Portfolio overview

Q. What is the Portfolio's investment strategy?

A. The primary investment objective of the Portfolio is to seek long-term growth of capital. Current income is a secondary objective. Under normal circumstances, the Portfolio invests at least 80% of its net assets, plus borrowings for investment purposes, if any, in equity securities, or other investments with similar economic characteristics, of companies with large market capitalizations. The Portfolio may invest up to 20% of its net assets (at the time of investment) in foreign securities.

We emphasize individual security selection while diversifying the Portfolio's investments across industries, which may help to reduce risk. We focus on established large capitalization companies. We utilize an interactive fundamental research-driven approach to identify those companies with favorable valuations and attractive growth potential. In selecting individual companies for investment, we look for companies with competitive market positions, competitive products and services, experienced management teams and stable financial conditions.

We utilize our fundamental research analysts who, using their industry expertise, determine the material ESG (environmental, social and governance) factors facing both individual companies and industry sectors and engage with company management regarding the extent to which they promote best practices of such factors. ESG factors may include, but are not necessarily limited to, environmentally-friendly product initiatives, labor audits of overseas supply chains and strong corporate governance. The choice of ESG factors for any particular company reflects the specific industry.

Q. What were the overall market conditions during the Portfolio's reporting period?

A. U.S. equities generated positive returns for the twelve-month reporting period ended December 31, 2021, grappling with spikes in volatility amid waves of COVID-19 cases throughout the year. The S&P 500 Indexⁱ advanced 28.71%. The Russell 1000 Growth Indexⁱⁱ rose 27.60%, edging out the Russell 1000 Value Indexⁱⁱⁱ, which rose 25.16%. S&P 500 Index returns this year were driven by gains in cyclical¹ sectors such as energy (+54.63%) and financials (+35.04%), which performed well amid a broad economic reopening, real estate (+46.19%), which made up ground lost in 2020, and information technology ("IT") (+34.55%), which continued to benefit from strong secular trends. Defensive sectors such as utilities (+17.67%) and consumer staples (+18.63%) trailed in a risk-on market.

The distribution of COVID-19 vaccines, passage of large fiscal stimulus packages and highly accommodative monetary policy from the Federal Reserve Board (the "Fed") helped to fuel investor optimism through the first half of the reporting period. As consumers spent their stimulus checks and increased vaccination rates helped roll back many of the COVID-19 prevention measures in place for nearly a year, strong corporate earnings and the prospect of greater economic activity helped push markets to a string of new, all-time highs in the

¹ Cyclical consists of the following sectors: energy, financials, materials and industrials.

Portfolio overview (cont'd)

second quarter of 2021. However, headwinds began to emerge in the third quarter of 2021, as the record-setting pace of global growth began to slow.

Markets wavered in September 2021 after the Delta variant of COVID-19 put a pause on recovery plays and higher inflation, helped by shortages of goods, manufacturing inputs and labor, coincided with signals from the Fed that it would reduce its bond buying as early as November and potentially raise the federal funds rate in late 2022 or 2023. Equities delivered a flattish third quarter of 2021 as already-challenging labor and supply shortages and broad-based inflationary pressures intensified, weighing on industrials and materials companies. Robust third quarter of 2021 corporate earnings, however, suggesting companies have largely been able to absorb inflationary pressures, led to strong gains in October. The discovery of the Omicron variant of COVID-19 in late November 2021 reintroduced risks of pandemic-related restrictions, although indications the variant was milder than previous iterations enabled strong market performance to end the year.

Q. How did we respond to these changing market conditions?

A. Broadly, we increased the Portfolio's exposure to high-quality names in economically sensitive areas of the market. We initiated a position in Booking Holdings, an online travel agency with industry-leading margins and a dominant footprint in Europe; TJX, an off-brand retailer with a strong presence in the U.S. and Europe that should continue to benefit from the demise of traditional retailers, particularly as consumer spending resumes; and NXP Semiconductors, a large diversified supplier of semiconductor solutions to a variety of customers, primarily the automotive and industrial end markets, which is positively leveraged to the growth of both electric vehicles and autonomous driving. Additions to Qualcomm reflect our interest in digitization and connectivity. Qualcomm is a truly differentiated, high-IP company with good visibility for several years given its exceptionally strong positioning for 5G; it has roughly 50% more content in 5G devices than 4G devices. At the same time, we trimmed Microsoft and Apple after their strong runups.

In the energy sector we exited Suncor Energy while adding to low-cost, high-quality energy company Enterprise Products Partners LP, as well as to Chevron and ConocoPhillips; we are positive on these companies' strong balance sheets, competitive positions and exposure to an economic recovery.

During the reporting period we trimmed our health care and consumer staples exposure as we continued to focus the portfolio on high-conviction ideas. In health care we sold Novartis and AmerisourceBergen; in the health care sector we also prefer to act with some caution amid persistent regulatory risks. In consumer staples, we found valuations unconvincing broadly and sold Keurig Dr Pepper and Reynolds Consumer Products. At the same time, late in the reporting period, after a strong year for equities, we sought to bolster more defensive areas of the portfolio and added to PepsiCo, increasing our exposure to a high-quality and stable name. To help better navigate an inflationary environment, we added to PPG Industries, a high-quality cyclical coatings company we find attractively valued. The company has implemented aggressive pricing to offset raw material inflation

and should also benefit from recovery in miles driven and air travel, which should support its most profitable segments, aerospace and automotive refinish coatings.

