## Important Notes to Performance Information

Performance data is historical and cannot predict or guarantee future results. Principal value and investment return will fluctuate with market conditions, and you may have a gain or loss when you withdraw your money. Inception dates of the funds may have preceded the effective dates of the subaccounts, contracts or their availability in all states.

When reviewing the index comparisons, please keep in mind that indexes have a number of inherent performance differentials over the funds. First, unlike the funds, which must hold a minimum amount of cash to maintain liquidity, indexes do not have a cash component. Second, the funds are actively managed and, thus, are subject to management fees to cover salaries of securities analysts or portfolio managers in addition to other expenses. Indexes are unmanaged and do not include any commissions or other expenses typically associated with investing in securities. Third, indexes often contain a different mix of securities than the fund to which they are compared. Additionally, please remember that indexes are simply a measure of performance and cannot be invested in directly.

The statement of additional information (SAI) of each Fund is amended as follows:

I. For all Funds, the name “Franklin Templeton Distributors, Inc.” is replaced throughout the SAI with “Franklin Distributors, LLC.”

II. For Franklin Allocation VIP Fund, Templeton Developing Markets VIP Fund and Templeton Foreign VIP Fund, the following bullet is added to the list of securities in which each Fund may invest under “The Funds – Goals, Additional Strategies and Risks:”

- Chinese securities including Chinese variable interest entities

III. The following is added to the “Goals, Strategies and Risks – Glossary of Investments, Techniques, Strategies and Their Risks – Foreign securities:”

*China companies.* Investing in China, Hong Kong and Taiwan involves a high degree of risk and special considerations not typically associated with investing in other more established economies or securities markets. Such risks may include: (a) the risk of nationalization or expropriation of assets or confiscatory taxation; (b) greater social, economic and political uncertainty (including the risk of war); (c) dependency on exports and the corresponding importance of international trade; (d) the increasing competition from Asia’s other low-cost emerging economies; (e) greater price volatility and significantly smaller market capitalization of securities markets, particularly in China; (f) substantially less liquidity, particularly of certain share classes of Chinese securities; (g) currency exchange rate fluctuations and the lack of available currency hedging instruments; (h) higher rates of inflation; (i) controls on foreign investment and limitations on repatriation of invested capital and on the Fund’s ability to exchange local currencies for U.S. dollars; (j) greater governmental involvement in and control over the economy; (k) the risk that the Chinese government may decide not to continue to support the economic reform programs implemented since 1978 and could return to the prior, completely centrally planned, economy; (l) the fact that China companies, particularly those located in China, may be smaller, less seasoned and newly-organized companies; (m) the difference in, or lack of, auditing and financial reporting standards which may result in unavailability of material information about issuers, particularly in China; (n) the fact that statistical information regarding the economy of China may be inaccurate or not comparable to statistical information regarding

the U.S. or other economies; (o) the less extensive, and still developing, regulation of the securities markets, business entities and commercial transactions; (p) the fact that the settlement period of securities transactions in foreign markets may be longer; (q) the willingness and ability of the Chinese government to support the Chinese and Hong Kong economies and markets is uncertain; (r) the risk that it may be more difficult, or impossible, to obtain and/or enforce a judgment than in other countries and that there may be significant obstacles to obtaining information necessary for investigations into or litigation against Chinese companies; and (s) the rapidity and erratic nature of growth, particularly in China, resulting in inefficiencies and dislocations; and (t) the risk that because of the degree of interconnectivity between the economies and financial markets of China, Hong Kong and Taiwan, any sizable reduction in the demand for goods from China, or an economic downturn in China, could negatively affect the economies and financial markets of Hong Kong and Taiwan, as well.

The Public Company Accounting Oversight Board (PCAOB) has warned that positions taken by Chinese authorities impair the PCAOB's ability to conduct inspections and investigations of the audits of public companies with China-based operations. The PCAOB's impaired ability to oversee PCAOB-registered audit firms in China may result in inaccurate or incomplete financial records of an issuer's operations within China, which may negatively impact the Fund's investments in such companies.

Investment in China, Hong Kong and Taiwan is subject to certain political risks. Following the establishment of the People's Republic of China by the Communist Party in 1949, the Chinese government renounced various debt obligations incurred by China's predecessor governments, which obligations remain in default, and expropriated assets without compensation. There can be no assurance that the Chinese government will not take similar action in the future. An investment in the Fund involves risk of a total loss. The political reunification of China and Taiwan is a highly problematic issue and is unlikely to be settled in the near future. This situation poses a threat to Taiwan's economy and could negatively affect its stock market.

The equity securities of China companies the Fund may invest in include securities issued by Hong Kong and Taiwan domiciled companies, as well as China H shares (shares of China-incorporated, Hong Kong-listed companies), Shanghai and Shenzhen-listed B shares (shares of China-incorporated companies that are traded in foreign currencies - U.S. Dollar for the Shanghai Stock Exchange and Hong Kong dollar for the Shenzhen Stock Exchange), and China "red chip" shares (shares of companies based in Mainland China that are incorporated outside China and listed in Hong Kong). The Fund may also invest in eligible China A shares (shares of publicly traded companies based in Mainland China) listed and traded on the Shanghai Stock Exchange ("SSE") through the Shanghai – Hong Kong Stock Connect program, as well as eligible China A shares listed and traded on the Shenzhen Stock Exchange ("SZSE") through the Shenzhen – Hong Kong Stock Connect program (both programs collectively referred to as "Stock Connect"). The Fund may also invest in China A shares through any other means permitted by applicable law or regulation.

*Chinese variable interest entities.* In China, equity ownership of companies by foreign individuals and entities is restricted or prohibited in certain sectors, such as internet, media, education and telecommunications. To circumvent these limits, starting in the early 2000s many Chinese companies, including most of the well-known Chinese Internet companies, have used a special structure known as a variable interest entity (VIE) to raise capital from foreign investors. In a typical VIE structure, a shell company is set up in an offshore jurisdiction, such as the Cayman Islands. The shell company, through a wholly foreign-owned enterprise (WFOE) based in China, enters into service and other contracts with another Chinese company known as the VIE. The VIE must be owned by Chinese nationals (and/or other Chinese companies), which often are the VIE's founders, in order to obtain the licenses and/or assets required to operate in the restricted or prohibited industry in China. The contractual arrangements entered into between the WFOE and VIE (which often include powers of attorney, loan and equity pledge agreements, call option agreements and exclusive services or business cooperation agreements) are designed to allow the shell company to exert a degree of control over, and obtain economic benefits arising from, the VIE without formal legal ownership.

The contractual arrangements are structured to require the shell company to consolidate the VIE into its financial statements, pursuant to U.S. generally accepted accounting principles, despite the absence of equity ownership. Such consolidation provides the shell company with the ability to issue shares on a foreign exchange, such as the New York

Stock Exchange or NASDAQ, often with the same name as the VIE. Accordingly, foreign investors, such as the Fund, will only own stock in the shell company rather than directly in the VIE. Further, the ability of the WFOE to easily extract profits from the VIE structure through service agreements will partially depend on the proportion of the business that can legally be conducted by the WFOE versus the VIE, which varies based on the industry.

While VIEs are a longstanding industry practice that is well known to Chinese officials and regulators, historically they have not been formally recognized under Chinese law. In late December 2021, the China Securities Regulatory Commission (CSRC) released draft rules that would permit the use of VIE structures, provided they abide by Chinese laws and register with the CSRC. The new draft rules, however, may cause Chinese companies to undergo greater scrutiny and may make the process to create VIEs more difficult and costly. Guidance or further rulemaking prohibiting or restricting these structures by the Chinese government, generally or with respect to specific industries, would likely cause impacted VIE-structured holding(s) to suffer significant, detrimental, and possibly permanent losses, and in turn, adversely affect the Fund's returns and net asset value. The future of the VIE structure generally and with respect to certain industries remains uncertain.

Further, if a Chinese court or arbitration body chose not to enforce the contracts, the value of the shell company would significantly decline, since it derives its value from the ability to consolidate the VIE into its financials pursuant to such contracts, and in turn, adversely affect the Fund's returns and net asset value. The contractual arrangements with the VIE may not be as effective in providing operational control as direct equity ownership. The Chinese equity owner(s) of the VIE could decide to breach the contractual arrangement and may have conflicting interests and fiduciary duties as compared to investors in the shell company. Accordingly, VIEs depend heavily on executives who are Chinese nationals and own the underlying business licenses and/or assets required to operate in China. In addition to creating "key person" succession risk, the structure can restrict the ability of outside shareholders to challenge executives for poor decision-making, weak management, or equity-eroding actions. Any breach or dispute under these contracts will likely fall under Chinese jurisdiction and law.

