Andrew Owen

President
Wells Fargo Funds

Dear Shareholder:

We are pleased to offer you this semi-annual report for the Wells Fargo VT Opportunity Fund for the six-month period that ended June 30, 2021. Global stocks continued to rally as the global economy continued to emerge from the haze of COVID-19. Tailwinds were provided by global stimulus programs, a rapid vaccination rollout, and recovering consumer and corporate sentiment. Bonds were mixed during the period, with municipal bonds and high-yield bonds delivering positive returns.

For the six-month period, U.S. stocks, based on the S&P 500 Index,¹ gained 15.25%. International stocks, as measured by the MSCI ACWI ex USA Index (Net),² returned 9.16%, while the MSCI EM Index (Net),³ trailed its developed market counterparts with a 7.45% gain. Among bond indexes, the Bloomberg Barclays U.S. Aggregate Bond Index,⁴ returned -1.60%, the Bloomberg Barclays Global Aggregate ex-USD Index (unhedged),⁵ returned -4.42%, the Bloomberg Barclays Municipal Bond Index,⁶ returned 1.06%, and the ICE BofA U.S. High Yield Index,⁷ returned 3.70%.

Vaccination rollout drove the stock markets to new highs.

The year 2021 began with emerging market stocks leading all major asset classes in January, driven by China's strong economic growth and a broad recovery in corporate earnings, which propelled China's stock market higher. In the United States, positive news on vaccine trials and January expansion in both the manufacturing and services sectors was offset by a weak December monthly jobs report. This was compounded by technical factors as some hedge funds were forced to sell stocks to protect themselves against a well-publicized short squeeze coordinated by a group of retail investors. Eurozone sentiment and economic growth were particularly weak, reflecting the impact of a new lockdown with stricter social distancing along with a slow vaccine rollout.

February saw major domestic equity indexes driven higher on the hope of a new stimulus bill, improving COVID-19 vaccination numbers, and the gradual reopening of the economy. Most S&P 500 companies reported better-than-expected earnings, with positive surprises coming from the financials, information technology, health care, and materials sectors. Japan saw its economy strengthen as a result of strong export numbers. Meanwhile, crude oil prices continued their climb, rising more than 25% for the year. Domestic government bonds experienced a sharp sell-off in late February as markets priced in a more robust economic recovery and higher future growth and inflation expectations.

¹ The S&P 500 Index consists of 500 stocks chosen for market size, liquidity, and industry group representation. It is a market-value-weighted index with each stock's weight in the index proportionate to its market value. You cannot invest directly in an index.

² The Morgan Stanley Capital International (MSCI) All Country World Index (ACWI) ex USA Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the United States. Source: MSCI. MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used as a basis for other indices or any securities or financial products. This report is not approved, reviewed, or produced by MSCI. You cannot invest directly in an index.

³ The MSCI Emerging Markets (EM) Index (Net) is a free-float-adjusted market-capitalization-weighted index that is designed to measure equity market performance of emerging markets. You cannot invest directly in an index.

⁴ The Bloomberg Barclays U.S. Aggregate Bond Index is a broad-based benchmark that measures the investment-grade, U.S. dollar-denominated, fixed-rate taxable bond market, including Treasuries, government-related and corporate securities, mortgage-backed securities (agency fixed-rate and hybrid adjustable-rate mortgage pass-throughs), asset-backed securities, and commercial mortgage-backed securities. You cannot invest directly in an index.

⁵ The Bloomberg Barclays Global Aggregate ex-USD Index (unhedged) is an unmanaged index that provides a broad-based measure of the global investment-grade fixed-income markets excluding the U.S. dollar-denominated debt market. You cannot invest directly in an index.

⁶ The Bloomberg Barclays Municipal Bond Index is an unmanaged index composed of long-term tax-exempt bonds with a minimum credit rating of Baa. You cannot invest directly in an index.

⁷ The ICE BofA U.S. High Yield Index is a market-capitalization-weighted index of domestic and Yankee high-yield bonds. The index tracks the performance of high-yield securities traded in the U.S. bond market. You cannot invest directly in an index. Copyright 2021. ICE Data Indices, LLC. All rights reserved.

The passage of the massive domestic stimulus bill highlighted March activity, leading to increased forecasts for U.S. growth in 2021. Domestic employment surged as COVID-19 vaccinations and an increasingly open economy spurred hiring. A majority of U.S. small companies reported they are operating at pre-pandemic capacity or higher. Value continued its outperformance of growth in the month, continuing the trend that started in late 2020. Meanwhile, most major developed global equity indexes are up month to date on the back of rising optimism regarding the outlook for global growth. While the U.S. and the U.K. have been the most successful in terms of the vaccine rollout, even in markets where the vaccine has lagged, such as in the eurozone and Japan, equity indexes in many of those countries are also in positive territory this year.

Equity markets produced another strong showing in April. Domestically, the continued reopening of the economy had a strong impact on positive equity performance, as people started leaving their households and jobless claims continued to fall. Domestic corporate bonds performed well and the U.S. dollar weakened. Meanwhile, the U.S. government continued to seek to invest in the recovery, this time by outlining a package of over \$2 trillion to improve infrastructure. The primary headwind in April was inflation, as investors tried to determine the breadth and longevity of recent price increases. Developed Europe has been supported by a meaningful increase in the pace of vaccinations. Unfortunately many emerging market countries have not been as successful. India in particular has seen COVID-19 cases surge, serving as an example of the need to get vaccinations rolled out to less developed nations.

Vaccine rollouts continued in May, leading to loosened restrictions globally. As a result, equity markets in general saw a minor increase in returns. Concerns that the continued economic rebound could result in inflation increases becoming more than transitory were supported by the higher input costs businesses are experiencing. Meanwhile, those inflation concerns were tempered by the U.S. Federal Reserve Board (Fed), which stayed steady on its view of the economy and eased fears of a sudden and substantial policy change. Positive performance in the emerging market equity space was supported this month by steady consumer demand and strong commodity prices. Fixed-income markets were also slightly positive for the month, driven by inflation uncertainty and a softer U.S. dollar.

June witnessed the S&P 500 Index reach a new all-time high. 2021 economic growth and inflation forecasts were revised higher to reflect a strong economic recovery and some supply and demand imbalances. Late June saw a deal reached on a U.S. infrastructure package of approximately \$1 trillion for road, bridge, and broadband network upgrades over the next eight years. The Fed's June meeting yielded no change to policy, but its projections pointed to a possible interest rate rise in 2023. This, combined with a rebound in economic activity and investors searching for yield, led to U.S. Treasury yields being down for the month. Many European and Asian countries saw vaccination momentum increase, while the U.K. dealt with a rise in COVID-19 infections, specifically the Delta variant. Meanwhile, crude oil jumped over 10% in June on the back of the pickup in global economic activity and the Organization of the Petroleum Exporting Countries' slow pace of supply growth.

Don't let short-term uncertainty derail long-term investment goals.

Periods of investment uncertainty can present challenges, but experience has taught us that maintaining long-term investment goals can be an effective way to plan for the future. Although diversification cannot guarantee an investment profit or prevent losses, we believe it can be an effective way to manage investment risk and potentially smooth out overall portfolio performance. We encourage investors to know their investments and to understand that appropriate levels of risk-taking may unlock opportunities.

Thank you for choosing to invest with Wells Fargo Funds. We appreciate your confidence in us and remain committed to helping you meet your financial needs.

Sincerely,

Andrew Owen
President
Wells Fargo Funds

“*The passage of the massive domestic stimulus bill highlighted March activity, leading to increased forecasts for U.S. growth in 2021.*”

“*2021 economic growth and inflation forecasts were revised higher to reflect a strong economic recovery and some supply and demand imbalances.*”

Investment objective The Fund seeks long-term capital appreciation.

