Proxy voting policies and procedures

The policy of the Board of Trustees is to vote the proxies of the companies in which Columbia Variable Portfolio – Small Company Growth Fund (the Fund) holds investments consistent with the procedures as stated in the Statement of Additional Information (SAI). You may obtain a copy of the SAI without charge by calling 800.345.6611; contacting your financial intermediary or searching the website of the Securities and Exchange Commission (SEC) at sec.gov. Information regarding how the Fund voted proxies relating to portfolio securities is filed with the SEC by August 31st for the most recent 12-month period ending June 30th of that year, and is available without charge by visiting columbiathreadneedleus.com/investor/, or searching the website of the SEC at sec.gov.

Quarterly schedule of investments

The Fund files a complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year on Form N-PORT. The Fund’s Form N-PORT is available on the SEC’s website at sec.gov. The Fund’s complete schedule of portfolio holdings, as filed on Form N-PORT, can also be obtained without charge, upon request, by calling 800.345.6611.

Average annual total returns (%) (for the period ended December 31, 2021)

	Inception	1 Year	5 Years	10 Years
Class 1	01/01/89	-2.90	24.31	17.95
Class 2	06/01/00	-3.13	23.99	17.66
Russell 2000 Growth Index		2.83	14.53	14.14

Performance data quoted represents past performance and current performance may be lower or higher. Past performance is no guarantee of future results. The investment return and principal value will fluctuate so that shares, when redeemed, may be worth more or less than the original cost. For current month-end performance information, please contact your financial advisor or insurance representative.

Performance results reflect the effect of any fee waivers or reimbursements of fund expenses by Columbia Management Investment Advisers, LLC and/or any of its affiliates. Absent these fee waivers or expense reimbursement arrangements, performance results would have been lower.

Investment earnings, if any, are tax-deferred until distributed to shareholders, at which time taxes may become due. Total return performance includes changes in share price and assumes reinvestment of dividends and capital gains, if any. Performance results reflect the effect of all fund expenses, but do not include any fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan. If performance results included the effect of these additional charges, they would be lower.

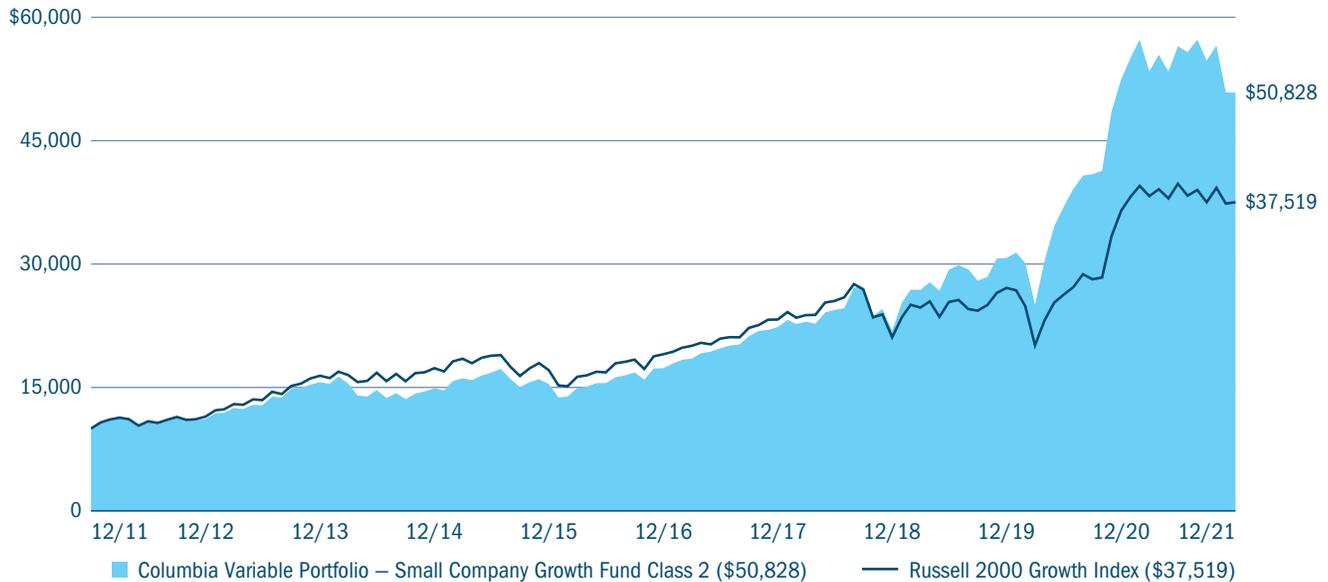

The Russell 2000 Growth Index measures the performance of those Russell 2000 Index companies with higher price-to-book ratios and higher forecasted growth values.

Indices are not available for investment, are not professionally managed and do not reflect sales charges, fees, brokerage commissions, taxes or other expenses of investing. Securities in the Fund may not match those in an index.

Fund performance may be significantly negatively impacted by the economic impact of the COVID-19 pandemic. The COVID-19 pandemic has adversely impacted economies and capital markets around the world in ways that will likely continue and may change in unforeseen ways for an indeterminate period. The COVID-19 pandemic may exacerbate pre-existing political, social and economic risks in certain countries and globally.

FUND AT A GLANCE (continued)

Performance of a hypothetical \$10,000 investment (December 31, 2011 — December 31, 2021)

The chart above shows the change in value of a hypothetical \$10,000 investment in Class 2 shares of Columbia Variable Portfolio – Small Company Growth Fund during the stated time period, and does not reflect the deduction of taxes, if any, that a shareholder may pay on Fund distributions or on the redemption of Fund shares. The returns also do not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy or qualified pension or retirement plan, if any.

Portfolio breakdown (%) (at December 31, 2021)

Common Stocks	97.0
Money Market Funds	3.0
Total	100.0

Percentages indicated are based upon total investments excluding investments in derivatives, if any. The Fund's portfolio composition is subject to change.

Equity sector breakdown (%) (at December 31, 2021)

Real Estate	1.2
Total	100.0

Percentages indicated are based upon total equity investments. The Fund's portfolio composition is subject to change.

MANAGER DISCUSSION OF FUND PERFORMANCE

At December 31, 2021, approximately 90.33% of the Fund's shares were owned in the aggregate by affiliated funds-of-funds managed by Columbia Management Investment Advisers, LLC (the Investment Manager). As a result of asset allocation decisions by the Investment Manager, it is possible that the Fund may experience relatively large purchases or redemptions from affiliated funds-of-funds. The Investment Manager seeks to minimize the impact of these transactions by structuring them over a reasonable period of time. The Fund may also experience increased expenses as it buys and sells securities as a result of purchases or redemptions by affiliated funds-of-funds.