In the fourth quarter of 2021, we added Visa to our stable of companies in the growing payments space, alongside American Express and Capital One. Visa had underperformed significantly in 2021 and continues to face near-term earnings pressure from reduced cross-border travel due to COVID-19. We believe the weakness created an opportunity for us to invest in an exceptionally high-quality payments franchise with an attractive growth and free cash flow profile and little credit or interest rate exposure.

We also took advantage of very strong performance to exit semiconductor equipment manufacturer Lam Research. While Lam Research has extremely valuable technology and an exceptionally robust secular growth story, it is also highly cyclical, and we chose to exit our position after a period of extraordinary performance.

Performance review

For the twelve months ended December 31, 2021, Class I shares of ClearBridge Variable Large Cap Value Portfolio² returned 26.21%. The Portfolio's unmanaged benchmarks, the Russell 1000 Value Index and S&P 500 Index, returned 25.16% and 28.71%, respectively, for the same period. The Lipper Variable Large-Cap Value Funds Category Average^{iv} returned 25.58% over the same time frame.

Performance Snapshot as of December 31, 2021 (unaudited)

	6 months	12 months
ClearBridge Variable Large Cap Value Portfolio:		
Class I	7.04%	26.21%
Russell 1000 Value Index	6.93%	25.16%
S&P 500 Index	11.67%	28.71%
Lipper Variable Large-Cap Value Funds Category Average	7.63%	25.58%

The performance shown represents past performance. Past performance is no guarantee of future results and current performance may be higher or lower than the performance shown above. Principal value and investment returns will fluctuate and investors' shares, when redeemed, may be worth more or less than their original cost.

Portfolio return assumes the reinvestment of all distributions at net asset value and the deduction of all Portfolio expenses. Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

Portfolio performance figures reflect fee waivers and/or expense reimbursements, without which the performance would have been lower.

² The Portfolio is an underlying investment option of various variable annuity and variable life insurance products. The Portfolio's performance returns do not reflect the deduction of expenses imposed in connection with investing in variable annuity or variable life insurance contracts, such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the performance of the Portfolio. **Past performance is no guarantee of future results.**

Portfolio overview (cont'd)

Total Annual Operating Expenses (unaudited)

As of the Portfolio's current prospectus dated May 1, 2021, the gross total annual fund operating expense ratio for Class I shares was 0.73%.

Actual expenses may be higher. For example, expenses may be higher than those shown if average net assets decrease. Net assets are more likely to decrease and Portfolio expense ratios are more likely to increase when markets are volatile.

Q. What were the leading contributors to performance?

A. On an absolute basis, the Portfolio had positive returns in all eleven economic sectors it was invested in during the reporting period, with the greatest contributions to returns coming from the financials, IT, industrials and energy sectors.

Overall stock selection was positive for relative results, in particular stock selection in the IT, industrials, financials and consumer discretionary sectors. An underweight to the consumer staples sector and an overweight to the financials sector were also beneficial.

On an individual stock basis, the leading contributors to performance included positions in Bank of America, ConocoPhillips, JPMorgan Chase, American Express and TE Connectivity.

Q. What were the leading detractors from performance?

A. Relative to the Russell 1000 Value Index, sector allocation detracted, in particular overweights to the communication services and IT sectors and an underweight to the real estate sector. Stock selection in the utilities sector also detracted from the Portfolio's performance for the reporting period.

On an individual stock basis, the detractors from Portfolio performance for the reporting period included the Portfolio holdings in T-Mobile, Charter Communications, Novartis, Merck and Honeywell.

Q. Were there any significant changes to the Portfolio during the reporting period?

A. Over the course of the reporting period, we established new positions in Cisco Systems, Visa and NXP Semiconductors in the IT sector and Booking Holdings and TJX Companies in the consumer discretionary sector. We exited positions in Lam Research in the IT sector, Keurig Dr Pepper and Reynolds Consumer Products in the consumer staples sector, AmerisourceBergen and Novartis in the health care sector and Suncor Energy in the energy sector.

Thank you for your investment in ClearBridge Variable Large Cap Value Portfolio. As always, we appreciate that you have chosen us to manage your assets and we remain focused on achieving the Portfolio's investment goals.

Sincerely,

RISKS: Investments in common stocks are subject to market and price fluctuations. Large capitalization companies may fall out of favor with investors based on market and economic conditions. In return for the relative stability and low volatility of large capitalization companies, the Portfolio's value may not rise as much as the value of funds that invest in companies with smaller market capitalizations. Investing in foreign securities is subject to certain risks not associated with domestic investing, such as currency fluctuations, and changes in social, political and economic conditions, which could increase volatility. These risks are magnified in emerging or developing markets. Emerging market countries tend to have economic, political and legal systems that are less developed and are less stable than those of more developed countries. Please see the Portfolio's prospectus for a more complete discussion of these and other risks and the Portfolio's investment strategies.

