation Protector Benefit rider may reduce our financial risk and expense in offering guaranteed benefits and limit your ability to grow contract value. The Portfolio Stabilizer funds or Portfolio Navigator funds (collectively “the Funds”) are available to all contract owners, regardless of whether an optional benefit rider has been elected. We reserve the right to reduce the number of available Funds.

Changes we may make. We reserve the right to add, remove, combine or substitute Funds at any time and in our sole discretion. We also reserve the right, upon notification to you, to close or restrict any investment option. Any change will apply to current allocations, future purchase payments, and transfers. If we remove, restrict, combine or substitute Funds, transfers made to reallocate purchase payments or contract value will not count toward your annual transfer limitations. We will obtain any necessary regulatory approvals and provide you with any required notice prior to any substitution. (See the “Substitution of Investments” section in this prospectus).

Investing in the Funds. You are responsible for determining which Funds are best for you. Your financial advisor can help you determine which investment options most closely matches your investing style, based on factors such as your investment goals, your tolerance for risk and how long you intend to invest. There is no guarantee that the Funds you select or have selected are appropriate to your ability to withstand investment risk. RiverSource Life is not responsible for your selection of specific investment options, or your decision to change to different investment options.

Each Portfolio Stabilizer fund has an investment objective of pursuing total return while seeking to manage the Fund’s exposure to equity market volatility. Each of the Portfolio Navigator funds is a fund of funds with the investment objective of seeking a high level of total return consistent with a certain level of risk by investing in various underlying funds.

If you initially allocate qualifying purchase payments to the Special DCA fixed account, when available (see “The Special DCA Fixed Account”), we will make monthly transfers in accordance with your instructions from the Special DCA fixed account into the investment options you have chosen.

Additional Risks. It is important to remember that certain funds are managed volatility funds and employ a strategy designed to reduce overall volatility and downside risk. If a strategy is successful it may result in smaller losses to your contract value when markets are declining and market volatility is high when compared to funds not employing a managed volatility strategy. In turn, if a strategy is successful it may also result in less gain in your contract value during rising markets with higher volatility when compared to funds not employing a managed volatility strategy. Accordingly, although an investment in the Funds may mitigate declines in your contract value due to declining equity markets, the Funds’ investment strategies may also curb or decrease your contract value during periods of positive performance by the equity markets. There is no guarantee any of the managed volatility funds’ strategies will be successful. In addition,

managed volatility funds may decrease the number and amount of any periodic benefit base increase opportunities (e.g. annual step ups). Costs associated with running a managed volatility strategy may also adversely impact the performance of managed volatility funds.

Investing in the Funds does not guarantee that your contract will increase in value nor will it protect in a decline in value if market prices fall. Depending on future market conditions and considering only the potential return on your investment in the Fund, you might benefit (or benefit more) from selecting alternative investment options. There is no assurance that the Funds will achieve their respective investment objectives. In addition, there is no guarantee that the Fund's strategy will have its intended effect or that it will work as effectively as is intended.

For additional information about the Funds' investment strategies, risks and conflicts, see the Funds' prospectuses as well as "The Variable Account and the Funds – Risks and Conflicts of Interest with Certain Funds Advised by Columbia Management" section in this prospectus.

Additional Information. You may change your investment option allocations up to four times per contract year by written request on an authorized form or by another method agreed to by us. You may also set up asset rebalancing and change your percentage allocations, but those changes will count towards this four times per contract year limit. Please consider requesting changes carefully, because we may charge you a higher fee for your rider. (See "Charges — Optional Living Benefit Charges") We also reserve the right to limit the number of changes if required to comply with the written instructions of a fund (see "Making the Most of Your Contract — Transferring Among Accounts — Market Timing") and the number of investment options from which you can select.

Before you select the *Enhanced Legacy* benefit rider, *SecureSource Legacy* benefit rider, *SecureSource Core2*, *SecureSource 5*, *SecureSource 5Plus*, *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, *SecureSource 4 Plus* benefit riders or Accumulation Protector Benefit rider, you and your financial advisor should carefully evaluate whether the Funds meet your investment objectives and risk tolerance, taking into consideration the potential positive or negative impact that Funds' strategy may have on your contract value and the benefits under your rider. Because you can terminate the rider only under certain circumstances once you have selected it, you must terminate your contract by requesting a full surrender if you later decide that you do not want to invest in the Funds. You can change allocations among Funds as described above. Surrender charges and tax penalties may apply. **Therefore, you should not select the Enhanced Legacy benefit rider, SecureSource Legacy benefit rider, SecureSource Core 2, SecureSource 5, SecureSource 5 Plus, SecureSource Core, SecureSource Core Plus, SecureSource 4, SecureSource 4 Plus benefit riders or Accumulation Protector Benefit rider if you do not intend to adhere to its investment restrictions while this rider is in force.**

INVESTMENT ALLOCATION RESTRICTIONS FOR THE SECURESOURCE TEMPO RIDER

For contracts issued with the *SecureSource Tempo* rider, alone or in combination with the optional *SecureSource Legacy* benefit rider, you are required to invest 100% of your purchase payments and your contract value to approved investment options ("the Funds"). Certain Funds are available within an allocation plan, subject to requirements and percentage limitations. If you invest in this rider, you will be limited in your choice of investments and may be limited in how much you can invest in certain Funds. By investing in this rider, you will also not be able to allocate contract value to all investment options available in the contract. In addition, you will not be able to allocate to the regular fixed account. These investment restrictions may reduce our financial risk and expense in offering guaranteed withdrawal benefits and limit your ability to grow contract value. (see "Changes we may make" in this section below for more information).

Choosing an Investment Path. The *Personalized Allocations*SM feature allows you to allocate your purchase payments and contract value to either Investment Path 1 or Investment Path 2, subject to plan requirements and percentage limitations, as shown in the Rate Sheet Supplement.

You will choose either Investment Path 1 or Investment Path 2 at issue. After issue, you can change between Investment Path 1 and Investment Path 2 at any time, subject to any transfer limitations. Your total contract value will be moved to the new Investment Path and you will be required to adhere to its rules. Any value in the Special DCA fixed account will remain in the Special DCA fixed account and future scheduled Special DCA fixed account transfers will be based on the updated allocations.

Investing in the Funds. You are responsible for determining which Funds are best for you. Your financial advisor can help you determine which investment options most closely matches your investing style, based on factors such as your investment goals, your tolerance for risk and how long you intend to invest. There is no guarantee that the Funds you select or have selected are appropriate to your ability to withstand investment risk. RiverSource Life is not responsible for your selection of specific investment options, or your decision to change to different investment options.

Each Portfolio Stabilizer fund has an investment objective of pursuing total return while seeking to manage the Fund's exposure to equity market volatility. Each of the Portfolio Navigator funds is a fund of funds with the investment objective of seeking a high level of total return consistent with a certain level of risk by investing in various underlying funds.

If you initially allocate qualifying purchase payments to the Special DCA fixed account, when available (see “The Special DCA Fixed Account”), we will make monthly transfers in accordance with your instructions from the Special DCA fixed account into the investment options you have chosen.

Investment Path 1. This option requires 100% allocation of your purchase payments and contract value among the Funds listed below and there is no restriction on how much you can allocate into each Fund. The following Funds are available under Investment Path 1:

1. Columbia Variable Portfolio – Balanced Fund (Class 2)
2. Variable Portfolio – Managed Risk Fund (Class 2)
3. Variable Portfolio – Managed Risk U.S. Fund (Class 2)
4. Variable Portfolio – Managed Volatility Growth Fund (Class 2)
5. Variable Portfolio – Managed Volatility Moderate Growth Fund (Class 2)
6. Variable Portfolio – Managed Volatility Conservative Growth Fund (Class 2)
7. Variable Portfolio – Managed Volatility Conservative Fund (Class 2)
8. Variable Portfolio – U.S. Flexible Growth Fund (Class 2)
9. Variable Portfolio – U.S. Flexible Moderate Growth Fund (Class 2)
10. Variable Portfolio – U.S. Flexible Conservative Growth Fund (Class 2)
11. Variable Portfolio – Aggressive Portfolio (Class 2)
12. Variable Portfolio – Moderately Aggressive Portfolio (Class 2)
13. Variable Portfolio – Moderate Portfolio (Class 2)
14. Variable Portfolio – Moderately Conservative Portfolio (Class 2)
15. Variable Portfolio – Conservative Portfolio (Class 2)

Investment Path 2. This option requires 100% allocation of your purchase payments and contract value among the Funds shown below. The Funds under Investment Path 2 are divided into groups and each group has a specified minimum or maximum percentage of contract value that can be allocated to it. You can select the percentages of contract value to allocate to Funds within each group, but the total investment for all Funds within the group must comply with the specified minimum or maximum percentage for that group. We may change the list of Funds that are or are not available to a specific group. There is also a maximum percentage of contract value that may be allocated to each Fund. If you chose Investment Path 2, you can allocate to Funds in Groups 1, 2, and 3, subject to the requirements and limitations as shown below.

The allocation you select at issue becomes your contract allocation. Purchase payments and rebalancing will be made in accordance with this allocation. In order to transfer between Funds, you must update your contract allocation instructions with us.

Rebalancing for Investment Path 2.

If you select this option, you agree to be automatically enrolled in the portfolio rebalancing program and thereby authorize us to automatically rebalance your contract value on a quarterly basis. Quarterly rebalancing will be done on a quarterly schedule measured from Contract Date, regardless of when Investment Path 2 is selected. We may change, suspend or terminate the automatic rebalancing frequency in our sole discretion. We will notify you in advance if we exercise this right. If you switch to Investment Path 1, rebalancing is automatically terminated.

Group A – Fixed Income: Minimum of 20%

Available funds with a Maximum Fund Allocation of 100%

1. Columbia Variable Portfolio – Intermediate Bond Fund (Class 2)
2. Columbia Variable Portfolio – Limited Duration Credit Fund (Class 2)
3. Columbia Variable Portfolio – U.S. Government Mortgage Fund (Class 2)
4. CTIVP – American Century Diversified Fund (Class 2)
5. CTIVP – TCW Core Plus Bond Fund (Class 2)
6. CTIVP – Wells Short Duration Government Fund
7. Variable Portfolio – Partners – Core Bond Fund (Class 2)
8. Columbia variable Portfolio – Government Money Market Fund (Class 2)

Group B – Asset Allocation, Large Cap and International Equity funds: Maximum of 80%

Available Asset Allocation funds with a Maximum Fund Allocation of 80%

1. Variable Portfolio – Managed Volatility Growth Fund (Class 2)

2. Variable Portfolio – Managed Volatility Moderate Growth Fund (Class 2)
3. Variable Portfolio – Managed Volatility Conservative Growth Fund (Class 2)
4. Variable Portfolio – Managed Volatility Conservative Fund (Class 2)
5. Variable Portfolio –U.S. Flex Growth Fund (Class 2)
6. Variable Portfolio –U.S. Flex Moderate Growth Fund (Class 2)
7. Variable Portfolio –U.S. Flex Conservative Fund (Class 2)
8. Variable Portfolio – Managed Risk Fund (Class 2)
9. Variable Portfolio – Managed Risk U.S. Fund (Class 2)
10. Variable Portfolio – Aggressive Portfolio (Class 2)
11. Variable Portfolio – Moderately Aggressive Portfolio (Class 2)
12. Variable Portfolio – Moderate Portfolio (Class 2)
13. Variable Portfolio – Moderately Conservative Portfolio (Class 2)
14. Variable Portfolio – Conservative Portfolio (Class 2)
15. Columbia Variable Portfolio – Balanced Fund (Class 2)

Available Large Cap and International Equity funds with a Maximum Fund Allocation of 30%

1. Columbia Variable Portfolio – Contrarian Core Fund (Class 2)
2. Columbia Variable Portfolio – Disciplined Core Fund (Class 2)
3. Columbia Variable Portfolio – Dividend Opportunity Fund (Class 2)
4. Columbia Variable Portfolio – Large-Cap Growth Fund (Class 2)
5. Columbia Variable Portfolio – Large-Cap Index Fund (Class 2)
6. Columbia Variable Portfolio – Select Large-Cap Value Fund (Class 2)
7. CTIVP – Loomis Sayles Growth Fund (Class 2)
8. CTIVP – MFS Value Fund (Class 2)
9. CTIVP – T. Rowe Price Large-Cap Value Fund (Class 2)
10. Variable Portfolio – Partners Core Equity Fund (Class 2)
11. Columbia Variable Portfolio – Overseas Core Fund (Class 2)
12. Variable Portfolio – Partners International Core Equity Fund (Class 2)
13. Variable Portfolio – Partners International Growth Fund (Class 2)
14. Variable Portfolio – Partners International Value Fund (Class 2)

Group C – Large Cap Aggressive Growth, Mid Cap, Small Cap and Emerging Markets: Maximum of 20%

Available funds with a Maximum Fund Allocation of 5%

1. CTIVP - Morgan Stanley Advantage Fund (Class 2)
2. Columbia Variable Portfolio - Mid Cap Growth Fund (Class 2)
3. Columbia Variable Portfolio - Select Mid Cap Value Fund (Class 2)
4. CTIVP - Victory Sycamore Established Value Fund (Class 2)
5. CTIVP - Westfield Mid Cap Growth Fund (Class 2)
6. Columbia Variable Portfolio - Select Small-Cap Value Fund (Class 2)
7. Variable Portfolio - Partners Small Cap Growth Fund (Class 2)
8. Variable Portfolio - Partners Small Cap Value Fund (Class 2)
9. Columbia Variable Portfolio - Emerging Markets Fund (Class 2)

Changes we may make for both Investment Path 1 and Investment Path 2. We reserve the right to add, remove, combine or substitute Funds in our sole discretion. We reserve the right to close or restrict Funds in our sole discretion. We also reserve the right to add, remove or modify allocation plans, including adding and removing Funds, changing allocation plan requirements and changing percentage limitations, in our sole discretion. Any change will apply to current allocations, future purchase payments and transfers. If we remove, restrict, combine or substitute any Funds, transfers made to reallocate purchase payments or contract value will not count toward any annual transfer limitations.