Manager Wells Fargo Funds Management, LLC

Subadviser Wells Capital Management, LLC

Portfolio managers Kurt Gunderson*, Christopher G. Miller, CFA®‡

Average annual total returns (%) as of June 30, 2021

	Inception date	1 year	5 year	10 year	Expense ratios ¹ (%)	
					Gross	Net ²
Class 1 ³	8-26-2011	45.82	17.58	12.79	0.86	0.75
Class 2	5-8-1992	45.43	17.29	12.51	1.11	1.00
Russell 3000® Index ⁴	–	44.16	17.89	14.70	–	–

¹ Reflects the expense ratios as stated in the most recent prospectuses. The expense ratios shown are subject to change and may differ from the annualized expense ratios shown in the financial highlights of this report.

² The manager has contractually committed through April 30, 2022, to waive fees and/or reimburse expenses to the extent necessary to cap total annual fund operating expenses after fee waivers at 0.75% for Class 1 shares and 1.00% for Class 2 shares. Brokerage commissions, stamp duty fees, interest, taxes, acquired fund fees and expenses (if any), and extraordinary expenses are excluded from the expense caps. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. Without these caps, the Fund's returns would have been lower. The expense ratio paid by an investor is the net expense ratio (the total annual fund operating expenses after fee waivers) as stated in the prospectuses.

³ Historical performance shown for Class 1 shares prior to their inception reflects the performance of the Class 2 shares, and includes the higher expenses applicable to the Class 2 shares. If these expenses had not been included, returns for the Class 1 shares would be higher.

⁴ The Russell 3000® Index measures the performance of the 3,000 largest U.S. companies based on total market capitalization, which represents approximately 98% of the investable U.S. equity market. You cannot invest directly in an index.

Figures quoted represent past performance, which is no guarantee of future results. Investment return and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted and assumes the reinvestment of dividends and capital gains. Current month-end performance is available by calling 1-800-260-5969. Performance figures of the Fund do not reflect fees and expenses charged pursuant to the terms of variable life insurance policies and variable annuity contracts. If these fees and expenses had been reflected, performance would have been lower.

Please keep in mind that high double-digit returns were primarily achieved during favorable market conditions. You should not expect that such favorable returns can be consistently achieved. A fund's performance, especially for short time periods, should not be the sole factor in making your investment decision.

Index returns do not include transaction costs associated with buying and selling securities, any mutual fund fees or expenses, or any taxes. It is not possible to invest directly in an index.

Shares are sold without a front-end sales charge or contingent deferred sales charge.

Stock values fluctuate in response to the activities of individual companies and general market and economic conditions. Smaller company stocks tend to be more volatile and less liquid than those of larger companies. Certain investment strategies tend to increase the total risk of an investment (relative to the broader market). This fund is exposed to foreign investment risk. Consult the Fund's prospectus for additional information on these and other risks.

Please refer to the prospectus provided by your participating insurance company for detailed information describing the separate accounts for information regarding surrender charges, mortality and expense risk fees, and other charges that may be assessed by the participating insurance companies.

¹ Figures represent the percentage of the Fund's net assets. Holdings are subject to change and may have changed since the date specified.

¹ Figures represent the percentage of the Fund's long-term investments. These amounts are subject to change and may have changed since the date specified.

As a shareholder of the Fund, you incur ongoing costs, including management fees, distribution (12b-1) fees, and other Fund expenses. This example is intended to help you understand your ongoing costs (in dollars) of investing in the Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The example is based on an investment of \$1,000 invested at the beginning of the six-month period and held for the entire period from January 1, 2021 to June 30, 2021.

Actual expenses

The “Actual” line of the table below provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the “Actual” line under the heading entitled “Expenses paid during period” for your applicable class of shares to estimate the expenses you paid on your account during this period.

Hypothetical example for comparison purposes

The “Hypothetical” line of the table below provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any separate account charges assessed by participating insurance companies. Therefore, the “Hypothetical” line of the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these separate account charges assessed by participating insurance companies were included, your costs would have been higher.

	Beginning account value 1-1-2021	Ending account value 6-30-2021	Expenses paid during the period ¹	Annualized net expense ratio
Class 1				
Actual	\$1,000.00	\$1,143.49	\$3.99	0.75%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,021.08	\$3.76	0.75%
Class 2				
Actual	\$1,000.00	\$1,142.42	\$5.31	1.00%
Hypothetical (5% return before expenses)	\$1,000.00	\$1,019.84	\$5.01	1.00%

¹ Expenses paid is equal to the annualized net expense ratio of each class multiplied by the average account value over the period, multiplied by the number of days in the most recent fiscal half-year divided by the number of days in the fiscal year (to reflect the one-half-year period).

The accompanying notes are an integral part of these financial statements.

1. ORGANIZATION

Wells Fargo Variable Trust (the "Trust"), a Delaware statutory trust organized on March 10, 1999, is an open-end management investment company registered under the Investment Company Act of 1940, as amended (the "1940 Act"). As an investment company, the Trust follows the accounting and reporting guidance in Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946, *Financial Services – Investment Companies*. These financial statements report on the Wells Fargo VT Opportunity Fund (the "Fund") which is a diversified series of the Trust. The Trust offers shares of the Fund to separate accounts of various life insurance companies as funding vehicles for certain variable annuity contracts and variable life insurance policies.

On February 23, 2021, Wells Fargo & Company announced that it has entered into a definitive agreement to sell Wells Fargo Asset Management ("WFAM") to GTCR LLC and Reverence Capital Partners, L.P. WFAM is the trade name used by the asset management businesses of Wells Fargo & Company and includes Wells Fargo Funds Management, LLC, the investment manager to the Fund, Wells Capital Management, LLC and Wells Fargo Asset Management (International) Limited, both registered investment advisers providing sub-advisory services to certain funds, and Wells Fargo Funds Distributor, LLC, the Fund's principal underwriter. As part of the transaction, Wells Fargo & Company will own a 9.9% equity interest and will continue to serve as an important client and distribution partner.

Consummation of the transaction will result in the automatic termination of the Fund's investment management agreement and subadvisory agreement. The Fund's Board of Trustees approved a new investment management and new subadvisory agreement and approved submitting the agreements to the Fund's shareholders for approval at a special meeting of shareholders expected to be held on August 16, 2021. Shareholders of record of the Fund at the close of business on May 28, 2021 are entitled to vote at the meeting. If shareholders approve the new agreements, they would take effect upon the closing of the transaction. The transaction is expected to close in the second half of 2021, subject to customary closing conditions.

2. SIGNIFICANT ACCOUNTING POLICIES

The following significant accounting policies, which are consistently followed in the preparation of the financial statements of the Fund, are in conformity with U.S. generally accepted accounting principles which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of income and expenses during the reporting period. Actual results could differ from those estimates.

Securities valuation

All investments are valued each business day as of the close of regular trading on the New York Stock Exchange (generally 4 p.m. Eastern Time), although the Fund may deviate from this calculation time under unusual or unexpected circumstances.

Equity securities that are listed on a foreign or domestic exchange or market are valued at the official closing price or, if none, the last sales price. If no sale occurs on the principal exchange or market that day, a fair value price will be determined in accordance with the Fund's Valuation Procedures.

The values of securities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Wells Fargo Asset Management Pricing Committee at Wells Fargo Funds Management, LLC ("Funds Management").

Many securities markets and exchanges outside the U.S. close prior to the close of the New York Stock Exchange and therefore may not fully reflect trading or events that occur after the close of the principal exchange in which the foreign securities are traded, but before the close of the New York Stock Exchange. If such trading or events are expected to materially affect the value of such securities, then fair value pricing procedures approved by the Board of Trustees of the Fund are applied. These procedures take into account multiple factors including movements in U.S. securities markets after foreign exchanges close. Foreign securities that are fair valued under these procedures are categorized as Level 2 and the application of these procedures may result in transfers between Level 1 and Level 2. Depending on market activity, such fair valuations may be frequent. Such fair value pricing may result in net asset values that are higher or lower than net asset values based on the last reported sales price or latest quoted bid price. On June 30, 2021, such fair value pricing was not used in pricing foreign securities.

Investments in registered open-end investment companies are valued at net asset value.