IV. For all Funds, the following replaces Robert G. Kubilis in the section "Officers and Trustees – Interested Board Members and Officers:"

Christopher Kings (1974) Chief Financial Officer, Chief Accounting Officer and Treasurer Since January 2022 Not

# Templeton Growth VIP Fund

This annual report for Templeton Growth VIP Fund covers the fiscal year ended December 31, 2021.

## Class 2 Performance Summary as of December 31, 2021

Average annual total return of Class 2 shares represents the average annual change in value, assuming reinvestment of dividends and capital gains. Average returns smooth out variations in returns, which can be significant; they are not the same as year-by-year results.

Share Class	Average Annual Total Return
<b>2</b>	
1-Year	+4.87%
5-Year	+5.21%
10-Year	+7.36%

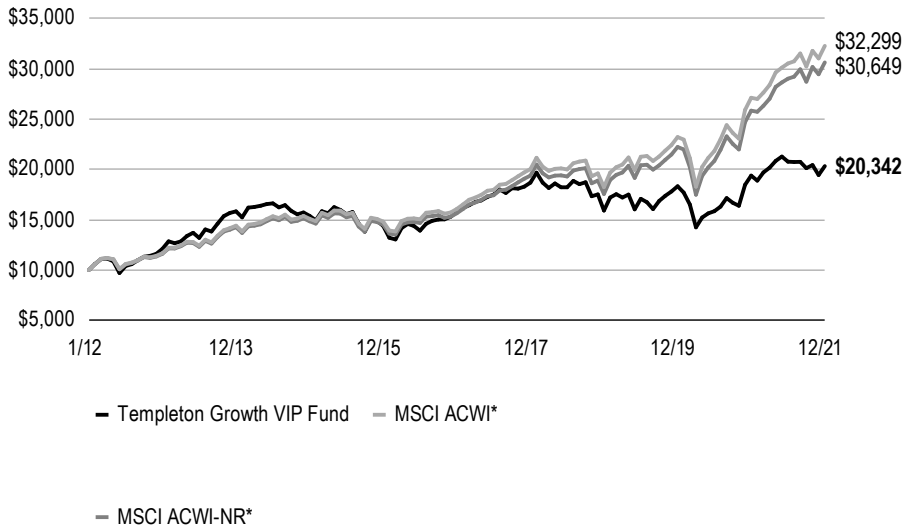

*Performance reflects the Fund's Class 2 operating expenses, but does **not** include any contract fees, expenses or sales charges. If they had been included, performance would be lower. These charges and deductions, particularly for variable life policies, can have a significant effect on contract values and insurance benefits. See the contract prospectus for a complete description of these expenses, including sales charges.*

*Performance data represent past performance, which does not guarantee future results. Investment return and principal value will fluctuate, and you may have a gain or loss when you sell your shares. Current performance may differ from figures shown.*

**Total Return Index Comparison for a Hypothetical \$10,000 Investment (1/1/12–12/31/21)**

The graph below shows the change in value of a hypothetical \$10,000 investment in the Fund over the indicated period and includes reinvestment of any income or distributions. The Fund's performance is compared to the performance of the Fund's new benchmark, the MSCI All Country World Index (ACWI)-NR, and the Fund's former benchmark, the MSCI ACWI. The MSCI ACWI-NR (net of taxes on dividends) is replacing the MSCI ACWI (gross of taxes on dividends) because the investment manager believes the actual withholding rates for the Fund are closer to the assumptions of the MSCI ACWI-NR. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. **Please see Important Notes to Performance Information preceding the Fund Summaries.**

# Templeton Growth VIP Fund

## Fund Goal and Main Investments

The Fund seeks long-term capital growth. Under normal market conditions, the Fund invests primarily in the equity securities (primarily common stocks) of companies located anywhere in the world, including developing markets.

## Fund Risks

All investments involve risks, including possible loss of principal. Events such as the spread of deadly diseases, disasters, and financial, political or social disruptions, may heighten risks and adversely affect performance. Special risks are associated with foreign investing, including currency fluctuations, economic instability and political developments; investments in developing markets involve heightened risks related to the same factors. Because the Fund may invest at least a significant portion of its assets in companies in a specific region, including Europe, it is subject to greater risks of adverse developments in that region and/or the surrounding regions than a fund that is more broadly diversified geographically. Political, social or economic disruptions in the region, even in countries in which the Fund is not invested, may adversely affect the value of securities held by the Fund. Current political uncertainty concerning the economic consequences of the departure of the U.K. from the European Union may increase market volatility. Derivatives involve costs and can create economic leverage which may result in significant volatility and cause the Fund to participate in losses (and enable gains) on an amount that exceeds the Fund's initial investment. In addition, securities issued by small- and mid-capitalization companies have historically experienced more price volatility than larger-company stocks, especially over the short term and may involve additional risks. The Fund is actively managed but there is no guarantee that the manager's investment decisions will produce the desired results. The Fund's prospectus also includes a description of the main investment risks.

## Performance Overview

You can find the Fund's one-year total return in the Performance Summary. For comparison, the Fund's new benchmark, the MSCI All Country World Index (ACWI)-NR, posted a +18.54% total return for the period under review.<sup>1</sup> The Fund's former benchmark, the MSCI ACWI, posted a +19.04% total return.<sup>1</sup> The MSCI ACWI-NR (net of taxes on dividends) is replacing the MSCI ACWI (gross of taxes

on dividends) because the investment manager believes the actual withholding rates for the Fund are closer to the assumptions of the MSCI ACWI-NR.

## Geographic Composition

12/31/21

	% of Total Net Assets
North America	46.3%
Europe	29.5%
Asia	14.9%
Latin America & Caribbean	1.1%
Short-Term Investments & Other Net Assets	8.2%

## Economic and Market Overview

Global developed and emerging market equities, as measured by the MSCI All Country World Index-NR, posted a +18.54% total return for the 12 months ended December 31, 2021.<sup>1</sup> Global equities benefited from monetary and fiscal stimulus measures, easing COVID-19 pandemic restrictions in certain regions and the development of treatments and vaccines. However, the Chinese government's imposition of additional restrictions on some businesses pressured Asian and global emerging market stocks. Additionally, the spread of the Delta and Omicron variants and higher inflation in an environment of persistent supply-chain disruptions hindered global equities at certain points during the 12-month period.

In the U.S., the economy continued to recover and equities rallied amid monetary and fiscal stimulus measures and the continued progress of vaccination programs. Gross domestic product (GDP) growth was generally robust, as the lifting of many COVID-19 restrictions and strong consumer spending supported the economy. A rebound in corporate earnings and the passage of a bipartisan infrastructure bill further bolstered investor sentiment. In an effort to support the economy, the U.S. Federal Reserve (Fed) kept the federal funds target rate at a record-low range of 0.00%–0.25%. While the Fed also maintained quantitative easing measures with U.S. Treasury and mortgage bond purchasing, it began to reduce the rate of purchases beginning in November 2021 and accelerated the pace of tapering in December. The Fed also noted that it expected easing supply constraints to help reduce inflationary pressures and that further employment progress was needed before the Fed would consider raising the range for the federal funds target rate.

1. Source: Morningstar. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Please see Index Descriptions following the Fund Summaries.

The dollar value, number of shares or principal amount, and names of all portfolio holdings are listed in the Fund's Statement of Investments (SOI).

The economic recovery in the eurozone was slow, as quarter-over-quarter GDP growth contracted in 2021's first quarter before returning to growth in 2021's second and third quarters. GDP growth rates were initially sluggish among the region's largest economies, although most showed signs of improvement later in the 12-month period. Business activity growth also helped European developed market equities, as measured by the MSCI Europe Index-NR, to post a +16.30% total return for the 12 months under review.<sup>1</sup> However, in November 2021, the annual inflation rate in the eurozone reached the highest level since the introduction of the euro, and the prospect of energy shortages during the winter months tempered investor optimism.

Asian developed and emerging market equities, as measured by the MSCI All Country Asia Index-NR, posted a -2.49% total return for the 12-month period.<sup>1</sup> While many Asian countries experienced improving economic conditions, Japan's quarter-over-quarter GDP contracted in 2021's third quarter. China's economic recovery continued, although the country's quarter-over-quarter GDP growth in 2021's first three quarters was slower than in 2020's second half, pressured by higher commodity prices. Unexpected regulatory changes by the Chinese government, which negatively impacted education- and technology-related businesses, and concerns about a Chinese large property developer's solvency pressured Asian stocks during 2021's fourth quarter.