We may modify the investment requirements or limitations at any time we believe the modifications are necessary to protect our ability to provide the guarantees under these riders. Our decision to make modifications may be based on several factors including, but not limited to, general market conditions, the style and investment objectives of the funds, when hedging instruments become difficult to acquire or the cost of hedging becomes excessive.

We will notify you 30 days prior to the date of any change or new limitation to the Funds, the allocation plans or allocation plan requirements. The change will take effect on the date we declare in the written notice. If your current contract allocation does not comply with our revised requirements, prior to the effective date you should update your allocations to comply. If you do not provide us with such instructions or your allocations do not comply with our revised investment options, before you make a purchase payment or request a transfer, you must update your contract value and purchase payment allocations to comply.

Additional Risks. It is important to remember that certain Funds offered in Investment Path 1 and Investment Path 2 are managed volatility funds and employ a strategy designed to reduce overall volatility and downside risk. If a strategy is successful it may result in smaller losses to your contract value when markets are declining and market volatility is high when compared to funds not employing a managed volatility strategy. In turn, if a strategy is successful it may also result in less gain in your contract value during rising markets with higher volatility when compared to funds not employing a managed volatility strategy. There is no guarantee any of the managed volatility funds' strategies will be successful. In addition, managed volatility funds may decrease the number and amount of any periodic benefit base increase opportunities (e.g. annual step ups). Costs associated with running a managed volatility strategy may also adversely impact the performance of managed volatility funds.

Investing in the Funds does not guarantee that your contract will increase in value nor will it protect in a decline in value if market prices fall. Depending on future market conditions and considering only the potential return on your investment in the Funds, you might benefit (or benefit more) from selecting alternative Funds. There is no assurance that the Funds will achieve their respective investment objectives. In addition, there is no guarantee that the Fund's strategy will have its intended effect or that it will work as effectively as is intended.

For additional information about the Funds' investment strategies, risks and conflicts, see the Funds' prospectuses as well as "The Variable Account and the Funds – Risks and Conflicts of Interest with Certain Funds Advised by Columbia Management" section in this prospectus.

Additional Information. You may change your investment option allocations up to six times per contract year by written request on an authorized form or by another method agreed to by us subject to our investment restrictions. If you choose Investment Path 1, you may also set up asset rebalancing and change your percentage allocations, but those changes will count towards this six times per contract year limit. Quarterly rebalancing, based on contract quarter, is mandatory and will be automatically established when you select Investment Path 2. Please consider requesting changes carefully, because we may charge you a higher fee for your rider (see "Charges — Optional Living Benefit Charges"). We also reserve the right to limit the number of changes if required to comply with the written instructions of a fund (see "Making the Most of Your Contract — Transferring Among Accounts — Market Timing") and the number of investment options from which you can select.

Before you select *SecureSource Tempo* rider, you and your financial advisor should carefully evaluate whether the Funds offered in Investment Path 1 and Investment Path 2 meet your investment objectives and risk tolerance. **You should not select *SecureSource Tempo* benefit rider if you do not intend to adhere to its investment restrictions while this rider is in force.**

The Annuity Payout Period

As owner of the contract, you have the right to decide how and to whom annuity payouts will be made starting on the annuitization start date. You select one of the annuity payout plans outlined below, or we may mutually agree on other payout arrangements. We do not deduct surrender charges upon annuitization but surrender charges may be applied when electing to exercise liquidity features we may make available under certain fixed annuity payout options.

You also decide whether we will make annuity payouts on a fixed or variable basis, or a combination of fixed and variable. If you do not make an election, annuity payouts will be a combination of fixed and variable based on the proportion of your contract value allocated to the fixed account and variable account at the time payouts begin. The amount available to purchase payouts under the plan you select is the contract value on your annuitization start date after any rider charges have been deducted, plus any positive or negative MVA (less any applicable premium tax). Additionally, we currently allow you to use part of the amount available to purchase payouts, leaving any remaining contract value to accumulate on a tax-deferred basis. Special rules apply for partial annuitization of your annuity contract, see "Taxes — Nonqualified Annuities — Annuity payouts" and "Taxes — Qualified Annuities — Annuity payouts."

If you select a variable annuity payout, we reserve the right to limit the number of subaccounts in which you may invest. The GPAs and the Special DCA fixed account are not available during this payout period.

Amounts of fixed and variable payouts depend on:

- the annuity payout plan you select;
- the annuitant's age and, in most cases, sex;

- the annuity table in the contract; and
- the amounts you allocated to the accounts on the annuitization start date.

In addition, for variable payouts only, amounts depend on the investment performance of the subaccounts you select. These payouts will vary from month to month based on the performance of the funds. Fixed payouts generally remain the same from month to month unless you have elected an option providing for increasing payments or are exercising any available liquidity features we may offer and you have elected.

For information with respect to transfers between accounts after annuity payouts begin, see “Making the Most of Your Contract — Transfer policies.”

Annuity Tables

The annuity tables in your contract (Table A and Table B) show the amount of the monthly payout for each \$1,000 of contract value according to the annuitant’s age and, when applicable, the annuitant’s sex. (Where required by law, we will use a unisex table of annuity payout rates.)

Table A shows the amount of the first monthly variable payout assuming that the contract value is invested at the beginning of the annuity payout period and earns a 5% rate of return, which is reinvested and helps to support future payouts. If you ask us at least 30 days before the annuitization start date, we will substitute an annuity Table based on an assumed 3.5% investment return for the 5% Table A in the contract. The assumed investment return affects both the amount of the first payout and the extent to which subsequent payouts increase or decrease. For example, annuity payouts will increase if the investment return is above the assumed investment return and payouts will decrease if the return is below the assumed investment return. Using the 5% assumed interest return results in a higher initial payout, but later payouts will increase more slowly when annuity unit values rise and decrease more rapidly when they decline.

Table B shows the minimum amount of each fixed payout. We declare current payout rates that we use in determining the actual amount of your fixed annuity payout. The current payout rates will equal or exceed the guaranteed payout rates shown in Table B. We will furnish these rates to you upon request.

Annuity Payout Plans

We make available variable annuity payouts where payout amounts may vary based on the performance of the variable account. We may also make fixed annuity payouts available where payments of a fixed amount are made for the period specified in the plan, subject to any surrender we may permit. You may choose any one of these annuity payout plans by giving us written instructions at least 30 days before the annuitization start date:

- **Plan A: Life annuity — no refund:** We make monthly payouts until the annuitant’s death. Payouts end with the last payout before the annuitant’s death. We will not make any further payouts. This means that if the annuitant dies after we made only one monthly payout, we will not make any more payouts.
- **Plan B: Life income with guaranteed period:** We make monthly payouts for a guaranteed payout period of five, ten, or 15 years that you elect. This election will determine the length of the payout period in the event if the annuitant dies before the elected period expires. We calculate the guaranteed payout period from the annuitization start date. If the annuitant outlives the elected guaranteed payout period, we will continue to make payouts until the annuitant’s death.
- **Plan C: Life annuity — installment refund:** We make monthly payouts until the annuitant’s death, with our guarantee that payouts will continue for some period of time. We will make payouts for at least the number of months determined by dividing the amount applied under this option by the first monthly payout, whether or not the annuitant is living.
- **Plan D: Joint and last survivor life annuity — no refund:** We make monthly payouts while both the annuitant and a joint annuitant are living. If either annuitant dies, we will continue to make monthly payouts at the full amount until the death of the surviving annuitant. Payouts end with the death of the second annuitant.

For Plan A, if the annuitant dies before the initial payment, no payments will be made. For Plan B, if the annuitant dies before the initial payment, the payments will continue for the guaranteed payout period. For Plan C, if the annuitant dies before the initial payment, the payments will continue for the installment refund period. For Plan D, if both annuitants die before the initial payment, no payments will be made; however, if one annuitant dies before the initial payment, the payments will continue until the death of the surviving annuitant.

In addition to the annuity payout plans described above, we may offer additional payout plans. These plans may include cash refund features providing a guarantee of receiving at least a return of the annuitization amount (less any annuity payments made and any premium tax paid) in the event of the annuitant’s death, term certain installment plans with varying durations, and liquidity features allowing access under certain circumstances to a surrender of the underlying value of remaining payments. Terms and conditions of annuity payout plans will be disclosed at the time of election, including any associated fees or charges. It is important to remember that the election and use of liquidity features may either reduce the amount of future payouts you would otherwise receive or result in payouts ceasing.

Utilizing a liquidity feature to surrender the underlying value of remaining payments may result in the assessment of a surrender charge (See “Charges — Surrender charge”) or a 10% IRS penalty tax. (See “Taxes.”).

Annuity payout plan requirements for qualified annuities: If your contract is a qualified annuity, you have the responsibility for electing a payout plan under your contract that complies with applicable law. Your contract describes your payout plan options. The options will meet certain IRS regulations governing RMDs if the payout plan meets the incidental distribution benefit requirements, if any, and the payouts are made:

- in equal or substantially equal payments over a period not longer than your life expectancy or over the joint life expectancy of you and your designated beneficiary; or
- over a period certain not longer than your life expectancy or over the life expectancy of you and your designated beneficiary.

For qualified and nonqualified contracts with one of the *SecureSource* series rider, if your annuitization start date is the maximum annuitization start date, you can choose one of the payout options available under the contract or an alternative fixed annuity payout option available under the rider. Under the rider’s payout option, the minimum amount payable shown in Table B will not apply, and you will receive the Current Annual Payment provided by this rider until the death of Covered Person (**Joint Life:** both Covered Spouses) . If you choose to receive the Current Annual Payment, the amount payable each year will be equal to the Current Annual Payment on the annuitization start date. The amount paid in the current contract year will be reduced for any prior withdrawals in that year. These annualized amounts will be paid in monthly installments. If the monthly payment is less than \$100, we have the right to change the frequency, but no less frequently than annually. If the monthly payment is less than \$20, we have the right to make a lump sum payment equal to the present value of any remaining future payments. The present value will be calculated on the same mortality and interest rate basis used in Table B in the contract. If you choose to receive the Current Annual Payment rather than a payout option available under the contract, all other contract features, rider features and charges terminate after the annuitization start date.

You must select a payout plan as of the annuitization start date set forth in your contract.

If we do not receive instructions: You must give us written instructions for the annuity payouts at least 30 days before the annuitization start date. If you do not, we will make payouts under Plan B, with 120 monthly payouts guaranteed.

If monthly payouts would be less than \$20: We will calculate the amount of monthly payouts at the time amounts are applied to a payout plan. If the calculations show that monthly payouts would be less than \$20, we have the right to pay the amount that would otherwise have been applied to a plan to the owner in a lump sum or to change the frequency of the payouts.

Death after annuity payouts begin: If you die after annuity payouts begin, we will pay any amount payable to the beneficiary as provided in the annuity payout plan in effect. Payments to beneficiaries are subject to adjustment to comply with the IRS rules and regulations.

Taxes

Under current law, your contract has a tax-deferral feature. Generally, this means you do not pay income tax until there is a taxable distribution (or deemed distribution) from the contract. We will send a tax information reporting form for any year in which we made a taxable or reportable distribution according to our records.

Nonqualified Annuities

Generally, only the increase in the value of a non-qualified annuity contract over the investment in the contract is taxable. Certain exceptions apply. Federal tax law requires that all nonqualified deferred annuity contracts issued by the same company (and possibly its affiliates) to the same owner during a calendar year be taxed as a single, unified contract when distributions are taken from any one of those contracts.

Annuity payouts: Generally, unlike surrenders described below, the income taxation of annuity payouts is subject to exclusion ratios (for fixed annuity payouts) or annual excludable amounts (for variable annuity payouts). In other words, in most cases, a portion of each payout will be ordinary income and subject to tax, and a portion of each payout will be considered a return of part of your investment in the contract and will not be taxed. All amounts you receive after your investment in the contract is fully recovered will be subject to tax. Under Annuity Payout Plan A: Life annuity — no refund, where the annuitant dies before your investment in the contract is fully recovered, the remaining portion of the unrecovered investment may be available as a federal income tax deduction to the owner for the last taxable year. Under all other annuity payout plans, where the annuity payouts end before your investment in the contract is fully recovered, the remaining portion of the unrecovered investment may be available as a federal income tax deduction to the taxpayer for the tax year in which the payouts end. (See “The Annuity Payout Period — Annuity Payout Plans.”)