For the 12-month period that ended December 31, 2021, the Fund's Class 2 shares returned -3.13%. The Fund underperformed its benchmark, the Russell 2000 Growth Index, which returned 2.83% for the same time period.

Market overview

U.S. equities posted strong gains in 2021. As pandemic-related restrictions were eased, robust economic growth and corporate earnings drove gains for stocks. Both U.S. monetary and fiscal policy were highly supportive, as Congress approved massive spending packages that included direct payments to citizens and the U.S. Federal Reserve (Fed) maintained its benchmark overnight lending rate near zero while engaging in bond market purchases to keep longer term borrowing costs low. The fourth quarter of 2021 saw the Fed adopt a more hawkish tone in response to persistently high inflation, driven in large part by supply chain constraints and rising commodity prices, which led to increased market volatility. (Hawkish suggests higher interest rates and is the opposite of dovish.)

Nine of eleven sectors within the benchmark delivered positive gains for the period. The energy, real estate and utilities sectors delivered the strongest gains. The health care and communication services sectors lagged most, posting negative returns for the period.

The Fund's notable detractors during the period

- Allocation decisions were the primary driver of relative underperformance during the period, particularly an overweight to the poor performing health care sector and underweights to the financials, real estate and consumer staples sectors.
- Stock selection in the financials, information technology, communication services and consumer discretionary sectors weighed on results.
- The Fund's holding in Amedisys, a home healthcare and hospice service provider, declined as the firm reflected incrementally lower average length of patient stays in the period, despite broader positive trends within Amedisys' core business segments. We view the dip in average patient stays as transitory and would expect to see a recovery in the coming quarters. Longer term, we believe Amedisys possesses the scope and scale to perform well in an increasingly value-based health care environment tasked with addressing an aging U.S. population.
- LendingTree, Inc., an operator of an online loan marketplace for consumers seeking loans and other credit-based offerings, detracted from performance. As the economy and outlook continued to improve, consumers and businesses had a high-level of savings built up, which made them less likely to default on current loans, but also less in need of loans. The position was eliminated during the period.
- A position in Avalara, a cloud-based provider of tax compliance software, detracted from returns. Although the company reported solid quarterly results in revenues, profits and cash flow, all of which exceeded expectations, the market chose to focus on a slowdown in billings growth, which pressured the stock.
- Several positions in the portfolio pressured returns, such as Sharecare, Inc. and Adaptive Biotechnologies, which were caught in the broad market shift away from high growth / high multiple stocks into lower multiple / high profitable stocks rather than an individual company specific catalyst.

The Fund's notable contributors during the period

- Stock selection within the health care sector was the largest contributor to relative performance during the period.
- Stock selection, along with overweights, in the industrials and materials sectors also aided Fund performance during the period.

MANAGER DISCUSSION OF FUND PERFORMANCE (continued)

- Bill.com Holdings, Inc., which offers cloud-based software that helps small and midsize businesses automate their back-office financial operations, contributed to returns after consistently beating revenue targets and posting strong market share gains. Additionally, the company announced a synergistic plan to acquire Divvy, an expense reporting start-up whose software helps businesses combine expense management software and smart corporate cards onto a single platform, that was well received by investors.
- Bio-Techne Corporation, whose products are used in therapeutics and general life science research conducted by biotechnology and pharmaceutical firms as well as universities and government research institutions, benefited from an environment of high-level life science spending driven by stimulus, vaccines, ongoing virus research and a re-opening of labs.
- Also contributing to returns was the Fund's position in SiteOne Landscape Supply, which delivered a convincing beat-and-raise quarter (the company beat estimates and raised its outlook) driven by outdoor living demand and a strong housing market. The company enjoys a leading market share in the attractive and highly fragmented landscape vertical that is ripe for consolidation. SiteOne has been a clear winner over the past year given the greater focus on outdoor living and landscaping services, with strong organic growth acceleration over the past four quarters.
- Kornit Digital, which develops, manufactures and markets industrial digital printing technologies for the garment, apparel and textile industries, also contributed to performance. Kornit reported results with revenue and earnings ahead of consensus expectations. Revenue growth was broad-based across geographies, and management also highlighted that revenue from Amazon in the second quarter was a record. Kornit continued to experience strong tailwinds from market adoption of Direct-to-Fabric micro factory solutions. Kornit also announced the acquisition of Voxel8, which enables a proprietary printing technology for textiles.

The views expressed in this report reflect the current views of the respective parties who have contributed to this report. These views are not guarantees of future performance and involve certain risks, uncertainties and assumptions that are difficult to predict, so actual outcomes and results may differ significantly from the views expressed. These views are subject to change at any time based upon economic, market or other conditions and the respective parties disclaim any responsibility to update such views. These views may not be relied on as investment advice and, because investment decisions for a Columbia fund are based on numerous factors, may not be relied on as an indication of trading intent on behalf of any particular Columbia fund. References to specific securities should not be construed as a recommendation or investment advice.

UNDERSTANDING YOUR FUND'S EXPENSES

(Unaudited)

As an investor, you incur ongoing costs, which generally include management fees, distribution and/or service fees, and other fund expenses. The following information is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to help you compare these costs with the ongoing costs of investing in other mutual funds.

The information below does not reflect fees and expenses imposed under your variable annuity contract and/or variable life insurance policy (collectively, Contracts) or qualified pension and retirement plan (Qualified Plan), if any. The total fees and expenses you bear may therefore be higher than those shown below.

Analyzing your Fund's expenses

To illustrate these ongoing costs, we have provided examples and calculated the expenses paid by investors in each share class of the Fund during the period. The actual and hypothetical information in the table is based on an initial investment of \$1,000 at the beginning of the period indicated and held for the entire period. Expense information is calculated two ways and each method provides you with different information. The amount listed in the "Actual" column is calculated using the Fund's actual operating expenses and total return for the period. You may use the Actual information, together with the amount invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the results by the expenses paid during the period under the "Actual" column. The amount listed in the "Hypothetical" column assumes a 5% annual rate of return before expenses (which is not the Fund's actual return) and then applies the Fund's actual expense ratio for the period to the hypothetical return. You should not use the hypothetical account values and expenses to estimate either your actual account balance at the end of the period or the expenses you paid during the period. See "Compare with other funds" below for details on how to use the hypothetical data.