Portfolio holdings and breakdowns are as of December 31, 2021 and are subject to change and may not be representative of the portfolio managers' current or future investments. The Portfolio's top ten holdings (as a percentage of net assets) as of December 31, 2021 were: Bank of America Corp. (4.3%), JPMorgan Chase & Co. (4.1%), TE Connectivity Ltd. (3.7%), Sempra Energy (3.3%), American Express Co. (3.1%), Deere & Co. (3.0%), Raytheon Technologies Corp. (2.9%), UnitedHealth Group Inc. (2.8%), Cisco Systems Inc. (2.8%) and ConocoPhillips (2.7%). - ⁱ The S&P 500 Index is an unmanaged index of the stocks of 500 leading companies, and is generally representative of the performance of larger companies in the U.S.
- ⁱⁱ The Russell 1000 Growth Index measures the performance of those Russell 1000 Index companies with higher price-to-book ratios and higher forecasted growth values. (A price-to-book ratio is the price of a stock compared to the difference between a company's assets and liabilities.) The Russell 1000 Index measures the performance of the large-cap segment of the U.S. equity universe. It is a subset of the Russell 3000 Index and includes approximately 1,000 of the largest securities based on a combination of their market cap and current index membership. The Russell 1000 represents approximately 90% of the U.S. market. The Russell 3000 Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the U.S. equity market.
- ⁱⁱⁱ The Russell 1000 Value Index measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 Index companies with lower price-to-book ratios and lower expected growth values.
- ^{iv} Lipper, Inc., a wholly-owned subsidiary of Refinitiv, provides independent insight on global collective investments. Returns are based on the period ended December 31, 2021, including the reinvestment of all distributions, including returns of capital, if any, calculated among the 78 funds for the six-month period and among the 77 funds for the twelve-month period in the Portfolio's Lipper category.

Example

As a shareholder of the Portfolio, you may incur two types of costs: (1) transaction costs and (2) ongoing costs, including management fees and other Portfolio expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio and to compare these costs with the ongoing costs of investing in other funds.

This example is based on an investment of \$1,000 invested on July 1, 2021 and held for the six months ended December 31, 2021.

Actual expenses

The table below titled “Based on Actual Total Return” provides information about actual account values and actual expenses. You may use the information provided in this table, together with the amount you invested, to estimate the expenses that you paid over the period. To estimate the expenses you paid on your account, divide your ending account value by \$1,000 (for example, an \$8,600 ending account value divided by \$1,000 = 8.6), then multiply the result by the number under the heading entitled “Expenses Paid During the Period”.

Hypothetical example for comparison purposes

The table below titled “Based on Hypothetical Total Return” provides information about hypothetical account values and hypothetical expenses based on the actual expense ratio and an assumed rate of return of 5.00% per year before expenses, which is not the Portfolio’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use the information provided in this table to compare the ongoing costs of investing in the Portfolio and other funds. To do so, compare the 5.00% hypothetical example relating to the Portfolio with the 5.00% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table below are meant to highlight your ongoing costs only and do not reflect any transactional costs. Therefore, the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Based on actual total return ¹					Based on hypothetical total return ¹						
	Actual Total Return ²	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During the Period ³		Hypothetical Annualized Total Return	Beginning Account Value	Ending Account Value	Annualized Expense Ratio	Expenses Paid During the Period ³

¹ For the six months ended December 31, 2021.

² Assumes the reinvestment of all distributions, including returns of capital, if any, at net asset value. Total return is not annualized, as it may not be representative of the total return for the year. Total returns do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges, which, if reflected, would reduce the total returns. Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower. Past performance is no guarantee of future results.

³ Expenses (net of compensating balance arrangements, fee waivers and/or expense reimbursements) are equal to the class’ annualized expense ratio multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year (184), then divided by 365.

¹ Per share amounts have been calculated using the average shares method.

² Performance figures may reflect compensating balance arrangements, fee waivers and/or expense reimbursements. In the absence of compensating balance arrangements, fee waivers and/or expense reimbursements, the total return would have been lower. Total returns do not reflect expenses associated with separate accounts such as administrative fees, account charges and surrender charges which, if reflected, would reduce the total return for all periods shown. Past performance is no guarantee of future results.

³ As a result of an expense limitation arrangement, the ratio of total annual fund operating expenses, other than interest, brokerage, taxes, extraordinary expenses and acquired fund fees and expenses, to average net assets of Class I shares did not exceed 0.80%. This expense limitation arrangement cannot be terminated prior to December 31, 2023 without the Board of Trustees' consent. In addition, the manager has agreed to waive the Portfolio's management fee to an extent sufficient to offset the net management fee payable in connection with any investment in an affiliated money market fund.

Notes to financial statements

1. Organization and significant accounting policies

ClearBridge Variable Large Cap Value Portfolio (the "Portfolio") is a separate diversified investment series of Legg Mason Partners Variable Equity Trust (the "Trust"). The Trust, a Maryland statutory trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company.

Shares of the Portfolio may only be purchased or redeemed through variable annuity contracts and variable life insurance policies offered by the separate accounts of participating insurance companies or through eligible pension or other qualified plans.

The following are significant accounting policies consistently followed by the Portfolio and are in conformity with U.S. generally accepted accounting principles ("GAAP"). Estimates and assumptions are required to be made regarding assets, liabilities and changes in net assets resulting from operations when financial statements are prepared. Changes in the economic environment, financial markets and any other parameters used in determining these estimates could cause actual results to differ. Subsequent events have been evaluated through the date the financial statements were issued.