Federal tax law permits taxpayers to annuitize a portion of their nonqualified annuity while leaving the remaining balance to continue to grow tax-deferred. Under the partial annuitization rules, the portion annuitized must be received as an annuity for a period of 10 years or more, or for the lives of one or more individuals. If this requirement is met, the annuitized portion and the tax-deferred balance will generally be treated as two separate contracts for income tax purposes only. If a contract is partially annuitized, the investment in the contract is allocated between the deferred and the annuitized portions on a pro rata basis.

Surrenders: Generally, if you surrender all or part of your nonqualified annuity before the annuitization start date, including surrenders under any optional withdrawal benefit rider, your surrender will be taxed to the extent that the contract value immediately before the surrender exceeds the investment in the contract. Application of surrender charges may alter the manner in which we tax report the surrender. Different rules may apply if you exchange another contract into this contract.

You also may have to pay a 10% IRS penalty for surrenders of taxable income you make before reaching age 59½ unless certain exceptions apply.

Withholding: If you receive taxable income as a result of an annuity payout or surrender, including surrenders under any optional withdrawal benefit rider, we may deduct federal, and in some cases state withholding against the payment. Any withholding represents a prepayment of your income tax due for the year. You take credit for these amounts on your annual income tax return. As long as you have provided us with a valid Social Security Number or Taxpayer Identification Number, and you have a valid U.S. address, you may be able to elect not to have federal income tax withholding occur.

If the payment is part of an annuity payout plan, we generally compute the amount of federal income tax withholding using payroll tables. You may provide us with a statement of how many exemptions to use in calculating the withholding. If the distribution is any other type of payment (such as partial or full surrender) we compute federal income tax withholding using 10% of the taxable portion.

The federal income tax withholding requirements differ if we deliver payment outside the United States or you are a non-resident alien.

Some states also may impose income tax withholding requirements similar to the federal withholding described above or may allow you to elect withholding. If this should be the case, we may deduct state income tax withholding from the payment.

Federal and state tax withholding rules are subject to change. Annuity payouts and surrenders are subject to the tax withholding rules in effect at the time that they are made, which may differ from the rules described above.

Death benefits to beneficiaries: The death benefit under a nonqualified contract is not exempt from estate (federal or state) taxes. In addition, for income tax purposes, any amount your beneficiary receives that exceeds the remaining investment in the contract is taxable as ordinary income to the beneficiary in the year he or she receives the payments. (See “Benefits in Case of Death — If You Die Before the Annuitization Start Date”).

Net Investment Income Tax (also known as Medicare contribution tax): Effective for taxable years beginning on or after January 1, 2013, certain investment income of high-income individuals (as well as estates and trusts) is subject to a 3.8% net investment income tax (as an addition to income taxes). For individuals, the 3.8% tax applies to the *lesser* of (1) the amount by which the taxpayer’s modified adjusted gross income exceeds \$200,000 (\$250,000 for married filing jointly and surviving spouses; \$125,000 for married filing separately) or (2) the taxpayer’s “net investment income.” Net investment income includes taxable income from nonqualified annuities. Annuity holders are advised to consult their tax advisor regarding the possible implications of this additional tax.

Annuities owned by corporations, partnerships or irrevocable trusts: For nonqualified annuities, any annual increase in the value of annuities held by such entities (nonnatural persons) generally will be treated as ordinary income received during that year. However, if the trust was set up for the benefit of a natural person(s) only, the income may generally remain tax-deferred until surrendered or paid out.

Penalties: If you receive amounts from your nonqualified annuity before reaching age 59½, you may have to pay a 10% IRS penalty on the amount includable in your ordinary income. However, this penalty will not apply to any amount received:

- because of your death or in the event of nonnatural ownership, the death of the annuitant;
- because you become disabled (as defined in the Code);
- if the distribution is part of a series of substantially equal periodic payments, made at least annually, over your life or life expectancy (or joint lives or life expectancies of you and your beneficiary);
- if it is allocable to an investment before Aug. 14, 1982; or
- if annuity payouts are made under immediate annuities as defined by the Code.

Transfer of ownership: Generally, if you transfer ownership of a nonqualified annuity without receiving adequate consideration, the transfer may be taxed as a surrender for federal income tax purposes. If the transfer is a currently taxable event for income tax purposes, the original owner will be taxed on the amount of deferred earnings at the time of the transfer and also may be subject to the 10% IRS penalty discussed earlier. In this case, the new owner's investment in the contract will be equal to the investment in the contract at the time of the transfer plus any earnings included in the original owner's taxable income as a result of the transfer. In general, this rule does not apply to transfers between spouses or former spouses. Similar rules apply if you transfer ownership for a full consideration. Please consult your tax advisor for further details.

1035 Exchanges: Section 1035 of the Code permits nontaxable exchanges of certain insurance policies, endowment contracts, annuity contracts and qualified long-term care insurance products, while providing for continued tax deferral of earnings. In addition, Section 1035 permits the carryover of the investment in the contract from the old policy or contract to the new policy or contract. In a 1035 exchange one policy or contract is exchanged for another policy or contract. The following can qualify as nontaxable exchanges: (1) the exchange of a life insurance policy for another life insurance policy or for an endowment, annuity or qualified long-term care insurance contract, (2) the exchange of an endowment contract for an annuity or qualified long-term care insurance contract, or for an endowment contract under which payments will begin no later than payments would have begun under the contract exchanged, (3) the exchange of an annuity contract for another annuity contract or for a qualified long-term care insurance contract, and (4) the exchange of a qualified long-term care insurance contract for a qualified long-term care insurance contract. However, if the life insurance policy has an outstanding loan, there may be tax consequences. Additionally, other tax rules apply. Depending on the issue date of your original policy or contract, there may be tax or other benefits that are given up to gain the benefits of the new policy or contract. Consider whether the features and benefits of the new policy or contract outweigh any tax or other benefits of the old contract.

For a partial exchange of an annuity contract for another annuity contract, the 1035 exchange is generally tax-free. The investment in the original contract and the earnings on the contract will be allocated proportionately between the original and new contracts. However, per IRS Revenue Procedure 2011-38, if surrenders are taken from either contract within the 180-day period following a partial 1035 exchange, the IRS will apply general tax principles to determine the appropriate tax treatment of the exchange and subsequent surrender. As a result, there may be unexpected tax consequences. You should consult your tax advisor before taking any surrender from either contract during the 180-day period following a partial exchange.

Assignment: If you assign or pledge your contract as collateral for a loan, earnings on purchase payments you made after Aug. 13, 1982 will be taxed as a deemed distribution and also may be subject to the 10% penalty as discussed above.

Qualified Annuities

Adverse tax consequences may result if you do not ensure that contributions, distributions and other transactions under the contract comply with the law. Qualified annuities have minimum distribution rules that govern the timing and amount of distributions. You should refer to your retirement plan's Summary Plan Description, your IRA disclosure statement, or consult a tax advisor for additional information about the distribution rules applicable to your situation.

When you use your contract to fund a retirement plan or IRA that is already tax-deferred under the Code, the contract will not provide any necessary or additional tax deferral. If your contract is used to fund an employer sponsored plan, your right to benefits may be subject to the terms and conditions of the plan regardless of the terms of the contract.

Annuity payouts: Under a qualified annuity, except a Roth IRA, the entire payout generally is includable as ordinary income and is subject to tax unless: (1) the contract is an IRA to which you made non-deductible contributions; or (2) you rolled after-tax dollars from a retirement plan into your IRA; or (3) the contract is used to fund a retirement plan and you or your employer have contributed after-tax dollars; or (4) the contract is used to fund a retirement plan and you direct such payout to be directly rolled over to another eligible retirement plan such as an IRA. We may permit partial annuitizations of qualified annuity contracts. If we accept partial annuitizations, please remember that your contract will still need to comply with other requirements such as required minimum distributions and the payment of taxes. Prior to considering a partial annuitization on a qualified contract, you should discuss your decision and any implications with your tax adviser. Because we cannot accurately track certain after-tax funding sources, we will generally report any payments on partial annuitizations as ordinary income except in the case of a qualified distribution from a Roth IRA.

Annuity payouts from Roth IRAs: In general, the entire payout from a Roth IRA can be free from income and penalty taxes if you have attained age 59½ and meet the five year holding period.

Surrenders: Under a qualified annuity, except a Roth IRA, the entire surrender will generally be includable as ordinary income and is subject to tax unless: (1) the contract is an IRA to which you made non-deductible contributions; or (2) you rolled after-tax dollars from a retirement plan into your IRA; or (3) the contract is used to fund a retirement plan and you or your employer have contributed after-tax dollars; or (4) the contract is used to fund a retirement plan and you direct such surrender to be directly rolled over to another eligible retirement plan such as an IRA.

Surrenders from Roth IRAs: In general, the entire payout from a Roth IRA can be free from income and penalty taxes if you have attained age 59½ and meet the five year holding period or another qualifying event such as death or disability.

Required Minimum Distributions: Retirement plans (except for Roth IRAs) are subject to required surrenders called required minimum distributions (“RMDs”) beginning at age 72. RMDs are based on the fair market value of your contract at year-end divided by the life expectancy factor. Certain death benefits and optional riders may be considered in determining the fair market value of your contract for RMD purposes. This may cause your RMD to be higher. You should consult your tax advisor prior to making a purchase for an explanation of the potential tax implications to you. Inherited IRAs (including inherited Roth IRAs) are subject to special required minimum distribution rules.

Withholding for IRAs, Roth IRAs, SEPs and SIMPLE IRAs: If you receive taxable income as a result of an annuity payout or a surrender, including surrenders under any optional withdrawal benefit rider, we may deduct withholding against the payment. Any withholding represents a prepayment of your tax due for the year. You take credit for these amounts on your annual income tax return. As long as you have provided us with a valid Social Security Number or Taxpayer Identification Number, you can elect not to have any withholding occur.

If the payment is part of an annuity payout plan, we generally compute the amount of federal income tax withholding using payroll tables. You may provide us with a statement of how many exemptions to use in calculating the withholding. If the distribution is any other type of payment (such as a partial or full surrender) we compute federal income tax withholding using 10% of the taxable portion.

The federal income tax withholding requirements differ if we deliver payment outside the United States or you are a non-resident alien.

Some states also may impose income tax withholding requirements similar to the federal withholding described above. If this should be the case, we may deduct state income tax withholding from the payment.

Withholding for all other qualified annuities: If you receive directly all or part of the contract value from a qualified annuity, mandatory 20% federal income tax withholding (and possibly state income tax withholding) generally will be imposed at the time the payout is made from the plan. Any withholding represents a prepayment of your tax due for the year. You take credit for these amounts on your annual income tax return. This mandatory withholding will not be imposed if instead of receiving the distribution check, you elect to have the distribution rolled over directly to an IRA or another eligible plan. Payments made to a surviving spouse instead of being directly rolled over to an IRA are also subject to mandatory 20% income tax withholding.

In the below situations, the distribution is subject to an optional 10% withholding instead of the mandatory 20% withholding. We will withhold 10% of the distribution amount unless you elect otherwise.

- the payout is one in a series of substantially equal periodic payouts, made at least annually, over your life or life expectancy (or the joint lives or life expectancies of you and your designated beneficiary) or over a specified period of 10 years or more;
- the payout is a RMD as defined under the Code;
- the payout is made on account of an eligible hardship; or
- the payout is a corrective distribution.

State withholding also may be imposed on taxable distributions.

Penalties: If you receive amounts from your qualified contract before reaching age 59½, you may have to pay a 10% IRS penalty on the amount includable in your ordinary income. However, this penalty generally will not apply to any amount received:

- because of your death;
- because you become disabled (as defined in the Code);
- if the distribution is part of a series of substantially equal periodic payments made at least annually, over your life or life expectancy (or joint lives or life expectancies of you and your beneficiary);
- if the distribution is made following severance from employment during or after the calendar year in which you attain age 55 (TSAs and annuities funding 401(a) plans only);
- to pay certain medical or education expenses (IRAs only); or
- if the distribution is made from an inherited IRA.

Death benefits to beneficiaries: The entire death benefit generally is taxable as ordinary income to the beneficiary in the year he/she receives the payments from the qualified annuity. If you made non-deductible contributions to a traditional IRA, the portion of any distribution from the contract that represents after-tax contributions is not taxable as ordinary income to your beneficiary. You are responsible for keeping all records tracking your non-deductible

contributions to an IRA. Death benefits under a Roth IRA generally are not taxable as ordinary income to the beneficiary if certain distribution requirements are met. (See “Benefits in Case of Death — If You Die Before the Annuitization Start Date”).