Compare with other funds

Since all mutual funds are required to include the same hypothetical calculations about expenses in shareholder reports, you can use this information to compare the ongoing cost of investing in the Fund with other funds. To do so, compare the hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds. As you compare hypothetical examples of other funds, it is important to note that hypothetical examples are meant to highlight the ongoing costs of investing in a fund only and do not reflect any transaction costs, such as redemption or exchange fees, or expenses that apply to the subaccount or the Contract. Therefore, the hypothetical calculations are useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. If the fees and expenses imposed under your Contract or Qualified Plan, if any, were included, your costs would be higher.

July 1, 2021 — December 31, 2021							
	Account value at the beginning of the period (\$)		Account value at the end of the period (\$)		Expenses paid during the period (\$)		Fund's annualized expense ratio (%)
	Actual	Hypothetical	Actual	Hypothetical	Actual	Hypothetical	Actual
Class 1	1,000.00	1,000.00	900.90	1,020.72	4.26	4.53	0.89
Class 2	1,000.00	1,000.00	899.80	1,019.46	5.46	5.80	1.14

Expenses paid during the period are equal to the annualized expense ratio for each class as indicated above, multiplied by the average account value over the period and then multiplied by the number of days in the Fund's most recent fiscal half year and divided by 365.

Expenses do not include fees and expenses incurred indirectly by the Fund from its investment in underlying funds, including affiliated and non-affiliated pooled investment vehicles, such as mutual funds and exchange-traded funds.

Had Columbia Management Investment Advisers, LLC and/or certain of its affiliates not waived/reimbursed certain fees and expenses, account value at the end of the period would have been reduced.

Notes to Portfolio of Investments

- (a) Non-income producing investment.
- (b) Represents fair value as determined in good faith under procedures approved by the Board of Trustees. At December 31, 2021, the total value of these securities amounted to \$2,767,769, which represents 0.69% of total net assets.
- (c) Denotes a restricted security, which is subject to legal or contractual restrictions on resale under federal securities laws. Disposal of a restricted investment may involve time-consuming negotiations and expenses, and prompt sale at an acceptable price may be difficult to achieve. Private placement securities are generally considered to be restricted, although certain of those securities may be traded between qualified institutional investors under the provisions of Section 4(a)(2) and Rule 144A. The Fund will not incur any registration costs upon such a trade. These securities are valued at fair value determined in good faith under consistently applied procedures established by the Fund's Board of Trustees. At December 31, 2021, the total market value of these securities amounted to \$2,767,769, which represents 0.69% of total net assets. Additional information on these securities is as follows:

Security	Acquisition Dates	Shares	Cost (\$)	Value (\$)
Caris Life Sciences, Inc.	05/11/2021	308,642	2,502,312	1,666,667
DNA Script	10/01/2021	1,585	1,378,712	1,101,102
			3,881,024	2,767,769

- (d) Valuation based on significant unobservable inputs.
- (e) The rate shown is the seven-day current annualized yield at December 31, 2021.
- (f) As defined in the Investment Company Act of 1940, as amended, an affiliated company is one in which the Fund owns 5% or more of the company's outstanding voting securities, or a company which is under common ownership or control with the Fund. The value of the holdings and transactions in these affiliated companies during the year ended December 31, 2021 are as follows:

Affiliated issuers	Beginning of period(\$)	Purchases(\$)	Sales(\$)	Net change in unrealized appreciation (depreciation)(\$)	End of period(\$)	Realized gain (loss)(\$)	Dividends(\$)	End of period shares

PORTFOLIO OF INVESTMENTS (continued)

December 31, 2021

Fair value measurements

The Fund categorizes its fair value measurements according to a three-level hierarchy that maximizes the use of observable inputs and minimizes the use of unobservable inputs by prioritizing that the most observable input be used when available. Observable inputs are those that market participants would use in pricing an investment based on market data obtained from sources independent of the reporting entity. Unobservable inputs are those that reflect the Fund's assumptions about the information market participants would use in pricing an investment. An investment's level within the fair value hierarchy is based on the lowest level of any input that is deemed significant to the asset's or liability's fair value measurement. The input levels are not necessarily an indication of the risk or liquidity associated with investments at that level. For example, certain U.S. government securities are generally high quality and liquid, however, they are reflected as Level 2 because the inputs used to determine fair value may not always be quoted prices in an active market.

Fair value inputs are summarized in the three broad levels listed below:

- Level 1 – Valuations based on quoted prices for investments in active markets that the Fund has the ability to access at the measurement date. Valuation adjustments are not applied to Level 1 investments.
- Level 2 – Valuations based on other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risks, etc.).
- Level 3 – Valuations based on significant unobservable inputs (including the Fund's own assumptions and judgment in determining the fair value of investments).

Inputs that are used in determining fair value of an investment may include price information, credit data, volatility statistics, and other factors. These inputs can be either observable or unobservable. The availability of observable inputs can vary between investments, and is affected by various factors such as the type of investment, and the volume and level of activity for that investment or similar investments in the marketplace. The inputs will be considered by the Investment Manager, along with any other relevant factors in the calculation of an investment's fair value. The Fund uses prices and inputs that are current as of the measurement date, which may include periods of market dislocations. During these periods, the availability of prices and inputs may be reduced for many investments. This condition could cause an investment to be reclassified between the various levels within the hierarchy.

Investments falling into the Level 3 category are primarily supported by quoted prices from brokers and dealers participating in the market for those investments. However, these may be classified as Level 3 investments due to lack of market transparency and corroboration to support these quoted prices. Additionally, valuation models may be used as the pricing source for any remaining investments classified as Level 3. These models may rely on one or more significant unobservable inputs and/or significant assumptions by the Investment Manager. Inputs used in valuations may include, but are not limited to, financial statement analysis, capital account balances, discount rates and estimated cash flows, and comparable company data.

Under the direction of the Fund's Board of Trustees (the Board), the Investment Manager's Valuation Committee (the Committee) is responsible for overseeing the valuation procedures approved by the Board. The Committee consists of voting and non-voting members from various groups within the Investment Manager's organization, including operations and accounting, trading and investments, compliance, risk management and legal.

The Committee meets at least monthly to review and approve valuation matters, which may include a description of specific valuation determinations, data regarding pricing information received from approved pricing vendors and brokers and the results of Board-approved valuation control policies and procedures (the Policies). The Policies address, among other things, instances when market quotations are or are not readily available, including recommendations of third party pricing vendors and a determination of appropriate pricing methodologies; events that require specific valuation determinations and assessment of fair value techniques; securities with a potential for stale pricing, including those that are illiquid, restricted, or in default; and the effectiveness of third party pricing vendors, including periodic reviews of vendors. The Committee meets more frequently, as needed, to discuss additional valuation matters, which may include the need to review back-testing results, review time-sensitive information or approve related valuation actions. The Committee reports to the Board, with members of the Committee meeting with the Board at each of its regularly scheduled meetings to discuss valuation matters and actions during the period, similar to those described earlier.