Global emerging market stocks, as measured by the MSCI Emerging Markets Index-NR, posted a -2.54% total return for the 12 months under review.<sup>1</sup> Higher inflation led many central banks in emerging market countries to raise interest rates, which dampened economic growth. The Omicron variant of COVID-19 also negatively impacted global emerging markets, as some countries reimplemented restrictions in an effort to counter rising infections.

## Investment Strategy

When choosing equity investments for the Fund, we apply a bottom-up, value-oriented, long-term approach, focusing on the market price of a company's securities relative to our evaluation of the company's long-term earnings, asset value and cash flow potential. Our analysis includes an assessment of the potential impacts of material environmental, social and governance (ESG) factors on the long-term risk and return profile of a company. We also consider a company's price/earnings ratio, price/cash flow ratio, profit margins and liquidation value.

The Fund may, from time to time, seek to hedge (protect) against currency risks, using certain currency-related derivative instruments. The Fund may also use a variety of equity-related derivatives for various purposes including enhancing Fund returns, increasing liquidity and gaining exposure to particular markets in more efficient or less expensive ways.

## Manager's Discussion

During the annual review period, key contributors to the Fund's performance relative to the MSCI ACWI-NR included stock selection in materials, energy and utilities.

Materials and energy were the Fund's top two performing sectors in 2021. From materials, U.S.-based lithium producer Albemarle finished the period as the biggest individual contributor. Its shares rallied following strong earnings results and surging lithium prices as demand for the key battery materials component outstripped supply. The stock also benefited from the announcement that the Big Three U.S. automakers are targeting a sizable percentage of car sales from electric vehicles by 2030. We believe that as one of the world's lowest-cost lithium producers with an ambitious expansion plan, Albemarle remains fundamentally well placed to enjoy substantial revenue and earnings growth over our forecast period.

The energy sector was led by U.S. oil refiner Marathon Petroleum. Its shares rallied after company management successfully closed the sale of its Speedway fueling station business and announced the company would use the proceeds to buy back shares and pay down long-term debt. The firm also benefited from higher oil prices and beat earnings estimates at the end of 2021, leading to a raft of upgrades from Wall Street analysts. The company committed to a large buyback plan during the period and has seen strong fundamental improvements in operating margins and free cash flow generation. We remain constructive on the energy sector more broadly. COVID-19-related production disruptions and reduced investment due to environmental pressures have curbed output, yet energy demand has remained healthy due to the economic recovery and reopening. The market capitalization of the energy sector relative to the rest of the world fell to an all-time low recently, and we increased our exposure in 2021 given what we considered compelling opportunities among extremely well-managed and financially savvy oil producers. Many of these companies are generating double-digit percentage free cash flow yields and creating immense value for shareholders through buybacks and dividends.

Utilities also outperformed, buoyed by stock selection. German power provider E.ON finished among the Fund's key contributors, benefiting from strong earnings results that highlighted improvements across numerous business lines. We continue to see numerous value catalysts for E.ON over time, including continued balance-sheet improvements, lower financing costs and the green energy transition, which, in our view, will spur grid investment and upgrades in Germany that should ultimately help expand E.ON's regulated-asset base.

Relative weakness during the year was attributable to an overweight in consumer discretionary and stock selection in information technology and communication services.

Netherlands-based food delivery service provider Just Eat Takeaway.com (JET), which has operations in Germany, was the biggest consumer discretionary detractor. Its shares slumped due to continued investor concerns about competition and profitability in the high-stakes food delivery business. Given the dynamics of this marketplace and the winner-take-all/most nature of the business, we are not surprised by near-term stock volatility. However, we continue to believe JET has significant upside potential given its cheap valuation, re-based expectations, competitive positioning and large potential market opportunities. Although it was largely ignored by the market, we are encouraged by a wave of recent good news surrounding JET, including key partnerships in the U.S., the U.K. and Canada, the recent exit of a major competitor from the firm's primary German market and industry consolidation leading to a more rational competitive landscape.

Our IT holdings posted double-digit percentage gains on average but lagged the benchmark's higher-weighted, higher-returning sector position. South Korean semiconductor and consumer electronics manufacturer Samsung Electronics was the sector's biggest detractor, pressured by concerns about falling dynamic random-access memory chip prices and smartphone sales. In our view, most of these concerns are short-term and seasonal, and we believe Samsung remains well positioned as a major beneficiary of the sustained uptrend in memory chip demand over time. Other positive catalysts include long-term opportunities in the firm's foundry business, optionality around capital deployment and a competitive advantage from being one of the three semiconductor manufacturers globally that can compete at the leading edge. Overall, we continue to believe that Samsung remains significantly undervalued for a well-run global technology leader with a strong balance sheet and generous shareholder return program. More generally, our tech holdings also underperformed due to lack of exposure to expensive

"FAANG" (Facebook-parent Meta Platforms, Amazon.com, Apple, Netflix and Google-parent Alphabet) and FAANG-adjacent stocks such as Apple, Microsoft and NVIDIA, the MSCI ACWI-NR's three top-performing IT components.

### Top 10 Holdings

12/31/21

Company Industry, Country	% of Total Net Assets
Samsung Electronics Co. Ltd. <i>Technology Hardware, Storage &amp; Peripherals, South Korea</i>	2.8%
Walt Disney Co. (The) <i>Entertainment, United States</i>	2.5%
Dollar Tree, Inc. <i>Multiline Retail, United States</i>	2.4%
Anheuser-Busch InBev SA/NV <i>Beverages, Belgium</i>	2.2%
Booking Holdings, Inc. <i>Hotels, Restaurants &amp; Leisure, United States</i>	2.2%
E.ON SE <i>Multi-Utilities, Germany</i>	2.2%
Sony Group Corp. <i>Household Durables, Japan</i>	2.2%
AbbVie, Inc. <i>Biotechnology, United States</i>	2.1%
DuPont de Nemours, Inc. <i>Chemicals, United States</i>	2.1%
Marathon Petroleum Corp. <i>Oil, Gas &amp; Consumable Fuels, United States</i>	2.0%

Finally, stock-specific weakness in the communication services sector pressured performance. U.S. media conglomerate and theme park operator Walt Disney was the sector's biggest detractor, its shares declining toward the end of 2021 after the firm reported higher-than-expected content costs and analysts again raised concerns about the impact of COVID-19 and inflationary wage pressures on theme park economics. We are not bothered by the increasing content spend because we view it as an investment in an attractive long-term growth opportunity. In our analysis, Disney can afford to make these investments and has a strong track record of execution as evidenced by its high historical returns on invested capital. We also believe that investors are too negative on the parks business, which has significant scope for recovery as conditions normalize. Like IT, communication services holdings were also pressured by what we did not own, namely the component of FAANG that resides in the sector. In this case, Google-parent Alphabet, Facebook-parent Meta Platforms and Netflix were the three top communication services contributors in the MSCI ACWI-NR in 2021; however, we had no exposure to these companies due to our assessment of their prohibitively expensive valuations.

From a regional standpoint, the U.S. was the biggest relative detractor, pressured by stock-specific issues (including near-term COVID-19-related pressures at medical device

companies, such as Zimmer Biomet Holdings and Medtronic) and a lack of exposure to the aforementioned expensive FAANG stocks. Europe also detracted, pressured by overweight allocations to Germany and Belgium. In Asia, the positive contribution of stock selection and an underweight in China (we reduced exposure during 2021 as regulatory risks rose) was offset by the negative effect of overweights in Japan and Hong Kong.

It is important to recognize the effect of currency movements on the Fund's performance. In general, if the value of the U.S. dollar goes up compared with a foreign currency, an investment traded in that foreign currency will go down in value because it will be worth fewer U.S. dollars. This can have a negative effect on Fund performance. Conversely, when the U.S. dollar weakens in relation to a foreign currency, an investment traded in that foreign currency will increase in value, which can contribute to Fund performance. For the 12 months ended December 31, 2021, the U.S. dollar rose in value relative to most currencies. As a result, the Fund's performance was negatively affected by the portfolio's substantial investment in securities with non-U.S. currency exposure.

Thank you for your participation in Templeton Growth VIP Fund. We look forward to serving your future investment needs.