Change of retirement plan type: IRS regulations allow for rollovers of certain retirement plan distributions. In some circumstances, you may be able to have an intra-contract rollover, keeping the same features and conditions. If the annuity contract you have does not support an intra-contract rollover, you are able to request an IRS approved rollover to another annuity contract or other investment product that you choose. If you choose another annuity contract or investment product, you will be subject to new rules, including a new surrender charge schedule for an annuity contract, or other product rules as applicable.

Assignment: You may not assign or pledge your qualified contract as collateral for a loan.

Other

Special considerations if you select any optional rider: As of the date of this prospectus, we believe that charges related to these riders are not subject to current taxation. Therefore, we will not report these charges as partial surrenders from your contract. However, the IRS may determine that these charges should be treated as partial surrenders subject to taxation to the extent of any gain as well as the 10% tax penalty for surrenders before the age of 59½, if applicable, on the taxable portion. We reserve the right to report charges for these riders as partial surrenders if we, as a withholding and reporting agent, believe that we are required to report them. In addition, we will report any benefits attributable to these riders on your death as an annuity death benefit distribution, not as proceeds from life insurance.

Important: Our discussion of federal tax laws is based upon our understanding of current interpretations of these laws. Federal tax laws or current interpretations of them may change. For this reason and because tax consequences are complex and highly individual and cannot always be anticipated, you should consult a tax advisor if you have any questions about taxation of your contract.

RiverSource Life’s tax status: We are taxed as a life insurance company under the Code. For federal income tax purposes, the subaccounts are considered a part of our company, although their operations are treated separately in accounting and financial statements. Investment income is reinvested in the fund in which each subaccount invests and becomes part of that subaccount’s value. This investment income, including realized capital gains, is not subject to any withholding for federal or state income taxes. We reserve the right to make such a charge in the future if there is a change in the tax treatment of variable annuities or in our tax status as we then understand it.

The company includes in its taxable income the net investment income derived from the investment of assets held in its subaccounts because the company is considered the owner of these assets under federal income tax law. The company may claim certain tax benefits associated with this investment income. These benefits, which may include foreign tax credits and the corporate dividend received deduction, are not passed on to you since the company is the owner of the assets under federal tax law and is taxed on the investment income generated by the assets.

Tax qualification: We intend that the contract qualify as an annuity for federal income tax purposes. To that end, the provisions of the contract are to be interpreted to ensure or maintain such tax qualification, in spite of any other provisions of the contract. We reserve the right to amend the contract to reflect any clarifications that may be needed or are appropriate to maintain such qualification or to conform the contract to any applicable changes in the tax qualification requirements. We will send you a copy of any amendments.

Spousal status: When it comes to your marital status and the identification and naming of any spouse as a beneficiary or party to your contract, we will rely on the representations you make to us. Based on this reliance, we will issue and administer your contract in accordance with these representations. If you represent that you are married and your representation is incorrect or your marriage is deemed invalid for federal or state law purposes, then the benefits and rights under your contract may be different.

If you have any questions as to the status of your relationship as a marriage, then you should consult an appropriate tax or legal advisor.

Voting Rights

As a contract owner with investments in the subaccounts, you may vote on important fund policies until annuity payouts begin. Once they begin, the person receiving them has voting rights. We will vote fund shares according to the instructions of the person with voting rights.

Before annuity payouts begin, the number of votes you have is determined by applying your percentage interest in each subaccount to the total number of votes allowed to the subaccount.

After annuity payouts begin, the number of votes you have is equal to:

- the reserve held in each subaccount for your contract; divided by
- the net asset value of one share of the applicable fund.

As we make annuity payouts, the reserve for the contract decreases; therefore, the number of votes also will decrease.

We calculate votes separately for each subaccount. We will send notice of shareholders' meetings, proxy materials and a statement of the number of votes to which the voter is entitled. We are the legal owner of all fund shares and therefore hold all voting rights. However, to the extent required by law, we will vote the shares of each fund according to instructions we receive from contract owners. We will vote shares for which we have not received instructions and shares that we or our affiliates own in our own names in the same proportion as the votes for which we received instructions. As a result of this proportional voting, in cases when a small number of contract owners vote, their votes will have a greater impact and may even control the outcome.

Substitution of Investments

We may substitute the funds in which the subaccounts invest if:

- laws or regulations change;
- the existing funds become unavailable; or
- in our judgment, the funds no longer are suitable (or no longer the most suitable) for the subaccounts.

If any of these situations occur, we have the right to substitute a fund currently listed in this prospectus (existing fund) for another fund (new fund), provided we obtain any required SEC and state insurance law approval. The new fund may have higher fees and/or operating expenses than the existing fund. Also, the new fund may have investment objectives and policies and/or investment advisers which differ from the existing fund.

We may also:

- add new subaccounts;
- combine any two or more subaccounts;
- transfer assets to and from the subaccounts or the variable account; and
- eliminate or close any subaccounts.

We will notify you of any substitution or change and obtain your approval if required.

In certain limited circumstances permitted by applicable law, we may amend the contract and take whatever action is necessary and appropriate without your consent or approval. We will obtain any required prior approval of the SEC or state insurance departments before making any substitution or change.

About the Service Providers

Principal Underwriter

RiverSource Distributors, Inc. (RiverSource Distributors), our affiliate, serves as the principal underwriter and general distributor of the contract. Its offices are located at 829 Ameriprise Financial Center, Minneapolis, MN 55474. RiverSource Distributors is a wholly-owned subsidiary of Ameriprise Financial, Inc.

Sales of the Contract

- Only securities broker-dealers ("selling firms") registered with the SEC and members of the FINRA may sell the contract.
- The contracts are continuously offered to the public through authorized selling firms. We and RiverSource Distributors have a sales agreement with the selling firm. The sales agreement authorizes the selling firm to offer the contracts to the public. RiverSource Distributors pays the selling firm (or an affiliated insurance agency) for contracts its financial advisors sell. The selling firm may be required to return sales commissions under certain circumstances including but not limited to when contracts are returned under the free look period.

Payments to Selling Firms

- We may use compensation plans which vary by selling firm. For example, some of these plans pay selling firms a commission of up to 7.50% each time a purchase payment is made. We may pay ongoing trail commissions of up to 1.25% of the contract value. We do not pay or withhold payment of commissions based on which investment options you select.
- We may pay selling firms a temporary additional sales commission of up to 1% of purchase payments for a period of time we select. For example, we may offer to pay a temporary additional sales commission to get selling firms to market a new or enhanced contract or to increase sales during the period.

- In addition to commissions, we may, in order to promote sales of the contracts, and as permitted by applicable laws and regulations, pay or provide selling firms with other promotional incentives in cash, credit or other compensation. We generally (but may not) offer these promotional incentives to all selling firms. The terms of such arrangements differ between selling firms. These promotional incentives may include but are not limited to:
- sponsorship of marketing, educational, due diligence and compliance meetings and conferences we or the selling firm may conduct for financial advisors, including subsidy of travel, meal, lodging, entertainment and other expenses related to these meetings;
- marketing support related to sales of the contract including for example, the creation of marketing materials, advertising and newsletters;
- providing service to contract owners; and
- funding other events sponsored by a selling firm that may encourage the selling firm's financial advisors to sell the contract.

These promotional incentives or reimbursements may be calculated as a percentage of the selling firm's aggregate, net or anticipated sales and/or total assets attributable to sales of the contract, and/or may be a fixed dollar amount. As noted below this additional compensation may cause the selling firm and its financial advisors to favor the contracts.

Sources of Payments to Selling Firms

We pay the commissions and other compensation described above from our assets. Our assets may include:

- revenues we receive from fees and expenses that you will pay when buying, owning and surrendering the contract (see "Expense Summary");
- compensation we or an affiliate receive from the underlying funds in the form of distribution and services fees (see "The Variable Account and the Funds - The funds");
- compensation we or an affiliate receive from a fund's investment adviser, subadviser, distributor or an affiliate of any of these (see "The Variable Account and the Funds - The funds"); and
- revenues we receive from other contracts and policies we sell that are not securities and other businesses we conduct.

You do not directly pay the commissions and other compensation described above as the result of a specific charge or deduction under the contract. However, you may pay part or all of the commissions and other compensation described above indirectly through:

- fees and expenses we collect from contract owners , including surrender charges; and
- fees and expenses charged by the underlying funds in which the subaccounts you select invest, to the extent we or one of our affiliates receive revenue from the funds or an affiliated person.

Potential Conflicts of Interest

Compensation payment arrangements with selling firms can potentially:

- give selling firms a heightened financial incentive to sell the contract offered in this prospectus over another investment with lower compensation to the selling firm.
- cause selling firms to encourage their financial advisors to sell you the contract offered in this prospectus instead of selling you other alternative investments that may result in lower compensation to the selling firm.
- cause selling firms to grant us access to its financial advisors to promote sales of the contract offered in this prospectus, while denying that access to other firms offering similar contracts or other alternative investments which may pay lower compensation to the selling firm.

Payments to Financial Advisors

- The selling firm pays its financial advisors. The selling firm decides the compensation and benefits it will pay its financial advisors.
- To inform yourself of any potential conflicts of interest, ask your financial advisor before you buy how the selling firm and its financial advisors are being compensated and the amount of the compensation that each will receive if you buy the contract.

Service Providers

Our Service Center performs certain administrative services on the contracts and policies we issue. The address and telephone number of our Service Center are listed on the first page of the prospectus. We also have entered into agreements with certain entities to provide the identified services in connection with the contracts and policies we

issue. The entities engaged by RiverSource Life may change over time. Entities that provided services to RiverSource Life in 2020 are listed in the table below.

Name of Service Provider	Services Provided	Address
Ameriprise Financial, Inc.	Business affairs management and administrative support related to new business and servicing of existing contracts and policies	707 Second Avenue South Minneapolis MN 55402 USA
Ameriprise India Private Limited	Administrative support related to new business and servicing of existing contracts and policies annual report filings	Plot No. 14, Sector 18 Udyog Vihar Gurugram, Haryana – 122 015 India
Sykes Enterprise Incorporated	Administrative support related to e new business and servicing of existing contracts and policies	10 th Floor, Glorietta BPO 1 Office Tower Makati City 1224 Metro Manila Philippines

Issuer

We issue the contracts. We are a stock life insurance company organized in 1957 under the laws of the state of Minnesota and are located at 829 Ameriprise Financial Center, Minneapolis, MN 55474. We are a wholly-owned subsidiary of Ameriprise Financial, Inc.

We conduct a conventional life insurance business. We are licensed to do business in 49 states, the District of Columbia and American Samoa. Our primary products currently include fixed and variable annuity contracts (including indexed linked annuity contracts) and life insurance policies.

Legal Proceedings

Insurance companies have been the subject of increasing regulatory, legislative and judicial scrutiny. Numerous state and federal regulatory agencies have commenced examinations and other inquiries of insurance companies regarding sales and marketing practices (including sales to older consumers and disclosure practices), claims handling, and unclaimed property and escheatment practices and procedures. RiverSource Life has cooperated and will continue to cooperate with the applicable regulators.

RiverSource Life is involved in the normal course of business in a number of other legal and arbitration proceedings concerning matters arising in connection with the conduct of its business activities. RiverSource Life believes that it is not a party to, nor are any of its properties the subject of, any pending legal, arbitration or regulatory investigation, examination or proceeding that is likely to have a material adverse effect on its consolidated financial condition, results of operations or liquidity. Notwithstanding the foregoing, it is possible that the outcome of any current or future legal, arbitration or regulatory proceeding could have a material impact on results of operations in any particular reporting period as the proceedings are resolved.

Uncertain economic conditions, heightened and sustained volatility in the financial markets and significant financial reform legislation may increase the likelihood that clients and other persons or regulators may present or threaten legal claims or that regulators increase the scope or frequency of examinations of RiverSource Life or the insurance industry generally.

Experts

The financial statements incorporated in this prospectus by reference to the Annual Report on Form 10-K for the year ended December 31, 2020 have been so incorporated in reliance on the report of PricewaterhouseCoopers LLP, an independent registered public accounting firm, given on the authority of said firm as experts in auditing and accounting.

Additional Information

Incorporation of Certain Documents by Reference

The SEC allows Us to “incorporate by reference” the information We have filed with the SEC. This means that We can disclose important information to You without actually including the specific information in this prospectus by referring You to other documents filed separately with the SEC. The information incorporated by reference is an important part of this prospectus. Information that We later provide to the SEC, and which is deemed to be “filed” with the SEC, will automatically update information previously filed with the SEC, and may replace information in this prospectus and information previously filed with the SEC. We incorporate by reference RiverSource Life Insurance Company’s annual report on Form 10-K for the year ended December 31, 2020 as filed with the SEC on February 24, 2021, File No.033-28976 in accordance with the Securities Exchange Act of 1934, as amended and any filings We make with the SEC under Sections 13(a) or 15(d) of the Securities Exchange Act (excluding information deemed to be furnished and

not filed with the SEC) after the effective date of this registration statement, until all offerings under the registration statement of which this prospectus forms a part are completed or terminated. The annual report contains additional information about RiverSource Life Insurance Company, including audited financial statements for the latest fiscal year.