The following table is a summary of the inputs used to value the Fund's investments at December 31, 2021:

	Level 1 (\$)	Level 2 (\$)	Level 3 (\$)	Total (\$)
Investments in Securities				
Common Stocks				
Communication Services	5,044,978	–	–	5,044,978
Consumer Discretionary	59,986,635	–	–	59,986,635
Consumer Staples	5,729,819	–	–	5,729,819
Energy	6,799,985	–	–	6,799,985
Financials	6,791,007	–	–	6,791,007
Health Care	129,893,045	–	2,767,769	132,660,814
Industrials	70,058,175	–	–	70,058,175
Information Technology	90,089,164	–	–	90,089,164
Materials	10,086,561	–	–	10,086,561
Real Estate	4,875,615	–	–	4,875,615
Total Common Stocks	389,354,984	–	2,767,769	392,122,753
Money Market Funds	12,081,400	–	–	12,081,400
Total Investments in Securities	401,436,384	–	2,767,769	404,204,153

See the Portfolio of Investments for all investment classifications not indicated in the table.

The accompanying Notes to Financial Statements are an integral part of this statement.

PORTFOLIO OF INVESTMENTS (continued)

December 31, 2021

Fair value measurements (continued)

The following table is a reconciliation of Level 3 assets for which significant observable and unobservable inputs were used to determine fair value:

	Balance as of 12/31/2020 (\$)	Increase (decrease) in accrued discounts/ premiums (\$)	Realized gain (loss) (\$)	Change in unrealized appreciation (depreciation) ^(a) (\$)	Purchases (\$)	Sales (\$)	Transfers into Level 3 (\$)	Transfers out of Level 3 (\$)	Balance as of 12/31/2021 (\$)
Common Stocks	–	–	–	(1,113,256)	3,881,025	–	–	–	2,767,769

(a) Change in unrealized appreciation (depreciation) relating to securities held at December 31, 2021 was \$(1,113,256) which is comprised of Common stocks of \$(1,113,256).

The Fund's assets assigned to the Level 3 category are valued utilizing the valuation technique deemed the most appropriate in the circumstances. Certain private equity classified as Level 3 are valued using a market approach. To determine fair value for these securities, management considered various factors which may have included, but were not limited to, the average sales multiple derived from a set of comparable public companies, estimated future sales, liquidity discounts and the discounting of closing prices of similar securities from the issuer. Significant increases (decreases) to any of these inputs would have resulted in a significantly higher (lower) fair value measurement.

The accompanying Notes to Financial Statements are an integral part of this statement.

FINANCIAL HIGHLIGHTS

The following table is intended to help you understand the Fund's financial performance. Certain information reflects financial results for a single share of a class held for the periods shown. Per share net investment income (loss) amounts are calculated based on average shares outstanding during the period. Total return assumes reinvestment of all dividends and distributions, if any. Total return does not reflect any fees and expenses imposed under your Contract and/or Qualified Plan, as applicable; such fees and expenses would reduce the total returns for all periods shown. Total return and portfolio turnover are not annualized for periods of less than one year. The portfolio turnover rate is calculated without regard to purchase and sales transactions of short-term instruments and certain derivatives, if any. If such transactions were included, the Fund's portfolio turnover rate may be higher.

	Net asset value, beginning of period	Net investment income (loss)	Net realized and unrealized gain (loss)	Total from investment operations	Distributions from net realized gains	Total distributions to shareholders
Class 1						
Year Ended 12/31/2021	\$29.97	(0.22)	(0.18) ^(c)	(0.40)	(5.18)	(5.18)
Year Ended 12/31/2020	\$17.82	(0.12)	12.66	12.54	(0.39)	(0.39)
Year Ended 12/31/2019	\$15.64	(0.06)	6.33	6.27	(4.09)	(4.09)
Year Ended 12/31/2018	\$18.71	(0.06)	0.02	(0.04)	(3.03)	(3.03)
Year Ended 12/31/2017	\$15.31	(0.06)	4.43	4.37	(0.97)	(0.97)
Class 2						
Year Ended 12/31/2021	\$28.21	(0.29)	(0.13) ^(c)	(0.42)	(5.12)	(5.12)

Year Ended 12/31/2018	\$17.97	(0.10)	0.03	(0.07)	(2.99)	(2.99)
Year Ended 12/31/2017	\$14.75	(0.10)	4.25	4.15	(0.93)	(0.93)

Notes to Financial Highlights

- (a) In addition to the fees and expenses that the Fund bears directly, the Fund indirectly bears a pro rata share of the fees and expenses of any other funds in which it invests. Such indirect expenses are not included in the Fund's reported expense ratios.
- (b) Total net expenses include the impact of certain fee waivers/expense reimbursements made by the Investment Manager and certain of its affiliates, if applicable.
- (c) Calculation of the net gain (loss) per share (both realized and unrealized) does not correlate to the aggregate realized and unrealized gain (loss) presented in the Statement of Operations due to the timing of subscriptions and redemptions of Fund shares in relation to fluctuations in the market value of the portfolio.

The accompanying Notes to Financial Statements are an integral part of this statement.

NOTES TO FINANCIAL STATEMENTS

December 31, 2021

Note 1. Organization

Columbia Variable Portfolio – Small Company Growth Fund (the Fund), a series of Columbia Funds Variable Insurance Trust (the Trust), is a diversified fund. The Trust is registered under the Investment Company Act of 1940, as amended (the 1940 Act), as an open-end management investment company organized as a Massachusetts business trust.

Fund shares

The Trust may issue an unlimited number of shares (without par value). The Fund offers Class 1 and Class 2 shares to separate accounts funding variable annuity contracts and variable life insurance policies (collectively, Contracts) issued by affiliated and unaffiliated life insurance companies (Participating Insurance Companies) as well as qualified pension and retirement plans (Qualified Plans) and other qualified institutional investors (Qualified Investors) authorized by Columbia Management Investment Distributors, Inc. (the Distributor). You may not buy (nor will you own) shares of the Fund directly. You may invest by participating in a Qualified Plan or by buying a Contract and making allocations to the Fund. Although all share classes generally have identical voting, dividend and liquidation rights, each share class votes separately when required by the Trust's organizational documents or by law. Different share classes pay different net investment income distribution amounts to the extent the expenses of such share classes differ, and distributions in liquidation will be proportional to the net asset value of each share class. Each share class has its own cost structure and other features. Effective June 1, 2021, the Fund was closed to investors.