Investments which are not valued using any of the methods discussed above are valued at their fair value, as determined in good faith by the Board of Trustees. The Board of Trustees has established a Valuation Committee comprised of the Trustees

and has delegated to it the authority to take any actions regarding the valuation of portfolio securities that the Valuation Committee deems necessary or appropriate, including determining the fair value of portfolio securities, unless the determination has been delegated to the Wells Fargo Asset Management Pricing Committee. The Board of Trustees retains the authority to make or ratify any valuation decisions or approve any changes to the Valuation Procedures as it deems appropriate. On a quarterly basis, the Board of Trustees receives reports on any valuation actions taken by the Valuation Committee or the Wells Fargo Asset Management Pricing Committee which may include items for ratification.

Foreign currency translation

The accounting records of the Fund are maintained in U.S. dollars. The values of other assets and liabilities denominated in foreign currencies are translated into U.S. dollars at rates provided by an independent foreign currency pricing source at a time each business day specified by the Wells Fargo Asset Management Pricing Committee. Purchases and sales of securities, and income and expenses are converted at the rate of exchange on the respective dates of such transactions. Net realized foreign exchange gains or losses arise from sales of foreign currencies, currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually paid or received. Net unrealized foreign exchange gains and losses arise from changes in the fair value of assets and liabilities other than investments in securities resulting from changes in exchange rates. The changes in net assets arising from changes in exchange rates of securities and the changes in net assets resulting from changes in market prices of securities are not separately presented. Such changes are included in net realized and unrealized gains or losses from investments.

Security transactions and income recognition

Securities transactions are recorded on a trade date basis. Realized gains or losses are recorded on the basis of identified cost.

Dividend income is recognized on the ex-dividend date, except for certain dividends from foreign securities, which are recorded as soon as the custodian verifies the ex-dividend date. Dividend income is recorded net of foreign taxes withheld where recovery of such taxes is not assured.

Distributions to shareholders

Distributions to shareholders from net investment income and any net realized gains are recorded on the ex-dividend date and paid at least annually. Such distributions are determined in accordance with income tax regulations and may differ from U.S. generally accepted accounting principles. Dividend sources are estimated at the time of declaration. The tax character of distributions is determined as of the Fund's fiscal year end. Therefore, a portion of the Fund's distributions made prior to the Fund's fiscal year end may be categorized as a tax return of capital at year end.

Federal and other taxes

The Fund intends to continue to qualify as a regulated investment company by distributing substantially all of its investment company taxable income and any net realized capital gains (after reduction for capital loss carryforwards) sufficient to relieve it from all, or substantially all, federal income taxes. Accordingly, no provision for federal income taxes was required.

The Fund's income and federal excise tax returns and all financial records supporting those returns for the prior three fiscal years are subject to examination by the federal and Delaware revenue authorities. Management has analyzed the Fund's tax positions taken on federal, state, and foreign tax returns for all open tax years and does not believe that there are any uncertain tax positions that require recognition of a tax liability.

As of June 30, 2021, the aggregate cost of all investments for federal income tax purposes was \$125,098,058 and the unrealized gains (losses) consisted of:

Gross unrealized gains	\$88,705,038
Gross unrealized losses	0
Net unrealized gains	\$88,705,038

Class allocations

The separate classes of shares offered by the Fund differ principally in distribution fees. Class specific expenses are charged directly to that share class. Investment income, common fund-level expenses, and realized and unrealized gains (losses) on investments are allocated daily to each class of shares based on the relative proportion of net assets of each class.

3. FAIR VALUATION MEASUREMENTS

Fair value measurements of investments are determined within a framework that has established a fair value hierarchy based upon the various data inputs utilized in determining the value of the Fund's investments. The three-level hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The Fund's investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The inputs are summarized into three broad levels as follows:

- Level 1 – quoted prices in active markets for identical securities
- Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)
- Level 3 – significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments)

The inputs or methodologies used for valuing investments in securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used in valuing the Fund's assets and liabilities as of June 30, 2021:

	Quoted prices (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Total
Assets				
Investments in:				
Common stocks				
<i>Communication services</i>	\$ 23,092,874	\$0	\$0	\$ 23,092,874
<i>Consumer discretionary</i>	24,307,133	0	0	24,307,133
<i>Consumer staples</i>	5,244,120	0	0	5,244,120
<i>Financials</i>	15,863,769	0	0	15,863,769
<i>Health care</i>	29,355,059	0	0	29,355,059
<i>Industrials</i>	36,816,483	0	0	36,816,483
<i>Information technology</i>	54,967,584	0	0	54,967,584
<i>Materials</i>	5,242,213	0	0	5,242,213
<i>Real estate</i>	15,699,132	0	0	15,699,132
Short-term investments				
<i>Investment companies</i>	3,214,729	0	0	3,214,729
Total assets	\$213,803,096	\$0	\$0	\$213,803,096

Additional sector, industry or geographic detail, if any, is included in the Portfolio of Investments.

For the six months ended June 30, 2021, the Fund did not have any transfers into/out of Level 3.

4. TRANSACTIONS WITH AFFILIATES

Management fee

Funds Management, an indirect wholly owned subsidiary of Wells Fargo & Company ("Wells Fargo"), is the manager of the Fund and provides advisory and fund-level administrative services under an investment management agreement. Under the investment management agreement, Funds Management is responsible for, among other services, implementing the investment objectives and strategies of the Fund, supervising the subadviser and providing fund-level administrative services in connection with the Fund's operations. As compensation for its services under the investment management agreement, Funds Management is entitled to receive a management fee at the following annual rate based on the Fund's average daily net assets:

Average daily net assets	Management fee
First \$500 million	0.700%
Next \$500 million	0.675
Next \$1 billion	0.650
Next \$2 billion	0.625
Next \$1 billion	0.600
Next \$5 billion	0.590
Over \$10 billion	0.580

For the six months ended June 30, 2021, the management fee was equivalent to an annual rate of 0.70% of the Fund's average daily net assets.

Funds Management has retained the services of a subadviser to provide daily portfolio management to the Fund. The fee for subadvisory services is borne by Funds Management. Wells Capital Management, LLC, an affiliate of Funds Management and an indirect wholly owned subsidiary of Wells Fargo, is the subadviser to the Fund and is entitled to receive a fee from Funds Management at an annual rate starting at 0.45% and declining to 0.30% as the average daily net assets of the Fund increase.

Administration fees

Under a class-level administration agreement, Funds Management provides class-level administrative services to the Fund, which includes paying fees and expenses for services provided by the transfer agent, sub-transfer agents, omnibus account services and record-keepers. As compensation for its services under the class-level administration agreement, Funds Management receives an annual fee of 0.08% which is calculated based on the average daily net assets of each class.

Waivers and/or expense reimbursements

Funds Management has contractually committed to waive and/or reimburse management and administration fees to the extent necessary to maintain certain net operating expense ratios for the Fund. When each class of the Fund has exceeded its expense cap, Funds Management will waive fees and/or reimbursed expenses from fund-level expenses on a proportionate basis and then from class specific expenses. When only certain classes exceed their expense caps, waivers and/or reimbursements are applied against class specific expenses before fund-level expenses. Funds Management has contractually committed through April 30, 2022 to waive fees and/or reimburse expenses to the extent necessary to cap expenses. Prior to or after the commitment expiration date, the caps may be increased or the commitment to maintain the caps may be terminated only with the approval of the Board of Trustees. The contractual expense caps are as follows:

	Expense ratio caps
Class 1	0.75%
Class 2	1.00

Distribution fee

The Trust has adopted a distribution plan for Class 2 shares of the Fund pursuant to Rule 12b-1 under the 1940 Act. A distribution fee is charged to Class 2 shares and paid to Wells Fargo Funds Distributor, LLC, the principal underwriter, at an annual rate of 0.25% of the average daily net assets of Class 2 shares.

Interfund transactions

The Fund may purchase or sell portfolio investment securities to certain other Wells Fargo affiliates pursuant to Rule 17a-7 under the 1940 Act and under procedures adopted by the Board of Trustees. The procedures have been designed to ensure that these interfund transactions, which do not incur broker commissions, are effected at current market prices.