The way we implement our main investment strategies and the resulting portfolio holdings may change depending on factors such as market and economic conditions. These opinions may not be relied upon as investment advice or an offer for a particular security. The information is not a complete analysis of every aspect of any market, country, industry, security or the Fund. Statements of fact are from sources considered reliable, but the investment manager makes no representation or warranty as to their completeness or accuracy. Although historical performance is no guarantee of future results, these insights may help you understand our investment management philosophy.*

## Class 2 Fund Expenses

As an investor in a variable insurance contract (Contract) that indirectly provides for investment in an underlying mutual fund, you can incur transaction and/or ongoing expenses at both the Fund level and the Contract Level: (1) transaction expenses can include sales charges (loads) on purchases, surrender fees, transfer fees and premium taxes; and (2) ongoing expenses can include management fees, distribution and service (12b-1) fees, contract fees, annual maintenance fees, mortality and expense risk fees and other fees and expenses. All mutual funds and Contracts have some types of ongoing expenses. The table below shows Fund-level ongoing expenses and can help you understand these costs and compare them with those of other mutual funds offered through the Contract. The table assumes a \$1,000 investment held for the six months indicated. Please refer to the Fund prospectus for additional information on operating expenses.

### Actual Fund Expenses

The table below provides information about the actual account values and actual expenses in the columns under the heading "Actual." In these columns the Fund's actual return, which includes the effect of ongoing Fund expenses but does not include the effect of ongoing Contract expenses, is used to calculate the "Ending Account Value." You can estimate the Fund-level expenses you paid during the period by following these steps (*of course, your account value and expenses will differ from those in this illustration*): Divide your account value by \$1,000 (*if your account had an \$8,600 value, then  $\$8,600 \div \$1,000 = 8.6$* ). Then multiply the result by the number under the headings "Actual" and "Fund-Level Expenses Paid During Period" (*if Fund-Level Expenses Paid During Period were \$7.50, then  $8.6 \times \$7.50 = \$64.50$* ). In this illustration, the estimated expenses paid this period at the Fund level are \$64.50.

### Hypothetical Example for Comparison with Other Mutual Funds

Under the heading "Hypothetical" in the table, information is provided about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. This information may not be used to estimate the actual ending account balance or expenses you paid for the period, but it can help you compare ongoing costs of investing in the Fund with those of other mutual funds offered through the Contract. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds offered through the Contract.

*Please note that expenses shown in the table are meant to highlight ongoing costs at the Fund level only and do not reflect any ongoing expenses at the Contract level, or transaction expenses at either the Fund or Contract levels. In addition, while the Fund does not have transaction expenses, if the transaction and ongoing expenses at the Contract level were included, the expenses shown below would be higher. You should consult your Contract prospectus or disclosure document for more information.*

Share Class	Beginning Account Value 7/1/21	Actual (actual return after expenses)		Hypothetical (5% annual return before expenses)		Net Annualized Expense Ratio <sup>2</sup>
		Ending Account Value 12/31/21	Fund-Level Expenses Paid During Period 7/1/21–12/31/21 <sup>1,2</sup>	Ending Account Value 12/31/21	Fund-Level Expenses Paid During Period 7/1/21–12/31/21 <sup>1,2</sup>	
2	\$1,000	\$978.90	\$6.20	\$1,018.94	\$6.33	1.24%

1. Expenses are equal to the annualized expense ratio for the six-month period as indicated above—in the far right column—multiplied by the simple average account value over the period indicated, and then multiplied by 184/365 to reflect the one-half year period.

2. Reflects expenses after fee waivers and expense reimbursements. Does not include any ongoing expenses of the Contract for which the Fund is an investment option or acquired fund fees and expenses.

# Notes to Financial Statements

## Templeton Growth VIP Fund

### 1. Organization and Significant Accounting Policies

Franklin Templeton Variable Insurance Products Trust (Trust) is registered under the Investment Company Act of 1940 (1940 Act) as an open-end management investment company, consisting of eighteen separate funds and applies the specialized accounting and reporting guidance in U.S. Generally Accepted Accounting Principles (U.S. GAAP). Templeton Growth VIP Fund (Fund) is included in this report. Shares of the Fund are generally sold only to insurance company separate accounts to fund the benefits of variable life insurance policies or variable annuity contracts. At December 31, 2021, 42.1% of the Fund's shares were held through one insurance company. Investment activities of these insurance company separate accounts could have a material impact on the Fund. The Fund offers three classes of shares: Class 1, Class 2 and Class 4. Each class of shares may differ by its distribution fees, voting rights on matters affecting a single class and its exchange privilege.

The following summarizes the Fund's significant accounting policies.

#### a. Financial Instrument Valuation

The Fund's investments in financial instruments are carried at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Fund calculates the net asset value (NAV) per share each business day as of 4 p.m. Eastern time or the regularly scheduled close of the New York Stock Exchange (NYSE), whichever is earlier. Under compliance policies and procedures approved by the Trust's Board of Trustees (the Board), the Fund's administrator has responsibility for oversight of valuation, including leading the cross-functional Valuation Committee (VC). The Fund may utilize independent pricing services, quotations from securities and financial instrument dealers, and other market sources to determine fair value.

Equity securities listed on an exchange or on the NASDAQ National Market System are valued at the last quoted sale price or the official closing price of the day, respectively. Foreign equity securities are valued as of the close of trading on the foreign stock exchange on which the security is primarily traded, or as of 4 p.m. Eastern time. The value is then converted into its U.S. dollar equivalent at the foreign exchange rate in effect at 4 p.m. Eastern time on the day that the value of the security is determined. Over-the-counter

(OTC) securities are valued within the range of the most recent quoted bid and ask prices. Securities that trade in multiple markets or on multiple exchanges are valued according to the broadest and most representative market. Certain equity securities are valued based upon fundamental characteristics or relationships to similar securities.

Investments in time deposits are valued at cost, which approximates fair value.

The Fund has procedures to determine the fair value of financial instruments for which market prices are not reliable or readily available. Under these procedures, the Fund primarily employs a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values, and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed.

Trading in securities on foreign securities stock exchanges and OTC markets may be completed before 4 p.m. Eastern time. In addition, trading in certain foreign markets may not take place on every Fund's business day. Events can occur between the time at which trading in a foreign security is completed and 4 p.m. Eastern time that might call into question the reliability of the value of a portfolio security held by the Fund. As a result, differences may arise between the value of the Fund's portfolio securities as determined at the foreign market close and the latest indications of value at 4 p.m. Eastern time. In order to minimize the potential for these differences, an independent pricing service may be used to adjust the value of the Fund's portfolio securities to the latest indications of fair value at 4 p.m. Eastern time. At December 31, 2021, certain securities may have been fair valued using these procedures, in which case the securities were categorized as Level 2 inputs within the fair value hierarchy (referred to as "market level fair value"). See the Fair Value Measurements note for more information.

When the last day of the reporting period is a non-business day, certain foreign markets may be open on those days that the Fund's NAV is not calculated, which could result

**Templeton Growth VIP Fund** (continued)**1. Organization and Significant Accounting Policies**

(continued)

**a. Financial Instrument Valuation** (continued)

in differences between the value of the Fund's portfolio securities on the last business day and the last calendar day of the reporting period. Any security valuation changes due to an open foreign market are adjusted and reflected by the Fund for financial reporting purposes.

**b. Foreign Currency Translation**

Portfolio securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars based on the exchange rate of such currencies against U.S. dollars on the date of valuation. The Fund may enter into foreign currency exchange contracts to facilitate transactions denominated in a foreign currency. Purchases and sales of securities, income and expense items denominated in foreign currencies are translated into U.S. dollars at the exchange rate in effect on the transaction date. Portfolio securities and assets and liabilities denominated in foreign currencies contain risks that those currencies will decline in value relative to the U.S. dollar. Occasionally, events may impact the availability or reliability of foreign exchange rates used to convert the U.S. dollar equivalent value. If such an event occurs, the foreign exchange rate will be valued at fair value using procedures established and approved by the Board.

The Fund does not separately report the effect of changes in foreign exchange rates from changes in market prices on securities held. Such changes are included in net realized and unrealized gain or loss from investments in the Statement of Operations.

Realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions and the difference between the recorded amounts of dividends, interest, and foreign withholding taxes and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in foreign exchange rates on foreign denominated assets and liabilities other than investments in securities held at the end of the reporting period.