Note 2. Summary of significant accounting policies

Basis of preparation

The Fund is an investment company that applies the accounting and reporting guidance in the Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 946, *Financial Services - Investment Companies* (ASC 946). The financial statements are prepared in accordance with U.S. generally accepted accounting principles (GAAP), which requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Security valuation

Equity securities listed on an exchange are valued at the closing price or last trade price on their primary exchange at the close of business of the New York Stock Exchange. Securities with a closing price not readily available or not listed on any exchange are valued at the mean between the closing bid and ask prices. Listed preferred stocks convertible into common stocks are valued using an evaluated price from a pricing service.

Foreign equity securities are valued based on the closing price or last trade price on their primary exchange at the close of business of the New York Stock Exchange. If any foreign equity security closing prices are not readily available, the securities are valued at the mean of the latest quoted bid and ask prices on such exchanges or markets. Foreign currency exchange rates are determined at the scheduled closing time of the New York Stock Exchange. Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange; therefore, the closing prices for securities in such markets or on such exchanges may not fully reflect events that occur after such close but before the close of the New York Stock Exchange. In those situations, foreign securities will be fair valued pursuant to a policy adopted by the Board of Trustees. Under the policy, the Fund may utilize a third-party pricing service to determine these fair values. The third-party pricing service takes into account multiple factors, including, but not limited to, movements in the U.S. securities markets, certain depositary receipts, futures contracts and foreign exchange rates that have occurred subsequent to the close of the foreign exchange or market, to determine a good faith estimate that reasonably reflects the current market conditions as of the close of the New York Stock Exchange. The fair value of a security is likely to be different from the quoted or published price, if available.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

Investments in open-end investment companies (other than exchange-traded funds (ETFs)), are valued at the latest net asset value reported by those companies as of the valuation time.

Investments for which market quotations are not readily available, or that have quotations which management believes are not reflective of market value or reliable, are valued at fair value as determined in good faith under procedures approved by and under the general supervision of the Board of Trustees. If a security or class of securities (such as foreign securities) is valued at fair value, such value is likely to be different from the quoted or published price for the security, if available.

The determination of fair value often requires significant judgment. To determine fair value, management may use assumptions including but not limited to future cash flows and estimated risk premiums. Multiple inputs from various sources may be used to determine fair value.

GAAP requires disclosure regarding the inputs and valuation techniques used to measure fair value and any changes in valuation inputs or techniques. In addition, investments shall be disclosed by major category. This information is disclosed following the Fund's Portfolio of Investments.

Foreign currency transactions and translations

The values of all assets and liabilities denominated in foreign currencies are generally translated into U.S. dollars at exchange rates determined at the close of regular trading on the New York Stock Exchange. Net realized and unrealized gains (losses) on foreign currency transactions and translations include gains (losses) arising from the fluctuation in exchange rates between trade and settlement dates on securities transactions, gains (losses) arising from the disposition of foreign currency and currency gains (losses) between the accrual and payment dates on dividends, interest income and foreign withholding taxes.

For financial statement purposes, the Fund does not distinguish that portion of gains (losses) on investments which is due to changes in foreign exchange rates from that which is due to changes in market prices of the investments. Such fluctuations are included with the net realized and unrealized gains (losses) on investments in the Statement of Operations.

Security transactions

Security transactions are accounted for on the trade date. Cost is determined and gains (losses) are based upon the specific identification method for both financial statement and federal income tax purposes.

Income recognition

Corporate actions and dividend income are generally recorded net of any non-reclaimable tax withholdings, on the ex-dividend date or upon receipt of an ex-dividend notification in the case of certain foreign securities.

The Fund may receive distributions from holdings in equity securities, business development companies (BDCs), exchange-traded funds (ETFs), limited partnerships (LPs), other regulated investment companies (RICs), and real estate investment trusts (REITs), which report information as to the tax character of their distributions annually. These distributions are allocated to dividend income, capital gain and return of capital based on actual information reported. Return of capital is recorded as a reduction of the cost basis of securities held. If the Fund no longer owns the applicable securities, return of capital is recorded as a realized gain. With respect to REITs, to the extent actual information has not yet been reported, estimates for return of capital are made by Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial). The Investment Manager's estimates are subsequently adjusted when the actual character of the distributions is disclosed by the REITs, which could result in a proportionate change in return of capital to shareholders.

Awards from class action litigation are recorded as a reduction of cost basis if the Fund still owns the applicable securities on the payment date. If the Fund no longer owns the applicable securities on the payment date, the proceeds are recorded as realized gains.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

Expenses

General expenses of the Trust are allocated to the Fund and other funds of the Trust based upon relative net assets or other expense allocation methodologies determined by the nature of the expense. Expenses directly attributable to the Fund are charged to the Fund. Expenses directly attributable to a specific class of shares are charged to that share class.

Determination of class net asset value

All income, expenses (other than class-specific expenses, which are charged to that share class, as shown in the Statement of Operations) and realized and unrealized gains (losses) are allocated to each class of the Fund on a daily basis, based on the relative net assets of each class, for purposes of determining the net asset value of each class.

Federal income tax status

The Fund intends to qualify each year as a regulated investment company under Subchapter M of the Internal Revenue Code, as amended, and will distribute substantially all of its investment company taxable income and net capital gain, if any, for its tax year, and as such will not be subject to federal income taxes. In addition, because the Fund meets the exception under Internal Revenue Code Section 4982(f), the Fund expects not to be subject to federal excise tax. Therefore, no federal income or excise tax provision is recorded.

Distributions to subaccounts

Distributions to the subaccounts of Contracts, Qualified Plans and Qualified Investors are recorded at the close of business on the record date and are payable on the first business day following the record date. Dividends from net investment income, if any, are declared and distributed annually. Capital gain distributions, when available, will be made annually. However, an additional capital gain distribution may be made during the fiscal year in order to comply with the Internal Revenue Code, as applicable to registered investment companies. Income distributions and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP. All dividends and distributions are reinvested in additional shares of the applicable share class of the Fund at the net asset value as of the ex-dividend date of the distribution.

Guarantees and indemnifications

Under the Trust's organizational documents and, in some cases, by contract, its officers and trustees are indemnified against certain liabilities arising out of the performance of their duties to the Trust or its funds. In addition, certain of the Fund's contracts with its service providers contain general indemnification clauses. The Fund's maximum exposure under these arrangements is unknown since the amount of any future claims that may be made against the Fund cannot be determined, and the Fund has no historical basis for predicting the likelihood of any such claims.