5. INVESTMENT PORTFOLIO TRANSACTIONS

Purchases and sales of investments, excluding U.S. government obligations (if any) and short-term securities, for the six months ended June 30, 2021 were \$30,086,634 and \$43,978,950, respectively.

6. BANK BORROWINGS

The Trust, Wells Fargo Master Trust and Wells Fargo Funds Trust (excluding the money market funds) are parties to a \$350,000,000 revolving credit agreement whereby the Fund is permitted to use bank borrowings for temporary or emergency

purposes, such as to fund shareholder redemption requests. Interest under the credit agreement is charged to the Fund based on a borrowing rate equal to the higher of the Federal Funds rate in effect on that day plus 1.25% or the overnight bank funding rate in effect on that day plus 1.25%. In addition, an annual commitment fee equal to 0.25% of the unused balance is allocated to each participating fund.

For the six months ended June 30, 2021, there were no borrowings by the Fund under the agreement.

7. CONCENTRATION RISKS

As of the end of the period, the Fund concentrated its portfolio of investments in the information technology sector. A fund that invests a substantial portion of its assets in any sector may be more affected by changes in that sector than would be a fund whose investments are not heavily weighted in any sector.

8. INDEMNIFICATION

Under the Fund's organizational documents, the officers and Trustees have been granted certain indemnification rights against certain liabilities that may arise out of performance of their duties to the Fund. The Fund has entered into a separate agreement with each Trustee that converts indemnification rights currently existing under the Fund's organizational documents into contractual rights that cannot be changed in the future without the consent of the Trustee. Additionally, in the normal course of business, the Fund may enter into contracts with service providers that contain a variety of indemnification clauses. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated.

9. CORONAVIRUS (COVID-19) PANDEMIC

On March 11, 2020, the World Health Organization announced that it had made the assessment that coronavirus disease 2019 ("COVID-19") is a pandemic. The impacts of COVID-19 are affecting the entire global economy, individual companies and investment products, the funds, and the market in general. There is significant uncertainty around the extent and duration of business disruptions related to COVID-19 and the impacts may last for an extended period of time. COVID-19 has led to significant uncertainty and volatility in the financial markets.

10. SUBSEQUENT EVENTS

Wells Fargo Asset Management ("WFAM") announced that it will be changing its company name to Allspring Global Investments upon the closing of the previously announced sale transaction of WFAM by Wells Fargo & Company to GTCR LLC and Reverence Capital Partners, L.P. The new corporate name is expected to go into effect on the closing date of the transaction, which is anticipated to occur in the second half of 2021, subject to customary closing conditions.

At a meeting held July 15, 2021, the Board of Trustees of the Wells Fargo Funds approved a change in the Fund's name to remove "Wells Fargo" from the Fund's name and replace with "Allspring". The change is expected to go into effect on October 11, 2021.

Following the closing of the transaction, Wells Fargo Funds Management, LLC, the Fund's investment manager, Wells Capital Management, LLC and Wells Fargo Asset Management (International) Limited, each subadvisers to certain funds, and Wells Fargo Funds Distributor, LLC, the Fund's principal underwriter, will each be rebranded as Allspring.

At a special meeting of shareholders held on August 16, 2021, shareholders of the Fund approved a new investment management and a new subadvisory agreement that will be effective at the closing of the sale transaction.

PROXY VOTING INFORMATION

A description of the policies and procedures used to determine how to vote proxies relating to portfolio securities is available without charge, upon request, by calling **1-800-260-5969**, visiting our website at **wfam.com**, or visiting the SEC website at **sec.gov**. Information regarding how the proxies related to portfolio securities were voted during the most recent 12-month period ended June 30 is available on the website at **wfam.com** or by visiting the SEC website at **sec.gov**.

QUARTERLY PORTFOLIO HOLDINGS INFORMATION

The Fund files its complete schedule of portfolio holdings with the SEC for the first and third quarters of each fiscal year as an exhibit to its reports on Form N-PORT. Shareholders may view the filed Form N-PORT by visiting the SEC website at **sec.gov**.

BOARD OF TRUSTEES AND OFFICERS

Each of the Trustees and Officers listed in the table below acts in identical capacities for each fund in the Wells Fargo family of funds, which consists of 139 mutual funds comprising the Wells Fargo Funds Trust, Wells Fargo Variable Trust, Wells Fargo Master Trust and four closed-end funds (collectively the “Fund Complex”). This table should be read in conjunction with the Prospectus and the Statement of Additional Information¹. The mailing address of each Trustee and Officer is 525 Market Street, 12th Floor, San Francisco, CA 94105. Each Trustee and Officer serves an indefinite term, however, each Trustee serves such term until reaching the mandatory retirement age established by the Trustees.

Independent Trustees

BOARD CONSIDERATION OF INVESTMENT MANAGEMENT AND SUB-ADVISORY AGREEMENTS:

Board Considerations – Current Agreements

Under the Investment Company Act of 1940 (the “1940 Act”), the Board of Trustees (the “Board”) of Wells Fargo Variable Trust (the “Trust”) must determine annually whether to approve the continuation of the Trust’s investment management and sub-advisory agreements. In this regard, at a Board meeting held on May 17-19, 2021 (the “Meeting”), the Board, all the members of which have no direct or indirect interest in the investment management and sub-advisory agreements and are not “interested persons” of the Trust, as defined in the 1940 Act (the “Independent Trustees”), reviewed and approved for Wells Fargo VT Opportunity Fund (the “Fund”): (i) an investment management agreement (the “Management Agreement”) with Wells Fargo Funds Management, LLC (“Funds Management”); and (ii) an investment sub-advisory agreement (the “Sub-Advisory Agreement”) with Wells Capital Management Incorporated (the “Sub-Adviser”), an affiliate of Funds Management. The Management Agreement and the Sub-Advisory Agreement are collectively referred to as the “Advisory Agreements.”

The Board noted that Wells Fargo & Company recently announced that it had entered into a definitive agreement to sell Wells Fargo Asset Management (“WFAM”), which includes Funds Management and the Sub-Adviser, to GTCR LLC and Reverence Capital Partners, L.P. and/or their affiliates (the “Transaction”). The Board further noted that the Transaction would result in a change-of-control of Funds Management and the Sub-Adviser, which would be considered to be an assignment that would result in the termination of the Advisory Agreements. In light of the Transaction, the Board separately considered for approval a new investment management agreement with Funds Management and a new sub-advisory agreement with the Sub-Adviser (the “New Agreements”) that would replace the Advisory Agreements upon consummation of the Transaction, subject to approval of the New Agreements by the Fund’s shareholders. The Board also considered for approval interim agreements to go into effect in the event shareholders do not approve the New Agreements before the Transaction is completed. The interim agreements would allow the Manager and the Sub-Adviser to continue providing services to the Fund while the Fund continues to seek shareholder approval of the New Agreements. The Board noted that the terms of the interim agreements would be identical to those of the current Advisory Agreements, except for the term and certain escrow provisions.

At the Meeting, the Board considered the factors and reached the conclusions described below relating to the selection of Funds Management and the Sub-Adviser and the approval of the Advisory Agreements. Prior to the Meeting, including at Board meetings held in April and May 2021, the Trustees conferred extensively among themselves and with representatives of Funds Management about these matters. Also, the Board has adopted a team-based approach, with each team consisting of a sub-set of Trustees, to assist the full Board in the discharge of its duties in reviewing investment performance and other matters throughout the year. The Independent Trustees were assisted in their evaluation of the Advisory Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately.

In providing information to the Board, Funds Management and the Sub-Adviser were guided by a detailed set of requests for information submitted to them by independent legal counsel on behalf of the Independent Trustees at the start of the Board’s annual contract renewal process earlier in 2021. In considering and approving the Advisory Agreements, the Trustees considered the information they believed relevant, including but not limited to the information discussed below. The Board considered not only the specific information presented in connection with the Meeting, but also the knowledge gained over time through interaction with Funds Management and the Sub-Adviser about various topics. In this regard, the Board reviewed reports of Funds Management at each of its quarterly meetings, which included, among other things, portfolio reviews and investment performance reports. In addition, the Board and the teams mentioned above confer with portfolio managers at various times throughout the year. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors.