(a) Investment valuation. Equity securities for which market quotations are available are valued at the last reported sales price or official closing price on the primary market or exchange on which they trade. The valuations for fixed income securities (which may include, but are not limited to, corporate, government, municipal, mortgage-backed, collateralized mortgage obligations and asset-backed securities) and certain derivative instruments are typically the prices supplied by independent third party pricing services, which may use market prices or broker/dealer quotations or a variety of valuation techniques and methodologies. The independent third party pricing services typically use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar securities. Investments in open-end funds are valued at the closing net asset value per share of each fund on the day of valuation. When the Portfolio holds securities or other assets that are denominated in a foreign currency, the Portfolio will normally use the currency exchange rates as of 4:00 p.m. (Eastern Time). If independent third party pricing services are unable to supply prices for a portfolio investment, or if the prices supplied are deemed by the manager to be unreliable, the market price may be determined by the manager using quotations from one or more broker/dealers or at the transaction price if the security has recently been purchased and no value has yet been obtained from a pricing service or pricing broker. When reliable prices are not readily available, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Portfolio calculates its net asset value, the Portfolio values these securities as determined in accordance with procedures approved by the Portfolio's Board of Trustees.

The Board of Trustees is responsible for the valuation process and has delegated the supervision of the daily valuation process to the Global Fund Valuation Committee (known as Legg Mason North Atlantic Fund Valuation Committee prior to March 1, 2021) (the "Valuation Committee"). The Valuation Committee, pursuant to the policies adopted by the Board of Trustees, is responsible for making fair value determinations, evaluating the

Notes to financial statements (cont'd)

effectiveness of the Portfolio's pricing policies, and reporting to the Board of Trustees. When determining the reliability of third party pricing information for investments owned by the Portfolio, the Valuation Committee, among other things, conducts due diligence reviews of pricing vendors, monitors the daily change in prices and reviews transactions among market participants.

The Valuation Committee will consider pricing methodologies it deems relevant and appropriate when making fair value determinations. Examples of possible methodologies include, but are not limited to, multiple of earnings; discount from market of a similar freely traded security; discounted cash-flow analysis; book value or a multiple thereof; risk premium/yield analysis; yield to maturity; and/or fundamental investment analysis. The Valuation Committee will also consider factors it deems relevant and appropriate in light of the facts and circumstances. Examples of possible factors include, but are not limited to, the type of security; the issuer's financial statements; the purchase price of the security; the discount from market value of unrestricted securities of the same class at the time of purchase; analysts' research and observations from financial institutions; information regarding any transactions or offers with respect to the security; the existence of merger proposals or tender offers affecting the security; the price and extent of public trading in similar securities of the issuer or comparable companies; and the existence of a shelf registration for restricted securities.

For each portfolio security that has been fair valued pursuant to the policies adopted by the Board of Trustees, the fair value price is compared against the last available and next available market quotations. The Valuation Committee reviews the results of such back testing monthly and fair valuation occurrences are reported to the Board of Trustees quarterly.

The Portfolio uses valuation techniques to measure fair value that are consistent with the market approach and/or income approach, depending on the type of security and the particular circumstance. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable securities. The income approach uses valuation techniques to discount estimated future cash flows to present value.

GAAP establishes a disclosure hierarchy that categorizes the inputs to valuation techniques used to value assets and liabilities at measurement date. These inputs are summarized in the three broad levels listed below:

- Level 1 — quoted prices in active markets for identical investments
- Level 2 — other significant observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 — significant unobservable inputs (including the Portfolio's own assumptions in determining the fair value of investments)

The inputs or methodologies used to value securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Portfolio's assets carried at fair value:

ASSETS				
Description	Quoted Prices (Level 1)	Other Significant Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Common Stock†	\$314,892,446	—	—	\$314,892,446
Short-Term Investments†	8,239,896	—	—	8,239,896
Total Investments	\$323,132,342	—	—	\$323,132,342

† See Schedule of Investments for additional detailed categorizations.

(b) Foreign investment risks. The Portfolio's investments in foreign securities may involve risks not present in domestic investments. Since securities may be denominated in foreign currencies, may require settlement in foreign currencies or may pay interest or dividends in foreign currencies, changes in the relationship of these foreign currencies to the U.S. dollar can significantly affect the value of the investments and earnings of the Portfolio. Foreign investments may also subject the Portfolio to foreign government exchange restrictions, expropriation, taxation or other political, social or economic developments, all of which affect the market and/or credit risk of the investments.

(c) Security transactions and investment income. Security transactions are accounted for on a trade date basis. Interest income (including interest income from payment-in-kind securities), adjusted for amortization of premium and accretion of discount, is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date for dividends received in cash and/or securities. Foreign dividend income is recorded on the ex-dividend date or as soon as practicable after the Portfolio determines the existence of a dividend declaration after exercising reasonable due diligence. The cost of investments sold is determined by use of the specific identification method. To the extent any issuer defaults or a credit event occurs that impacts the issuer, the Portfolio may halt any additional interest income accruals and consider the realizability of interest accrued up to the date of default or credit event.

(d) REIT distributions. The character of distributions received from Real Estate Investment Trusts ("REITs") held by the Portfolio is generally comprised of net investment income, capital gains, and return of capital. It is the policy of the Portfolio to estimate the character of distributions received from underlying REITs based on historical data provided by the REITs. After each calendar year end, REITs report the actual tax character of these distributions. Differences between the estimated and actual amounts reported by the REITs are reflected in the Portfolio's records in the year in which they are reported by the REITs by adjusting related investment cost basis, capital gains and income, as necessary.