**c. Securities Lending**

The Fund participates in an agency based securities lending program to earn additional income. The Fund receives collateral in the form of cash and/or U.S. Government and Agency securities against the loaned securities in an amount equal to at least 102% of the fair value of the loaned securities. Collateral is maintained over the life of the loan in an amount not less than 100% of the fair value of loaned securities, as determined at the close of Fund business each day; any additional collateral required due to changes in security values is delivered to the Fund on the next business day. Any cash collateral received is deposited into a joint cash account with other funds and is used to invest in a money market fund managed by Franklin Advisers, Inc., an affiliate of the Fund, and/or a joint repurchase agreement. The Fund may receive income from the investment of cash collateral, in addition to lending fees and rebates paid by the borrower. Income from securities loaned, net of fees paid to the securities lending agent and/or third-party vendor, is reported separately in the Statement of Operations. The Fund bears the market risk with respect to any cash collateral investment, securities loaned, and the risk that the agent may default on its obligations to the Fund. If the borrower defaults on its obligation to return the securities loaned, the Fund has the right to repurchase the securities in the open market using the collateral received. The securities lending agent has agreed to indemnify the Fund in the event of default by a third party borrower. At December 31, 2021, the Fund had no securities on loan.

**d. Income and Deferred Taxes**

It is the Fund's policy to qualify as a regulated investment company under the Internal Revenue Code. The Fund intends to distribute to shareholders substantially all of its taxable income and net realized gains to relieve it from federal income and if applicable, excise taxes. As a result, no provision for U.S. federal income taxes is required.

The Fund may be subject to foreign taxation related to income received, capital gains on the sale of securities and certain foreign currency transactions in the foreign jurisdictions in which it invests. Foreign taxes, if any, are recorded based on the tax regulations and rates that exist in the foreign markets in which the Fund invests. When a capital gain tax is determined to apply, the Fund records an estimated deferred tax liability in an amount that would be payable if the securities were disposed of on the valuation date.

## Templeton Growth VIP Fund (continued)

### 1. Organization and Significant Accounting Policies (continued)

#### d. Income and Deferred Taxes (continued)

As a result of several court cases, in certain countries across the European Union, the Fund filed additional tax reclaims for previously withheld taxes on dividends earned in those countries (EU reclaims). Income recognized, if any, for EU reclaims is reflected as other income in the Statement of Operations and any related receivable, if any, is reflected as European Union tax reclaims in the Statement of Assets and Liabilities. Any fees associated with these filings are reflected in other expenses in the Statement of Operations. When uncertainty exists as to the ultimate resolution of these proceedings, the likelihood of receipt of these EU reclaims, and the potential timing of payment, no amounts are reflected in the financial statements. For U.S. income tax purposes, when EU reclaims are received by the Fund and the Fund previously passed foreign tax credit on to its shareholders, the Fund will enter into a closing agreement with the Internal Revenue Service (IRS) in order to pay the associated tax liability on behalf of the Fund's shareholders.

The Fund may recognize an income tax liability related to its uncertain tax positions under U.S. GAAP when the uncertain tax position has a less than 50% probability that it will be sustained upon examination by the tax authorities based on its technical merits. As of December 31, 2021, the Fund has determined that no tax liability is required in its financial statements related to uncertain tax positions for any open tax years (or expected to be taken in future tax years). Open tax years are those that remain subject to examination and are based on the statute of limitations in each jurisdiction in which the Fund invests.

#### e. Security Transactions, Investment Income, Expenses and Distributions

Security transactions are accounted for on trade date. Realized gains and losses on security transactions are determined on a specific identification basis. Interest income and estimated expenses are accrued daily. Dividend income and capital gain distributions are recorded on the ex-dividend date except for certain dividends from securities where the dividend rate is not available. In such cases, the dividend is recorded as soon as the information is received by the Fund. Distributions to shareholders are recorded on the ex-dividend date. Distributable earnings are determined according to income tax regulations (tax basis) and may

differ from earnings recorded in accordance with U.S. GAAP. These differences may be permanent or temporary. Permanent differences are reclassified among capital accounts to reflect their tax character. These reclassifications have no impact on net assets or the results of operations. Temporary differences are not reclassified, as they may reverse in subsequent periods.

Common expenses incurred by the Trust are allocated among the Funds based on the ratio of net assets of each Fund to the combined net assets of the Trust or based on the ratio of number of shareholders of each Fund to the combined number of shareholders of the Trust. Fund specific expenses are charged directly to the Fund that incurred the expense.

Realized and unrealized gains and losses and net investment income, excluding class specific expenses, are allocated daily to each class of shares based upon the relative proportion of net assets of each class. Differences in per share distributions by class are generally due to differences in class specific expenses.

#### f. Accounting Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

#### g. Guarantees and Indemnifications

Under the Trust's organizational documents, its officers and trustees are indemnified by the Trust against certain liabilities arising out of the performance of their duties to Trust. Additionally, in the normal course of business, the Trust, on behalf of the Fund, enters into contracts with service providers that contain general indemnification clauses. The Trust's maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Trust that have not yet occurred. Currently, the Trust expects the risk of loss to be remote.

**Templeton Growth VIP Fund** (continued)

**2. Shares of Beneficial Interest**

At December 31, 2021, there were an unlimited number of shares authorized (without par value). Transactions in the Fund's shares were as follows:

	Year Ended December 31, 2021		Year Ended December 31, 2020	
	Shares	Amount	Shares	Amount
<b>Class 1 Shares:</b>				
Shares sold . . . . .	93,336	\$1,113,724	111,654	\$1,099,154

**3. Transactions with Affiliates**

Franklin Resources, Inc. is the holding company for various subsidiaries that together are referred to as Franklin Templeton. Certain officers and trustees of the Fund are also officers and/or directors of the following subsidiaries:

Subsidiary	Affiliation
Templeton Global Advisors Limited (Global Advisors)	Investment manager
Franklin Templeton Services, LLC (FT Services)	Administrative manager
Franklin Distributors, LLC (Distributors)	Principal underwriter
Franklin Templeton Investor Services, LLC (Investor Services)	Transfer agent

**Templeton Growth VIP Fund** (continued)

**3. Transactions with Affiliates** (continued)

**a. Management Fees**

The Fund pays an investment management fee to Global Advisors based on the average daily net assets of the Fund as follows:

<b>Annualized Fee Rate</b>	<b>Net Assets</b>
1.000%	Up to and including \$100 million
0.900%	Over \$100 million, up to and including \$250 million
0.800%	Over \$250 million, up to and including \$500 million
0.750%	Over \$500 million, up to and including \$1 billion
0.700%	Over \$1 billion, up to and including \$5 billion
0.675%	Over \$5 billion, up to and including \$10 billion
0.655%	Over \$10 billion, up to and including \$15 billion
0.635%	Over \$15 billion, up to and including \$20 billion
0.615%	In excess of \$20 billion

For the year ended December 31, 2021, the gross effective investment management fee rate was 0.849% of the Fund's average daily net assets.

**b. Administrative Fees**

Under an agreement with Global Advisers, FT Services provides administrative services to the Fund. The fee is paid by Global Advisers based on the Fund's average daily net assets, and is not an additional expense of the Fund.

**c. Distribution Fees**

The Board has adopted distribution plans for Class 2 and Class 4 shares pursuant to Rule 12b-1 under the 1940 Act. Under the Fund's compensation distribution plans, the Fund pays Distributors for costs incurred in connection with the servicing, sale and distribution of the Fund's shares up to 0.35% per year of its average daily net assets of each class. The Board has agreed to limit the current rate to 0.25% per year for Class 2. The plan year, for purposes of monitoring compliance with the maximum annual plan rate, is February 1 through January 31.

**d. Transfer Agent Fees**

Investor Services, under terms of an agreement, performs shareholder servicing for the Fund and is not paid by the Fund for the services.

**e. Investments in Affiliated Management Investment Companies**

The Fund invests in one or more affiliated management investment companies. As defined in the 1940 Act, an investment is deemed to be a "Controlled Affiliate" of a fund when a fund owns, either directly or indirectly, 25% or more of the affiliated fund's outstanding shares or has the power to exercise control over management or policies of such fund. The Fund does not invest for purposes of exercising a controlling influence over the management or policies. Management fees paid by the Fund are waived on assets invested in the affiliated management investment companies, as noted in the Statement of Operations, in an amount not to exceed the management and administrative fees paid directly or indirectly by each affiliate. During the year ended December 31, 2021, the Fund held investments in affiliated management investment companies as follows:

**Templeton Growth VIP Fund** (continued)

**3. Transactions with Affiliates** (continued)

**e. Investments in Affiliated Management Investment Companies** (continued)

	Value at Beginning of Year	Purchases	Sales	Realized Gain (Loss)	Net Change in Unrealized Appreciation (Depreciation)	Value at End of Year	Number of Shares Held at End of Year	Investment Income
<b>Templeton Growth VIP Fund</b>								
<b>Non-Controlled Affiliates</b>								
								Income from securities loaned
Institutional Fiduciary Trust - Money Market Portfolio, 0.01%.	\$—	\$63,169,089	\$(63,169,089)	\$—	\$—	\$—	—	\$119
<b>Total Affiliated Securities . . .</b>	<b>\$—</b>	<b>\$63,169,089</b>	<b>\$(63,169,089)</b>	<b>\$—</b>	<b>\$—</b>	<b>\$—</b>		<b>\$119</b>

**4. Income Taxes**

For tax purposes, capital losses may be carried over to offset future capital gains.