After its deliberations, the Board unanimously determined that the compensation payable to Funds Management and the Sub-Adviser under each of the Advisory Agreements was reasonable, and approved the continuation of the Advisory Agreements for a one-year term. The Board considered the approval of the Advisory Agreements for the Fund as part of its consideration of agreements for funds across the complex, but its approvals were made on a fund-by-fund basis. The following summarizes a number of important, but not necessarily all, factors considered by the Board in support of its approvals.

Nature, extent and quality of services

The Board received and considered various information regarding the nature, extent and quality of services provided to the Fund by Funds Management and the Sub-Adviser under the Advisory Agreements. This information included a description of the investment advisory services and Fund-level administrative services covered by the Management Agreement, as well as, among other things, a summary of the background and experience of senior management of WFAM, of which Funds Management and the Sub-Adviser are a part, and a summary of investments made in the business of WFAM. The Board also received a description of

Funds Management's and the Sub-Adviser's business continuity plans, including a summary of the performance of such plans and any changes thereto during the COVID-19 pandemic, and of their approaches to data privacy and cybersecurity. The Board also received and reviewed information about Funds Management's role as administrator of the Fund's liquidity risk management program, Funds Management's approach to risk management, and Funds Management's intermediary and vendor oversight program.

The Board also considered the qualifications, background, tenure and responsibilities of each of the portfolio managers primarily responsible for the day-to-day portfolio management of the Fund. The Board evaluated the ability of Funds Management and the Sub-Adviser to attract and retain qualified investment professionals, including research, advisory and supervisory personnel.

The Board further considered the compliance programs and compliance records of Funds Management and the Sub-Adviser. In addition, the Board took into account the full range of services provided to the Fund by Funds Management and its affiliates. The Board also considered information about retention and back-up arrangements that have been put into place with respect to key personnel of WFAM in connection with the anticipated Transaction, noting that WFAM provided assurances that the announcement and eventual culmination of the Transaction is not expected to result in any diminution in the nature or quality of services provided to the Fund.

Fund investment performance and expenses

The Board considered the investment performance results for the Fund over various time periods ended December 31, 2020. The Board considered these results in comparison to the investment performance of funds in a universe that was determined by Broadridge Inc. ("Broadridge") to be similar to the Fund (the "Universe"), and in comparison to the Fund's benchmark index and to other comparative data. Broadridge is an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds in the performance Universe. The Board noted that the investment performance of the Fund was higher than or in range of the average investment performance of the Universe for all periods under review. The Board also noted that the investment performance of the Fund was lower than its benchmark index, the Russell 3000® Index, for all periods under review except the one-year period, which was higher than its benchmark index.

The Board also received and considered information regarding the Fund's net operating expense ratios and their various components, including actual management fees, custodian and other non-management fees, and Rule 12b-1 and non-Rule 12b-1 shareholder service fees. The Board considered these ratios in comparison to the median ratios of funds in class-specific expense groups that were determined by Broadridge to be similar to the Fund (the "Groups"). The Board received a description of the methodology used by Broadridge to select the mutual funds in the expense Groups and an explanation of how funds comprising expense groups and their expense ratios may vary from year-to-year. Based on the Broadridge reports, the Board noted that the net operating expense ratios of the Fund were in range of the median net operating expense ratios of the expense Groups for each share class.

The Board took into account the Fund's investment performance and expense information provided to it among the factors considered in deciding to re-approve the Advisory Agreements.

Investment management and sub-advisory fee rates

The Board reviewed and considered the contractual fee rates payable by the Fund to Funds Management under the Management Agreement, as well as the contractual fee rates payable by the Fund to Funds Management for class-level administrative services under a Class-Level Administration Agreement, which include, among other things, class-level transfer agency and sub-transfer agency costs (collectively, the "Management Rates"). The Board also reviewed and considered the contractual investment sub-advisory fee rates that are payable by Funds Management to the Sub-Adviser for investment sub-advisory services.

Among other information reviewed by the Board was a comparison of the Fund's Management Rates with the average contractual investment management fee rates of funds in the expense Groups at a common asset level as well as transfer agency costs of the funds in the expense Groups. The Board noted that the Management Rates of the Fund were higher than or in range of the sum of these average rates for the Fund's expense Groups, although the Board noted that the net operating expense ratios of the Fund were in range of the median net operating expense ratios of the expense Groups for each share class.

The Board also received and considered information about the portion of the total management fee that was retained by Funds Management after payment of the fee to the Sub-Adviser for sub-advisory services. In assessing the reasonableness of this amount, the Board received and evaluated information about the nature and extent of responsibilities retained and risks assumed by Funds Management and not delegated to or assumed by the Sub-Adviser, and about Funds Management's on-going oversight services. Given the affiliation between Funds Management and the Sub-Adviser, the Board ascribed limited relevance to the allocation of fees between them.

The Board also received and considered information about the nature and extent of services offered and fee rates charged by Funds Management and the Sub-Adviser to other types of clients with investment strategies similar to those of the Fund. In this regard, the Board received information about the significantly greater scope of services, and compliance, reporting and other legal burdens and risks of managing proprietary mutual funds compared with those associated with managing assets of other types of clients, including third-party sub-advised fund clients and non-mutual fund clients such as institutional separate accounts.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the compensation payable to Funds Management under the Management Agreement and to the Sub-Adviser under the Sub-Advisory Agreement was reasonable.

Profitability

The Board received and considered information concerning the profitability of Funds Management, as well as the profitability of both WFAM and Wells Fargo & Co. (“Wells Fargo”) from providing services to the fund family as a whole. The Board noted that the Sub-Adviser’s profitability information with respect to providing services to the Fund and other funds in the family was subsumed in the WFAM and Wells Fargo profitability analysis.

Funds Management reported on the methodologies and estimates used in calculating profitability, including a description of the methodology used to allocate certain expenses. Among other things, the Board noted that the levels of profitability reported on a fund-by-fund basis varied widely, depending on factors such as the size, type and age of fund.

Based on its review, the Board did not deem the profits reported by Funds Management, WFAM or Wells Fargo from services provided to the Fund to be at a level that would prevent it from approving the continuation of the Advisory Agreements.

Economies of scale

The Board received and considered information about the potential for Funds Management to experience economies of scale in the provision of management services to the Fund, the difficulties of calculating economies of scale at an individual fund level, and the extent to which potential scale benefits are shared with Fund shareholders. The Board noted the existence of breakpoints in the Fund’s management fee structure, which operate generally to reduce the Fund’s expense ratios as the Fund grows in size, and the size of the Fund in relation to such breakpoints. The Board considered that in addition to management fee breakpoints, Funds Management shares potential economies of scale from its management business in a variety of ways, including through fee waiver and expense reimbursement arrangements, competitive management fee rates set at the outset without regard to breakpoints, and investments in the business intended to enhance services available to shareholders.

The Board concluded that Funds Management’s arrangements with respect to the Fund, including contractual breakpoints, constituted a reasonable approach to sharing potential economies of scale with the Fund and its shareholders.

Other benefits to Funds Management and the Sub-Adviser

The Board received and considered information regarding potential “fall-out” or ancillary benefits received by Funds Management and its affiliates, including the Sub-Adviser, as a result of their relationships with the Fund. Ancillary benefits could include, among others, benefits directly attributable to other relationships with the Fund and benefits potentially derived from an increase in Funds Management’s and the Sub-Adviser’s business as a result of their relationships with the Fund. The Board noted that various affiliates of Funds Management may receive distribution-related fees, shareholder servicing payments and sub-transfer agency fees in respect of shares sold or held through them and services provided.