(e) Distributions to shareholders. Distributions from net investment income and distributions of net realized gains, if any, are declared at least annually. Distributions to shareholders of the Portfolio are recorded on the ex-dividend date and are determined in accordance with income tax regulations, which may differ from GAAP.

Notes to financial statements (cont'd)

(f) Compensating balance arrangements. The Portfolio has an arrangement with its custodian bank whereby a portion of the custodian's fees is paid indirectly by credits earned on the Portfolio's cash on deposit with the bank.

(g) Federal and other taxes. It is the Portfolio's policy to comply with the federal income and excise tax requirements of the Internal Revenue Code of 1986 (the "Code"), as amended, applicable to regulated investment companies. Accordingly, the Portfolio intends to distribute its taxable income and net realized gains, if any, to shareholders in accordance with timing requirements imposed by the Code. Therefore, no federal or state income tax provision is required in the Portfolio's financial statements.

Management has analyzed the Portfolio's tax positions taken on income tax returns for all open tax years and has concluded that as of December 31, 2021, no provision for income tax is required in the Portfolio's financial statements. The Portfolio's federal and state income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Under the applicable foreign tax laws, a withholding tax may be imposed on interest, dividends and capital gains at various rates.

(h) Reclassification. GAAP requires that certain components of net assets be reclassified to reflect permanent differences between financial and tax reporting. These reclassifications have no effect on net assets or net asset value per share. During the current year, the following reclassifications have been made:

	Total Distributable Earnings (Loss)	Paid-in Capital
(a)	\$495	\$(495)

(a) Reclassifications are due to differences between actual and estimated information for the prior year related to the Portfolio's investments in limited partnerships.

2. Investment management agreement and other transactions with affiliates

Legg Mason Partners Fund Advisor, LLC ("LMPFA") is the Portfolio's investment manager and ClearBridge Investments, LLC ("ClearBridge") is the Portfolio's subadviser. Western Asset Management Company, LLC ("Western Asset") manages the portion of the Portfolio's cash and short-term instruments allocated to it. LMPFA, ClearBridge and Western Asset are indirect, wholly-owned subsidiaries of Franklin Resources, Inc. ("Franklin Resources").

Under the investment management agreement, the Portfolio pays an investment management fee, calculated daily and paid monthly, in accordance with the following breakpoint schedule:

Average Daily Net Assets	Annual Rate
First \$350 million	0.650%
Next \$150 million	0.550
Next \$250 million	0.525
Next \$250 million	0.500
Over \$1 billion	0.450

LMPFA provides administrative and certain oversight services to the Portfolio. LMPFA delegates to the subadviser the day-to-day portfolio management of the Portfolio, except for the management of the portion of the Portfolio's cash and short-term instruments allocated to Western Asset. For its services, LMPFA pays ClearBridge a fee monthly, at an annual rate equal to 70% of the net management fee it receives from the Portfolio. For Western Asset's services to the Portfolio, LMPFA pays Western Asset monthly 0.02% of the portion of the Portfolio's average daily net assets that are allocated to Western Asset by LMPFA.

As a result of an expense limitation arrangement between the Portfolio and LMPFA, the ratio of total annual fund operating expenses, other than interest, brokerage, taxes, extraordinary expenses and acquired fund fees and expenses, to average net assets of Class I shares did not exceed 0.80%. This expense limitation arrangement cannot be terminated prior to December 31, 2023 without the Board of Trustees' consent. In addition, the manager has agreed to waive the Portfolio's management fee to an extent sufficient to offset the net management fee payable in connection with any investment in an affiliated money market fund (the "affiliated money market fund waiver"). The affiliated money market fund waiver is not subject to the recapture provision discussed below.

During the year ended December 31, 2021, fees waived and/or expenses reimbursed amounted to \$88, all of which was an affiliated money market fund waiver.

LMPFA is permitted to recapture amounts waived and/or reimbursed to a class during the same fiscal year if the class' total annual fund operating expenses have fallen to a level below the expense limitation ("expense cap") in effect at the time the fees were earned or the expenses incurred. In no case will LMPFA recapture any amount that would result, on any particular business day of the Portfolio, in the class' total annual fund operating expenses exceeding the expense cap or any other lower limit then in effect.

Franklin Distributors, LLC (known as Legg Mason Investor Services, LLC prior to July 7, 2021) ("Franklin Distributors") serves as the Portfolio's sole and exclusive distributor. Franklin Distributors is an indirect, wholly-owned broker-dealer subsidiary of Franklin Resources.

All officers and one Trustee of the Trust are employees of Franklin Resources or its affiliates and do not receive compensation from the Trust.

3. Investments

During the year ended December 31, 2021, the aggregate cost of purchases and proceeds from sales of investments (excluding short-term investments) were as follows:

Purchases	\$48,584,387
Sales	72,339,879

Notes to financial statements (cont'd)

At December 31, 2021, the aggregate cost of investments and the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were as follows:

	Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation
Securities	\$160,338,559	\$163,280,554	\$(486,771)	\$162,793,783

4. Derivative instruments and hedging activities

During the year ended December 31, 2021, the Portfolio did not invest in derivative instruments.