During the year ended December 31, 2021, the Fund utilized \$59,990,795 of capital loss carryforwards.

At December 31, 2021, the capital loss carryforwards were as follows:

Capital loss carryforwards not subject to expiration:

Long term . . . . .	\$23,594,627
---------------------	--------------

The tax character of distributions paid during the years ended December 31, 2021 and 2020, was as follows:

	2021	2020
Distributions paid from:		
Ordinary income . . . . .	\$8,009,756	\$19,832,296

At December 31, 2021, the cost of investments, net unrealized appreciation (depreciation) and undistributed ordinary income for income tax purposes were as follows:

Cost of investments . . . . .	\$356,203,817
Unrealized appreciation. . . . .	\$100,624,096
Unrealized depreciation. . . . .	(13,781,628)
Net unrealized appreciation (depreciation). . . . .	\$86,842,468
Distributable earnings:	
Undistributed ordinary income. . . . .	\$678,440

Differences between income and/or capital gains as determined on a book basis and a tax basis are primarily due to differing treatments of foreign currency transactions, EU reclaims and gains realized on in-kind shareholder redemptions.

## Templeton Growth VIP Fund (continued)

### 4. Income Taxes (continued)

In accordance with U.S. GAAP permanent differences are reclassified among capital accounts to reflect their tax character. At the year ended December 31, 2021, such reclassifications were as follows:

Paid-in Capital .....	\$43,414,335
Total distributable earnings (loss) .....	\$(43,414,335)

### 5. Investment Transactions

Purchases and sales of investments (excluding short term securities) for the year ended December 31, 2021, aggregated \$250,431,983 and \$326,023,613, respectively. Sales of investments excludes in-kind transactions of \$193,310,984.

### 6. Concentration of Risk

Investing in foreign securities may include certain risks and considerations not typically associated with investing in U.S. securities, such as fluctuating currency values and changing local, regional and global economic, political and social conditions, which may result in greater market volatility. Political and financial uncertainty in many foreign regions may increase market volatility and the economic risk of investing in foreign securities. In addition, certain foreign securities may not be as liquid as U.S. securities.

### 7. Novel Coronavirus Pandemic

The global outbreak of the novel coronavirus disease, known as COVID-19, has caused adverse effects on many companies, sectors, nations, regions and the markets in general, and may continue for an unpredictable duration. The effects of this pandemic may materially impact the value and performance of the Fund, its ability to buy and sell fund investments at appropriate valuations and its ability to achieve its investment objectives.

### 8. Credit Facility

The Fund, together with other U.S. registered and foreign investment funds (collectively, Borrowers), managed by Franklin Templeton, are borrowers in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (Global Credit Facility) which matured on February 4, 2022. This Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests. Effective February 4, 2022, the Borrowers renewed the Global Credit Facility for a one-year term, maturing February 3, 2023, for a total of \$2.675 billion.

Under the terms of the Global Credit Facility, the Fund shall, in addition to interest charged on any borrowings made by the Fund and other costs incurred by the Fund, pay its share of fees and expenses incurred in connection with the implementation and maintenance of the Global Credit Facility, based upon its relative share of the aggregate net assets of all of the Borrowers, including an annual commitment fee of 0.15% based upon the unused portion of the Global Credit Facility. These fees are reflected in other expenses in the Statement of Operations. During the year ended December 31, 2021, the Fund did not use the Global Credit Facility.

### 9. Redemption In-Kind

During the year ended December 31, 2021, the Fund realized \$43,506,810 of net gains resulting from redemptions in-kind in which a shareholder redeemed fund shares for cash and securities held by the Fund. Because such gains are not taxable to the Fund and are not distributed to remaining shareholders, they are reclassified from accumulated net realized gains to paid-in capital.

**Templeton Growth VIP Fund** (continued)

**10. Fair Value Measurements**

The Fund follows a fair value hierarchy that distinguishes between market data obtained from independent sources (observable inputs) and the Fund's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Fund's financial instruments and are summarized in the following fair value hierarchy:

- Level 1 – quoted prices in active markets for identical financial instruments
- Level 2 – other significant observable inputs (including quoted prices for similar financial instruments, interest rates, prepayment speed, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of financial instruments)

The input levels are not necessarily an indication of the risk or liquidity associated with financial instruments at that level.

A summary of inputs used as of December 31, 2021, in valuing the Fund's assets carried at fair value, is as follows:

	Level 1	Level 2	Level 3	Total
<b>Templeton Growth VIP Fund</b>				
<b>Assets:</b>

**Templeton Growth VIP Fund** (continued)

**10. Fair Value Measurements** (continued)

<sup>9</sup>Includes foreign securities valued at \$198,204,483, which were categorized as Level 2 as a result of the application of market level fair value procedures. See the Financial Instrument Valuation note for more information.

**11. New Accounting Pronouncements**

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the London Interbank Offered Rate (LIBOR) and other interbank-offered based reference rates as of the end of 2021 for certain LIBOR settings and 2023 for the remainder. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

**12. Subsequent Events**

The Fund has evaluated subsequent events through the issuance of the financial statements and determined that no events have occurred that require disclosure, other than those already disclosed in the financial statements.

## Report of Independent Registered Public Accounting Firm

To the Board of Trustees of Franklin Templeton Variable Insurance Products Trust and Shareholders of Templeton Growth VIP Fund

### ***Opinion on the Financial Statements***

We have audited the accompanying statement of assets and liabilities, including the statement of investments, of Templeton Growth VIP Fund (one of the funds constituting Franklin Templeton Variable Insurance Products Trust, referred to hereafter as the “Fund”) as of December 31, 2021, the related statement of operations for the year ended December 31, 2021, the statement of changes in net assets for each of the two years in the period ended December 31, 2021, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2021 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2021 and the financial highlights for each of the five years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

### ***Basis for Opinion***

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

PricewaterhouseCoopers LLP  
San Francisco, California  
February 17, 2022

We have served as the auditor of one or more investment companies in the Franklin Templeton Group of Funds since 1948.

## Tax Information (unaudited)

### Templeton Growth VIP Fund

By mid-February, tax information related to a shareholder's proportionate share of distributions paid during the preceding calendar year will be received, if applicable. Please also refer to [www.franklintempleton.com](http://www.franklintempleton.com) for per share tax information related to any distributions paid during the preceding calendar year. Shareholders are advised to consult with their tax advisors for further information on the treatment of these amounts on their tax returns.

The following tax information for the Fund is required to be furnished to shareholders with respect to income earned and distributions paid during its fiscal year.

The Fund hereby reports the following amounts, or if subsequently determined to be different, the maximum allowable amounts, for the fiscal year ended December 31, 2021:

	<b>Pursuant to:</b>	<b>Amount Reported</b>
Income Eligible for Dividends Received Deduction (DRD)	§854(b)(1)(A)	\$3,431,103
Interest Earned from Federal Obligations	Note (1)	\$167

Note (1) - The Law varies in each state as to whether and what percentage of dividend income attributable to Federal obligations is exempt from state income tax. Shareholders are advised to consult with their tax advisors to determine if any portion of the dividends received is exempt from state income taxes.

## Index Descriptions

The indexes are unmanaged and include reinvestment of any income or distributions. They do not reflect any fees, expenses or sales charges. One cannot invest directly in an index, and an index is not representative of the Fund's portfolio. Net Returns (NR) include income net of tax withholding when dividends are paid.

See [www.franklintempletondatasources.com](http://www.franklintempletondatasources.com) for additional data provider information.

**Bloomberg 1-3 Month U.S. Treasury Bill Index** measures the performance of U.S. Treasury bills that have a remaining maturity of greater than or equal to one month and less than three months. Treasuries, if held to maturity, offer a fixed rate of return and a fixed principal value; their interest payments and principal are guaranteed.

**Bloomberg U.S. Aggregate Bond Index** measures the performance of the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market. The index includes Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities and commercial mortgage-backed securities (agency and nonagency).