The Board also reviewed information about soft dollar credits earned and utilized by the Sub-Adviser, fees earned by Funds Management and the Sub-Adviser from managing a private investment vehicle for the fund family’s securities lending collateral and commissions earned by an affiliated broker from portfolio transactions.

Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits received by Funds Management and its affiliates, including the Sub-Adviser, were unreasonable.

Conclusion

At the Meeting, after considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously determined that the compensation payable to Funds Management and the Sub-Adviser under each of the Advisory Agreements was reasonable, and approved the continuation of the Advisory Agreements for a one-year term.

Board Considerations – New Agreements

Overview of the Board evaluation process

At a meeting held on May 17-19, 2021 (the “Board Meeting”), the Board of Trustees (the “Board”) of Wells Fargo Variable Trust (the “Trust”, and the series thereof, the “Funds”) approved the continuation of each Fund’s current Investment Management Agreement (the “Current Investment Management Agreement”) and the current Wells Cap Sub-Advisory Agreement (the “Current Wells Cap Sub-Advisory Agreement”, and collectively, the “Current Agreements”). Each Trustee on the Board is not an “interested person” (as defined in the Investment Company Act of 1940 (the “1940 Act”)) of the Funds (collectively, the “Independent Trustees”). The process followed by the Board in considering and approving the continuation of the Current Agreements is referred to herein as the “2021 Annual Approval Process.”

As noted above, the closing of the sale of Wells Fargo Asset Management (“WFAM”) to a holding company (“NewCo”) affiliated with private funds of GTCR LLC (“GTCR”) and of Reverence Capital Partners, L.P. (“Reverence Capital”, and such transaction, the “Transaction”) will result in a change of control of Wells Fargo Funds Management LLC (“Funds Management”) and Wells Capital Management Incorporated (“Wells Capital” or the “Sub-Adviser”, and together with Funds Management, the “Advisers”), which will be considered to be an “assignment” of each Fund’s Current Agreements under the 1940 Act that will result in the automatic termination of each Fund’s Current Agreements. In light of the expected termination of each Fund’s Current Agreements upon the closing, at the Board Meeting the Board also considered and approved: (i) a new Investment Management Agreement between the Trust, on behalf of each Fund, and Funds Management (the “New Investment Management Agreement”); and (ii) a new Sub-Advisory Agreement among the Trust, on behalf of each Fund, Funds Management and Wells Capital (the “New Sub-Advisory Agreement”, and collectively, the “New Agreements”), each of which is intended to go into effect upon the closing. The process followed by the Board in reviewing and approving the New Agreements is referred to herein as the “New Agreement Approval Process.”

At a series of meetings held in April and May 2021 (collectively, “April and May 2021 Meetings”) and at the Board Meeting, the Trustees conferred extensively among themselves and with senior representatives of Funds Management, GTCR and Reverence Capital about the New Agreements and related matters. The Board reviewed and discussed information furnished by Funds Management, GTCR and Reverence Capital that the Board considered reasonably necessary to evaluate the terms of the New Agreements and the services to be provided. At these meetings, senior representatives from Funds Management, GTCR and Reverence Capital made presentations to, and responded to questions from, the Board.

In providing information to the Board in connection with the 2021 annual approval process for the Current Agreements (the “2021 Annual Approval Process”) and the New Agreement Approval Process, Funds Management, GTCR and Reverence Capital (as applicable) were guided by requests for information submitted by independent legal counsel on behalf of the Independent Trustees. In considering and approving the New Agreements, the Trustees considered the information they believed relevant, including but not limited to the information discussed herein. The Board considered not only the specific information presented in connection with the April and May 2021 Meetings as well as the Board Meeting, but also the knowledge gained over time through interaction with Funds Management and the Sub-Adviser about various topics. In this regard, the Board reviews reports of Funds Management at each of its regular Board meetings, which includes, among other things, portfolio reviews and investment performance reports. In addition, the Board confers with portfolio managers at various times throughout the year. The Board was assisted in its evaluation of the New Agreements by independent legal counsel, from whom the Independent Trustees received separate legal advice and with whom the Independent Trustees met separately. The Board did not identify any particular information or consideration that was all-important or controlling, and each individual Trustee may have attributed different weights to various factors.

Among other information considered by the Board in connection with the Transaction was:

- *Information regarding the Transaction:* information about the structure, financing sources and material terms and conditions of the Transaction, including the expected impact on the businesses conducted by the Advisers and by Wells Fargo Funds Distributor LLC, as the distributor of Fund shares.
- *Information regarding NewCo, GTCR and Reverence Capital:* (i) information about NewCo, including information about its expected financial condition and access to capital, and senior leadership team; (ii) the experience of senior management at GTCR and Reverence Capital in acquiring portfolio companies; (iii) the plan to operationalize NewCo, including the transition of necessary infrastructure services through a transition services agreement with Wells Fargo under which Wells Fargo will continue to provide NewCo with certain services for a specified period of time after the closing; and (iv) information regarding regulatory matters, compliance, and risk management functions at NewCo, including resources to be dedicated thereto.

- *Impact of the Transaction on WFAM and Service Providers:* (i) information regarding any changes to personnel and/or other resources of the Advisers as a result of the Transaction, including assurances regarding comparable and competitive compensation arrangements to attract and retain highly qualified personnel; and (ii) information about the organizational and operating structure with respect to NewCo, the Advisers and the Funds.
- *Impact of the Transaction on the Funds and their Shareholders:* (i) information regarding anticipated benefits to the Funds as a result of the Transaction; (ii) a commitment that the Funds would not bear any expenses, directly or indirectly, in connection with the Transaction; (iii) confirmation that the Advisers intend to continue to manage the Funds in a manner consistent with each Fund's current investment objectives and principal investments strategies; and (iv) a commitment that neither NewCo nor WFAM will take any steps that would impose any "unfair burden" (as that term is used in section 15(f)(1)(B) of the 1940 Act) on the Funds as a result of the Transaction.

With respect to the New Agreements, the Board considered: (i) a representation that, after the closing, all of the Funds will continue to be managed and advised by their current Advisers, and that the same portfolio managers of the Sub-Adviser are expected to continue to manage the Funds after the Transaction; (ii) information regarding the terms of the New Agreements, including changes as compared to the Current Agreements; (iii) information confirming that the fee rates payable under the New Agreements will not increase as a result of the Transaction as compared to the rates under the Current Agreements; and (iv) assurances that the Transaction is not expected to cause any diminution with respect to the nature, extent and quality of any of the services currently provided to the Funds by the Advisers as a result of the Transaction.

In addition to considering information furnished specifically to evaluate the impact of the Transaction on the Funds and their respective shareholders in connection with the New Agreement Approval Process, the Board considered information furnished at prior meetings of the Board and its committees, including detailed information provided in connection with the 2021 Annual Approval Process. In this regard, in connection with the 2021 Annual Approval Process, the Board received information about complex-wide and individual Fund performance, fees and expenses, including: (i) a report from an independent data provider comparing the investment performance of each Fund to the investment performance of comparable funds and benchmark indices, over various time periods; (ii) a report from an independent data provider comparing each Fund's total expense ratio (and its components) to those of comparable funds; (iii) comparative information concerning the fees charged and services provided by the Advisers to each Fund in managing other accounts (which may include other mutual funds, collective investment funds and institutional accounts), if any, that employ investment strategies and techniques similar to those used in managing such Fund(s); and (iv) profitability analyses of Funds Management, as well as the profitability of both WFAM and Wells Fargo from providing services to the fund family as a whole.

After its deliberations, the Board unanimously determined that the compensation payable to Funds Management and the Sub-Adviser under the New Agreements is reasonable, approved the New Agreements for a two-year term, and voted to recommend that Fund shareholders approve the New Agreements. The Board considered the approval of the New Agreements as part of its consideration of agreements for funds across the complex, but its approvals were made on a fund-by-fund basis. The following summarizes a number of important, but not necessarily all, factors considered by the Board in support of its approvals.