Note 3. Fees and other transactions with affiliates

Management services fees

The Fund has entered into a Management Agreement with Columbia Management Investment Advisers, LLC (the Investment Manager), a wholly-owned subsidiary of Ameriprise Financial, Inc. (Ameriprise Financial). Under the Management Agreement, the Investment Manager provides the Fund with investment research and advice, as well as administrative and accounting services. The management services fee is an annual fee that is equal to a percentage of the Fund's daily net assets that declines from 0.87% to 0.75% as the Fund's net assets increase. The effective management services fee rate for the year ended December 31, 2021 was 0.87% of the Fund's average daily net assets.

Compensation of board members

Members of the Board of Trustees who are not officers or employees of the Investment Manager or Ameriprise Financial are compensated for their services to the Fund as disclosed in the Statement of Operations. Under a Deferred Compensation Plan (the Deferred Plan), these members of the Board of Trustees may elect to defer payment of up to 100% of their compensation. Deferred amounts are treated as though equivalent dollar amounts had been invested in shares of certain funds managed by the Investment Manager. The Fund's liability for these amounts is adjusted for market value changes and remains in the Fund until distributed in accordance with the Deferred Plan. All amounts payable under the Deferred Plan

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

constitute a general unsecured obligation of the Fund. The expense for the Deferred Plan, which includes Trustees' fees deferred during the current period as well as any gains or losses on the Trustees' deferred compensation balances as a result of market fluctuations, is included in "Compensation of board members" on the Statement of Operations.

Compensation of Chief Compliance Officer

The Board of Trustees has appointed a Chief Compliance Officer for the Fund in accordance with federal securities regulations. As disclosed in the Statement of Operations, a portion of the Chief Compliance Officer's total compensation is allocated to the Fund, along with other allocations to affiliated registered investment companies managed by the Investment Manager and its affiliates, based on relative net assets.

Transactions with affiliates

The Fund is permitted to engage in purchase and/or sale transactions with affiliates and/or accounts that have a common investment manager (or affiliated investment managers), common directors/trustees, and/or common officers under specified conditions outlined in a policy adopted by the Board, pursuant to Rule 17a-7 under the 1940 Act (cross-trades). The Board relies on quarterly written representation from the Fund's Chief Compliance Officer that cross-trades complied with approved policy.

For the year ended December 31, 2021, the Fund engaged in cross-trades as follows:

Purchases (\$)	Sales (\$)	Net realized gain (loss) (\$)
–	36,216,170	13,313,811

Service fees

The Fund has entered into a Shareholder Services Agreement with Columbia Management Investment Services Corp. (the Transfer Agent), an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial. Under this agreement, the Fund pays a service fee equal to the payments made by the Transfer Agent to Participating Insurance Companies and other financial intermediaries (together, Participating Organizations) for services each such Participating Organization provides to its clients, customers and participants that are invested directly or indirectly in the Fund, up to a cap approved by the Board of Trustees from time to time. The effective service fee rate for the year ended December 31, 2021, was 0.01% of the Fund's average daily net assets.

The Transfer Agent may retain as compensation for its services revenues from fees for wire, telephone and redemption orders, account transcripts due the Transfer Agent from Fund shareholders and interest (net of bank charges) earned with respect to balances in accounts the Transfer Agent maintains in connection with its services to the Fund.

Distribution and/or service fees

The Fund has an agreement with the Distributor, an affiliate of the Investment Manager and a wholly-owned subsidiary of Ameriprise Financial, for distribution services. The Board of Trustees has approved, and the Fund has adopted, a distribution plan (the Plan) which sets the distribution fees for the Fund. These fees are calculated daily and are intended to compensate the Distributor for selling shares of the Fund. The Fund pays a monthly distribution fee to the Distributor at the maximum annual rate of 0.25% of the average daily net assets attributable to Class 2 shares of the Fund. The Fund pays no distribution and service fees for Class 1 shares.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

Expenses waived/reimbursed by the Investment Manager and its affiliates

The Investment Manager and certain of its affiliates have contractually agreed to waive fees and/or reimburse expenses (excluding certain fees and expenses described below) for the period(s) disclosed below, unless sooner terminated at the sole discretion of the Board of Trustees, so that the Fund's net operating expenses, after giving effect to fees waived/expenses reimbursed and any balance credits and/or overdraft charges from the Fund's custodian, do not exceed the following annual rate(s) as a percentage of the classes' average daily net assets:

	July 1, 2021 through April 30, 2022	May 1, 2021 through June 30, 2021	Prior to May 1, 2021
Class 1	0.89%	0.90%	0.90%
Class 2	1.14	1.15	1.15

Under the agreement governing these fee waivers and/or expense reimbursement arrangements, the following fees and expenses are excluded from the waiver/reimbursement commitment, and therefore will be paid by the Fund, if applicable: taxes (including foreign transaction taxes), expenses associated with investments in affiliated and non-affiliated pooled investment vehicles (including mutual funds and exchange-traded funds), transaction costs and brokerage commissions, costs related to any securities lending program, dividend expenses associated with securities sold short, inverse floater program fees and expenses, transaction charges and interest on borrowed money, interest, costs associated with certain shareholder meetings, infrequent and/or unusual expenses and any other expenses the exclusion of which is specifically approved by the Board of Trustees. This agreement may be modified or amended only with approval from the Investment Manager, certain of its affiliates and the Fund. Any fees waived and/or expenses reimbursed under the expense reimbursement arrangements described above are not recoverable by the Investment Manager or its affiliates in future periods.

Note 4. Federal tax information

The timing and character of income and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP because of temporary or permanent book to tax differences.

At December 31, 2021, these differences were primarily due to differing treatment for deferral/reversal of wash sale losses, trustees' deferred compensation, re-characterization of distributions for investments, net operating loss reclassification, foreign currency transactions and former PFIC holdings. To the extent these differences were permanent, reclassifications were made among the components of the Fund's net assets. Temporary differences do not require reclassifications.

The following reclassifications were made:

Excess of distributions over net investment income (\$)	Accumulated net realized gain (\$)	Paid in capital (\$)
4,914,281	(4,914,281)	—

Net investment income (loss) and net realized gains (losses), as disclosed in the Statement of Operations, and net assets were not affected by this reclassification.