RiverSource Life will furnish You without charge a copy of any or all of the documents incorporated by reference into this prospectus, including any exhibits to such documents which have been specifically incorporated by reference. We will do so upon receipt of Your written or oral request. You can contact RiverSource Life at the telephone number and address listed on the first page of this prospectus.

Available Information

This prospectus is part of a registration statement we file with the SEC. Additional information on RiverSource Life and on this offering is available in the registration statement and other materials we file. You can obtain copies of these materials at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. You can obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330. The SEC also maintains an Internet site that contains reports, proxy and information statements and other information regarding issuers that file electronically with the SEC. This prospectus, other information about the contract and other information incorporated by reference are available on the EDGAR Database on the SEC's Internet site at (<http://www.sec.gov>).

Indemnification

Insofar as indemnification for liabilities arising under the Securities Act of 1933 (the Act) may be permitted to directors, officers and controlling persons of RiverSource Life pursuant to the foregoing provisions, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

Appendix A: The Funds

Unless you have elected one of the optional living benefit riders, the *Enhanced Legacy* benefit rider or the *SecureSource Legacy* benefit rider, you may allocate purchase payments and transfers to any or all of the subaccounts of the variable account that invest in shares of the funds listed in the table below. From time to time, certain fund names are changed. When we are notified of a name change, we will make changes so that the new name is properly shown. However, changes may take some period of time to complete. As a result, it is possible you may receive various forms, reports and confirmations that reflect a fund's prior name.

Investing In	Investment Objective and Policies	Investment Adviser
AB VPS Dynamic Asset Allocation Portfolio (Class B)	Seeks to maximize total return consistent with AllianceBernstein's determination of reasonable risk.	AllianceBernstein L.P.

Wells Fargo VT Opportunity Fund - Class 2	Seeks long-term capital appreciation.	Wells Fargo Funds Management, LLC, adviser; Wells Capital Management Inc., sub-adviser.
Wells Fargo VT Small Cap Growth Fund - Class 2	Seeks long-term capital appreciation.	Wells Fargo Funds Management, LLC, adviser; Wells Capital Management Inc., sub-adviser.
Western Asset Variable Global High Yield Bond Portfolio - Class II	Seeks to maximize total return.	Legg Mason Partners Fund Adviser, LLC; Western Asset Management Company, LLC, Western Asset Management Company Limited & Western Asset Management Pte. Ltd., sub-advisors.

Appendix B: Example — Market Value Adjustment (MVA)

As the examples below demonstrate, the application of an MVA may result in either a gain or a loss of principal. We refer to all of the transactions described below as “early surrenders.” The examples may show hypothetical contract values. These contract values do not represent past or future performance. Actual contract values may be more or less than those shown and will depend on a number of factors, including but not limited to the investment experience of the subaccounts, GPAs, Special DCA fixed account, regular fixed account and the fees and charges that apply to your contract.

Assumptions:

- You purchase a contract and allocate part of your purchase payment to the ten-year GPA; and
- we guarantee an interest rate of 3.0% annually for your ten-year Guarantee Period; and
- after three years, you decide to make a surrender from your GPA. In other words, there are seven years left in your guarantee period.

Remember that the MVA depends partly on the interest rate of a new GPA for the same number of years as the Guarantee Period remaining on your GPA. In this case, that is seven years.

Example 1: Remember that your GPA is earning 3.0%. Assume at the time of your surrender new GPAs that we offer with a seven-year Guarantee Period are earning 3.5%. We add 0.10% to the 3.5% rate to get 3.6%. Your GPA’s 3.0% rate is less than the 3.6% rate so the MVA will be negative.

Example 2: Remember again that your GPA is earning 3.0%, and assume that new GPAs that we offer with a seven-year Guarantee Period are earning 2.5%. We add 0.10% to the 2.5% rate to get 2.6%. In this example, since your GPA’s 3.0% rate is greater than the 2.6% rate, the MVA will be positive. To determine that adjustment precisely, you will have to use the formula described below.

Sample MVA Calculations

The precise MVA formula we apply is as follows:

$$\text{Early surrender amount} \times \left[\left(\frac{1 + i}{1 + j + .001} \right)^{(n/12)} - 1 \right] = \text{MVA}$$

Where i = rate earned in the GPA from which amounts are being transferred or surrendered.

j = current rate for a new Guaranteed Period equal to the remaining term in the current Guarantee Period (rounded up to the next year).

n = number of months remaining in the current Guarantee Period (rounded up to the next month).

Examples — MVA

Using assumptions similar to those we used in the examples above:

- You purchase a contract and allocate part of your purchase payment to the ten-year GPA; and
- we guarantee an interest rate of 3.0% annually for your ten-year Guarantee Period; and
- after three years, you decide to make a \$1,000 surrender from your GPA. In other words, there are seven years left in your guarantee period.

Example 1: You request an early surrender of \$1,000 from your ten-year GPA earning a guaranteed interest rate of 3.0%. Assume at the time of your surrender new GPAs that we offer with a seven-year Guarantee Period are earning 3.5%. Using the formula above, we determine the MVA as follows:

$$\$1,000 \times \left[\left(\frac{1.030}{1 + .035 + .001} \right)^{(84/12)} - 1 \right] = -\$39.84$$

In this example, the MVA is a negative \$39.84.

Example 2: You request an early surrender of \$1,000 from your ten-year GPA earning a guaranteed interest rate of 3.0%. Assume at the time of your surrender new GPAs that we offer with a seven-year Guarantee Period are earning 2.5%. Using the formula above, we determine the MVA as follows:

$$\$1,000 \times \left[\left(\frac{1.030}{1 + .025 + .001} \right)^{(84/12)} - 1 \right] = \$27.61$$

In this example, the MVA is a positive \$27.61

Please note that when you allocate your purchase payment to the ten-year GPA and your purchase payment is in its fourth year from receipt at the beginning of the guarantee period, your surrender charge percentage is 7% if you elected RAVA 5 Advantage with the ten-year surrender charge schedule, 6% if you elected RAVA 5 Advantage with the seven-year surrender charge schedule and do not apply MVAs to the amounts we deduct for surrender charges, so we would deduct the surrender charge from your early surrender after we applied the MVA. Also note that when you request an early surrender, we surrender an amount from your GPA that will give you the net amount you requested after we apply the MVA and any applicable surrender charge, unless you request otherwise.

The current interest rate we offer on the GPA will change periodically at our discretion. It is the rate we are then paying on purchase payments, renewals and transfers paid under this class of contracts for guarantee period durations equaling the remaining guarantee period of the GPA to which the formula is being applied.

Appendix C: Example — Surrender Charges

We determine your surrender charge by multiplying the amount of each purchase payment surrendered which could be subject to a surrender charge by the applicable surrender charge percentage, and then totaling the surrender charges. We calculate the amount of purchase payments surrendered (PPS) as:

$$\text{PPS} = \text{PPSC} + \text{PPF}$$

$$\begin{aligned} \text{PPSC} &= \text{purchase payments surrendered that could be subject to a surrender charge} \\ &= (\text{PS} - \text{FA}) / (\text{CV} - \text{FA}) \times (\text{PP} - \text{PPF}) \end{aligned}$$

$$\begin{aligned} \text{PPF} &= \text{purchase payments surrendered that are not subject to a surrender charge} \\ &= \text{FA} - \text{contract earnings, but not less than zero} \end{aligned}$$

$$\text{PP} = \text{purchase payments not previously surrendered (total purchase payments} - \text{PPS from all previous surrenders)}$$

$$\text{PS} = \text{amount the contract value is reduced by the surrender}$$

$$\text{FA} = \text{total free amount} = \text{greater of contract earnings or 10\% of prior anniversary's contract value}$$

$$\text{CV} = \text{contract value prior to the surrender}$$

When determining the surrender charge, contract earnings are defined as the contract value, including any positive or negative MVA on amounts being surrendered, less purchase payments not previously surrendered. We determine current contract earnings by looking at the entire contract value, not the earnings of any particular subaccount, GPA, the regular fixed account, the Special DCA fixed account. If the contract value is less than purchase payments received and not previously surrendered, then contract earnings are zero.

The examples below show how the surrender charge for a full and partial surrender is calculated. Each example illustrates the amount of the surrender charge for both a contract that experiences gains and a contract that experiences losses, given the same set of assumptions.

Full surrender charge calculation — ten-year surrender charge schedule:

This is an example of how we calculate the surrender charge on a contract with a ten-year (from the date of **each** purchase payment) surrender charge schedule and the following history:

Assumptions:

- We receive a single \$50,000 purchase payment;
- During the fourth contract year you surrender the contract for its total value. The surrender charge percentage in the fourth year after a purchase payment is 7.0%; and
- You have made no prior surrenders.

We will look at two situations, one where the contract has a gain and another where there is a loss:

	Contract with Gain	Contract with Loss
Contract value just prior to surrender:	\$60,000.00	\$40,000.00
Contract value on prior anniversary:	58,000.00	42,000.00

We calculate the surrender charge as follows:

Step 1. First, we determine the amount of earnings available in the contract at the time of surrender as:

Contract value just prior to surrender (CV):	60,000.00	40,000.00
Less purchase payments received and not previously surrendered (PP):	<u>50,000.00</u>	<u>50,000.00</u>
Earnings in the contract (but not less than zero):	10,000.00	0.00

Step 2. Next, we determine the total free amount (FA) available in the contract as the greatest of the following values:

Earnings in the contract:	10,000.00	0.00
10% of the prior anniversary's contract value:	<u>5,800.00</u>	<u>4,200.00</u>
FA (but not less than zero):	10,000.00	4,200.00

Step 3. Next we determine PPF, the amount by which the total free amount (FA) exceeds earnings.

Total free amount (FA):	10,000.00	4,200.00
Less earnings in the contract:	<u>10,000.00</u>	<u>0.00</u>
PPF (but not less than zero):	0.00	4,200.00

	Contract with Gain	Contract with Loss
Step 4. Next we determine PS, the amount by which the contract value is reduced by the surrender.		
	PS: 60,000.00	40,000.00
Step 5. Now we can determine how much of the PP is being surrendered (PPS) as follows: PPS = PPF + PPSC = PPF + (PS - FA) / (CV - FA) * (PP - PPF)		
	PPF from Step 3 = 0.00	4,200.00
	PS from Step 4 = 60,000.00	40,000.00
	CV from Step 1 = 60,000.00	40,000.00
	FA from Step 2 = 10,000.00	4,200.00
	PP from Step 1 = 50,000.00	50,000.00
	PPS = 50,000.00	50,000.00
Step 6. We then calculate the surrender charge as a percentage of PPS. Note that for a contract with a loss, PPS may be greater than the amount you request to surrender:		
	PPS: 50,000.00	50,000.00
	less PPF: 0.00	4,200.00
	PPSC = amount of PPS subject to a surrender charge: 50,000.00	45,800.00
	multiplied by the surrender charge rate: x7.0%	x7.0%
	surrender charge: 3,500.00	3,206.00
Step 7. The dollar amount you will receive as a result of your full surrender is determined as:		
	Contract value surrendered: 60,000.00	40,000.00
	Surrender charge: (3,500.00)	(3,206.00)
	Contract charge (assessed upon full surrender): (50.00)	(50.00)
	Net full surrender proceeds: \$56,450.00	\$36,744.00

Partial surrender charge calculation — ten-year surrender charge schedule:

This is an example of how we calculate the surrender charge on a contract with a ten-year (from the date of each purchase payment) surrender charge schedule and the following history:

Assumptions:

- We receive a single \$50,000 purchase payment;
- During the fourth contract year you request a net partial surrender of \$15,000.00. The surrender charge percentage in the fourth year after a purchase payment is 7.0%; and
- You have made no prior surrenders.

We will look at two situations, one where the contract has a gain and another where there is a loss:

	Contract with Gain	Contract with Loss
Contract value just prior to surrender:	\$60,000.00	\$40,000.00
Contract value on prior anniversary:	58,000.00	42,000.00

We determine the amount of contract value that must be surrendered in order for the net partial surrender proceeds to match the amount requested. We start with an estimate of the amount of contract value to surrender and calculate the resulting surrender charge and net partial surrender proceeds as illustrated below. We then adjust our estimate and repeat until we determine the amount of contract value to surrender that generates the desired net partial surrender proceeds.