**Bloomberg U.S. Corporate Bond Index** measures the performance of the investment-grade, fixed-rate, taxable corporate bond market. It includes U.S. dollar-denominated securities publicly issued by U.S. and non-U.S. industrial, utility and financial issuers.

**Bloomberg U.S. Corporate High Yield Bond Index** measures the performance of the U.S. dollar-denominated, high-yield, fixed-rate corporate bond market. Securities are classified as high yield if the middle rating of Moody's, Fitch and Standard & Poor's is Ba1/BB+/BB+ or below. Bonds from issuers with an emerging markets (EM) country of risk, based on Bloomberg EM country definition, are excluded.

**Bloomberg U.S. Government - Intermediate Index** is the intermediate component of the Bloomberg U.S. Government Index, which includes U.S. dollar-denominated, fixed-rate, nominal U.S. Treasuries and U.S. agency debentures (securities issued by U.S. government-owned or government-sponsored entities, and debt explicitly guaranteed by the U.S. government).

**Bloomberg U.S. High Yield Very Liquid Index** is a component of the U.S. Corporate High Yield Index that is designed to track a more liquid component of the U.S. dollar-denominated, high-yield, fixed-rate corporate bond market.

**Bloomberg U.S. Mortgage-Backed Securities (MBS) Index** tracks the performance of fixed-rate agency mortgage-backed pass-through securities guaranteed by Ginnie Mae (GNMA), Fannie Mae (FNMA) and Freddie Mac (FHLMC). Effective June 1, 2017, hybrid adjustable-rate mortgages were removed from the index.

**Bloomberg U.S. Treasury Index** measures the performance of U.S. dollar-denominated, fixed-rate, nominal debt issued by the U.S. Treasury with at least one year until final maturity. Treasuries, if held to maturity, offer a fixed rate of return and a fixed principal value; their interest payments and principal are guaranteed.

**FTSE® EPRA®/NAREIT® Developed Index** is a free float-adjusted index designed to measure the performance of publicly traded real estate securities in the North American, European and Asian real estate markets.

**FTSE World Government Bond Index** measures the performance of fixed-rate, local currency, investment-grade sovereign bonds and is stated in U.S. dollar terms.

**J.P. Morgan (JPM) Global Government Bond Index (GGBI)** tracks total returns for liquid, fixed-rate, domestic government bonds with maturities greater than one year issued by developed countries globally.

**Lipper Multi-Sector Income Funds Classification Average** is calculated by averaging the total returns of all funds within the Lipper Multi-Sector Income Funds classification in the Lipper Open-End underlying funds universe. Lipper Multi-Sector Income Funds are defined as funds that seek current income by allocating assets among different fixed income securities sectors (not primarily in one sector except for defensive purposes), including U.S. and foreign governments, with a significant portion rated below investment grade. For the 12-month period ended 12/31/21,

there were 365 funds in this category. Lipper calculations do not include sales charges, but include reinvestment of any income or distributions. Fund performance relative to the average may have differed if these and other factors had been considered.

#### **Lipper VIP General U.S. Government Funds**

**Classification Average** is an equally weighted average calculation of performance figures for all funds within the Lipper General U.S. Government Funds classification in the Lipper VIP underlying funds universe. Lipper General U.S. Government Funds invest primarily in U.S. government and agency issues. For the 12-month period ended 12/31/21, there were 24 funds in this category. Lipper calculations do not include contract fees, expenses or sales charges, and may have been different if such charges had been considered.

**MSCI All Country Asia Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of developed and emerging markets in Asia.

**MSCI All Country World Index (ACWI)** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets.

**MSCI All Country World Index (ACWI)-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets.

**MSCI All Country World Index (ACWI) ex USA Index** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets, excluding the U.S.

**MSCI All Country World Index (ACWI) ex USA Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed and emerging markets, excluding the U.S.

**MSCI Emerging Markets (EM) Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global emerging markets.

**MSCI Europe Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of developed markets in Europe.

**MSCI USA High Dividend Yield Index** is based on the MSCI USA Index, its parent index, and includes large- and mid-capitalization stocks. The index is designed to reflect the performance of equities in the parent index (excluding real estate investment trusts) with higher dividend income and quality characteristics than average dividend yields that are both sustainable and persistent.

**MSCI World ex USA Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed markets, excluding the U.S.

**MSCI World Growth Index-NR** measures large and midcap securities exhibiting overall growth style characteristics across 23 developed markets countries.

**MSCI World Index** is a free float-adjusted, market capitalization-weighted index designed to measure the equity market performance of global developed markets.

**MSCI World Value Index-NR** is a free float-adjusted, market capitalization-weighted index designed to measure the performance of stocks exhibiting overall value style characteristics in global developed markets.

**Russell 1000® Growth Index** is market capitalization weighted and measures the performance of those Russell 1000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

**Russell 1000® Index** is market capitalization weighted and measures the performance of the approximately 1,000 largest companies in the Russell 3000® Index, which represents the majority of the U.S. market's total capitalization.

**Russell 1000® Value Index** is market capitalization weighted and measures the performance of those Russell 1000® Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

**Russell 2000® Index** is market capitalization weighted and measures the performance of the approximately 2,000 smallest companies in the Russell 3000® Index that represent a small amount of the total market capitalization of the Russell 3000® Index.

**Russell 2000® Value Index** is market capitalization weighted and measures the performance of those Russell 2000® Index companies with relatively lower price-to-book ratios and lower forecasted growth rates.

**Russell 2500™ Index** is market capitalization weighted and measures the performance of the approximately 2,500 smallest companies in the Russell 3000 Index® that represent a modest amount of the Russell 3000® Index's total market capitalization.

**Russell 3000® Growth Index** is market capitalization weighted and measures the performance of those Russell 3000® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

**Russell 3000® Index** is market capitalization weighted and measures the performance of the largest 3,000 U.S. companies representing the majority of the U.S. market's total capitalization.

**Russell Midcap® Growth Index** is market capitalization weighted and measures the performance of those Russell Midcap® Index companies with relatively higher price-to-book ratios and higher forecasted growth rates.

**Russell Midcap® Index** is market capitalization weighted and measures the performance of the approximately 800 smallest companies in the Russell 1000® Index that represent a modest amount of the Russell 1000® Index's total market capitalization.

**Standard & Poor's® 500 Index (S&P 500®)** is a market capitalization-weighted index of 500 stocks designed to measure total U.S. equity market performance.

## Board Members and Officers

The name, year of birth and address of the officers and board members, as well as their affiliations, positions held with the Trust, principal occupations during at least the past five years and number of U.S. registered portfolios overseen in the Franklin Templeton/Legg Mason fund complex, are shown below. Generally, each board member serves until that person's successor is elected and qualified.

### Independent Board Members

Name, Year of Birth and Address	Position	Length of Time Served	Number of Portfolios in Fund Complex Overseen by Board Member*	Other Directorships Held During at Least the Past 5 Years
<b>Harris J. Ashton (1932)</b> One Franklin Parkway San Mateo, CA 94403-1906	Trustee	Since 1988	120	Bar-S Foods (meat packing company) (1981-2010).

## Interested Board Members and Officers (continued)

Name, Year of Birth and Address	Position	Length of Time Served	Number of Portfolios in Fund Complex Overseen by Board Member*	Other Directorships Held During at Least the Past 5 Years
<b>Lori A. Weber (1964)</b> 300 S.E. 2nd Street Fort Lauderdale, FL 33301-1923	Vice President and Co-Secretary	Vice President since 2011 and Co-Secretary since 2019	Not Applicable	Not Applicable

**Principal Occupation During at Least the Past 5 Years:**

Senior Associate General Counsel, Franklin Templeton; Assistant Secretary, Franklin Resources, Inc.; Vice President and Secretary, Templeton Investment Counsel, LLC; and officer of certain funds in the Franklin Templeton/Legg Mason fund complex.

\*We base the number of portfolios on each separate series of the U.S. registered investment companies within the Franklin Templeton/Legg Mason fund complex. These portfolios have a common investment manager or affiliated investment managers.

\*\*Gregory E. Johnson is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director of Franklin Resources, Inc. (Resources), which is the parent company of the Fund's investment manager and distributor. Rupert H. Johnson, Jr. is considered to be an interested person of the Fund under the federal securities laws due to his position as an officer and director and major shareholder of Resources.

Note 1: Rupert H. Johnson, Jr. is the uncle of Gregory E. Johnson.

Note 2: Officer information is current as of the date of this report. It is possible that after this date, information about officers may change.