The tax character of distributions paid during the years indicated was as follows:

Year Ended December 31, 2021			Year Ended December 31, 2020		
Ordinary income (\$)	Long-term capital gains (\$)	Total (\$)	Ordinary income (\$)	Long-term capital gains (\$)	Total (\$)
50,473,122	21,824,244	72,297,366	5,163,270	2,236,064	7,399,334

Short-term capital gain distributions, if any, are considered ordinary income distributions for tax purposes.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

At December 31, 2021, the components of distributable earnings on a tax basis were as follows:

Undistributed ordinary income (\$)	Undistributed long-term capital gains (\$)	Capital loss carryforwards (\$)	Net unrealized appreciation (\$)
36,477,624	76,407,990	–	69,875,026

At December 31, 2021, the cost of all investments for federal income tax purposes along with the aggregate gross unrealized appreciation and depreciation based on that cost was:

Federal tax cost (\$)	Gross unrealized appreciation (\$)	Gross unrealized depreciation (\$)	Net unrealized appreciation (\$)
334,329,127	101,289,831	(31,414,805)	69,875,026

Management of the Fund has concluded that there are no significant uncertain tax positions in the Fund that would require recognition in the financial statements. However, management's conclusion may be subject to review and adjustment at a later date based on factors including, but not limited to, new tax laws, regulations, and administrative interpretations (including relevant court decisions). Generally, the Fund's federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

Note 5. Portfolio information

The cost of purchases and proceeds from sales of securities, excluding short-term investments and derivatives, if any, aggregated to \$277,033,174 and \$442,687,844, respectively, for the year ended December 31, 2021. The amount of purchase and sale activity impacts the portfolio turnover rate reported in the Financial Highlights.

Note 6. Affiliated money market fund

The Fund invests in Columbia Short-Term Cash Fund, an affiliated money market fund established for the exclusive use by the Fund and other affiliated funds (the Affiliated MMF). The income earned by the Fund from such investments is included as Dividends - affiliated issuers in the Statement of Operations. As an investing fund, the Fund indirectly bears its proportionate share of the expenses of the Affiliated MMF. The Affiliated MMF prices its shares with a floating net asset value. In addition, the Board of Trustees of the Affiliated MMF may impose a fee on redemptions (sometimes referred to as a liquidity fee) or temporarily suspend redemptions (sometimes referred to as imposing a redemption gate) in the event its liquidity falls below regulatory limits.

Note 7. Interfund lending

Pursuant to an exemptive order granted by the Securities and Exchange Commission, the Fund participates in a program (the Interfund Program) allowing each participating Columbia Fund (each, a Participating Fund) to lend money directly to and, except for closed-end funds and money market funds, borrow money directly from other Participating Funds for temporary purposes. The amounts eligible for borrowing and lending under the Interfund Program are subject to certain restrictions.

Interfund loans are subject to the risk that the borrowing fund could be unable to repay the loan when due, and a delay in repayment to the lending fund could result in lost opportunities and/or additional lending costs. The exemptive order is subject to conditions intended to mitigate conflicts of interest arising from the Investment Manager's relationship with each Participating Fund.

The Fund's activity in the Interfund Program during the year ended December 31, 2021 was as follows:

Borrower or lender	Average loan balance (\$)	Weighted average interest rate (%)	Number of days with outstanding loans
Lender	5,700,000	0.69	4

Interest income earned by the Fund is recorded as Interfund lending in the Statement of Operations. The Fund had no outstanding interfund loans at December 31, 2021.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

Note 8. Line of credit

The Fund has access to a revolving credit facility with a syndicate of banks led by JPMorgan Chase Bank, N.A., Citibank, N.A. and Wells Fargo Bank, N.A. whereby the Fund may borrow for the temporary funding of shareholder redemptions or for other temporary or emergency purposes. Pursuant to an October 28, 2021 amendment and restatement, the credit facility, which is a collective agreement between the Fund and certain other funds managed by the Investment Manager or an affiliated investment manager, severally and not jointly, permits collective borrowings up to \$950 million. Interest is currently charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the federal funds effective rate, (ii) the secured overnight financing rate plus 0.11448% and (iii) the overnight bank funding rate, plus in each case, 1.00%. Each borrowing under the credit facility matures no later than 60 days after the date of borrowing. The Fund also pays a commitment fee equal to its pro rata share of the unused amount of the credit facility at a rate of 0.15% per annum. The commitment fee is included in other expenses in the Statement of Operations. This agreement expires annually in October unless extended or renewed. Prior to the October 28, 2021 amendment and restatement, the Fund had access to a revolving credit facility with a syndicate of banks led by JPMorgan Chase Bank, N.A., Citibank, N.A. and Wells Fargo Bank, N.A. which permitted collective borrowings up to \$950 million. Interest was charged to each participating fund based on its borrowings at a rate equal to the higher of (i) the federal funds effective rate, (ii) the one-month London Interbank Offered Rate (LIBOR) rate and (iii) the overnight bank funding rate, plus in each case, 1.25%.

The Fund had no borrowings during the year ended December 31, 2021.

Note 9. Significant risks

Health care sector risk

The Fund is more susceptible to the particular risks that may affect companies in the health care sector than if it were invested in a wider variety of companies in unrelated sectors. Companies in the health care sector are subject to certain risks, including restrictions on government reimbursement for medical expenses, government approval of medical products and services, competitive pricing pressures, and the rising cost of medical products and services (especially for companies dependent upon a relatively limited number of products or services). Performance of such companies may be affected by factors including, government regulation, obtaining and protecting patents (or the failure to do so), product liability and other similar litigation as well as product obsolescence.

Information technology sector risk

The Fund is more susceptible to the particular risks that may affect companies in the information technology sector than if it were invested in a wider variety of companies in unrelated sectors. Companies in the information technology sector are subject to certain risks, including the risk that new services, equipment or technologies will not be accepted by consumers and businesses or will become rapidly obsolete. Performance of such companies may be affected by factors including obtaining and protecting patents (or the failure to do so) and significant competitive pressures, including aggressive pricing of their products or services, new market entrants, competition for market share and short product cycles due to an accelerated rate of technological developments. Such competitive pressures may lead to limited earnings and/or falling profit margins. As a result, the value of their securities may fall or fail to rise. In addition, many information technology sector companies have limited operating histories and prices of these companies' securities historically have been more volatile than other securities, especially over the short term. Some companies in the information technology sector are facing increased government and regulatory scrutiny and may be subject to adverse government or regulatory action, which could negatively impact the value of their securities.