We calculate the surrender charge for each estimate as follows:

Step 1. First, we determine the amount of earnings available in the contract at the time of surrender as:

Contract value just prior to surrender (CV):	60,000.00	40,000.00
Less purchase payments received and not previously surrendered (PP):	50,000.00	50,000.00
Earnings in the contract (but not less than zero):	10,000.00	0.00

	Contract with Gain	Contract with Loss
Step 2. Next, we determine the total free amount (FA) available in the contract as the greatest of the following values:		
Earnings in the contract:	10,000.00	0.00
10% of the prior anniversary's contract value:	<u>5,800.00</u>	<u>4,200.00</u>
FA (but not less than zero):	10,000.00	4,200.00
Step 3. Next we determine PPF, the amount by which the total free amount (FA) exceeds earnings		
Total free amount (FA):	10,000.00	4,200.00
Less earnings in the contract:	<u>10,000.00</u>	<u>0.00</u>
PPF (but not less than zero):	0.00	4,200.00
Step 4. Next we determine PS, the amount by which the contract value is reduced by the surrender		
PS (determined by iterative process described above):	15,376.34	16,062.31
Step 5. Now we can determine how much of the PP is being surrendered (PPS) as follows:		
PPS = PPF + PPSC		
= PPF + (PS - FA) / (CV - FA) * (PP - PPF)		
PPF from Step 3 =	0.00	4,200.00
PS from Step 4 =	15,376.34	16,062.31
CV from Step 1 =	60,000.00	40,000.00
FA from Step 2 =	10,000.00	4,200.00
PP from Step 1 =	<u>50,000.00</u>	<u>50,000.00</u>
PPS =	5,376.34	19,375.80
Step 6. We then calculate the surrender charge as a percentage of PPS. Note that for a contract with a loss, PPS may be greater than the amount you request to surrender:		
PPS:	5,376.34	19,375.80
less PPF:	<u>0.00</u>	<u>4,200.00</u>
PPSC = amount of PPS subject to a surrender charge:	5,376.34	15,175.80
multiplied by the surrender charge rate:	<u>×7.0%</u>	<u>×7.0%</u>
surrender charge:	376.34	1,062.31
Step 7. The dollar amount you will receive as a result of your partial surrender is determined as:		
Contract value surrendered:	15,376.34	16,062.31
Surrender charge:	<u>(376.34)</u>	<u>(1,062.31)</u>
Net partial surrender proceeds:	\$15,000.00	\$15,000.00

Appendix D: Example — Optional Death Benefits

The purpose of this appendix is to illustrate the operation of various optional death benefit riders.

In order to demonstrate these contract riders, an example may show hypothetical contract values. These contract values do not represent past or future performance. Actual contract values may be more or less than those shown and will depend on a number of factors, including but not limited to the investment experience of the subaccounts, GPAs, Special DCA fixed account, regular fixed account and the fees and charges that apply to your contract.

The examples of the optional death benefits in appendix include partial surrenders to illustrate the effect of partial surrenders on the particular benefit. These examples are intended to show how the optional death benefits operate, and do not take into account whether a particular optional death benefit is part of a qualified annuity. Qualified annuities are subject to RMDs at certain ages (see “Taxes — Qualified Annuities — Required Minimum Distributions”) which may require you to take partial surrenders from the contract. If you are considering the addition of certain death benefits to a qualified annuity, you should consult your tax advisor prior to making a purchase for an explanation of the potential tax implication to you.

EXAMPLE — ROPP DEATH BENEFIT

Assumptions:

- You purchase the contract with a payment of \$20,000; and
- on the first contract anniversary you make an additional purchase payment of \$5,000; and
- During the second contract year the contract value falls to \$22,000 and you take a \$1,500 (including surrender charge) partial surrender; and
- During the third contract year the contract value grows to \$23,000.

We calculate the ROPP Death Benefit as follows:

Contract value at death:	<u>\$23,000.00</u>
Purchase payments minus adjusted partial surrenders:	
Total purchase payments:	\$25,000.00
minus adjusted partial surrenders, calculated as:	
<u>\$1,500 × \$25,000</u>	<u>-1,704.54</u>
=	
\$22,000	
for a death benefit of:	<u>\$23,295.45</u>

The ROPP Death Benefit, calculated as the greatest of these two values: \$23,295.45

EXAMPLE — MAV DEATH BENEFIT

Assumptions:

- You purchase the contract with a payment of \$25,000.
- On the first contract anniversary the contract value grows to \$26,000.
- During the second contract year the contract value falls to \$22,000, at which point you take a \$1,500 partial surrender (including surrender charge), leaving a contract value of \$20,500.

We calculate the MAV death benefit, which is based on the greater of three values, as follows:

1. Contract value at death:	<u>\$20,500.00</u>
2. Purchase payments minus adjusted partial surrenders:	
Total purchase payments:	\$25,000.00
minus adjusted partial surrenders, calculated as:	
<u>\$1,500 × \$25,000</u>	<u>-1,704.55</u>
=	
\$22,000	
for a death benefit of:	<u>\$23,295.45</u>
3. The MAV immediately preceding the date of death:	
Greatest of your contract anniversary values:	\$26,000.00
plus purchase payments made since the prior anniversary:	+0.00
minus adjusted partial surrenders, calculated as:	
<u>\$1,500 × \$26,000</u>	<u>-1,772.73</u>
=	
\$22,000	

for a death benefit of: \$24,227.27

**The MAV Death Benefit, calculated as the greatest of these three values,
which is the MAV:** \$24,227.27

EXAMPLE — 5-YEAR MAV DEATH BENEFIT

Assumptions:

- You purchase the contract with a payment of \$25,000.
- On the fifth contract anniversary the contract value grows to \$26,000.
- During the sixth contract year the contract value falls to \$22,000, at which point you take a \$1,500 partial surrender (including surrender charge), leaving a contract value at \$20,500.

**We calculate the 5-Year MAV death benefit, which is based on the greater of three values,
as follows:**

1. Contract value at death: \$20,500.00

2. Purchase payments minus adjusted partial surrenders:

Total purchase payments: \$25,000.00

minus adjusted partial surrenders, calculated as:

$\frac{\$1,500 \times \$25,000}{\$22,000} =$ -1,704.55

\$22,000

for a death benefit of:

\$23,295.45

3. The 5-Year MAV immediately preceding the date of death:

Greatest of your contract anniversary values: \$26,000.00

plus purchase payments made since the prior anniversary: +0.00

minus adjusted partial surrenders, calculated as:

$\frac{\$1,500 \times \$26,000}{\$22,000} =$ -1,772.73

\$22,000

for a death benefit of:

\$24,227.27

**The 5-Year MAV Death Benefit, calculated as the greatest of these three values,
which is the 5-Year MAV:** \$24,227.27

Example — Benefit Protector

Assumptions:

- You purchase the contract with a payment of \$100,000 and you are under age 70. You select the seven-year surrender charge schedule, the MAV and the Benefit Protector.
- During the first contract year the contract value grows to \$105,000. The death benefit equals the standard death benefit, which is the contract value, or \$105,000. You have not reached the first contract anniversary so the Benefit Protector does not provide any additional benefit at this time.
- On the first contract anniversary the contract value grows to \$110,000. The death benefit equals:

MAV death benefit amount (contract value): \$110,000

plus the Benefit Protector which equals 40% of earnings at death (MAV death benefit amount minus remaining purchase payments):

$0.40 \times (\$110,000 - \$100,000) =$ +4,000

Total death benefit of:

\$114,000

- On the second contract anniversary the contract value falls to \$105,000. The death benefit equals:

MAV death benefit amount (maximum anniversary value): \$110,000

plus the Benefit Protector (40% of earnings at death):

$0.40 \times (\$110,000 - \$100,000) =$ +4,000

Total death benefit of:

\$114,000

- During the third contract year the contract value remains at \$105,000 and you request a partial surrender, including the applicable 7% surrender charge, of \$50,000. We will surrender \$10,500 from your contract value free of charge (10% of your prior anniversary's contract value). The remainder of the surrender is subject to a 7% surrender charge because your purchase payment is two years old, so we will surrender \$39,500 (\$36,735 + \$2,765 in surrender charges) from your contract value. Altogether, we will surrender \$50,000 and pay you \$47,235. We calculate

remaining purchase payments as $\$100,000 - \$45,000 = \$55,000$ (remember that \$5,000 of the partial surrender is contract earnings). The death benefit equals:

MAV death benefit amount (maximum anniversary value adjusted for partial surrenders):

$$\$110,000 - \frac{(\$50,000 \times \$110,000)}{\$105,000} = \$57,619$$

plus the Benefit Protector (40% of earnings at death):

$$0.40 \times (\$57,619 - \$55,000) = +1,048$$

Total death benefit of: \$58,667

- On the third contract anniversary the contract value falls by \$40,000. The death benefit remains at \$58,667. The reduction in contract value has no effect.
- On the ninth contract anniversary the contract value grows to a new high of \$200,000. Earnings at death reaches its maximum of 250% of remaining purchase payments that are one or more years old. The death benefit equals:

MAV death benefit amount (contract value): \$200,000

plus the Benefit Protector (40% of earnings at death)

$$0.40 \times 2.50 \times (\$55,000) = +55,000$$

Total death benefit of: \$255,000

- During the tenth contract year you make an additional purchase payment of \$50,000 and your contract value grows to \$250,500. The new purchase payment is less than one year old and so it has no effect on the EEB. The death benefit equals:

MAV death benefit amount (contract value): \$250,000

plus the Benefit Protector (40% of earnings at death)

$$0.40 \times 2.50 \times (\$55,000) = +55,000$$

Total death benefit of: \$305,000

- During the eleventh contract year the contract value remains \$250,500 and the “new” purchase payment is now one year old. The value of the Benefit Protector changes. The death benefit equals:

MAV death benefit amount (contract value): \$250,500

plus the Benefit Protector which equals 40% of earnings at death (the standard death benefit amount minus remaining purchase payments):

$$0.40 \times (\$250,500 - \$105,000) = +58,200$$

Total death benefit of: \$308,700

Example – Enhanced Legacy benefit rider

Assumptions:

- You purchase the contract with a payment of \$25,000; and
- on the first contract anniversary the total contract value is \$25,750; and
- 100 days into the second contract year the total contract value is \$24,300. You take a \$1,500 (including surrender charge) partial surrender, leaving the contract value at \$22,800. The partial year fee for the Enhanced Legacy benefit rider on that day would be \$64.10 ($\$24,629.63 \times 0.95\% \times 100 / 365$).

The death benefit, which is based on the greatest of four values, is calculated as follows:

1. Contract value death benefit (contract value minus rider fees): $\$22,800.00 - \$64.10 =$ \$22,735.90

2. Purchase payments minus adjusted partial surrenders:

Total purchase payments: \$25,000.00

minus adjusted partial surrenders, calculated as:

$$\frac{\$1,500 \times \$25,000}{\$24,300} = -1,543.21$$

for a death benefit of: \$23,456.79

3. The MAV immediately preceding the date of death:

The MAV on the immediately preceding anniversary: \$25,750.00

plus purchase payments made since that anniversary: +0.00

minus adjusted partial surrenders, calculated as:

$$\frac{\$1,500 \times \$25,750}{\$24,300} = \underline{-1,589.51}$$

for a death benefit of:

\$24,160.49

4. The Accumulation Death Benefit value:

The ADB value on the first contract anniversary calculated as: $1.05 \times \$25,000 =$

\$26,250.00

plus purchase payments made since that anniversary:

+0.00

minus adjusted partial surrender calculated as:

$$\frac{\$1,500 \times \$26,250}{\$24,300} = \underline{-1,620.37}$$

for a death benefit of:

\$24,629.63

Enhanced Legacy benefit, calculated as the greatest of these four values, which is the Accumulation Death Benefit value:

\$24,629.63

Appendix E: Example — Optional Living Benefits

The purpose of this appendix is to illustrate the operation of various optional living benefit riders.

In order to demonstrate these contract riders, an example may show hypothetical contract values. These contract values do not represent past or future performance. Actual contract values may be more or less than those shown and will depend on a number of factors, including but not limited to the investment experience of the subaccounts, regular fixed account, Special DCA fixed account and the fees and charges that apply to your contract.

These examples are intended to show how the optional riders operate, and do not take into account whether a particular optional rider is part of a qualified annuity. Qualified annuities are subject to RMDs at certain ages (see “Taxes — Qualified Annuities — Required Minimum Distributions”) which may require you to take partial surrenders from the contract. If you are considering the addition of certain optional riders to a qualified annuity, you should consult your tax advisor prior to making a purchase for an explanation of the potential tax implication to you.

EXAMPLE — SECURESOURCE CORE/ SECURESOURCE CORE PLUS/ SECURESOURCE CORE 2 RIDERS

Assumptions:

- You purchase the contract with a Single Life benefit and a payment of \$100,000 and make no additional payments to the contract. You also purchase the *SecureSource Legacy* benefit.
- You are the sole owner and also the annuitant. You are age 61.
- This example uses a Lifetime Payment Percentage of 4.00% at age 61, 5.00% at age 65, and 5.20% at age 70. Your Lifetime Payment Percentage will be based on the rider you choose and your age.
- Annual Step-ups are applied each anniversary when available, where the contract value is greater than the Benefit Base and/or the *SecureSource Legacy* Death Benefit. Applied Annual Step-ups are indicated in **bold**.