The Sarbanes-Oxley Act of 2002 and Rules adopted by the Securities and Exchange Commission require the Fund to disclose whether the Fund's Audit Committee includes at least one member who is an audit committee financial expert within the meaning of such Act and Rules. The Fund's Board has determined that there is at least one such financial expert on the Audit Committee and has designated Mary C. Choksi as its audit committee financial expert. The Board believes that Ms. Choksi qualifies as such an expert in view of her extensive business background and experience. She served as a director of Avis Budget Group, Inc. (2007-2020) and formerly, Founder and Senior Advisor, Strategic Investment Group (1987 to 2017). Ms. Choksi has been a Member of the Fund's Audit Committee since 2014. As a result of such background and experience, the Board believes that Ms. Choksi has acquired an understanding of generally accepted accounting principles and financial statements, the general application of such principles in connection with the accounting estimates, accruals and reserves, and analyzing and evaluating financial statements that present a breadth and level of complexity of accounting issues generally comparable to those of the Fund, as well as an understanding of internal controls and procedures for financial reporting and an understanding of audit committee functions. Ms. Choksi is an independent Board member as that term is defined under the relevant Securities and Exchange Commission Rules and Releases.

The Statement of Additional Information (SAI) includes additional information about the board members and is available, without charge, upon request. Shareholders may call (800) DIAL BEN/342-5236 to request the SAI.

## Shareholder Information

### Board Approval of Investment Management Agreements

#### FRANKLIN TEMPLETON VARIABLE INSURANCE PRODUCTS TRUST

##### Franklin Allocation VIP Fund (Fund)

At a meeting held on September 8, 2021 (Meeting), the Board of Trustees (Board) of Franklin Templeton Variable Insurance Products Trust (Trust), including a majority of the trustees who are not “interested persons” as defined in the Investment Company Act of 1940 (Independent Trustees), reviewed and approved a new investment sub-advisory agreement between Franklin Advisers, Inc. (Manager), the Fund’s investment manager, and each of Brandywine Global Investment Management, LLC, ClearBridge Investments, LLC, Western Asset Management Company, LLC, and Western Asset Management Company Limited (each a Sub-Adviser and collectively, the Sub-Advisers), on behalf of the Fund (each a Sub-Advisory Agreement) for an initial two-year period. The Independent Trustees received advice from and met separately with Independent Trustee counsel in considering whether to approve each Sub-Advisory Agreement.

The Board reviewed and considered information provided by the Manager and the Sub-Advisers at the Meeting with respect to each Sub-Advisory Agreement. The Board also reviewed and considered the factors it deemed relevant in approving each Sub-Advisory Agreement, including, but not limited to: (i) the nature, extent, and quality of the services to be provided by each Sub-Adviser; and (ii) the costs of the services to be provided by each Sub-Adviser. The Board further reviewed and considered information provided by management showing the expected impact of hiring each Sub-Adviser on the Manager’s profitability consistent with the Order (as defined below). The Board also considered that management proposed that the Board approve each Sub-Advisory Agreement in order to provide the Fund’s portfolio management team with access to additional investment strategies that could be accessed to attain desired exposures across asset allocation portfolios and to diversify holdings in the Fund. The Board reviewed and further considered the form of Sub-Advisory Agreement and the terms of each Sub-Advisory Agreement which were discussed at the Meeting, noting that the terms and conditions of each Sub-Advisory Agreement were

substantially similar to the terms and conditions of the Fund’s other sub-advisory agreements and substantially similar to the terms and conditions of sub-advisory agreements for other Franklin Templeton (FT) mutual funds.

In approving each Sub-Advisory Agreement, the Board, including a majority of the Independent Trustees, determined that the hiring of each Sub-Adviser is in the best interests of the Fund and its shareholders and does not involve a conflict of interest from which the Manager or Sub-Adviser derives an inappropriate advantage. The Board also determined that the terms of each Sub-Advisory Agreement are fair and reasonable and that the approval of such Sub-Advisory Agreement is in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses some primary factors relevant to the Board’s determination.

#### **Nature, Extent and Quality of Services**

The Board reviewed and considered information regarding the nature, extent and quality of investment management services to be provided by each Sub-Adviser and currently being provided by the Manager and its affiliates to the Fund and its shareholders. In doing so, the Board noted that the Fund employs a “manager of managers” structure pursuant to an exemptive order (Order) granted to the Manager by the U.S. Securities and Exchange Commission, whereby the Manager and the Fund may, without shareholder approval, enter into sub-advisory agreements with sub-advisers that are indirect or direct wholly owned subsidiaries of Franklin Resources, Inc. (FRI). In particular, with respect to each Sub-Adviser, the Board took into account that each Sub-Advisory Agreement would not affect how the Fund is managed or the Fund’s investment goal, principal investment strategies or principal risks associated with an investment in the Fund. The Board reviewed and considered information regarding the nature, quality and extent of investment sub-advisory services to be provided by each Sub-Adviser to the Fund and its shareholders under each Sub-Advisory Agreement; each Sub-Adviser’s experience as manager of other funds and accounts, including those within the FT organization; the personnel, operations, financial condition, and investment management capabilities, methodologies and resources of each Sub-Adviser and each Sub-Adviser’s capabilities, as demonstrated by, among other things, its policies and procedures reasonably designed to prevent violations of the federal securities laws.

The Board also reviewed and considered the benefits provided to Fund shareholders of investing in a fund that is part of the FT family of funds. The Board noted the financial position of FRI, the parent of the Manager and each Sub-Adviser, and its commitment to the mutual fund business as evidenced by its reassessment of the fund offerings in response to the market environment and project initiatives and capital investments relating to the services provided to the Funds by the FT organization. The Board specifically noted FT's commitment to enhancing services and controlling costs, as reflected in its outsourcing of certain administrative functions, and growth opportunities, as evidenced by its acquisition of the Legg Mason companies. The Board also noted FT's attention focused on expanding the distribution opportunities for all funds in the FT family of funds.

Following consideration of such information, the Board was satisfied with the nature, extent and quality of services to be provided by each Sub-Adviser and its affiliates to the Fund and its shareholders.

#### **Fund Performance**

The Board noted its review and consideration of the performance results of the Fund in connection with the April 2021 annual contract renewal (Annual Contract Renewal) of the Fund's investment management agreement. The Board recalled its conclusion at that time that the Fund's performance was satisfactory.

#### **Comparative Fees and Expenses**

The Board reviewed and considered information regarding the investment sub-advisory fee to be charged by each Sub-Adviser. The Board noted that the addition of each Sub-Adviser will have no impact on the amount of management fees that are currently paid by the Fund as each Sub-Adviser will be paid by the Manager out of the management fee that the Manager receives from the Fund. The Board further noted that the allocation of the fee between the Manager and each Sub-Adviser reflected the services to be provided by each. The Board concluded that each proposed investment sub-advisory fee is reasonable.

#### **Management Profitability and Economies of Scale**

The Board noted that it reviewed and considered information showing the expected impact of retaining each Sub-Adviser on the profitability of the Manager consistent with the conditions of the Order. The Board determined that its conclusions regarding profitability and economies of scale reached in connection with the Annual Contract Renewal of the investment management agreement with the Manager had not changed as a result of the proposal to approve each Sub-Advisory Agreement.

#### **Conclusion**

Based on its review, consideration and evaluation of all factors it believed relevant, including the above-described factors and conclusions, the Board unanimously approved each Sub-Advisory Agreement for an initial two-year period.

#### **Proxy Voting Policies and Procedures**

The Trust's investment manager has established Proxy Voting Policies and Procedures (Policies) that the Trust uses to determine how to vote proxies relating to portfolio securities. Shareholders may view the Trust's complete Policies online at [franklintempleton.com](http://franklintempleton.com). Alternatively, shareholders may request copies of the Policies free of charge by calling the Proxy Group collect at (954) 527-7678 or by sending a written request to: Franklin Templeton Companies, LLC, 300 S.E. 2nd Street, Fort Lauderdale, FL 33301, Attention: Proxy Group. Copies of the Trust's proxy voting records are also made available online at [franklintempleton.com](http://franklintempleton.com) and posted on the U.S. Securities and Exchange Commission's website at [sec.gov](http://sec.gov) and reflect the most recent 12-month period ended June 30.

#### **Quarterly Statement of Investments**

The Trust files a complete statement of investments with the U.S. Securities and Exchange Commission for the first and third quarters for each fiscal year as an exhibit to its report on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the Commission's website at [sec.gov](http://sec.gov). The filed form may also be viewed and copied at the Commission's Public Reference Room in Washington, DC. Information regarding the operations of the Public Reference Room may be obtained by calling (800) SEC-0330.