5. Shares of beneficial interest

At December 31, 2021, the Trust had an unlimited number of shares of beneficial interest authorized with a par value of \$0.00001 per share. The Portfolio has the ability to issue multiple classes of shares. Each class of shares represents an identical interest and has the same rights, except that each class bears certain direct expenses, including those specifically related to the distribution of its shares.

Transactions in shares of the Portfolio were as follows:

	Year Ended December 31, 2021	Year Ended December 31, 2020
Class I		
Shares sold	1,490,994	1,315,963
Shares issued on reinvestment	1,316,724	1,587,049
Shares repurchased	(2,480,288)	(2,643,686)
Net increase	327,430	259,326

6. Transactions with affiliated company

As defined by the 1940 Act, an affiliated company is one in which the Portfolio owns 5% or more of the outstanding voting securities, or a company which is under common ownership or control with the Portfolio. The following company was considered an affiliated company for all or some portion of the year ended December 31, 2021. The following transactions were effected in such company for the year ended December 31, 2021.

	Affiliate Value at December 31, 2020	Purchased		Sold	
		Cost	Shares	Cost	Shares
Western Asset Premier Institutional U.S. Treasury Reserves, Premium Shares	\$492,289	\$9,894,720	9,894,720	\$8,739,030	8,739,030

(cont'd)	Realized Gain (Loss)	Dividend Income	Net Increase (Decrease) in Unrealized Appreciation (Depreciation)	Affiliate Value at December 31, 2021
Western Asset Premier Institutional U.S. Treasury Reserves, Premium Shares	—	\$85	—	\$1,647,979

7. Income tax information and distributions to shareholders

The tax character of distributions paid during the fiscal years ended December 31, was as follows:

	2021	2020
Distributions paid from:		
Ordinary income	\$ 4,622,058	\$ 3,500,007
Net long-term capital gains	24,946,204	27,368,632
Total distributions paid	\$29,568,262	\$30,868,639

As of December 31, 2021, the components of distributable earnings (loss) on a tax basis were as follows:

Undistributed ordinary income — net	\$ 929,926
Undistributed long-term capital gains — net	4,720,944
Total undistributed earnings	\$ 5,650,870
Other book/tax temporary differences ^(a)	(590,382)
Unrealized appreciation (depreciation) ^(b)	162,793,783
Total distributable earnings (loss) — net	\$167,854,271

^(a) Other book/tax temporary differences are attributable to book/tax differences in the treatment of certain passive activity losses from partnership investments and book/tax differences in the timing of the deductibility of various expenses.

^(b) The difference between book-basis and tax-basis unrealized appreciation (depreciation) is attributable to the tax deferral of losses on wash sales and the difference between the book and tax cost basis in partnership investments.

8. Recent accounting pronouncement

In March 2020, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2020-04, *Reference Rate Reform (Topic 848) – Facilitation of the Effects of Reference Rate Reform on Financial Reporting*. In January 2021, the FASB issued ASU No. 2021-01, with further amendments to Topic 848. The amendments in the ASUs provide optional temporary accounting recognition and financial reporting relief from the effect of certain types of contract modifications due to the planned discontinuation of the LIBOR and other interbank-offered based reference rates as of the end of 2021 and 2023. The ASUs are effective for certain reference rate-related contract modifications that occur during the period March 12, 2020 through December 31, 2022. Management has reviewed the requirements and believes the adoption of these ASUs will not have a material impact on the financial statements.

Notes to financial statements (cont'd)

9. Other matter

The outbreak of the respiratory illness COVID-19 (commonly referred to as “coronavirus”) has continued to rapidly spread around the world, causing considerable uncertainty for the global economy and financial markets. The ultimate economic fallout from the pandemic, and the long-term impact on economies, markets, industries and individual issuers, are not known. The COVID-19 pandemic could adversely affect the value and liquidity of the Portfolio’s investments, impair the Portfolio’s ability to satisfy redemption requests, and negatively impact the Portfolio’s performance. In addition, the outbreak of COVID-19, and measures taken to mitigate its effects, could result in disruptions to the services provided to the Portfolio by its service providers.

10. Subsequent event

On February 4, 2022, the Portfolio, together with other U.S. registered and foreign investment funds (collectively, the “Borrowers”) managed by Franklin Resources or its affiliates, became a borrower in a joint syndicated senior unsecured credit facility totaling \$2.675 billion (the “Global Credit Facility”). The Global Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the ability to meet future unanticipated or unusually large redemption requests. Unless renewed, the Global Credit Facility will terminate on February 3, 2023.

Report of independent registered public accounting firm

To the Board of Trustees of Legg Mason Partners Variable Equity Trust and Shareholders of ClearBridge Variable Large Cap Value Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of investments, of ClearBridge Variable Large Cap Value Portfolio (one of the funds constituting Legg Mason Partners Variable Equity Trust, referred to hereafter as the “Fund”) as of December 31, 2021, the related statement of operations for the year ended December 31, 2021, the statement of changes in net assets for each of the two years in the period ended December 31, 2021, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2021 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Fund as of December 31, 2021, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2021 and the financial highlights for each of the five years in the period ended December 31, 2021 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Fund’s management. Our responsibility is to express an opinion on the Fund’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Fund in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2021 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

Statement regarding liquidity risk management program (unaudited)