Contract Duration in Years	Purchase Payments	Partial Withdrawals	Assumed Contract Value	Credit Base	Benefit Base	Current Annual Payment	Remaining Annual Payment	Lifetime Payment Percentage	SecureSource Legacy Death Benefit
At Issue	\$100,000	NA	\$100,000	\$100,000	\$100,000	\$4,000	\$4,000	4.00%	\$100,000
1	—	—	94,000	100,000	106,000	4,240	4,240	4.00%	100,000
2	—	—	103,500	100,000	112,000	4,480	4,480	4.00%	103,500
3	—	—	120,000	120,000	120,000⁽¹⁾	4,800	4,800	4.00%	120,000
3.5	—	4,800	115,200	120,000	120,000	4,800	-	4.00%	115,200
4	—	—	115,000	120,000	120,000 ⁽²⁾	4,800	4,800	4.00%	115,200
5	—	—	110,000	120,000	127,200	5,088	5,088	4.00%	115,200
6	—	—	140,000	140,000	140,000	7,000	7,000	5.00% ⁽³⁾	140,000
7	—	—	120,000	140,000	148,400	7,420	7,420	5.00%	140,000
7.5	—	10,000	110,000	136,792	144,999 ⁽⁴⁾	7,420	-	5.00%	129,542
8	—	—	102,000	136,792	144,999	7,250	7,250	5.00%	129,542
9	—	—	109,000	136,792	153,207	7,660	7,660	5.00%	129,542

⁽¹⁾ Since the contract value was greater than the Benefit Base (after it was increased by the Annual Credit), the Credit Base is increased to the contract value and future Annual Credits will be based on the new (higher) Credit Base.

⁽²⁾ Since a withdrawal was taken in the previous contract year, the Annual Credit is not available on the 4th Anniversary.

⁽³⁾ Because the annual step-up increased the Benefit Base on the anniversary and the covered person's attained age is in a higher age band, the Lifetime Payment Percentage increased.

⁽⁴⁾ The \$10,000 withdrawal is greater than the \$7,420 Remaining Annual Payment allowed under the rider and therefore excess withdrawal processing is applied. Values are calculated as described in 'Lifetime Benefit Description - Determination of Adjustment of Benefit Values'.

EXAMPLE — SECURESOURCE 4/SECURESOURCE 4 PLUS/ SECURESOURCE 5/SECURESOURCE 5 PLUS RIDERS

Assumptions:

- You purchase the contract with a Single Life benefit and a payment of \$100,000 and make no additional payments to the contract. You also purchase the *SecureSource Legacy* benefit.
- You are the sole owner and also the annuitant. You are age 61.
- This example uses a minimum Lifetime Payment Percentage of 3.60% at age 61, 4.70% at age 65, and 4.90% at age 70. The Income Bonus used in the example is 1.00%. Your Lifetime Payment Percentage, including any Income Bonus percentage, will be based on the rider you choose and your age.
- Annual Step-ups are applied each anniversary when available, where the contract value is greater than the Benefit base and/or *SecureSource Legacy* Death Benefit. Applied Annual Step-ups are indicated in **bold**.

Contract Duration in Years	Purchase Payments	Partial Withdrawals	Assumed Contract Value	Credit Base	Benefit Base	Withdrawal Adjustment Base	Benefit Determining Percentage	Current Annual Payment	Remaining Annual Payment	Lifetime Payment Percentage	Secure-Source Legacy Death Benefit
At Issue	\$100,000	NA	\$100,000	\$100,000	\$100,000	\$100,000	0.0%	\$4,600	\$4,600	4.60% ⁽¹⁾	\$100,000
1	—	—	94,000	100,000	106,000	100,000	6.0%	4,876	4,876	4.60%	100,000
2	—	—	103,500	100,000	112,000	103,500	0.0%	5,152	5,152	4.60%	103,500

3.5	—	5,520	114,800	120,000	120,000 ⁽³⁾	114,480	0.0%	5,520	-	4.60%	114,480
4	—	—	115,000	120,000	120,000	115,000	0.0%	5,520	5,520	4.60%	115,000
5	—	—	110,000	120,000	127,200	115,000	4.3%	5,851	5,851	4.60%	115,000
6	—	—	140,000	140,000	140,000	140,000	0.0%	7,980	7,980	5.70% ⁽⁴⁾	140,000
7	—	—	120,000	140,000	148,400	140,000	14.3%	8,459	8,459	5.70%	140,000
7.5	—	10,000	110,000	138,066	146,350 ⁽⁵⁾	128,333	14.3%	8,459	-	5.70%	129,724
8	—	—	102,000	138,066	146,350	128,333	20.5%	6,878	6,878	4.70% ⁽⁶⁾	129,724
9	—	—	109,000	138,066	154,633	128,333	15.1%	8,814	8,814	5.70%	129,724

⁽¹⁾ This includes the 1.00% Income Bonus because the Benefit Determining Percentage is below 20%.

⁽²⁾ Since the contract value was greater than the Benefit Base (after it was increased by the Annual Credit), the Credit Base is increased to the contract value and future Annual Credits will be based on the new (higher) Credit Base.

⁽³⁾ Since a withdrawal was taken in the previous contract year, the Annual Credit is not available on the 4th Anniversary.

⁽⁴⁾ Because the annual step-up increased the BB on the anniversary and the covered person's attained age is in a higher age band, the Lifetime Payment Percentage increased.

⁽⁵⁾ The \$10,000 withdrawal is greater than the \$8,459 Remaining Annual Payment allowed under the rider and therefore excess withdrawal processing is applied. Values are reset as described in "Lifetime Benefit Description - Determination of Adjustment of Benefit Values".

⁽⁶⁾ The Lifetime Payment Percentage does not include the 1% Income Bonus when the Benefit Determining Percentage is 20% or more.

EXAMPLE — SECURESOURCE TEMPO

Assumptions:

- You purchase the contract with the Single Life benefit and a payment of \$100,000 and make no additional payments to the contract. You also purchase the *SecureSource Legacy* benefit.
- You are the sole owner and also the annuitant. You are age 61.
- This example uses a minimum Lifetime Payment Percentage of 3.60% at age 61, 4.70% at age 65, and 4.90% at age 70. The Income Bonus used in the example is 1.00%. Your Lifetime Payment Percentage, including any Income Bonus percentage, will be based on the rider you choose and your age.
- Annual Step-ups are applied each anniversary when available, where the contract value is greater than the Benefit base and/or the *SecureSource Legacy* Death Benefit. Applied Annual Step-ups are indicated in **bold**.

Contract Duration in Years	Purchase Payments	Partial Withdrawals	Assumed Contract Value	Returns-linked Credit	Benefit Base	Credit Carryover	Withdrawal Adjustment Base	Benefit Determining Percentage	Current Annual Payment	Remaining Annual Payment	Lifetime Payment Percentage	Secure-Source Legacy Death Benefit
At Issue	\$100,000	NA	\$100,000		\$100,000		\$100,000	0.0%	\$4,600	\$4,600	4.60% ⁽¹⁾	\$100,000
1	-	-	94,000	-	100,000	-	100,000	6.0%	4,600	4,600	4.60%	100,000

4	-	-	115,000	-	120,000 ⁽⁴⁾	10,350	115,000	0.0%	5,520	5,520	4.60%	115,000
5	-	-	110,000	10,350 ⁽⁵⁾	130,350	-	115,000	4.3%	5,996	5,996	4.60%	115,000
6	-	-	140,000	11,000	141,350	11,000	140,000	0.0%	6,502	6,502	4.60%	140,000
7	-	-	120,000	11,000	152,350	-	140,000	14.3%	7,008	7,008	4.60%	140,000
7.5	-	10,000	110,000		148,316 ⁽⁶⁾	-	128,333	14.3%	7,008	-	4.60%	129,470
8	-	-	102,000	-	148,316	-	128,333	20.5%	5,339	5,339	3.60% ⁽⁷⁾	129,470
9	-	-	109,000	10,200	158,516	3,800	128,333	15.1%	7,292	7,292	4.60%	129,470

⁽¹⁾ This includes the 1.00% Income Bonus because the Benefit Determining Percentage is below 20%.

⁽²⁾ Returns linked credit and Credit carryover are based on the \$9,500 positive contract returns (i.e. contract value increased from \$94,000 to \$103,500). The maximum credit and maximum carryover are 10% of prior anniversary contract value.

⁽³⁾ Since the contract value was greater than the Benefit Base after it was increased by the Returns-linked Credit, the Benefit Base is increased to the contract value.

⁽⁴⁾ Since a withdrawal was taken in the previous contract year, the Returns-linked Credit is not available on the 4th Anniversary and the Credit Carryover is not increased.

⁽⁵⁾ Contract return used for credit is zero so the Returns-linked credit is from the Credit Carryover.

⁽⁶⁾ The \$10,000 withdrawal is greater than the \$7,008 Remaining Annual Payment allowed under the rider and therefore excess withdrawal processing is applied. Values are reset as described in "Lifetime Benefit Description - Determination of Adjustment of Benefit Values".

⁽⁷⁾ The Lifetime Payment Percentage does not include the 1% Income Bonus when the Benefit Determining Percentage is 20% or more.

EXAMPLE — ACCUMULATION PROTECTOR BENEFIT

The following example shows how the Accumulation Protector Benefit rider works based on hypothetical values. It is not intended to depict investment performance of the contract.

The example assumes:

- You purchase the contract (with the Accumulation Protector Benefit rider) with a payment of \$100,000.
- You make no additional purchase payments.
- You do not exercise the elective step-up option.

End of Contract Year	Partial Surrender (beginning of year)	MCAV Adjustment for Partial Surrender	MCAV	Accumulation Benefit Amount	Hypothetical Assumed Contract Value
1	0	0	100,000	0	110,000
2	0	0	115,200	0	128,000
3	0	0	121,500	0	135,000
4	0	0	121,500	0	118,000
5	0	0	121,500	0	100,000
6	2,000	2,430	119,070	0	122,000
7	0	0	126,000	0	140,000
8	0	0	126,000	0	130,000
9	5,000	4,846	121,154	0	110,000
10	0	0	121,154	16,154	105,000

Appendix F: Additional Required Minimum Distribution (RMD) Disclosure

This appendix describes our current administrative practice for determining the amount of withdrawals in any contract year which an owner may take under the *SecureSource* series rider to satisfy the RMD rules under 401(a)(9) of the Code without application of the excess withdrawal processing described in the rider. We reserve the right to modify this administrative practice at any time upon 30 days' written notice to you.

For contract holders subject to annual RMD rules under the Section 401(a)(9) of the Code, amounts you withdraw from this contract to satisfy these rules are not subject to excess withdrawal processing under the terms of the rider, subject to the following rules and our current administrative practice:

- (1) Each calendar year, if your Annual Life Expectancy Required Minimum Distribution Amount (ALERMDA) is greater than the Current Annual Payment.
 - A Lifetime Additional Benefit Amount (LABA) will be set equal to that portion of your ALERMDA that exceeds the value of Current Annual Payment.
 - The LABA will be reduced by the total of the amount that each withdrawal in the current calendar year exceeds the Remaining Annual Payment at the time of each withdrawal, but shall not be reduced to less than zero.
 - Any withdrawals taken in a contract year will count first against and reduce the Remaining Annual Payment for that contract year.
 - Once the Remaining Annual Payment for the current contract year has been depleted, any additional amounts withdrawn will count against and reduce the LABA. These withdrawals will not be considered excess withdrawals with regard to the Current Annual Payment as long as they do not exceed the remaining LABA.
 - Once the LABA has been depleted, any additional withdrawal amounts will be considered excess withdrawals with regard to the Current Annual Payment and will subject the Current Annual Payment to the excess withdrawal processing described by the *SecureSource* series rider.

The ALERMDA is:

- (1) determined by us each calendar year;
- (2) based on your initial purchase payment and not the entire interest value in the calendar year of contract issue and therefore may not be sufficient to allow you to withdraw your RMD without causing an excess withdrawal;
- (3) based on the value of this contract alone on the date it is determined;
- (4) based on recalculated life expectancy taken from the Uniform Lifetime Table under the Code; and
- (5) based on the company's understanding and interpretation of the requirements for life expectancy distributions intended to satisfy the required minimum distribution rules under Code Section 401(a)(9) and the Treasury Regulations promulgated thereunder as applicable on the effective date of this prospectus, to:
 1. IRAs under Section 408(b) of the Code;
 2. Roth IRAs under Section 408A of the Code;
 3. SIMPLE IRAs under Section 408(p) of the Code;
 4. Simplified Employee Pension IRA (SEP) plans under Section 408(k) of the Code;
 5. Custodial and investment only plans under section 401(a) of the Code;
 6. TSAs under Section 403(b) of the Code.

In the future, the requirements under tax law for such distributions may change and the life expectancy amount calculation provided under your *SecureSource* series rider may not be sufficient to satisfy the requirements under the tax law for these types of distributions. In such a situation, amounts withdrawn to satisfy such distribution requirements will exceed your available Remaining Annual Payment amount and may result in the reduction of your Current Annual Payment as described under the excess withdrawal provision of the rider.

In cases where the Code does not allow the life expectancy of a natural person to be used to calculate the required minimum distribution amount (e.g. some ownerships by trusts and charities), we will calculate the life expectancy RMD amount as zero in all years.