Nature, extent and quality of services

In connection with the 2021 Annual Approval Process, the Board received and considered various information regarding the nature, extent and quality of services provided to each Fund by Funds Management and the Sub-Adviser under the Current Agreements. This information included a description of the investment advisory services and Fund-level administrative services covered by the Current Management Agreement, as well as, among other things, a summary of the background and experience of senior management of WFAM, of which Funds Management and the Sub-Adviser are a part, and a summary of investments made in the business of WFAM. The Board also received a description of Funds Management's and the Sub-Adviser's business continuity plans, including a summary of the performance of such plans and any changes thereto during the COVID-19 pandemic, and of their approaches to data privacy and cybersecurity. The Board also received and reviewed information about Funds Management's role as administrator of the Funds' liquidity risk management program, Funds Management's approach to risk management, and Funds Management's intermediary and vendor oversight program.

In connection with the 2021 Annual Approval Process, the Board also considered the qualifications, background, tenure and responsibilities of each of the portfolio managers primarily responsible for the day-to-day portfolio management of the Funds. The Board evaluated the ability of Funds Management and the Sub-Adviser to attract and retain qualified investment professionals, including research, advisory and supervisory personnel.

In connection with the 2021 Annual Approval Process, the Board further considered the compliance programs and compliance records of Funds Management and the Sub-Adviser. In addition, the Board took into account the full range of services provided to the Funds by Funds Management and its affiliates.

In connection with the New Agreement Approval Process, the Board considered, among other information, the structure of the Transaction and expected impact, if any, of the Transaction on the operations, facilities, organization and personnel of the Advisers. The Board received assurances from Funds Management that each Fund will continue to be advised by its current Sub-Adviser after the closing, and that the same individual portfolio managers are expected to continue to manage the Funds after the closing. With respect to the recruitment and retention of key personnel, the Board noted information from GTCR, Reverence Capital and the Advisers regarding the potential benefits for employees of joining NewCo. The Board recognized that the personnel who had been extended offers may not accept such offers, and personnel changes may occur in the future in the ordinary course.

In addition, the Board considered information regarding the infrastructure, operational capabilities and support staff in place to assist in the portfolio management and operations of the Funds, including the provision of administrative services, and the anticipated impact of the Transaction on such matters. The Board also considered the business-related and other risks to which the Advisers may be subject in managing the Funds and in connection with the Transaction. The Board also considered the transition and integration plans as a result of the change in ownership of the Advisers from Wells Fargo to NewCo. The Board considered the resources and infrastructure that NewCo intends to devote to its compliance program to ensure compliance with applicable laws and regulations, as well as its risk management program and cybersecurity program. The Board also took into account assurances received from the Advisers, GTCR and Reverence Capital that the Transaction is not expected to cause any diminution in the nature, extent and quality of services provided by the Advisers to the Funds and their shareholders.

Fund investment performance and expenses

In connection with the 2021 Annual Approval Process, the Board considered the investment performance results for each Fund over various time periods ended December 31, 2020. The Board considered these results in comparison to the investment performance of funds in a universe that was determined by Broadridge Inc. (“Broadridge”) to be similar to each Fund (the “Universe”), and in comparison to each Fund’s benchmark index and to other comparative data. Broadridge is an independent provider of investment company data. The Board received a description of the methodology used by Broadridge to select the mutual funds in the performance Universe. Where applicable, the Board received information concerning, and discussed factors contributing to, underperformance of Funds relative to the Universe and benchmark for any underperformance periods.

In connection with the 2021 Annual Approval Process, the Board also received and considered information regarding each Fund’s net operating expense ratios and their various components, including actual management fees, custodian and other non-management fees, and Rule 12b-1 and non-Rule 12b-1 shareholder service fees. The Board considered these ratios in comparison to the median ratios of funds in class-specific expense groups that were determined by Broadridge to be similar to the Fund (the “Groups”). The Board received a description of the methodology used by Broadridge to select the mutual funds in the expense Groups and an explanation of how funds comprising expense groups and their expense ratios may vary from year-to-year.

In connection with the New Agreement Approval Process, the Board received a commitment that WFAM will maintain fee and expense commitments for at least two years after the closing. The Board took into account each Fund’s investment performance and expense information among the factors considered in deciding to approve the New Agreements.

Investment management and sub-advisory fee rates

In connection with the 2021 Annual Approval Process, the Board reviewed and considered the contractual fee rates payable by each Fund to Funds Management under the Current Management Agreement, as well as the contractual fee rates payable by each Fund to Funds Management for class-level administrative services under a Class-Level Administration Agreement, which include, among other things, class-level transfer agency and sub-transfer agency costs (collectively, the “Management Rates”). The Board also reviewed and considered the contractual investment sub-advisory fee rates that are payable by Funds Management to the Sub-Adviser under the Current Sub-Advisory Agreements for investment sub-advisory services (the “Sub-Advisory Fee Rates”).

Among other information reviewed by the Board in connection with the 2021 Annual Approval Process, was a comparison of each Fund’s Management Rates with the average contractual investment management fee rates of funds in the expense Groups at a common asset level as well as transfer agency costs of the funds in the expense Groups.

In connection with the 2021 Annual Approval Process, the Board also received and considered information about the portion of the total management fee that was retained by Funds Management after payment of the Sub-Advisory Fee Rates. In assessing the reasonableness of this amount, the Board received and evaluated information about the nature and extent of responsibilities retained and risks assumed by Funds Management and not delegated to or assumed by the Sub-Adviser, and about Funds Management’s on-going oversight services. Given the affiliation between Funds Management and the Sub-Adviser, the Board ascribed limited relevance to the allocation of fees between them.

In connection with the 2021 Annual Approval Process, the Board also received and considered information about the nature and extent of services offered and fee rates charged by Funds Management and the Sub-Adviser to other types of clients, if any, with investment strategies similar to those of each Fund. In this regard, the Board received information about the significantly greater scope of services, and compliance, reporting and other legal burdens and risks of managing proprietary mutual funds compared with those associated with managing assets of other types of clients, including third-party sub-advised fund clients and non-mutual fund clients such as institutional separate accounts.

In connection with the New Agreement Approval Process, the Board noted the assurances received by it that there would be no increases to any of the Management Rates or the Sub-Advisory Fee Rates as a result of the Transaction. The Board also considered that the New Agreements do not change the computation method for calculating such fees, and there is no present intention to reduce expense waiver and reimbursement arrangements that are currently in effect. Based on its consideration of the factors and information it deemed relevant, including those described here, the Board determined that the compensation payable to Funds Management under the New Management Agreement and to the Sub-Adviser under the New Sub-Advisory Agreement was reasonable.

Profitability

In connection with the 2021 Annual Approval Process, the Board received and considered information concerning the profitability of Funds Management, as well as the profitability of both WFAM and Wells Fargo from providing services to the fund family as a whole. The Board noted that the Sub-Adviser's profitability information with respect to providing services to each Fund and other funds in the family was subsumed in the WFAM and Wells Fargo profitability analysis.

Funds Management reported on the methodologies and estimates used in calculating profitability in connection with the 2021 Annual Approval Process, including a description of the methodology used to allocate certain expenses. Among other things, the Board noted that the levels of profitability reported on a fund-by-fund basis varied widely, depending on factors such as the size, type and age of fund.

In connection with the New Agreement Approval Process, the Board received certain information about NewCo's projected financial condition, and reviewed with senior representatives of Funds Management, GTCR and Reverence Capital the underlying assumptions on which such information was based. The Board considered that NewCo is a newly formed entity, with no historical operations, revenues or expenses, and that it is difficult to predict with any degree of certainty the future profitability of NewCo and the Advisers from advisory activities under the New Agreements. The Board considered that the fee rates payable under the New Agreements will not increase as a result of the Transaction as compared to the rates under the Current Agreements, and that the current contractual expense limitations applicable to each Fund will not increase. The Board noted that if the New Agreements are approved by shareholders and the Transaction closes, the Board will have the opportunity in the future to review the profitability of NewCo and the Advisers from advisory activities under the New Agreements.