Each Fund has adopted and implemented a written Liquidity Risk Management Program (the “LRMP”) as required by Rule 22e-4 under the Investment Company Act of 1940 (the “Liquidity Rule”). The LRMP is designed to assess and manage each Fund’s liquidity risk, which is defined as the risk that the Fund could not meet requests to redeem shares issued by the Fund without significant dilution of remaining investors’ interests in the Fund. In accordance with the Liquidity Rule, the LRMP includes policies and procedures that provide for: (1) assessment, management, and review (no less frequently than annually) of each Fund’s liquidity risk; (2) classification of each Fund’s portfolio holdings into one of four liquidity categories (Highly Liquid, Moderately Liquid, Less Liquid, and Illiquid); (3) for Funds that do not primarily hold assets that are Highly Liquid, establishing and maintaining a minimum percentage of the Fund’s net assets in Highly Liquid investments (called a “Highly Liquid Investment Minimum” or “HLIM”); and (4) prohibiting the Fund’s acquisition of Illiquid investments that would result in the Fund holding more than 15% of its net assets in Illiquid assets. The LRMP also requires reporting to the Securities and Exchange Commission (“SEC”) (on a non-public basis) and to the Board if the Fund’s holdings of Illiquid assets exceed 15% of the Fund’s net assets. Funds with HLIMs must have procedures for addressing HLIM shortfalls, including reporting to the Board and, with respect to HLIM shortfalls lasting more than seven consecutive calendar days, reporting to the SEC (on a non-public basis).

The Director of Liquidity Risk within the Investment Risk Management Group (the “IRMG”) is the appointed Administrator of the LRMP. The IRMG maintains the Investment Liquidity Committee (the “ILC”) to provide oversight and administration of policies and procedures governing liquidity risk management for Franklin Templeton and Legg Mason products and portfolios. The ILC includes representatives from Franklin Templeton’s Risk, Trading, Global Compliance, Legal, Investment Compliance, Investment Operations, Valuation Committee, Product Management and Global Product Strategy.

In assessing and managing each Fund’s liquidity risk, the ILC considers, as relevant, a variety of factors, including the Fund’s investment strategy and the liquidity of its portfolio investments during both normal and reasonably foreseeable stressed conditions; its short and long-term cash flow projections; and its cash holdings and access to other funding sources including the Funds’ interfund lending facility and line of credit. Classification of the Fund’s portfolio holdings in the four liquidity categories is based on the number of days it is reasonably expected to take to convert the investment to cash (for Highly Liquid and Moderately Liquid holdings) or sell or dispose of the investment (for Less Liquid and Illiquid investments), in current market conditions without significantly changing the investment’s market value.

Each Fund primarily holds liquid assets that are defined under the Liquidity Rule as “Highly Liquid Investments,” and therefore is not required to establish an HLIM. Highly Liquid

Investments are defined as cash and any investment reasonably expected to be convertible to cash in current market conditions in three business days or less without the conversion to cash significantly changing the market value of the investment.

At meetings of the Funds' Board of Trustees/Directors held in November 2021, the Program Administrator provided a written report to the Board addressing the adequacy and effectiveness of the program for the year ended December 31, 2020. The Program Administrator report concluded that (i.) the LRMP, as adopted and implemented, remains reasonably designed to assess and manage each Fund's liquidity risk; (ii.) the LRMP, including the Highly Liquid Investment Minimum ("HLIM") where applicable, was implemented and operated effectively to achieve the goal of assessing and managing each Fund's liquidity risk; and (iii.) each Fund was able to meet requests for redemption without significant dilution of remaining investors' interests in the Fund.

Information about Trustees and Officers

The business and affairs of ClearBridge Variable Large Cap Value Portfolio (the “Portfolio”) are conducted by management under the supervision and subject to the direction of its Board of Trustees. The business address of each Trustee is c/o Jane Trust, Legg Mason, 100 International Drive, 11th Floor, Baltimore, Maryland 21202. Information pertaining to the Trustees and officers of the Portfolio is set forth below.

Previously, the mutual funds of Legg Mason Global Asset Management Trust were overseen by one group of Trustees, and the mutual funds of Legg Mason Partners Investment Trust and Legg Mason Partners Variable Equity Trust (collectively, the “Funds”) were overseen by a different group of Trustees. A joint proxy statement was mailed to solicit shareholder approval for the election of a single slate of Trustees. Shareholders approved the proposed Trustees during a joint special meeting of shareholders on June 15, 2021. Effective July 1, 2021, the Trustees listed below oversee all of the Funds.

The Statement of Additional Information includes additional information about Trustees and is available, without charge, upon request by calling the Portfolio at 1-877-6LM-FUND/656-3863.

Legg Mason Funds Privacy and Security Notice

Your Privacy and the Security of Your Personal Information is Very Important to the Legg Mason Funds

This Privacy and Security Notice (the “Privacy Notice”) addresses the Legg Mason Funds’ privacy and data protection practices with respect to nonpublic personal information the Funds receive. The Legg Mason Funds include any funds sold by the Funds’ distributor, Franklin Distributors, LLC, as well as Legg Mason-sponsored closed-end funds. The provisions of this Privacy Notice apply to your information both while you are a shareholder and after you are no longer invested with the Funds.