Market risk

The Fund may incur losses due to declines in the value of one or more securities in which it invests. These declines may be due to factors affecting a particular issuer, or the result of, among other things, political, regulatory, market, economic or social developments affecting the relevant market(s) more generally. In addition, turbulence in financial markets and reduced liquidity in equity, credit and/or fixed income markets may negatively affect many issuers, which could adversely affect the Fund, including causing difficulty in assigning prices to hard-to-value assets in thinly traded and closed markets, significant redemptions and operational challenges. Global economies and financial markets are increasingly interconnected, and conditions and events in one country, region or financial market may adversely impact issuers in a different country, region or

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

financial market. These risks may be magnified if certain events or developments adversely interrupt the global supply chain; in these and other circumstances, such risks might affect companies worldwide. As a result, local, regional or global events such as terrorism, war, natural disasters, disease/virus outbreaks and epidemics or other public health issues, recessions, depressions or other events – or the potential for such events – could have a significant negative impact on global economic and market conditions.

The coronavirus disease 2019 and its variants (COVID-19) pandemic has resulted in, and may continue to result in, significant global economic and societal disruption and market volatility due to disruptions in market access, resource availability, facilities operations, imposition of tariffs, export controls and supply chain disruption, among others. Such disruptions may be caused, or exacerbated by, quarantines and travel restrictions, workforce displacement and loss in human and other resources. The uncertainty surrounding the magnitude, duration, reach, costs and effects of the global pandemic, as well as actions that have been or could be taken by governmental authorities or other third parties, present unknowns that are yet to unfold. The impacts, as well as the uncertainty over impacts to come, of COVID-19 – and any other infectious illness outbreaks, epidemics and pandemics that may arise in the future – could negatively affect global economies and markets in ways that cannot necessarily be foreseen. In addition, the impact of infectious illness outbreaks and epidemics in emerging market countries may be greater due to generally less established healthcare systems, governments and financial markets. Public health crises caused by the COVID-19 outbreak may exacerbate other pre-existing political, social and economic risks in certain countries or globally. The disruptions caused by COVID-19 could prevent the Fund from executing advantageous investment decisions in a timely manner and negatively impact the Fund's ability to achieve its investment objectives. Any such event(s) could have a significant adverse impact on the value and risk profile of the Fund.

Shareholder concentration risk

At December 31, 2021, affiliated shareholders of record owned 90.3% of the outstanding shares of the Fund in one or more accounts. Subscription and redemption activity by concentrated accounts may have a significant effect on the operations of the Fund. In the case of a large redemption, the Fund may be forced to sell investments at inopportune times, including its liquid positions, which may result in Fund losses and the Fund holding a higher percentage of less liquid positions. Large redemptions could result in decreased economies of scale and increased operating expenses for non-redeeming Fund shareholders.

Small- and mid-cap company risk

Investments in small- and mid-capitalization companies (small- and mid-cap companies) often involve greater risks than investments in larger, more established companies (larger companies) because small- and mid-cap companies tend to have less predictable earnings and may lack the management experience, financial resources, product diversification and competitive strengths of larger companies. Securities of small- and mid-cap companies may be less liquid and more volatile than the securities of larger companies.

Note 10. Subsequent events

Management has evaluated the events and transactions that have occurred through the date the financial statements were issued and noted no items requiring adjustment of the financial statements or additional disclosure.

Note 11. Information regarding pending and settled legal proceedings

Ameriprise Financial and certain of its affiliates have historically been involved in a number of legal, arbitration and regulatory proceedings, including routine litigation, class actions, and governmental actions, concerning matters arising in connection with the conduct of their business activities. Ameriprise Financial believes that the Fund is not currently the subject of, and that neither Ameriprise Financial nor any of its affiliates are the subject of, any pending legal, arbitration or regulatory proceedings that are likely to have a material adverse effect on the Fund or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Fund. Ameriprise Financial is required to make quarterly (10-Q), annual (10-K) and, as necessary, 8-K filings with the Securities and Exchange Commission (SEC) on legal and regulatory matters that relate to Ameriprise Financial and its affiliates. Copies of these filings may be obtained by accessing the SEC website at www.sec.gov.

NOTES TO FINANCIAL STATEMENTS (continued)

December 31, 2021

There can be no assurance that these matters, or the adverse publicity associated with them, will not result in increased Fund redemptions, reduced sale of Fund shares or other adverse consequences to the Fund. Further, although we believe proceedings are not likely to have a material adverse effect on the Fund or the ability of Ameriprise Financial or its affiliates to perform under their contracts with the Fund, these proceedings are subject to uncertainties and, as such, we are unable to estimate the possible loss or range of loss that may result. An adverse outcome in one or more of these proceedings could result in adverse judgments, settlements, fines, penalties or other relief that could have a material adverse effect on the consolidated financial condition or results of operations of Ameriprise Financial or one or more of its affiliates that provides services to the Fund.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of Columbia Funds Variable Insurance Trust and Shareholders of Columbia Variable Portfolio – Small Company Growth Fund

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the portfolio of investments, of Columbia Variable Portfolio – Small Company Growth Fund (one of the funds constituting Columbia Funds Variable Insurance Trust, referred to hereafter as the "Fund") as of December 31, 2021, the related statement of operations for the year ended December 31, 2021, the statement of changes in net assets for each of the two years in the period ended December 31, 2021, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2021 (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2021 and the financial highlights for each of the five years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on the Fund's financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/PricewaterhouseCoopers LLP
Minneapolis, Minnesota
February 22, 2022

We have served as the auditor of one or more investment companies within the Columbia Funds Complex since 1977.

FEDERAL INCOME TAX INFORMATION

(Unaudited)

The Fund hereby designates the following tax attributes for the fiscal year ended December 31, 2021.

Dividends received deduction	Capital gain dividend
1.60%	\$80,254,680

Dividends received deduction. The percentage of ordinary income distributed during the fiscal year that qualifies for the corporate dividends received deduction.

Capital gain dividend. The Fund designates as a capital gain dividend the amount reflected above, or if subsequently determined to be different, the net capital gain of such fiscal period.

TRUSTEES AND OFFICERS

The Board oversees the Fund's operations and appoints officers who are responsible for day-to-day business decisions based on policies set by the Board. The following table provides basic biographical information about the Fund's Trustees as of the printing of this report, including their principal occupations during the past five years, although specific titles for individuals may have varied over the period. The year set forth beneath Length of Service in the table below is the year in which the Trustee was first appointed or elected as Trustee to any Fund currently in the Columbia Funds Complex or a predecessor thereof. Under current Board policy, each Trustee generally serves until December 31 of the year such Trustee turns seventy-five (75).

Independent trustees

Name, address, year of birth	Position held with the Columbia Funds and length of service	Principal occupation(s) during past five years and other relevant professional experience	Number of Funds in the Columbia Funds Complex* overseen	Other directorships held by Trustee during the past five years