Economies of scale

In connection with the 2021 Annual Approval Process, the Board received and considered information about the potential for Funds Management to experience economies of scale in the provision of management services to the Funds, the difficulties of calculating economies of scale at an individual fund level, and the extent to which potential scale benefits are shared with Fund shareholders. The Board noted the existence of breakpoints in each Fund's management fee structure, which operate generally to reduce the Fund's expense ratios as the Fund grows in size, and the size of the Fund in relation to such breakpoints. The Board considered that, in addition to management fee breakpoints, Funds Management shares potential economies of scale from its management business in a variety of ways, including through fee waiver and expense reimbursement arrangements, competitive management fee rates set at the outset without regard to breakpoints, and investments in the business intended to enhance services available to shareholders.

In connection with the New Agreement Approval Process, the Board noted that NewCo and the Advisers may benefit from possible growth of the Funds resulting from enhanced distribution capabilities. However, the Board noted that other factors could also affect the potential for economies of scale, and that it was not possible to quantify any potential future economies of scale. Based upon the information furnished to the Board in connection with the 2021 Annual Approval Process and the New Agreement Approval Process, the Board concluded that Funds Management's arrangements with respect to each Fund, including contractual breakpoints and expense limitation arrangements, constitute a reasonable approach to sharing potential economies of scale with the Fund and its shareholders.

"Fall-out" benefits to Funds Management and the Sub-Adviser

In connection with the 2021 Annual Approval Process, the Board received and considered information regarding potential "fall-out" or ancillary benefits received by Funds Management and its affiliates, including the Sub-Adviser, as a result of their relationships with the Funds. Ancillary benefits could include, among others, benefits directly attributable to other relationships

with the Funds and benefits potentially derived from an increase in Funds Management's and the Sub-Adviser's business as a result of their relationships with the Funds. The Board noted that various current affiliates of Funds Management may receive distribution-related fees, shareholder servicing payments and sub-transfer agency fees in respect of shares sold or held through them and services provided.

In connection with the 2021 Annual Approval Process, the Board also reviewed information about soft dollar credits earned and utilized by the Sub-Adviser, fees earned by Funds Management and the Sub-Adviser from managing a private investment vehicle for the fund family's securities lending collateral, and commissions earned by an affiliated broker of Wells Fargo from portfolio transactions.

In connection with the New Agreement Approval Process, the Board received information to the effect that the Transaction is not expected to have a material impact on the fall-out benefits currently realized by Funds Management and its affiliates, including the Sub-Adviser. The information reviewed by the Board also noted that several of the ancillary benefits identified for WFAM would be potential ancillary benefits for NewCo, including that the scale and reputation of the Funds might benefit NewCo's broader reputation, product initiatives, technology investment and talent acquisition. Based on its consideration of the factors and information it deemed relevant, including those described here, the Board did not find that any ancillary benefits expected to be received by Funds Management and its affiliates, including NewCo and the Sub-Adviser, under the New Agreements were unreasonable.

Conclusion

At the Board Meeting, after considering the above-described factors and based on its deliberations and its evaluation of the information described above, the Board unanimously determined that the compensation payable to Funds Management and the Sub-Adviser under the New Agreements is reasonable, approved the New Agreements for a two-year term, and voted to recommend that Fund shareholders approve the New Agreements.

Board Considerations - Interim Agreements

At a meeting held on May 17-19, 2021 (the “Board Meeting”), the Boards of Trustees (each, a “Board”, and collectively, the “Boards”) of Wells Fargo Funds Trust, Wells Fargo Master Trust, Wells Fargo Variable Trust, Wells Fargo Global Dividend Opportunity Fund, Wells Fargo Income Opportunities Fund, Wells Fargo Multi-Sector Income Fund and Wells Fargo Utilities and High Income Fund (each a “Trust”, and the series thereof, a “Fund”) reviewed and approved for the Trusts and Funds, as applicable: (i) interim investment management agreements (the “Interim Management Agreements”) with Wells Fargo Funds Management, LLC (“Funds Management”); (ii) interim investment advisory agreements (the “Interim Advisory Agreements”) with Funds Management; and (iii) interim sub-advisory agreements (the “Interim Sub-Advisory Agreements”) with each of Cooke & Bieler, L.P., Galliard Capital Management, LLC (“Galliard”), Peregrine Capital Management Inc., Wells Capital Management, LLC (“WellsCap”), and Wells Fargo Asset Management (International) Limited (“WFAMI”, and collectively, the “Sub-Advisers”). Each Trustee on the Board is not an “interested person” (as defined in the Investment Company Act of 1940 (the “1940 Act”) of the Funds (collectively, the “Independent Trustees”). The Interim Management Agreements, Interim Advisory Agreements, and Interim Sub-Advisory Agreements are collectively referred to as the “Interim Advisory Agreements.”

At the Board Meeting, the Boards reviewed and approved the continuation of existing investment management, advisory and sub-advisory agreements (the “Current Advisory Agreements”) for each Trust and Fund, as applicable. The factors considered and conclusions reached by the Boards in approving the Current Advisory Agreements are summarized in the section entitled “Board Considerations – Current Agreements” of this shareholder report. The Boards noted that Wells Fargo & Company has entered into a definitive agreement to sell Wells Fargo Asset Management (“WFAM”), which includes Funds Management, Galliard, WellsCap and WFAMI (the “Affiliated Sub-Advisers”), to a holding company affiliated with private funds of GTCR LLC and Reverence Capital Partners, L.P. (the “Transaction”). The Boards further noted that the Transaction would result in a change-of-control of Funds Management and the Affiliated Sub-Advisers, which would be considered to be an “assignment” under the 1940 Act that would terminate the Current Advisory Agreements. At the Board Meeting, the Boards also reviewed and approved new investment management, advisory and sub-advisory agreements (the “New Advisory Agreements”) for each Trust and Fund, as applicable, that would replace the Current Advisory Agreements upon consummation of the Transaction, subject to approval of the New Advisory Agreements by the applicable Trust’s or Fund’s shareholders. The factors considered and conclusions reached by the Boards in approving the New Advisory Agreements are summarized in the section entitled “Board Considerations – New Agreements” of this shareholder report.

At the Board Meeting, the Boards also approved the Interim Advisory Agreements, which will go into effect for a Trust or Fund only in the event that shareholders of such Trust or Fund do not approve the New Advisory Agreement(s) for the Trust or Fund by the closing date of the Transaction, when the Current Advisory Agreements will terminate. The Board noted that, in such a circumstance, the Interim Advisory Agreements will permit continuity of management by allowing Funds Management and the Sub-Advisers to continue providing services to the Trust or Fund pursuant to the Interim Advisory Agreements while the Trust or Fund continues to solicit shareholder approval of such New Advisory Agreement(s). The Boards noted that the terms of the Interim Advisory Agreements are identical to those of the Current Advisory Agreements, except for the term and the addition of escrow provisions with respect to the advisory fees. The Boards also noted that the entities that would service the Funds and Trusts under the Interim Advisory Agreements are identical to those that provide services under the Current Advisory Agreements and those that will provide services under the New Advisory Agreements.

In approving the Interim Advisory Agreements, the Boards considered the same factors and reached the same conclusions as they considered and reached with respect to the Boards’ approvals of the Current Advisory Agreements and New Advisory Agreements, as applicable, which are described in separate Board Consideration sections within this shareholder report. Prior to the Board Meeting, including at a series of meetings held in April and May 2021, the Trustees conferred extensively among themselves and with senior representatives of Funds Management, GTCR LLC and Reverence Capital Partners, L.P. about the Interim Advisory Agreements and related matters. The Independent Trustees were assisted in their evaluation of the Interim Advisory Agreements by independent legal counsel, from whom they received separate legal advice and with whom they met separately.

At the Board Meeting, after considering the factors and reaching the conclusions described in the separate Board Consideration sections within this shareholder report, the Boards unanimously determined that the compensation payable to Funds Management and to each Sub-Adviser under each of the Interim Advisory Agreements was reasonable, and approved the Interim Advisory Agreements.