Please consult your tax advisor about the impact of these rules prior to purchasing the *SecureSource* series rider.

Appendix G: Prospectus Rate Sheet Supplements

The purpose of this appendix is to show historic rates filed with the following Prospectus Rate Sheet Supplements:

- Rate Sheet Prospectus Supplement dated April 29, 2019 – applicable to contracts with applications signed from 4/29/19 through 10/27/2019;
- Rate Sheet Prospectus Supplement dated Oct. 14, 2019 – applicable to contracts with applications signed from 10/28/19 through 3/29/2020;
- Rate Sheet Prospectus Supplement dated March 16, 2020 – applicable to contracts with applications signed from 3/30/2020 through 4/30/2020;
- Rate Sheet Prospectus Supplement dated May 1, 2020 – applicable to contracts with applications signed from 5/1/2020 through 5/2/2021

Rate Sheet Prospectus Supplement dated April 29, 2019

Product Name	Prospectus Form #/Date
RiverSource <i>RAVA 5 Advantage</i> [®] Variable Annuity (Offered for contract applications signed on or after April 29, 2019)	S- 6720 CA (4/19)

RATE SHEET PROSPECTUS SUPPLEMENT

This Rate Sheet Prospectus Supplement (this “Supplement”) should be read and retained with your prospectus. This Supplement must be used in conjunction with the effective RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019) prospectus. If you need another copy of the prospectus, please call us at 1-800-862-7919. Historical rate sheet supplements will be reflected in an appendix to this prospectus. For additional information, you may consult your financial advisor or call us at 1-800-862-7919.

The Rate Sheet Prospectus Supplement has been filed with the Securities and Exchange Commission (the “SEC”) and is also available on the Edgar system at www.sec.gov (File No. 333 - 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019)).

We are issuing this Supplement to provide the:

- Current rider fees for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Lifetime Payment Percentages and Age Bands for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Income Bonus Percentage for the *SecureSource 4* and *SecureSource 4 Plus* optional benefit riders;
- Annual Credit percentage and Credit Period for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders.
- Base Doubler age used to determine Base Doubler Date for the *SecureSource Core Plus* optional benefit rider.

The rider fees, percentages, age bands, credit period and terms, listed below apply to applications signed on or after April 29, 2019.

In order to get these terms, your application must be signed and in good order while this Rate Sheet Prospectus Supplement is in effect. Because we reserve the right to change these terms upon notice as provided below, if your application is not signed and in good order while this Rate Sheet Prospectus Supplement is in effect then you will receive the terms that are in effect on the date that you have a signed application in good order. The rider fees, percentages, age bands, credit period and terms, listed below will not change after your application is signed, except as provided in the prospectus (See “Charges – Optional Living Benefit Charges”; “*SecureSource Core* Rider – Lifetime Payment Percentage/Annual Credits”; “*SecureSource Core Plus* Rider– Lifetime Payment Percentage/Annual Credits/Base Doubler”; “*SecureSource 4* Rider– Lifetime Payment Percentage /Annual Credits”; “*SecureSource 4 Plus* Rider– Lifetime Payment Percentage/Annual Credits/Base Doubler”).

The rider fees, percentages, age bands, credit period and terms listed in this Rate Sheet Supplement are subject to change and can be superseded upon 14 days prior notice as provided below. We may periodically issue a new Rate Sheet Prospectus Supplement that may reflect different values than the previous Rate Sheet Prospectus Supplement. Please note that any superseding terms do not apply to applications that are already signed and received by us in good order. Changes to the rider fees, percentages, age bands, credit period or terms listed in this Rate Sheet Prospectus Supplement will be disclosed at least 14 days in advance in a new Rate Sheet Prospectus Supplement filed on Edgar at www.sec.gov (File No. 333 – 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

RiverSource <i>RAVA 5 Advantage</i> [®] Variable Annuity (Offered for contract applications signed on or after April 29, 2019)	S- 6720 CA (4/19)

RATE SHEET PROSPECTUS SUPPLEMENT

This Rate Sheet Prospectus Supplement (this “Supplement”) should be read and retained with your prospectus. This Supplement must be used in conjunction with the effective RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019) prospectus. If you need another copy of the prospectus, please call us at 1-800-862-7919. Historical rate sheet supplements will be reflected in an appendix to this prospectus. For additional information, you may consult your financial advisor or call us at 1-800-862-7919.

The Rate Sheet Prospectus Supplement has been filed with the Securities and Exchange Commission (the “SEC”) and is also available on the Edgar system at www.sec.gov (File No. 333 - 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019)).

We are issuing this Supplement to provide the:

- Current rider fees for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Lifetime Payment Percentages and Age Bands for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Income Bonus Percentage for the *SecureSource 4* and *SecureSource 4 Plus* optional benefit riders;
- Annual Credit percentage and Credit Period for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders.
- Base Doubler age used to determine Base Doubler Date for the *SecureSource Core Plus* optional benefit rider.

THE RIDER FEES, PERCENTAGES, AGE BANDS, CREDIT PERIOD AND TERMS LISTED BELOW APPLY TO APPLICATIONS SIGNED ON OR AFTER OCTOBER 28, 2019.

In order to get these terms, your application must be signed and in good order while this Rate Sheet Prospectus Supplement is in effect. Because we reserve the right to change these terms upon notice as provided below, if your application is not signed and in good order while this Rate Sheet Prospectus Supplement is in effect then you will receive the terms that are in effect on the date that you have a signed application in good order. The rider fees, percentages, age bands, credit period and terms, listed below will not change after your application is signed, except as provided in the prospectus (See “Charges – Optional Living Benefit Charges”; “*SecureSource Core* Rider – Lifetime Payment Percentage/Annual Credits”; “*SecureSource Core Plus* Rider – Lifetime Payment Percentage/Annual Credits/Base Doubler”; “*SecureSource 4* Rider – Lifetime Payment Percentage /Annual Credits”; “*SecureSource 4 Plus* Rider – Lifetime Payment Percentage/Annual Credits/Base Doubler”).

The rider fees, percentages, age bands, credit period and terms listed in this Rate Sheet Supplement are subject to change and can be superseded upon 14 days prior notice as provided below. We may periodically issue a new Rate Sheet Prospectus Supplement that may reflect different values than the previous Rate Sheet Prospectus Supplement. Please note that any superseding terms do not apply to applications that are already signed and received by us in good order. Changes to the rider fees, percentages, age bands, credit period or terms listed in this Rate Sheet Prospectus Supplement will be disclosed at least 14 days in advance in a new Rate Sheet Prospectus Supplement filed on Edgar at www.sec.gov (File No. 333 – 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

RATE SHEET PROSPECTUS SUPPLEMENT

This Rate Sheet Prospectus Supplement (this “Supplement”) should be read and retained with your prospectus. This Supplement must be used in conjunction with the effective RiverSource RAVA 5 Advantage Variable Annuity (Offered for contract applications signed or after April 29, 2019) prospectus. If you need another copy of the prospectus, please call us at 1-800-862-7919. Historical rate sheet supplements will be reflected in an appendix to this prospectus. For additional information, you may consult your financial advisor or call us at 1-800-862-7919.

The Rate Sheet Prospectus Supplement has been filed with the Securities and Exchange Commission (the “SEC”) and is also available on the Edgar system at www.sec.gov (File No. 333 - 230376 for the RiverSource RAVA 5 Advantage Variable Annuity (Offered for contract applications signed or after April 29, 2019)).

We are issuing this Supplement to provide the:

- Current rider fees for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Lifetime Payment Percentages and Age Bands for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Income Bonus Percentage for the *SecureSource 4* and *SecureSource 4 Plus* optional benefit riders;
- Annual Credit percentage and Credit Period for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders.
- Base Doubler age used to determine Base Doubler Date for the *SecureSource Core Plus* optional benefit rider.

THE RIDER FEES, PERCENTAGES, AGE BANDS, CREDIT PERIOD AND TERMS LISTED BELOW APPLY TO APPLICATIONS SIGNED ON OR AFTER MARCH 30, 2020.

In order to get these terms, your application must be signed and in good order while this Rate Sheet Prospectus Supplement is in effect. Because we reserve the right to change these terms upon notice as provided below, if your application is not signed and in good order while this Rate Sheet Prospectus Supplement is in effect then you will receive the terms that are in effect on the date that you have a signed application in good order. The rider fees, percentages, age bands, credit period and terms, listed below will not change after your application is signed, except as provided in the prospectus (See “Charges – Optional Living Benefit Charges”; “*SecureSource Core Rider – Lifetime Payment Percentage/Annual Credits*”; “*SecureSource Core Plus Rider – Lifetime Payment Percentage/Annual Credits/Base Doubler*”; “*SecureSource 4 Rider – Lifetime Payment Percentage /Annual Credits*”; “*SecureSource 4 Plus Rider – Lifetime Payment Percentage/Annual Credits/Base Doubler*”).

The rider fees, percentages, age bands, credit period and terms listed in this Rate Sheet Supplement are subject to change and can be superseded upon 14 days prior notice as provided below. We may periodically issue a new Rate Sheet Prospectus Supplement that may reflect different values than the previous Rate Sheet Prospectus Supplement. Please note that any superseding terms do not apply to applications that are already signed and received by us in good order. Changes to the rider fees, percentages, age bands, credit period or terms listed in this Rate Sheet Prospectus Supplement will be disclosed at least 14 days in advance in a new Rate Sheet Prospectus Supplement filed on Edgar at www.sec.gov (File No. 333 – 230376 for the RiverSource RAVA 5 Advantage Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

RATE SHEET PROSPECTUS SUPPLEMENT

This Rate Sheet Prospectus Supplement (this “Supplement”) should be read and retained with your prospectus. This Supplement must be used in conjunction with the effective RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019) prospectus. If you need another copy of the prospectus, please call us at 1-800-862-7919. Historical rate sheet supplements are reflected in Appendix G to this prospectus. For additional information, you may consult your financial advisor or call us at 1-800-862-7919.

The Rate Sheet Prospectus Supplement has been filed with the Securities and Exchange Commission (the “SEC”) and is also available on the Edgar system at www.sec.gov (File No. 333 - 230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed or after April 29, 2019)).

We are issuing this Supplement to provide the:

- Current rider fees for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Lifetime Payment Percentages and Age Bands for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders;
- Income Bonus Percentage for the *SecureSource 4* and *SecureSource 4 Plus* optional benefit riders;
- Annual Credit percentage and Credit Period for the *SecureSource Core*, *SecureSource Core Plus*, *SecureSource 4*, and *SecureSource 4 Plus* optional benefit riders.
- Base Doubler age and Base Doubler duration used to determine Base Doubler Date for the *SecureSource Core Plus* optional benefit rider.

THE RIDER FEES, PERCENTAGES, AGE BANDS, CREDIT PERIOD AND TERMS LISTED BELOW APPLY TO APPLICATIONS SIGNED ON OR AFTER MAY 1, 2020.

In order to get these terms, your application must be signed and in good order while this Rate Sheet Prospectus Supplement is in effect. Because we reserve the right to change these terms upon notice as provided below, if your application is not signed and in good order while this Rate Sheet Prospectus Supplement is in effect then you will receive the terms that are in effect on the date that you have a signed application in good order. The rider fees, percentages, age bands, credit period and terms, listed below will not change after your application is signed, except as provided in the prospectus (See “Charges – Optional Living Benefit Charges”; “*SecureSource Core* Rider – Lifetime Payment Percentage/Annual Credits”; “*SecureSource Core Plus* Rider – Lifetime Payment Percentage/Annual Credits/Base Doubler”; “*SecureSource 4* Rider – Lifetime Payment Percentage /Annual Credits”; “*SecureSource 4 Plus* Rider – Lifetime Payment Percentage/Annual Credits”).

The rider fees, percentages, age bands, credit period and terms listed in this Rate Sheet Supplement are subject to change and can be superseded upon 7 calendar days prior notice as provided below. We may periodically issue a new Rate Sheet Prospectus Supplement that may reflect different values than the previous Rate Sheet Prospectus Supplement. Please note that any superseding terms do not apply to applications that are already signed and received by us in good order. Changes to the rider fees, percentages, age bands, credit period or terms listed in this Rate Sheet Prospectus Supplement will be disclosed at least 7 calendar days in advance in a new Rate Sheet Prospectus Supplement filed on Edgar at www.sec.gov (File No. 333-230376 for the RiverSource *RAVA 5 Advantage* Variable Annuity (Offered for contract applications signed on or after April 29, 2019)).

Appendix H: Condensed Financial Information (Unaudited)

The following tables give per-unit information about the financial history of each subaccount representing the lowest and highest total annual variable account expense combinations for each contract. The date in which operations commenced in each subaccount is noted in parentheses. The SAI contains tables that give per-unit information about the financial history of each existing subaccount. We have not provided this information for subaccounts that were not available under your contract as of December 31, 2020. You may obtain a copy of the SAI without charge by contacting us at the telephone number or address listed on the first page of the prospectus.

Variable account charges of 0.95% of the daily net assets of the variable account.