The Type of Nonpublic Personal Information the Funds Collect About You

The Funds collect and maintain nonpublic personal information about you in connection with your shareholder account. Such information may include, but is not limited to:

- Personal information included on applications or other forms;
- Account balances, transactions, and mutual fund holdings and positions;
- Bank account information, legal documents, and identity verification documentation;
- Online account access user IDs, passwords, security challenge question responses; and
- Information received from consumer reporting agencies regarding credit history and creditworthiness (such as the amount of an individual’s total debt, payment history, etc.).

How the Funds Use Nonpublic Personal Information About You

The Funds do not sell or share your nonpublic personal information with third parties or with affiliates for their marketing purposes, or with other financial institutions or affiliates for joint marketing purposes, unless you have authorized the Funds to do so. The Funds do not disclose any nonpublic personal information about you except as may be required to perform transactions or services you have authorized or as permitted or required by law.

The Funds may disclose information about you to:

- Employees, agents, and affiliates on a “need to know” basis to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Service providers, including the Funds’ affiliates, who assist the Funds as part of the ordinary course of business (such as printing, mailing services, or processing or servicing your account with us) or otherwise perform services on the Funds’ behalf, including companies that may perform statistical analysis, market research and marketing services solely for the Funds;
- Permit access to transfer, whether in the United States or countries outside of the United States to such Funds’ employees, agents and affiliates and service providers as required to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- The Funds’ representatives such as legal counsel, accountants and auditors to enable the Funds to conduct ordinary business, or to comply with obligations to government regulators;
- Fiduciaries or representatives acting on your behalf, such as an IRA custodian or trustee of a grantor trust.

Legg Mason Funds Privacy and Security Notice (cont'd)

Except as otherwise permitted by applicable law, companies acting on the Funds' behalf, including those outside the United States, are contractually obligated to keep nonpublic personal information the Funds provide to them confidential and to use the information the Funds share only to provide the services the Funds ask them to perform. The Funds may disclose nonpublic personal information about you when necessary to enforce their rights or protect against fraud, or as permitted or required by applicable law, such as in connection with a law enforcement or regulatory request, subpoena, or similar legal process. In the event of a corporate action or in the event a Fund service provider changes, the Funds may be required to disclose your nonpublic personal information to third parties. While it is the Funds' practice to obtain protections for disclosed information in these types of transactions, the Funds cannot guarantee their privacy policy will remain unchanged.

Keeping You Informed of the Funds' Privacy and Security Practices

The Funds will notify you annually of their privacy policy as required by federal law. While the Funds reserve the right to modify this policy at any time they will notify you promptly if this privacy policy changes.

The Funds' Security Practices

The Funds maintain appropriate physical, electronic and procedural safeguards designed to guard your nonpublic personal information. The Funds' internal data security policies restrict access to your nonpublic personal information to authorized employees, who may use your nonpublic personal information for Fund business purposes only.

Although the Funds strive to protect your nonpublic personal information, they cannot ensure or warrant the security of any information you provide or transmit to them, and you do so at your own risk. In the event of a breach of the confidentiality or security of your nonpublic personal information, the Funds will attempt to notify you as necessary, so you can take appropriate protective steps. If you have consented to the Funds using electronic communications or electronic delivery of statements, they may notify you under such circumstances using the most current email address you have on record with them.

In order for the Funds to provide effective service to you, keeping your account information accurate is very important. If you believe that your account information is incomplete, not accurate or not current, if you have questions about the Funds' privacy practices, or our use of your nonpublic personal information, write the Funds using the contact information on your account statements, email the Funds by clicking on the Contact Us section of the Funds' website at www.franklintempleton.com, or contact the Fund at 1-877-6LM-FUND/656-3863.

Revised April 2018

Legg Mason California Consumer Privacy Act Policy

Although much of the personal information we collect is "nonpublic personal information" subject to federal law, residents of California may, in certain circumstances, have additional rights under the California Consumer Privacy Act ("CCPA"). For example, if you are a broker,

Legg Mason Funds Privacy and Security Notice (cont'd)

dealer, agent, fiduciary, or representative acting by or on behalf of, or for, the account of any other person(s) or household, or a financial advisor, or if you have otherwise provided personal information to us separate from the relationship we have with personal investors, the provisions of this Privacy Policy apply to your personal information (as defined by the CCPA).

- In addition to the provisions of the Legg Mason Funds Security and Privacy Notice, you may have the right to know the categories and specific pieces of personal information we have collected about you.
- You also have the right to request the deletion of the personal information collected or maintained by the Funds.

If you wish to exercise any of the rights you have in respect of your personal information, you should advise the Funds by contacting them as set forth below. The rights noted above are subject to our other legal and regulatory obligations and any exemptions under the CCPA. You may designate an authorized agent to make a rights request on your behalf, subject to the identification process described below. We do not discriminate based on requests for information related to our use of your personal information, and you have the right not to receive discriminatory treatment related to the exercise of your privacy rights.

We may request information from you in order to verify your identity or authority in making such a request. If you have appointed an authorized agent to make a request on your behalf, or you are an authorized agent making such a request (such as a power of attorney or other written permission), this process may include providing a password/passcode, a copy of government issued identification, affidavit or other applicable documentation, i.e. written permission. We may require you to verify your identity directly even when using an authorized agent, unless a power of attorney has been provided. We reserve the right to deny a request submitted by an agent if suitable and appropriate proof is not provided.

For the 12-month period prior to the date of this Privacy Policy, the Legg Mason Funds have not sold any of your personal information; nor do we have any plans to do so in the future.
