Important Information

- Please write your contract number in the box, above right, to avoid processing delays.
- To change your investment allocation from a Portfolio Navigator fund to a Portfolio Stabilizer fund, you must use Form 411388-OD, *Portfolio Stabilizer Fund Election Form*, available on riversource.com.
- If you are currently invested in a Portfolio Stabilizer fund, you are not eligible to invest in a Portfolio Navigator fund for as long as your contract is in force.
- If you have a living benefit rider, go to Part 1, Investment Options for Annuities with Living Benefit Riders. Note: If you have the Guaranteed Minimum Income Benefit (GMIB) rider purchased before May 2004, you must use Part 2.
- If you do not have a living benefit rider or you have the GMIB rider issued before 5/1/04, go to Part 2, Self-Directed Investment Options.
- Please check your prospectus for Self-Directed investment options. Your prospectus is available at riversource.com - search by product name.

Part 1 Investment Options for Annuities with Living Benefit Riders

1A. Portfolio Navigator Fund Changes

% 12-month Special DCA Fixed Account**

**The interest credited to amounts allocated to the Special DCA Fixed Account may exceed our actual earnings on supporting assets, less appropriate risk and expense adjustments. Any amounts credited to your contract in excess of amounts earned will be recovered from the existing charges described in your contract. Your contract charges will not increase as a result of electing any Special DCA Fixed Account.

Part 2 Self Directed Investment options

- **Complete Part 2 if you do NOT have an optional living benefit rider. Self directed investments are required and available only if you do not have an optional living benefit rider (other than GMIBs purchased prior to May 2004). If you do have an optional living benefit rider, Part 2 is not available to you and you must complete Part 1.**
- **Transfer guidelines and provisions may vary based on product and/or issue state. Please refer to your product prospectus for the transfers allowed on your account.**

Part 3 Authorizations and Acknowledgments

DCA Fixed Account Plan

Systematic Investment Plans cannot be used with the DCA Fixed Account Program.

- Availability: Additional payments to Variable Annuity Contracts. Restrictions may apply. Check your prospectus for eligible products.
- The DCA Fixed Account effective annual rate(s) applies only to payments for a new contract, or new additional payment(s) to an existing contract. All effective annual interest rates apply only to amounts remaining in the DCA Fixed Account and are not credited after the value has been transferred to the selected accounts.
- RiverSource Life reserves the right to discontinue or modify the DCA Fixed Account Program at any time without prior notice. Any change would not affect contract holders currently enrolled in the DCA Fixed Account Program.
- RiverSource Life will calculate the monthly transfer amount. Interest is credited and compounded daily. The monthly transfer amount is determined by dividing the value of the DCA Fixed Account by the number of months remaining in the DCA Fixed Account Program period.
- All amounts must be transferred to the selected accounts within 6 or 12 months depending on the time period you select (6 or 12 transfers). Additional payments into an existing DCA Fixed Account will be transferred to the selected accounts within the remaining time period.
- I may terminate participation in the DCA Fixed Account Program at any time by calling or writing RiverSource Life. Upon termination, I will no longer receive the DCA Fixed Account effective annual rate.
- DCA does not assure profit nor protect against loss in declining markets. Since the plan provides for continuous investment, regardless of fluctuating prices, investors must consider their financial ability to continue to invest during low price levels. The effective annual yield or total return will fluctuate along with market and other economic conditions. Past performance does not guarantee future results.
- If I participate in the Portfolio Navigator, my variable portfolio under this must match the variable portfolio under the Portfolio Navigator.

If you are funding a DCA Fixed Account from multiple sources, we apply each purchase payment to the account and credit interest on that purchase payment on the date we receive it. This means that all purchase payments may not be in the DCA Fixed Account at the beginning of the period. Therefore, you may receive less total interest than you would if all your purchase payments were in the DCA Fixed Account from the beginning. If we receive any of your multiple payments after the DCA Fixed Account period ends, you can either allocate those payments to a new DCA Fixed Account (if available) or to any other accounts under your contract.

Tiered/Special Dollar-Cost Averaging (DCA) Plan

- Availability: Additional payments to Variable Annuity Contracts. Restrictions may apply. Check your prospectus for eligible products.
- **Systematic Investment Plans cannot be used with the Tiered/Special DCA Program.**
- RiverSource Life reserves the right to discontinue or modify the DCA Program at any time without prior notice. Any change would not affect contract holders currently enrolled in the DCA Program.
- All amounts must be transferred to the selected accounts within 6 months (6 transfers) or 12 months (12 transfers). Check your prospectus for eligibility for the 12 month option.
- Dollar-cost averaging does not assure profit nor protect against loss in declining markets. Since the plan provides for continuous investment, regardless of fluctuating prices, investors must consider their financial ability to continue to invest during low price levels. The effective annual yield or total return will fluctuate along with market and other economic conditions. Past performance does not guarantee future results.
- If I participate in the asset rebalancing option, my asset allocation under this program must match my asset allocations under the asset rebalancing option. If I change the asset rebalancing under the program, RiverSource Life will automatically change it to match under the other program.

If you are funding a Tiered/Special DCA account from multiple sources, we apply each purchase payment to the account and credit interest on that purchase payment on the date we receive it. This means that all purchase payments may not be in the Special DCA account at the beginning of the six-month or twelve-month period. Therefore, you may receive less total interest than you would if all your purchase payments were in the Special DCA account from the beginning. If we receive any of your multiple payments after the six-month or twelve-month period ends, you can either allocate those payments to a new Special DCA account (if available) or to any other accounts under your contract.

Part 3 Authorizations and Acknowledgments continued

DCA or Interest Sweep Plan

- If an automated transfer, as scheduled, falls on a date that is not a normal business day, the transfer will be made on the next normal business day following such date.
- Automated transfers and any random transfers are subject to the provisions of my contract, the current prospectus and such other rules as RiverSource Life shall establish.
- If this request is received by the RiverSource Life administrative office after the requested start date, transfers will begin on date specified the following month.
- A DCA or Interest Sweep plan does not assure profit or protect against loss in declining markets. Since either plan provides for continuous investment regardless of fluctuations in prices, you should consider your financial ability to continue to invest during low price levels.

Rebalancing Program

- If I participate in the DCA program, my asset allocation under this program must match my asset allocation under the DCA program. If I change the asset allocation under one program, RiverSource Life will automatically change it to match under the other program.
- I must invest a minimum of \$2,000 (\$5,000 minimum investment required in SC, TX, WA).
- Any new payments to my annuity will be allocated according to the fund level rebalancing allocation.
- I may stop automatic allocation and rebalancing at any time.
- I may change my rebalancing at any time. When I change my allocation, any money invested in the contract will be reallocated according to my new preferences. This will occur on the next automatic rebalancing date (quarterly, semiannually or annually).

Systematic Investment Plan (SIP)

I have read and understand the following with respect to my request:

- **SIPs cannot be used with the DCA Program or if I have an *Accumulation Protector Benefit*[®]rider.**
- If a systematic payment, as scheduled, falls on a date that is not a normal business day, the payment debited will be made on the next normal business day following such date.
- Systematic payments are subject to the provisions of my contract, the current prospectus and such other rules as RiverSource Life shall establish.
- If this request is received by the RiverSource Life administrative office after the requested start date, my systematic investment plan will begin on the date specified the following month.
- A SIP does not assure profit or protect against loss in declining markets.

I authorize RiverSource Life to transfer my systematic payments from my bank account as described above.
